Society Report

Lloyd's excellent capital strength demonstrates that we remain in robust financial shape. With a leadership team actively addressing the challenges the Lloyd's market is faced with, we go into 2018 in a strong and secure position.

Financial Highlights

	2017 £m	2016 £m	2015 £m	2014 £m	2013 £m
Operating result					
Corporation operating income	351	332	239	220	218
Central Fund income	125	120	111	115	108
Total income	476	452	350	335	326
Central Fund claims and provisions incurred	–	(8)	–	(1)	(18)
Central Fund repayment to members	–	–	–	(49)	–
Net insurance claims and provisions	–	–	–	1	–
Other Group operating expenses	(306)	(307)	(259)	(227)	(219)
Operating surplus¹	170	137	91	59	89
Finance Costs					
Deficit on subordinated debt repurchase	–	–	–	(9)	(15)
Interest payable on financial liabilities and other	(55)	(54)	(54)	(49)	(56)
Finance Income²	62	314	43	93	60
Realised/unrealised exchange gains/(losses) on borrowings	–	–	–	7	(6)
Share of profits of associates	10	8	7	8	7
Surplus before tax	187	405	87	109	79
Tax charge	(31)	(75)	(13)	(18)	(14)
Surplus for the year	156	330	74	91	65
Balance sheet					
Net assets	2,188	1,996	1,763	1,693	1,635
Movement in net assets %	9.6%	13.2%	4.1%	3.6%	4.5%
Solvency					
Eligible own funds to meet Central SCR	3,445	3,433	3,162	–	–
Central SCR	(1,600)	(1,600)	(1,450)	–	–
Excess of eligible own funds over the Central SCR	1,845	1,833	1,712	–	–
Solvency ratio %	215%	215%	218%	–	–

