### Important information about Syndicate Reports and Accounts

Access to this document is restricted to persons who have given the certification set forth below. If this document has been forwarded to you and you have not been asked to give the certification, please be aware that you are only permitted to access it if you are able to give the certification.

The syndicate reports and accounts set forth in this section of the Lloyd's website, which have been filed with Lloyd's in accordance with the Syndicate Accounting Byelaw (No. 8 of 2005), are being provided for informational purposes only. The syndicate reports and accounts have not been prepared by Lloyd's, and Lloyd's has no responsibility for their accuracy or content. Access to the syndicate reports and accounts is not being provided for the purposes of soliciting membership in Lloyd's or membership on any syndicate of Lloyd's, and no offer to join Lloyd's or any syndicate is being made hereby. Members of Lloyd's are reminded that past performance of a syndicate in any syndicate year is not predictive of the related syndicate's performance in any subsequent syndicate year.

You acknowledge and agree to the foregoing as a condition of your accessing the syndicate reports and accounts. You also agree that you will not provide any person with a copy of any syndicate report and accounts without also providing them with a copy of this acknowledgment and agreement, by which they will also be bound.

The directors of Canopius Managing Agents Limited ('CMA'), the managing agent for Syndicate 1206, present the annual report and audited financial statements for the Syndicate for the year ended 31 December 2019.

These financial statements have been prepared in compliance with United Kingdom Accounting Standards, including Financial Reporting Standard 102, "The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland" ("FRS102"), Financial Reporting Standard 103, "Insurance Contracts" and the Companies Act 2006. Furthermore, these financial statements comply with the Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 ("the 2008 Regulations").

### **Review of the business**

Syndicate 1206's principal activity continued to be the transaction of general insurance and reinsurance business as the Syndicate runs-off its business. This follows the previous Managing Agent's decision to consolidate all of its non-life underwriting activities into Syndicate 1861, another Syndicate now managed by CMA and previously managed by AmTrust Syndicates Limited ('ASL'), for the 2018 year of account onwards.

### Significant events

With effect from 1 October 2019, as part of Canopius' acquisition of AmTrust's non-life Lloyd's operations, the managing agency of the Syndicate was novated from ASL to CMA. At the same time, the Syndicate's sole capital provider Flectat 2 Ltd (formerly AmTrust Corporate Member Limited) was acquired by the Canopius Group. During the third quarter, and in preparation for this transaction, the retained loss of £48.4m on the 2017 year of account at 31 December 2018 was called.

The Syndicate has been operating under a run-off closure plan since 1 January 2018 following ASL's decision to concentrate its non-life underwriting in Syndicate 1861 for the 2018 year of account onwards. At 31 December 2018 the 2016 & Prior years of account of the Syndicate closed by way of an external reinsurance to close transaction with Syndicate 2008, a syndicate managed by Starstone Underwriting Limited. This left the 2017 year of account as the sole remaining business of the Syndicate.

At 31 December 2019, in line with the run-off closure plan, the 2017 year of account of the Syndicate closed by way of a reinsurance to close transaction into the 2018 year of account of Syndicate 1861 thus concluding the business of Syndicate 1206.

### Key performance indicators ('KPIs')

The CMA Board monitors the progress of the syndicate by reference to the following KPIs:

	2019	2018
	£m	£m
Gross premiums written	-1.4	52.7
Earned premiums, net of reinsurance	12.5	103.5
Investment return	2.4	1.6
Loss for the year	-0.8	-15.3
Gross claims ratio <sup>1</sup>	53.4%	60.3%
Net claims ratio <sup>2</sup>	57.7%	66.6%
Expense ratios <sup>3</sup>		
- Acquisition ratio	28.8%	37.6%
- Administrative Expense ratio	41.3%	8.3%
Combined operating ratio <sup>4</sup>	127.8%	112.5%
Investment return, on average invested balances <sup>5</sup>	2.2%	0.8%

<sup>&</sup>lt;sup>1</sup>The gross claims ratio is the ratio of gross claims incurred to gross premiums earned gross of reinsurance and acquisition costs <sup>2</sup>The net claims ratio is the ratio of net claims incurred to premiums earned net of reinsurance and gross of acquisition costs

### **Results and performance**

The results of the syndicate for the year are set out on pages 11 and 12. In 2019, Syndicate 1206 recorded a loss of £0.8m (2018: £15.3m Loss) with a combined ratio of 128% (2018: 113%). The main drivers of the Syndicate's performance were:

- Underwriting performance improved versus the prior year the net earned claims ratio was 57.7% (2018: 66.6%) but the operating expense ratio in 2019 increased to 41.3% (2018: 8.3%), reflecting significantly reduced premium and an amount of non-variable cost incurred in running off the business.
- There was a reduction in gross written premiums of £1.4m for the year following a reassessment of the ultimate premiums written.
- Net earned premiums were £12.5m for the year (2018: £103.5m), reflective of the 2017 year of account being in its third year of development, whilst operating expenses were £5.2m (2018: £8.6m).
- Actual vs expected claims development was favourable in the period driven by the Professional Indemnity and Property Binders classes.
- On a gross of reinsurance basis, acquisition costs before allocation of expenses were broadly in line year on year – 27.1% for 2019 compared to 27.4% for 2018.
- The Syndicate benefited from the reversal of previous period mark-to-market losses on its fixed income debt portfolio in generating overall investment income of £2.4m (2018: £1.6m) despite the considerable reduction in investible assets following the reinsurance to close of the 2016 & Prior years of account at 31 December 2018.

<sup>&</sup>lt;sup>3</sup>The expense ratios are the ratios of the acquisition cost and operating expenses to earned premiums net of reinsurance and gross of brokerage and commissions.

gross of brokerage and commissions.

4The combined ratio is the ratio of net claims incurred, acquisition costs and net operating expenses to net premiums earned 5Investment return is calculated as the combined investment income for the period divided by the average of the opening and closing investments, cash and overseas deposit balances.

 The 2017 year of account of Syndicate 1206 closed with a reported loss of £49.1m representing a loss of 18.9% of stamp.

### Strategy

The strategy for the Syndicate has been to manage the run-off of the 2017 year of account in line with the run-off closure plan overseen by Lloyd's Open Year Management. The strategy was successfully implemented during the period culminating in the closure of the Syndicate at 31 December 2019.

### **Future developments**

Following the conclusion of a reinsurance to close arrangement with Syndicate 1861's 2018 year of account at 31 December 2019, the Syndicate's liabilities have been transferred and consequently the Syndicate has ceased to exist. Final loss collections of £0.8m will be called in April 2020.

### Principal risks and uncertainties

Until 1 October 2019 the Syndicate was subject to the risk management framework of ASL. Following novation, the Syndicate operated under CMA's risk management framework.

The process of risk acceptance and risk management is addressed through a framework of policies, procedures and internal controls. Risk management is an on-going process providing for the systematic analysis, handling and reporting of risks and their comparisons with risk appetites, effectiveness of controls, risk events and near misses as well as emerging risks. This process also includes setting and monitoring actions to mitigate risk and to return metrics to within appetite.

All policies are subject to Board approval and ongoing review by management, risk management and internal audit. The Audit Committee is responsible for satisfying itself that an effective internal control framework exists to manage financial risks and that controls operate effectively.

CMA's governance structure ensures a clear definition of responsibility for the management and oversight of the many risks faced by the business. CMA has established an Enterprise Risk Management (ERM) framework that is designed to identify, assess, measure, mitigate, monitor and report all material financial and non-financial risk.

A description of the principal risks and uncertainties facing the Syndicate is set out in Note 5 to the financial statements (management of risk).

### Going concern

Following the closure of the final year of account at 31 December 2019 into Syndicate 1861's 2018 year of account, the Syndicate ceased to exist. Accordingly these accounts have been prepared on a basis other than going concern. This has had no impact on the carrying value of the Syndicate's assets and liabilities.

#### **Directors**

The directors of the managing agents who served from 1 January 2019 to the date of this report are shown on pages 2 & 3. None of the directors had an allocated premium limit on the syndicate, on either an unlimited or limited liability basis, for any year of account.

#### Statement of disclosure of information to auditors

In the case of each of the persons who are directors of the managing agent at the time the report is approved:

- So far as the director is aware, there is no relevant audit information, being information needed by the syndicate's auditor in connection with the auditor's report, of which the auditor is unaware; and
- Having made enquiries of fellow directors of the agency and the syndicate's auditor, each director has taken all the steps that he or she ought to have taken as a director to

become aware of any relevant audit information and to establish that the syndicate's auditor is aware of that information.

### Statement of Managing Agent's Responsibilities

The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 require the directors of the managing agent to prepare syndicate annual accounts each year which give a true and fair view, in accordance with applicable law and United Kingdom Generally Accepted Accounting Practice, of the state of affairs of the syndicate and of the profit or loss of the syndicate for that period. In preparing those financial statements, the managing agent is required to:

- Select suitable accounting policies and then apply them consistently;
- Make judgements and estimates that are reasonable and prudent;
- State whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the syndicate accounts; and
- Prepare the syndicate accounts on the basis that the syndicate will continue to write future business unless it is inappropriate to do so.

The managing agent confirms that it has complied with the above requirements in preparing the syndicate accounts. The directors of the managing agent are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the syndicate and enable it to ensure that the syndicate accounts comply with the 2008 Regulations. The managing agent is also responsible for safeguarding the assets of the syndicate and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

### **Independent Auditors**

During the year the managing agent appointed Ernst & Young LLP as the auditors for the Syndicate.

Following the completion of the reinsurance to close arrangement and closure of the Syndicate, Ernst & Young LLP will resign as the Syndicate's auditor.

By order of the Board of the managing agent.

N S Mever Chief Financial Officer London 5 March 2020

# Independent Auditor's Report to the Member of Syndicate 1206

for the year ended 31 December 2019

### **Opinion**

We have audited the syndicate annual accounts of syndicate 1206 ('the syndicate') for the year ended 31 December 2019 which comprise the Income Statement, the Statement of Changes in Member's Balances, the Statement of Financial Position, the Statement of Cash Flows and the related notes 1 to 29, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards including FRS 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and FRS 103 'Insurance Contracts' (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the syndicate annual accounts:

- give a true and fair view of the syndicate's affairs as at 31 December 2019 and of its loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008.

### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the syndicate annual accounts section of our report below. We are independent of the syndicate in accordance with the ethical requirements that are relevant to our audit of the syndicate annual accounts in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Emphasis of matter – closure of the 2017 year of account

We draw attention to note 1 which explains that the 2017 year of account of syndicate 1206 has closed and all assets and liabilities transferred to the 2018 year of account of Syndicate 1861 through a reinsurance to close arrangement at 31 December 2019. Syndicate 1206 has no successor year of account.

As a result, syndicate 1206 is no longer a going concern. The reinsurance to close occurs in the normal course of business for a syndicate year of account at the 36 months stage of development and the Annual Accounts have been prepared on the basis that the recorded assets and liabilities will be realised and discharged in the normal course of business.

Our opinion is not modified in respect of this matter.

# Independent Auditor's Report to the Member of Syndicate 1206

for the year ended 31 December 2019

#### Other information

The other information comprises the information included in the Annual Report and Accounts, other than the syndicate annual accounts and our auditor's report thereon. The directors of the managing agent are responsible for the other information.

Our opinion on the syndicate annual accounts does not cover the other information and, except to the extent otherwise explicitly stated in this report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the syndicate annual accounts, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the syndicate annual accounts or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the syndicate annual accounts or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

# Opinions on other matters prescribed by The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the managing agent's report for the financial year in which the syndicate annual accounts are prepared is consistent with the syndicate annual accounts; and
- the managing agent's report has been prepared in accordance with applicable legal requirements.

### Matters on which we are required to report by exception

In the light of the knowledge and understanding of the syndicate and its environment obtained in the course of the audit, we have not identified material misstatements in the managing agent's report.

We have nothing to report in respect of the following matters where The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 requires us to report to you, if in our opinion:

- the managing agent in respect of the syndicate has not kept adequate accounting records; or
- the syndicate annual accounts are not in agreement with the accounting records; or
- certain disclosures of the managing agents' emoluments specified by law are not made;
   or
- we have not received all the information and explanations we require for our audit.

# Independent Auditor's Report to the Member of Syndicate 1206

for the year ended 31 December 2019

### Responsibilities of the directors of the managing agent

As explained more fully in the Statement of Managing Agent's Responsibilities set out on page 7, the managing agent is responsible for the preparation of the syndicate annual accounts and for being satisfied that they give a true and fair view, and for such internal control as the managing agent determines is necessary to enable the preparation of syndicate annual accounts that are free from material misstatement, whether due to fraud or error.

In preparing the syndicate annual accounts, the managing agent is responsible for assessing the syndicate's ability to continue in operation, disclosing as applicable, matters related to its ability to continue in operation and using the going concern basis of accounting unless the managing agent either intends to cease to operate the syndicate, or has no realistic alternative but to do so.

### Auditor's responsibilities for the audit of the syndicate annual accounts

Our objectives are to obtain reasonable assurance about whether the syndicate annual accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these syndicate annual accounts.

A further description of our responsibilities for the audit of financial statements is located on the Financial Reporting Council's website at https://www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

### Use of our report

This report is made solely to the syndicate's members, as a body, in accordance with The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008. Our audit work has been undertaken so that we might state to the syndicate's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the syndicate and the syndicate's members as a body, for our audit work, for this report, or for the opinions we have formed.

Michael Purrington (Senior statutory auditor)

for and on behalf of Ernst & Young LLP, Statutory Auditor

London

#### 1. Statement of compliance & basis of preparation

These financial statements have been prepared in compliance with United Kingdom Accounting Standards, including Financial Reporting Standard 102, "The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland" ("FRS102"), Financial Reporting Standard 103, "Insurance Contracts" and in accordance with the provisions of Schedule 3 of the Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations relating to insurance companies. Furthermore, these financial statements comply with the Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 ("the 2008 Regulations").

The financial statements are prepared under the historical cost convention except for certain financial instruments which are measured at fair value.

The financial statements are presented in Pounds Sterling (GBP), which is the Syndicate's functional currency. All amounts have been rounded to the nearest thousand, unless otherwise indicated.

Following the conclusion of a reinsurance to close arrangement with Syndicate 1861, another syndicate managed by CMA, effective 31 December 2019, Syndicate 1206 ceased to exist. Accordingly these accounts have been prepared on a basis other than going concern. This has had no impact on the carrying value of the Syndicate's assets and liabilities.

As permitted by FRS 103 the Syndicate continues to apply the existing accounting policies that were applied prior to this standard for its insurance contracts.

Following the novation of the management of the Syndicate from ASL to CMA during the year, the financial statements have been prepared on a basis consistent with CMA's other managed syndicates. As a result certain disclosures differ in their basis of preparation from those presented in the prior year financial statements and consequently the prior year comparatives have been re-presented. All such applicable notes are denoted by '\*'. There have been no restatements.

### 2. Member's balances and Funds at Lloyd's ("FAL")

The member's balances on the balance sheet shows a deficit of £0.8m (2018: deficit £99.1m). The ability of the syndicate to meet its obligations as they fall due is underpinned by the member's Funds at Lloyd's and the support provided by the Lloyd's chain of security for any members who are unable to meet their underwriting liabilities. FAL is further explained in Note 29.

### 3. Summary of significant accounting policies

### a. Insurance contracts

Insurance contracts (including inwards reinsurance contracts) are defined as those that transfer significant insurance risk. Insurance risk is considered significant if, and only if, an insured event could cause an insurer to pay significant additional benefits above the premiums received and interest earned thereon, excluding scenarios that lack commercial substance. Such contracts remain insurance contracts until all rights and obligations are extinguished or expire.

Contracts that do not transfer significant insurance risk are accounted for as financial transactions. The Syndicate adopts an annual basis of accounting for insurance contracts whereby the incurred cost of claims, commissions and related expenses are charged against the earned proportion of premiums, net of reinsurance.

Gross premiums written, stated gross of acquisition costs and exclusive of premium taxes, relate to business incepted during the year and adjustments to premiums booked in prior years and includes estimates, based on underwriting estimates or past experience, of premiums due but not yet receivable or notified to the syndicate by intermediaries. Additional or return premiums are treated as a re-measurement of the initial premium.

for the year ended 31 December 2019

#### 3. Summary of significant accounting policies (continued)

### a. Insurance contracts (continued)

Unearned premiums represent the proportion of premiums written that relate to unexpired terms of policies in force at the balance sheet date, calculated by reference to the expected incidence of risk over the period of cover.

Written outwards reinsurance premiums comprise the total premiums payable for contracts entered into during the period and are recognised on the date on which the policy incepts. Premiums include any adjustments arising in the accounting period in respect of reinsurance contracts incepting in prior accounting periods.

Under some policies, reinsurance premiums payable are adjusted retrospectively in the light of claims experience. Where written premiums are subject to a re-measurement retrospectively they are recognised as soon as there is an obligation to the reinsurer.

Outwards reinsurance premiums are accounted for and earned in the same accounting period as the premiums for the related direct or inwards business being reinsured within the parameters of the reinsurance contract terms.

The provision for reinsurers' share of unearned premiums represents that part of reinsurance premiums written which is estimated to be earned in the following financial years.

There are a number of different types of business written by the syndicate, including property, liability and marine business, broadly categorised as either "short tail" or "long tail" business. The syndicate also writes reinsurance business. The characteristics of this business mirror those of the underlying business ceded to the syndicate.

The accounting policies for insurance claims and claims settlement expenses are considered in Note 4 (Critical accounting judgements and estimation uncertainty).

#### Short Tail Business

For "short tail" business there is typically no significant delay between the occurrence of the claim and the claim being reported. The costs of claims notified at the balance sheet date are estimated on a case-by-case basis to reflect the individual circumstances of each claim. The ultimate expected cost of claims, including provisions for claims incurred but not reported ("IBNR"), is projected from this data by reference to statistics, which show how estimates of claims incurred in previous periods have developed over time.

### Longer tail business

For longer tail business there is typically a delay between the occurrence of a claim and the claim being reported. Consequently a larger element of the claims provision relates to IBNR claims. Claims estimates for business in this category are derived from a combination of loss ratio based estimates and estimates based upon actual claims experience, using a predetermined formula whereby greater weight is given to actual claims experience as time passes. The initial estimates of the claims provisions are based on the experience of previous years and benchmarks adjusted for factors such as premium rate changes and claims inflation. For liability claims, the assessment of claims is particularly sensitive to the level of court awards and to the development of legal precedent on matters of contract and tort. The liability classes of business are also subject to the emergence of new types of latent claims.

### b. Unexpired risk reserves

At each balance sheet date tests are performed to ensure the adequacy of the unearned premium reserve, net of associated deferred acquisition costs, to cover future claims liabilities. In performing these tests, estimates of future premiums and claims cash flows, claims handling expenses and investment income from the assets backing such liabilities are considered and compared to the balances in the unearned premium reserve and deferred acquisition costs. Provision is made for any deficiencies by establishing an unexpired risk reserve.

Unexpired risk surpluses and deficits are offset where business classes are managed together and a provision is made if an aggregate deficit arises. Unexpired risk reserves, where relevant, are included within "claims outstanding" in the balance sheet. At 31 December 2019 the Syndicate did not have an unexpired risks provision (31 December 2018: £Nil).

for the year ended 31 December 2019

### 3. Summary of significant accounting policies (continued)

### c. Deferred acquisition costs

Acquisition costs comprise costs arising from the inception of insurance contracts. They include both direct costs, such as intermediary commissions and indirect costs, such as the administrative expenses associated with the issuing of policies.

Deferred acquisition costs represent the proportion of commission and other acquisition costs relating to policies in force at the period-end, that cover subsequent reporting periods. These are amortised over the period in which the related premiums are earned.

### d. Reinsurance to close ("RITC")

Each syndicate's underwriting year of account is normally closed after the end of the third year by means of reinsurance into the following underwriting year of account, which reinsures all liabilities for the closed year in return for a premium determined by the syndicate's managing agent.

Third party RITCs, either inwards or outwards, are not reported as income but recognised as a transfer of assets and liabilities.

#### e. Outwards reinsurance contracts

Outwards reinsurance contracts are contracts entered into by the syndicate with reinsurers whereby the syndicate may recover a proportion of losses on contracts written by the syndicate. Contracts that do not transfer significant insurance risk are accounted for as financial transactions.

The benefits to which the syndicate is entitled under its outwards reinsurance contracts are recognised as reinsurance assets. These assets consist of short term balances due from reinsurers as well as longer term receivables that are dependent on the expected claims and benefits arising under the related insurance contracts. These balances are based on calculated amounts of outstanding claims and projections for IBNR, having regard to the reinsurance programme in place for the class of business and the claims experience for the period, net of estimated irrecoverable amounts after assessing the current security rating of the reinsurer involved. Reinsurance liabilities are primarily premiums payable for reinsurance contracts.

The syndicate assesses its reinsurance assets for impairment. If there is evidence of impairment, then the carrying amount is reduced to its recoverable amount and the impairment loss is recognised in the profit and loss account.

#### f. Receivables and payables related to insurance contracts

Receivables and payables include amounts due to and from agents, brokers and insurance contract holders. If there is evidence that the insurance receivable is impaired, the syndicate reduces the carrying amount of the insurance receivable accordingly and recognises that impairment loss in the profit and loss account.

#### g. Financial assets

The syndicate states financial assets at fair value.

The syndicate classifies its financial assets into the following categories: financial assets at fair value through profit and loss, and loans and receivables. The syndicate does not invest in derivative financial instruments and there are no assets classified as available for sale.

The classification depends on the purpose for which the investments were acquired. Management determines the classification of its investments at initial recognition.

Financial assets and liabilities are offset and the net amount reported in the balance sheet only when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the asset and settle the liability simultaneously.

for the year ended 31 December 2019

### 3. Summary of significant accounting policies (continued)

g. Financial assets (continued)

(i) Financial assets at fair value through profit and loss

The syndicate classifies its investments at fair value through profit and loss.

Purchases and sales of investments are accounted for at their fair values (normally their cost of acquisition or proceeds of disposal) on the trade date, which is the date the syndicate commits to purchase or sell the assets.

The fair value of quoted investments is based on quoted bid prices. Realised and unrealised gains and losses arising from the changes in fair values are included in investment return in the profit and loss account in the period in which they arise. Unquoted investments are initially carried at cost as the best estimate of fair value, which is adjusted using appropriate valuation techniques and having regard to subsequent events or changes in circumstances.

Realised gains and losses on investments carried at market value are calculated as the difference between sale proceeds and purchase price. Unrealised gains and losses on investments represent the difference between the valuation at the balance sheet date and their valuation at the previous balance sheet date, or purchase price, if acquired during the year, together with the reversal of unrealised gains and losses recognised in earlier accounting periods in respect of investment disposals in the current period.

Investment return is initially recorded in the non-technical account. A transfer is made from the non-technical account to the general business technical account. Investment return has been wholly allocated to the technical account as all investments relate to the technical account.

#### (ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market, are not intended to be sold in the short term and do not fall into the other categories of financial assets as described above. Loans and receivables are measured at fair value. Appropriate allowances for estimated irrecoverable amounts are recognised in the profit and loss account when there is objective evidence that the syndicate will not be able to collect all amounts due according to their original terms. These are reversed if the payment is received. Receivables arising from insurance contracts are classified in this category and are reviewed for impairment as part of the impairment review of loans and receivables.

### (iii) Cash and cash equivalents

Cash and cash equivalents includes cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities.

Lloyd's overseas deposits are not included within the balance of cash at bank and in hand on the Balance Sheet. These are recognised separately in their own category within other assets.

#### h. Foreign currencies

In accordance with FRS102, the functional currency is the currency of the primary economic environment in which the syndicate operates. The functional currency for Syndicate 1206 is Sterling The statutory report and accounts are also presented in Sterling. FRS 102 requires all foreign currency transactions to be translated into the functional currency at the transactional rate of exchange. Transactions in US dollars, Canadian dollars, Euros, Australian dollars and Japanese Yen, the syndicate's non-functional settlement currencies, are translated to Sterling at the average rates of exchange for the period. Underwriting transactions denominated in other foreign currencies are included at the rate of exchange ruling at the date the transaction is processed.

At the period end, the monetary foreign currency items are translated to Sterling at the closing rate with any difference being recorded in the non-technical account. For the purposes of applying the requirements of Section 30 Foreign Currency Translation of FRS 102, all assets and liabilities arising from insurance contracts are treated as monetary items.

for the year ended 31 December 2019

#### 3. Summary of significant accounting policies (continued)

#### i. Taxation

Under Schedule 19 of the Finance Act 1993 managing agents are not required to deduct basic rate income tax from trading income. In addition, all UK basic rate income tax deducted from syndicate investment income is recoverable by managing agents and consequently the distribution made to members is gross of tax. Capital appreciation falls within trading income and is also distributed gross of tax.

No provision has been made for any United States federal income tax payable on underwriting results or investment earnings. Any payments on account made by the syndicate during the year have been included in the balance sheet under the heading "other debtors".

No provision has been made for any other overseas tax payable by members on underwriting results.

#### 4. Critical accounting judgements and estimation uncertainty

#### Insurance claims and claims settlement expenses

Insurance claims and claims settlement expenses comprise claims and related expenses paid in the year and changes in the provisions for outstanding claims, including provisions for IBNR and related expenses, together with any other adjustments to claims from prior years.

Provision is made at the period-end for the estimated cost of claims incurred but not settled at the balance sheet date, including the cost of claims incurred but not yet reported to the syndicate. The estimated cost of claims includes expenses to be incurred in settling claims and a deduction for the expected value of salvage and other recoveries. There is inherent uncertainty in establishing claims provisions and it is likely that the final outcome will prove to be different from the original estimate of the liability. Adjustments to the amounts of claims provisions established in prior years are included in the financial statements in the period in which the adjustments are made. The claims provisions are reviewed regularly.

Estimating claims IBNR is inherently more uncertain than the cost of claims notified, for which more information about the claim event is generally available.

Classes of business where the IBNR proportion of the total claims provisions is high will typically display greater variations between initial estimates and final outcomes because of the greater degree of difficulty of estimating these reserves. Classes of business where claims are typically reported relatively quickly after the claim event tend to display lower levels of volatility in the claims provisions.

Where possible the syndicate adopts multiple techniques to estimate the required level of claims provisions. This assists in giving greater understanding of the trends inherent in the data being projected. The projections given by the various methodologies also assist in setting the range of possible outcomes. The most appropriate estimation technique is selected taking into account the characteristics of the business class and the extent of the development of each underwriting year of account.

Allowance is made for changes or uncertainties which may create distortions in the underlying statistics or which might cause the cost of unsettled claims to increase or reduce when compared with the cost of previously settled claims including:

- changes in the business environment or processes which might accelerate or slow down the development and/or recording of paid or incurred claims compared with the statistics from prior periods;
- · changes in the legal environment;
- the effects of inflation;
- · changes in the mix of business;
- the impact of large losses; and
- movements in industry benchmarks.

A component of these estimation techniques is usually the estimation of the cost of notified but not paid claims. In estimating the cost of these the syndicate has regard to the claim

for the year ended 31 December 2019

### 4. Critical accounting judgements and estimation uncertainty (continued)

Insurance claims and claims settlement expenses (continued)

circumstance as reported, any information available from loss adjusters and information on the cost of settling claims with similar characteristics in previous periods.

Large claims and catastrophe events impacting each relevant business class are generally assessed separately, being measured on a case-by-case basis or projected separately in order to allow for the possible distortive effect of the development and incidence of these large claims.

Claims provisions are calculated gross of any reinsurance recoveries. A separate estimate is made of the amounts that will be recoverable from reinsurers. An assessment is also made of the recoverability of reinsurance recoveries having regard to available data on the financial strength of each of the reinsurance companies.

Claims reserved as non-life annuities are discounted for investment earnings that may be expected to arise in the future on funds retained to meet the future liabilities. All other claims provisions are undiscounted.

#### Premium estimates

Gross written premiums include an estimate of the total premiums expected to be received under each insurance and reinsurance contract. Revenue recognised on policies written through contracts with third parties, such as binding authorities and line slips, is calculated based on the estimated underlying inception profile of each contract and, therefore, this premium recognition is judgmental. Further adjustments to estimates from previous years are also included in the reported premiums for the relevant underwriting years.

Reinstatement premiums are estimated in accordance with the contract terms and recorded based upon paid losses and claims reserves.

Premium estimation uses expert judgement, the quality of the estimate being influenced by the nature and maturity of the portfolio, availability of timely data, relevant underwriting input to the estimating process and management review. Gross written premium estimates are reviewed regularly using underwriter estimates and actuarial projections.

### Financial investments

The syndicate uses prices provided by third party suppliers, investment managers and counterparty banks in determining the fair value of financial assets. Depending on the methods and assumptions used, for example, in the fair valuation of Level 2 and Level 3 financial assets, the fair valuation can be subject to estimation uncertainty. These methods and assumptions are described in Note 5 below.

### 5. Management of risk

The syndicate has identified the principal risks and uncertainties arising from its activities and has established policies and procedures to manage these items in accordance with its risk appetite. The sections below explain how the syndicate defines and manages each category of risk

As a consequence of the final year of account of the Syndicate reinsuring to close into another syndicate, the residual risks to the members on the closed year have been minimised. The risk disclosure requirements of section 34 of FRS 102 are included below although the risks have been transferred to the Syndicate accepting the reinsurance to close. It should, however, be noted that a reinsurance contract does not extinguish the primary liability of the original underwriter.

### a. Insurance risk

Insurance risk is defined as the risk of fluctuations in the timing, frequency and severity of insured events and claims settlements, relative to expectations. Syndicate 1206's exposure to insurance risk arises from underwriting/pricing, insurance concentrations, reserving and reinsurance. The Board of CMA seeks to mitigate insurance risk by analysing historical pricing and claims

for the year ended 31 December 2019

#### 5. Management of risk (continued)

### a. Insurance risk (continued)

experience, setting a tolerance to concentration risk, monitoring performance, and conducting in-house actuarial reviews of claims provisions, independent of the underwriting teams.

The syndicate has formal controls in place to ensure that business is underwritten in a controlled environment by reference to both the annual business plan and in line with underwriting policy. Preventative controls include underwriting authority limits which are agreed and signed off by the Active Underwriter, divisional and Group underwriting guidelines and benchmark ratings for all underwriting divisions. Detection controls include exception reports where authority limits are exceeded, expert review procedures, peer reviews and internal audit reviews.

Syndicate 1206 is exposed to potentially significant losses arising from natural catastrophe events such as windstorm, earthquake or flood. CMA quantifies catastrophe risk exposures using proprietary modelling software in conjunction with the principal underwriting systems to assess and model catastrophe exposures. The modelling tools are used in conjunction with CMA's knowledge of the business, historical loss information and geographic accumulations to monitor aggregation and to simulate catastrophe losses. The range of scenarios considered includes natural catastrophe, property, marine, liability and terrorism events.

CMA's capital setting methodology enables modelling to be performed in a sophisticated, but practical, manner particularly in determining the correlations between catastrophe exposed classes of business. Stochastic models use event tables which capture directly the different geographic distributions of risk in the various lines of business.

Effective risk management in non core areas and from non modelled perils is ensured using a suite of exposure accumulation and aggregation monitoring techniques and proprietary deterministic models.

As a guide to the level of concentration of exposure the Syndicate writes, the following table shows the Syndicate's 1:100 probabilistic modelled exposure to its three largest natural catastrophe perils during 2019:

_ Peril	Gross Loss £m	Final Net Loss £m
US Earthquake	6.8	1.7
North Atlantic Hurricane	2.4	0.7
Caribbean Earthquake	1.1	1.1

The managing agent manages insurance risks on behalf of the syndicate, including the following:

- inappropriate underwriting activities and cycle management;
- · inadequate catastrophe exposure management; and
- inadequate or insufficient reinsurance protection.

The underwriters, supported by the actuarial pricing team, use their expertise and experience to determine the likely claims cost and, therefore, the premium that should be sufficient (across a portfolio of risks) to cover claims costs, expenses and to produce an acceptable profit in line with the agreed business plan.

Due to the nature of insurance risk, however, the premium charged may not be sufficient to cover the cost of claims. The shortfall may result from insufficient premium being calculated and charged or from an unexpected or unprecedented high level of claims.

A number of controls are employed to limit insurance exposures. Each year a business plan is prepared and agreed by the Board which sets the premium income targets and exposures to be written in total and for each class of business. Progress against this plan is monitored by the Board during the year.

Insurance liabilities are assumed through individual risk acceptances, reinsurance treaties or binding authorities. Binding authorities delegate underwriting authority to other underwriters, or

for the year ended 31 December 2019

### 5. Management of risk (continued)

### a. Insurance risk (continued)

agents acting as coverholders, who use their judgement to write risks on Syndicate 1206's behalf under clear authority levels. In such situations, the coverholders' activities are closely monitored and reviewed, and periodic on-site audits are carried out to ensure that the terms of the delegated authorities are being adhered to.

The syndicate is also exposed to the risk of:

- inappropriate claims reserves;
- · inappropriate payment of claims.

All claims arising are reserved upon notification. The entire portfolio of business is subject to a quarterly reserving process whereby levels of paid and outstanding claims are reviewed. Potential future claims are assessed with a provision for IBNR claims being made. The quarterly review process is overseen by the Reserving Committee. Whilst a detailed and disciplined reserving exercise is carried out, known claims can develop beyond the level of reserves held.

Furthermore, there is increased uncertainty around the provision for IBNR claims. Consequently, there is a possibility that claims may arise which in aggregate exceed the reserve provision established. In the event that claims do not develop in line with expectations, the Reserving Committee will seek to release any redundant reserves.

The syndicate purchases specific reinsurances to protect against single risk losses. The syndicate also purchases general excess of loss reinsurance to protect from severe losses.

The structure of the programme and type of protection bought will vary from year to year depending on risk appetite and the availability and price of cover.

#### (i) Development of claims

The claims provisions established can be more or less than adequate to meet eventual claims. The level of uncertainty varies from class to class but can arise from inadequate case reserves for known large losses and catastrophes or from inadequate provision for IBNR. The impact on profit of a 1% improvement/deterioration in the total net claims reserves would be a £0.4m gain/loss (2018 including the 2016 & Prior years which RITC'd externally: £2.5m gain/loss, 2018 excluding these years: £0.6m gain/loss).

### (ii) Claims development tables

The development of insurance liabilities provides a measure of the syndicate's ability to estimate the ultimate value of claims. Historic development includes a mix of prior year releases and deteriorations, and in 2019 gross and net deteriorations occurred.

The tables below are presented at the exchange rates prevailing at 31 December 2019.

At 31 December 2019	Gross of reinsurance	Net of reinsurance	<sup>1</sup> Gross of reinsurance including unearned premium	<sup>1</sup> Net of reinsurance including unearned premium
2017 Year of Account	£'000	£'000	£'000	£'000
At end of underwriting year	60,720	40,397	148,923	123,061
One year later	126,128	101,730	144,537	119,686
Two years later	133,952	108,613	141,106	115,504
Gross ultimate claims on premium earned to date	133,952	108,613	-	-
Cumulative payments	(90,187)	(73,385)	-	-
Estimated balance to pay	43,765	35,228	-	-

<sup>&</sup>lt;sup>1</sup>Claims development is expected over the first 3 years of a year of account as the business written, and as yet unwritten, writes and earns. This analysis includes unearned and unwritten premiums net of acquisition costs, together with earned claims, to provide a comparison of development to ultimate. A reduction would be expected over time reflecting the underwriting profit earning on unearned and unwritten business.

for the year ended 31 December 2019

#### Management of risk (continued)

#### b. Financial risk

The syndicate is exposed to a wide range of financial risks, the key financial risk being that the proceeds from its assets are not sufficient to fund the obligations arising from its insurance contracts. An analysis of the syndicate's exposure to the significant components of financial risk is given below split between:

- (i) Market risk (including interest rate risk and equity price risk);
- (ii) Credit risk (including Fair Value Hierarchy);
- (iii) Currency risk; and
- (iv) Liquidity risk.

### (i) Market risk

Market risk arises from fluctuations in values of, or income from, assets or in interest or exchange rates and is derived primarily from the syndicate's investment of trust fund monies and from currency exposures. The Board has agreed an investment strategy commensurate with the syndicate's risk appetite.

### Interest rate risk

CMA manages sensitivity to market conditions by reference to interest rate risk. Since the majority of the syndicate's investments comprise cash, overseas deposits and fixed income securities, the fair value of the portfolio is inversely correlated to movements in interest rates. If interest rates fall, the fair value of the syndicate's fixed income securities tends to rise and vice versa. The fair value of fixed income investments in the syndicate's balance sheet at 31 December 2019 was £17.6m (2018: £149.8m) with an average duration of around 3.2 years (2018: 4.0 years). If interest rates were to rise/(fall) by 50 basis points at the balance sheet date, the fair value and therefore the profit for the financial year and members' balances would decrease/(increase) by approximately £0.2m (2018: £3.3m).

The syndicate manages interest rate risk by investing in financial investments, cash and overseas deposits with an average duration of less than four years. The Investment Committee monitors the duration of these assets on a regular basis.

Outstanding claims provisions are not sensitive to the level of interest rates as they are undiscounted and contractually non-interest bearing.

### (ii) Credit risk

Credit risk is the risk that the syndicate becomes exposed to loss if a counterparty fails to perform its contractual obligations. Credit risk could, therefore, impact upon the syndicate's ability to meet its claims as they fall due. The syndicate has in place policies and procedures designed to manage its credit risk exposures.

The primary sources of credit risk for the syndicate are:

- amounts due from reinsurers.
- · amounts due from insurance intermediaries, and
- counterparty risk with respect to investments including cash and cash equivalents.

The credit risk in respect of reinsurance debtors is primarily managed by review and approval of reinsurance security by CMA's Reinsurance Security Committee, prior to the purchase of reinsurance contracts. Guidelines are set and monitored, that limit the purchase of reinsurance based on Standard & Poor's or appropriate alternative ratings for each reinsurer. The credit risk in respect of reinsurers is primarily managed by CMA's reinsurance support team. Provisions are made against the amounts due from certain reinsurers, depending on the current rating assigned to the reinsurer. Some reinsurers provide collateral, either through deposits held in designated trust accounts or through letters of credit, to protect the syndicate in the event of non-payment of debt. As this collateral effectively guarantees the debt, these reinsurers are zero-rated for bad debt provisions. The recovery of debt from reinsurers is administered by the credit management team.

The credit risk in respect of insurance intermediaries is managed by the credit management function with the aid of the underwriting support team and a dedicated binder management team.

for the year ended 31 December 2019

### 5. Management of risk (continued)

### (ii) Credit risk (continued)

To transact business with the syndicate the insurance intermediary must first comply with internal guidelines that include approval (where relevant) by both the PRA and Lloyd's, to have a satisfactory credit rating and to have in place a terms of business agreement or a binding authority agreement with the syndicate. The position is then monitored through ongoing review of the amount of debt outstanding to terms, and by regular cover-holder audits.

The Finance Group regularly reviews inwards premiums debtors and reinsurance debtors by reference to the age of the debt. The objective of the Finance Group is to ensure robust balance sheet management, financial accounting and regulatory reporting oversight and to maintain a strong governance and control framework.

Debts from insurance intermediaries fall due according to the terms of trade; debts from reinsurers crystallise in line with the reinsurance contract terms.

An analysis of amounts past due from insurance intermediaries and reinsurers by age is presented below.

At 31 December 2019	Neither past due nor impaired	Up to 3 months	3 – 6 months	6 – 12 months	More than 12 months	Total
	£000	£000	£000	£000	£000	£000
Debtors arising out of direct insurance operations	6,695	351	694	-	-	7,740
Debtors arising out of reinsurance operations:						
Due from intermediaries under reinsurance business	1,614	-	-	-	-	1,614
Reinsurance recoverables on paid claims	-	4,870	945	244	37	6,096
Total	8,309	5,221	1,639	244	37	15,450

At 31 December 2018	Neither past due nor impaired	Up to 3 months	3 – 6 months	6 – 12 months	More than 12 months	Total
	£000	£000	£000	£000	£000	£000
Debtors arising out of direct insurance operations	33,369	430	176	531	1,863	36,369
Debtors arising out of reinsurance operations:						
Due from intermediaries under reinsurance business	487	-	-	-	-	487
Reinsurance recoverables on paid claims	-	6,797	460	101	162	7,520
Total	33,856	7,227	636	632	2,025	44,376

Credit risk within the investment funds is managed through the credit research carried out by the investment managers. The investment guidelines are designed to mitigate credit risk by setting minimum credit worthiness of investments and ensuring diversification of the holdings.

for the year ended 31 December 2019

### Management of risk (continued)

### (ii) Credit risk (continued)

An analysis of the syndicate's major exposure to counterparty credit risk and credit risk with the investment funds and cash, based on Standard & Poor's or equivalent rating, is presented below. These assets are neither overdue nor impaired.

				BBB/	Other/Not

	£000	£000	£000	£000	£000	£000
Reinsurers' share of claims outstanding	-	10,154	52,270	-	12,332	74,756
Debt and other fixed income securities	12,711	57,587	28,165	51,346	-	149,809
Shares and other variable yield securities and units in unit trusts	223	-	-	-	-	223
Overseas deposits	19,900	4,989	2,661	2,355	3,090	32,995
Cash	=	-	-	5,221	-	5,221
Total	32,834	72,730	83,096	58,922	15,422	263,004

The carrying values represent the maximum exposure to credit risk at the balance sheet date in respect of the above assets. The analysis above does not include insurance debtors from direct insurance operations as the majority of these assets are in respect of premiums for which the information is not readily available. Those reinsurance reserves with unrated counterparties are fully collateralised.

### Fair Value Hierarchy

The syndicate has classified its financial instruments in accordance with the requirements of paragraph 16 to the March 2016 amendment to FRS102 and has adopted an approach consistent with IFRS13, Fair Value Measurement. The fair value hierarchy classifies financial instruments into Level 1 to 3 based on the significance of the inputs used in measuring their fair

The levels within the fair value hierarchy are defined as follows:

- Based on unadjusted quoted price in an active market for identical assets or Level 1 liabilities that the entity can access at the measurement.
- Level 2 Based on inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.
- Where inputs are unobservable (i.e. for which market data is unavailable) for the Level 3 asset or liability.

for the year ended 31 December 2019

#### 5. Management of risk (continued)

Fair Value Hierarchy (continued)

At 31 December 2019	Level 1	Level 2	Level 3	Total
	£000	£000	£000	£000
Shares and other variable yield securities	-	445	-	445
Debt and other fixed income securities	1,819	15,739	-	17,558
Other financial investments	1,819	16,184	-	18,003
Overseas Deposits	473	5,044	-	5,517
Total	2,292	21,228	-	23,520

At 31 December 2018	Level 1	Level 2	Level 3	Total
	£000	£000	£000	£000
Shares and other variable yield securities	=	223	-	223
Debt and other fixed income securities	25,279	124,530	-	149,809
Other financial investments	25,279	124,753	-	150,032
Overseas Deposits	4,157	28,838	-	32,995
Total	29,436	153,591	-	183,027

The level within the hierarchy that a financial instrument is placed is based on the lowest level of any input that is significant to its fair value measurement. Quoted prices for corporate bonds are based on a limited number of transactions for those securities and as such are considered to meet the definition of level 2 assets.

### (iii) Currency risk

Policyholders' assets are held in six settlement currencies (Sterling, Euros, US dollars, Canadian dollars, Australian dollars and Japanese Yen) which represent the vast majority of the syndicate's liabilities by currency. A significant proportion of the syndicate's business is transacted in non-Sterling settlement currencies. Its functional and presentation currency is Sterling and, therefore, foreign exchange risk also arises when non-Sterling profits are converted into Sterling.

CMA has a group policy to mitigate foreign exchange risk and this policy is managed by the Finance team and overseen by the Finance Group which is headed by the CFO.

The syndicate is exposed to foreign exchange risk primarily with respect to mismatches between the currencies in which assets and liabilities are denominated. The syndicate mitigates this risk by endeavouring to match assets and liabilities in foreign currency. The Managing Agent's Finance Group reviews currency matching quarterly.

In certain circumstances, the syndicate is exposed to a subsidiary foreign exchange risk where regulators demand that the syndicate holds US dollar and Canadian dollar currency assets to match liabilities measured on a regulatory basis, rather than best estimate.

For the avoidance of doubt, the syndicate is not positioned to take speculative currency positions to make gains; the purpose of its foreign exchange risk policy is to protect against the downside.

for the year ended 31 December 2019

### 5. Management of risk (continued)

(iii) Currency risk (continued)

The profile of the syndicate's assets and liabilities, categorised by currency, was as follows:

At 31 December 2019	Sterling	US dollar	Euro	отн	Total
	£000	£000	£000	£000	£000
Financial investments	-	3,538	3,187	11,278	18,003

for the year ended 31 December 2019

### 5. Management of risk (continued)

(iv) Liquidity risk

Liquidity risk arises where insufficient financial resources are maintained to meet liabilities as they fall due.

All valid claims must be paid as they fall due and, therefore, it is essential that the syndicate maintains an appropriate level of liquidity at all times. As a consequence, cash is managed closely by the Treasury team. The syndicate is exposed to daily calls on its available cash resources, principally from claims arising from its insurance activities.

The syndicate's policy is to manage its liquidity position so that it can reasonably meet a significant individual or market loss event. This means that the syndicate maintains sufficient liquid assets, or assets that can be quickly converted into liquid assets, without any significant capital loss, to meet estimated cash flow requirements. The availability of liquidity in the event of a major disaster is regularly tested using internal cash flow forecasts and realistic disaster scenarios.

The majority of the syndicate's investments are in highly liquid assets which could be converted into cash promptly and at minimal expense. Cash and overseas deposits are generally bank deposits and money market funds.

In addition, the duration of assets is maintained at a level to manage liability durations and in recognition of the syndicate's catastrophe exposures. Greater levels of cash and/or liquid assets may be held when determined by market conditions and is considered appropriate by the Chief Investment Officer.

The tables below show the maturity profile of the Syndicate's financial liabilities.

At 31 December 2019	No stated maturity	0-1 year	1-3 years	3-5 years	>5 years	Total
	£000	£000	£000	£000	£000	£000

for the year ended 31 December 2019

#### 5. Management of risk (continued)

(iv) Liquidity risk (continued)

#### c. Group risk

Group risk arises from the potential impact of risk events, of any nature, arising in or from membership of a corporate group. CMA is part of the Canopius Group Limited ("CGL"), a global underwriter of insurance and reinsurance business transacted both through direct channels and via delegated underwriting. CGL has established a risk management framework to protect the Group's stakeholders, including Syndicate members from events that hinder the sustainable achievement of financial performance objectives, including failing to exploit opportunities. Management recognises the critical importance of having efficient and effective risk management systems in place.

A clear organisational structure is in place with delegated authorities and clear responsibilities. A Group policy framework is in place which sets out the risk management, internal control and business conduct standards for the Group's operations. Group risk management policies set out the identification of risk and its interpretation, limit its structure to ensure the appropriate quality and diversification of assets, align underwriting and reinsurance strategy to the corporate goals, and specify reporting requirements. Each policy has a member of senior management charged with overseeing compliance throughout the Group and the CGL Board meet regularly to approve any commercial, regulatory and organisational requirements of such policies.

#### d. Operational risk

Operational risk is the risk of inadequate or failed internal processes, people systems, or external events that have an adverse impact on the business. The syndicate manages these risks through a framework of robust systems and controls. CMA's objective for operational risk management is to identify, assess, manage, monitor and report risks and to prevent or reduce any failures or inadequacies in systems and controls. To this end, CMA has established key policies and controls that include:

- regular meetings of the Board of directors at which key aspects of the managing agent's and syndicate's businesses are reviewed, including review of reports from various subcommittees of the Board
- underwriting procedures guidelines
- claims management policies and guidelines
- risk registers which are reviewed and signed off by the risk and control owners on a regular basis
- a suite of risk policies for major risk categories relating to the activities of the syndicate
- an internal audit function whose audit plan is aligned with CMA's risk framework
- human resources policies and guidelines designed to ensure that the operations are adequately resourced by sufficiently skilled and trained people, who are appropriately remunerated
- financial policies and controls that cover:
  - maintaining segregated funds for the syndicate's assets
  - investment of funds
  - expense management
  - establishing adequate provisions for unpaid claims
  - credit risk, including debt collection and managing counter-party exposures
  - cash flow and other financial projections
  - regular review and reconciliation of the entity's financial records.

In addition, the managing agent has an established and integrated capital and planning cycle. This provides an assessment of the significant financial and non-financial risks, as identified by the managing agent's risk management framework. The capital requirement is assessed in accordance with applicable requirements through the use of deterministic and stochastic modelling and further challenged using a comprehensive validation process which includes the use of stress and scenario tests. This process assesses the capital required to meet a 1 in 200 level extreme outcome from the aggregation of all recognised sources of risk.

for the year ended 31 December 2019

#### 5. Management of risk (continued)

### e. Regulatory risk

Regulatory risk is the risk that the syndicate fails to meet the regulatory requirements of the Prudential Regulatory Authority ("PRA"), the Financial Conduct Authority ("FCA"), Lloyd's and those of overseas regulators in jurisdictions where Lloyd's syndicates are licensed to trade.

Regulatory risk is a key area of focus for the risk and compliance teams to ensure legislative and regulatory changes are understood and observed.

### 6. Capital setting, capital management policies and objectives

The syndicate's objectives in managing its capital are to:

- · satisfy the requirements of its policyholders and regulators; and
- allocate capital efficiently to support strategic objectives.

The Society of Lloyd's applies capital requirements at member level and in aggregate to ensure that Lloyd's complies with all regulatory requirements such as Solvency II, whilst meeting its own financial strength, licence and ratings objectives.

Although Lloyd's capital setting processes use a capital requirement set at syndicate level as a starting point, the requirement to meet Solvency II and Lloyd's capital requirements apply at overall and member level only respectively, not at syndicate level. Accordingly the capital requirement in respect of Syndicate 1206 is not disclosed in these financial statements.

The PRA and Lloyd's oversee the capital setting regime that requires syndicates to calculate their own capital requirements through a Solvency Capital Requirement ("SCR"). The SCR must be sufficient to cover a 1 in 200 year loss, reflecting uncertainty in the ultimate run-off of underwriting liabilities (SCR 'to ultimate'). The syndicate must also calculate its SCR at the same confidence level but reflecting uncertainty over a one year time horizon (one year SCR) for Lloyd's to use in meeting Solvency II requirements. The SCRs of each syndicate are subject to review by Lloyd's and approval by the Lloyd's Capital and Planning Group.

A syndicate may be comprised of one or more underwriting members of Lloyd's. Each member is liable for its share of underwriting liabilities on the syndicate(s) on which it participates but not other members' shares. Accordingly, the capital requirement that Lloyd's sets for each member, operates on a similar basis. Each member's SCR shall thus be determined by the sum of the member's share of the syndicate SCR 'to ultimate'. Where a member participates on more than one syndicate, a credit for diversification is provided to reflect the spread of risk, but consistent with determining a SCR which reflects the capital requirement to cover a 1 in 200 year loss 'to ultimate' for that member. Over and above this, Lloyd's applies a capital uplift to the member's capital requirement, known as the Economic Capital Assessment ("ECA"). The purpose of this uplift, which is a Lloyd's not a Solvency II requirement, is to meet Lloyd's financial strength, licence and ratings objectives. The capital uplift applied for 2019 was 35% of the member's SCR 'to ultimate'.

Each member may provide capital to meet its ECA either by assets held in trust by Lloyd's specifically for that member (Funds at Lloyd's), held within and managed within a syndicate (Funds in Syndicate) or as the member's share of the members' balances on each syndicate on which it participates.

Accordingly all of the assets less liabilities of the syndicate, as represented in the members' balances reported on the statement of financial position on page 14, are included in resources available to meet members' and Lloyd's capital requirements.

The syndicate maintains models in accordance with this regime, and also operates an Own Risk & Solvency Assessment ("ORSA") process which it reports on at least annually.

for the year ended 31 December 2019

### 6. Capital setting, capital management policies and objectives (continued)

Key elements of CMA's capital methodology include:

- risk identification;
- the articulation of risk bearing capacity and establishment of risk appetite;
- identification of capital requirement for all significant risks;
- sensitivity analysis and 'reasonableness checks';
- aggregation and correlation of risks;
- comparison with other benchmarks e.g. prior years' internal SCRs, standard formula SCR results, the PRA published calculations based on industry SCR submissions and market surveys/studies; and
- · Board review and challenge.

The SCR represents the equivalent of minimum regulatory capital, as is required by the PRA and Lloyd's, and does not represent the amount of economic capital required to support and maintain Lloyd's ratings. The SCR process produces a result that is uplifted by Lloyd's to the capital required to maintain their rating, currently 'A+ (strong)' by Standard & Poor's.

To improve the risk management capability, and the assessment of capital requirements, CMA has developed a stochastic model to analyse the potential performance of its main underwriting operations. Stress and scenario analysis is also performed for those risks that cannot be easily modelled quantitatively and where more subjective judgement is required (for example, operational risk) as well as to challenge the output of the stochastic model.

Using its detailed measurement of risk exposures, the syndicate allocates capital to support the business according to the risk appetite and expected returns. The syndicate has complied with all capital requirements during the year.

CMA regularly reviews and enhances its risk management processes and their enabling governance structures to ensure that CMA can demonstrate continuous compliance with regulatory and Lloyd's requirements.

### 7. Segmental analysis

An analysis of the underwriting result before investment return is set out below:

2019	Gross written premiums	Gross premiums earned	Gross claims incurred	Net operating expenses	Re- insurance Balance	Total
	£000	£000	£000	£000	£000	£000
Direct Insurance:						
Accident and health	(1,763)	(76)	(422)	(1)	(181)	(680)
Motor (Other classes)	77	131	(121)	(78)	2	(66)
Marine, Aviation & Transport	(241)	617	1,435	(1,211)	263	1,104

Other	54	5,387
Total	(1,375)	52,697

### 8. Currency rates of exchange

	31 Dec 19	Average for 2019	31 Dec 18	Average for 2018
US\$	1.32	1.28	1.28	1.33
Euro	1.18	1.14	1.11	1.12
Canadian \$	1.72	1.69	1.74	1.73
Australian \$	1.88	1.84	1.81	1.79
Japanese ¥	143.29	139.26	139.80	147.11

for the year ended 31 December 2019

### Net claims outstanding

The Syndicate has applied a similar approach at the current year end to that applied at the previous year end in establishing the technical provisions for claims outstanding reserves and reinsurers' share thereof. Included within net claims incurred of £7.2m (2018: £68.9m) is an improvement of £1.0m (2018: deterioration of £3.3m) to claims reserves established at the prior year end principally due to favourable developments on Property, Aviation and Marine classes with partially offsetting unfavourable developments across the other classes.

### 10. Net operating expenses

	2019 £000	2018 £000
Commissions	(971)	16,238
Other acquisition costs	-	24
Change in deferred acquisition costs	4,588	25,024
Reinsurance commissions and profit participations	-	(2,320)
Administrative expenses	6,285	8,645
Personal expenses (see note 11)	(1,100)	-
Total expenses – technical account	8,802	47,611
(Profit) / loss on exchange – non technical account	(287)	3,902
Total expenses	8,515	51,513

	2019	2018
	£000	£000
Auditors' remuneration		
Audit of syndicate accounts	130	277
Other services pursuant to Regulations and Lloyd's Byelaws	114	79
Other non-audit services	24	-
Total audit and non-audit fees	268	356

### 11. Personal Expenses

	2019	2018*
	£000	£000
Member's standard personal expenses	(1,100)	-
Total	(1,100)	-

for the year ended 31 December 2019

#### 12. Staff numbers and costs

All staff are employed by a group service company and associated costs charged to the Syndicate. Prior to novation staff costs were charged from AmTrust Management Services Limited and following novation on 1 October 2019 from ASL to CMA, staff costs were charged from Canopius Services Limited ('CSL'). The following amounts were recharged to the syndicate in respect of salary costs:

	2019	2018
	£000	£000
Wages and salaries	3,152	4,860
Social security costs	487	592
Pension contributions to money purchase schemes	203	289
Total	3,842	5,741

The average number of employees employed by the managing agents working on the syndicate's affairs during the year was as follows:

	2019	2018
Underwriting	7	10
Insurance Services	8	27
Other	15	15
Total	30	52

### 13. Emoluments of the directors of the Managing Agents

The directors of CMA and ASL, excluding the run-off manager, received the following aggregate remuneration charged to the syndicate and included within net operating expenses:

	2019	2018
	£000	£000
Emoluments	120	237
Pension contributions to money purchase schemes	2	5
Total	122	242

Retirement benefits are accruing to 9 directors (2018: 8) under money purchase schemes.

The run-off manager received the following remuneration charged as a syndicate expense:

	2019	2018
	£000	£000
Emoluments	19	37
Pension contributions to money purchase schemes	1	-
Total	20	37

for the year ended 31 December 2019

### 14. Net investment income recognised in profit or loss

	2019	2018*
	£000	£000
Interest and similar income		
From financial instruments designated at fair value through profit or loss	(437)	6,053
Investment expenses	(15)	(265)
Total interest and similar income	(452)	5,788
Other income from investments designated at fair value through profit or loss		
Realised gains / ( losses) on investments	3,896	(1,897)
Unrealised loss on investments	(1,020)	(2,254)
Total other gain	2,876	(4,151)
Net investment return	2,424	1,637
	2019	2018
	£000	£000
Average amount of syndicate funds available for investment during the year	84,241	212,245
Gross aggregate investment return for the calendar year in Sterling	2,424	1,637
Gross calendar year investment yield	3.21%	0.75%

The syndicate classifies its investments at fair value through profit and loss. Financial assets classified into this category form a portfolio of financial assets which may be sold to meet the cash flow requirements of the syndicate or as investment conditions change. Amounts presented above are net of £3,071k of net investment return on assets held and subsequently disbursed during the period as partial consideration for the reinsurance to close of the 2016 & Prior years of account to a third party.

### 15. Other financial investments

This was recorded as a balance sheet transaction in line with standard practice for a Lloyd's syndicate. An adjusted opening position has been presented to remove the brought forward technical provisions in relation to the 2016 & Prior years of account.

for the year ended 31 December 2019

#### 25. Post balance sheet events

On 13th February 2020 the Board of the Managing Agent authorised the closure of the 2017 year of account by way of reinsurance to close contract with the 2018 year of account of Syndicate 1861. The net reinsurance to close premium payable by the member of the 2017 year of account is £42.1m.

On the closure of the 2017 year of account an amount of £0.8m will be called from the member.

#### 26. Pensions

Both ASL, until novation, and CSL, following novation, operated defined contribution pension schemes for the employees working on the syndicate's affairs during the year. The assets of the schemes are held separately from those of ASL and CSL in independently administered funds. The amounts recharged to the syndicate in respect of pensions are disclosed in Note 12.

### 27. Related parties

Lloyd's market regulations require that a Managing Agent be responsible for engaging underwriting staff and managing the affairs of each syndicate at Lloyd's on behalf of the Syndicate members. The Managing Agent of the Syndicate was AmTrust Syndicates Limited ('ASL') until novation on 1 October 2019 to Canopius Managing Agents Limited ('CMA').

In 2019 and 2018 a large proportion of the expenses incurred in operating the Syndicate were incurred by group service companies and were then recharged under intragroup service agreements, with ASL until 1 October 2019 and with CMA from this date, on a basis that reflected the Syndicate's usage of resources.

Group recharges are charged on a cost basis and predominantly represent recharges of staff costs for employees working on syndicate business as well as associated other administrative expenses including accommodation, professional fees and information technology. These recharges, included within amounts disclosed as net operating expenses, acquisition costs and claims incurred were as follows:

Total expenses recharged	4,460	9,542
Canopius Services Limited ('CSL')	1,227_	
AmTrust Syndicate Holdings Limited ('ASH')	297	-
AmTrust Management Services Limited ('AMSL')	2,889	-
AmTrust Central Bureau of Services Limited ('CBS')	47	9,542
	£000	£000
	2013	2010

2010

2018

Included within the recharges are amounts relating to the remuneration of directors of ASL and CMA. Profit-related remuneration for the Syndicate's run-off manager and ASL and CMA directors is not charged to the Syndicate.

The following directors of CMA during the period were also directors of CSL during the period: M C Watson, N S Meyer, L Davison and B A Turner (resigned from CMA board 3 October 2019).

CMA and CSL are both 100% subsidiaries of Canopius Holdings UK Limited ('CHUKL'). The following directors of CMA during the period were also directors of CHUKL during the period: M C Watson, N S Meyer and M P Duffy.

The following directors of ASL during the period were also directors of CBS, AMSL and ASH during the period: P Dewey and J E Cadle.

Member's expenses, being agent's fees and profit commission payable to the Managing Agent, and subscriptions and central fund contributions payable to Lloyd's, are charged on an underwriting year of account, rather than on a calendar year basis. The Syndicate does not have a 2019 or 2018 underwriting year of account, consequently no management fees were charged by ASL or CMA in the current year (2018: £0.0m).

for the year ended 31 December 2019

The Syndicate acts as consortium leader, with the managing agent as the consortium manager, for a Marine Hull consortium participated upon by Syndicate 1861. Syndicate 1861 was also managed by ASL until novation to CMA on 1 October 2019, and shares 100% commonality of capital with 1206 through Flectat 2 Ltd ('F2L'), known as AmTrust Corporate Member Limited ('ACML') until 25 October 2019.

Until 1 October 2019, ACML and ASL were both subsidiaries of AmTrust Lloyd's Holdings Limited ('ALH') itself is a 100% indirect subsidiary of Evergreen Parent, L.P., the ultimate parent company of the AmTrust Group. On 1 October 2019 Fortuna Holdings Limited (Jersey) ('FHL'), a 100% indirect parent of CMA, acquired 100% of the share capital of ACML. AmTrust International Insurance Limited (Bermuda) ('AIIL'), a 100% indirect subsidiary of Evergreen Parent, became a significant minority shareholder in Fidentia Fortuna Holdings Limited (Cayman Islands), an indirect majority shareholder of FHL, as part of this transaction.

Immediately prior to the sale of F2L on 1 October 2019, 100% quota share reinsurance contracts were put in place ceding the company's syndicate participations on the 2017 and 2018 years of account of Syndicate 1861, as well as the 2017 years of account of Syndicates 5820 and 1206, to AIIL. At 31 December these contracts were novated to a third party.

During the period £1.1m of gross premium was written on behalf of Syndicate 1861 by Syndicate 1206 as the consortium leader (2018: £(0.4)m). Fees are charged by the consortium manager to the consortium members on behalf of Syndicate 1206. No fees remained due at 31 December 2019 in this respect (2018 £nil).

The following directors of ASL during the period were also directors of F2L and ALH during the period: P Dewey (resigned from F2L on 2 October 2019) and J E Cadle (resigned from F2L on 2 October 2019).

The following directors of CMA during the period were also directors of F2L during the period: M C Watson (appointed to F2L on 3 October 2019), M P Duffy (appointed to F2L on 3 October 2019) and N S Meyer (appointed to F2L on 3 October 2019).

At the Statement of Financial Position date, the Syndicate has amounts due to / from AmTrust Group companies, which are included as follows in 'Other debtors' or 'Other creditors' on the Statement of Financial Position:

	2019	2018
	£000	£000

	382	1,319

At the Statement of Financial Position date, the Syndicate has amounts due to Canopius Group companies / other syndicates managed by CMA, which are included as follows in 'Other debtors' or 'Other creditors' on the Statement of Financial Position:

	2019 £000	2018* £000
Other creditors		
Canopius Services Limited	320	-
Syndicate 1861	45	68
	365	68

for the year ended 31 December 2019

#### Cash Calls

On 12 September 2019 and in preparation for the sale of F2L and novation of the syndicate management, ASL authorised a cash calls of £48.4m representing the retained loss at 31 December 2018 on the 2017 year of account to be made from the Syndicate's 100% capital provider F2L.

#### **Directors' interests**

None of the directors nor the run-off manager participate on the Syndicate.

#### Reinsurance to Close

e Board of CMA authorised the closure of the 2017 years of account of Syndicate 1206 by way of a reinsurance to close arrangement into Syndicate 1861's 2018 year of account.

### **Investment Managers**

The Syndicate's investment managers until 31 December 2019 were All Insurance Management Limited ('AIIM'). AllM is a 100% indirect subsidiary of Evergreen Parent L.P. During the period fees of £15.0k were levied for investment management services (2018: £264.7k).

### 28. Immediate and ultimate parent undertaking and controlling party

As at 31 December 2019, Syndicate 1206 was managed by CMA. CMA's immediate UK parent is CHUKL, which is registered in England and Wales. CHUKL is part of CGL which is registered in Jersey. CMA's registered office is Gallery 9, One Lime Street, London EC3M 7HA.

The ultimate controlling parties of CGL are CCP GP Investors Holdings (Cayman) LP, Centerbridge Associates III, LP, CCP III Cayman GP Limited and CCP III SBS Cayman GP Limited.

### 29. Funds at Lloyd's

Every member is required to hold capital at Lloyd's which is held in trust and known as FAL. These funds are intended primarily to cover circumstances where syndicate assets prove insufficient to meet participating members' underwriting liabilities.

The level of FAL that a member is required to maintain is determined by CMA and Lloyd's based on compliance with PRA requirements. The determination of the FAL requirement has regard to a number of factors including the nature and amount of insurance contracts to be underwritten by the member and the assessment of the reserving risk in respect of business that has been underwritten. Since the assets in FAL are not owned by the syndicate, no amount has been shown in these financial statements by way of such capital resources. However, the managing agent is able to make a call on the members' FAL to meet liquidity requirements or to settle losses.
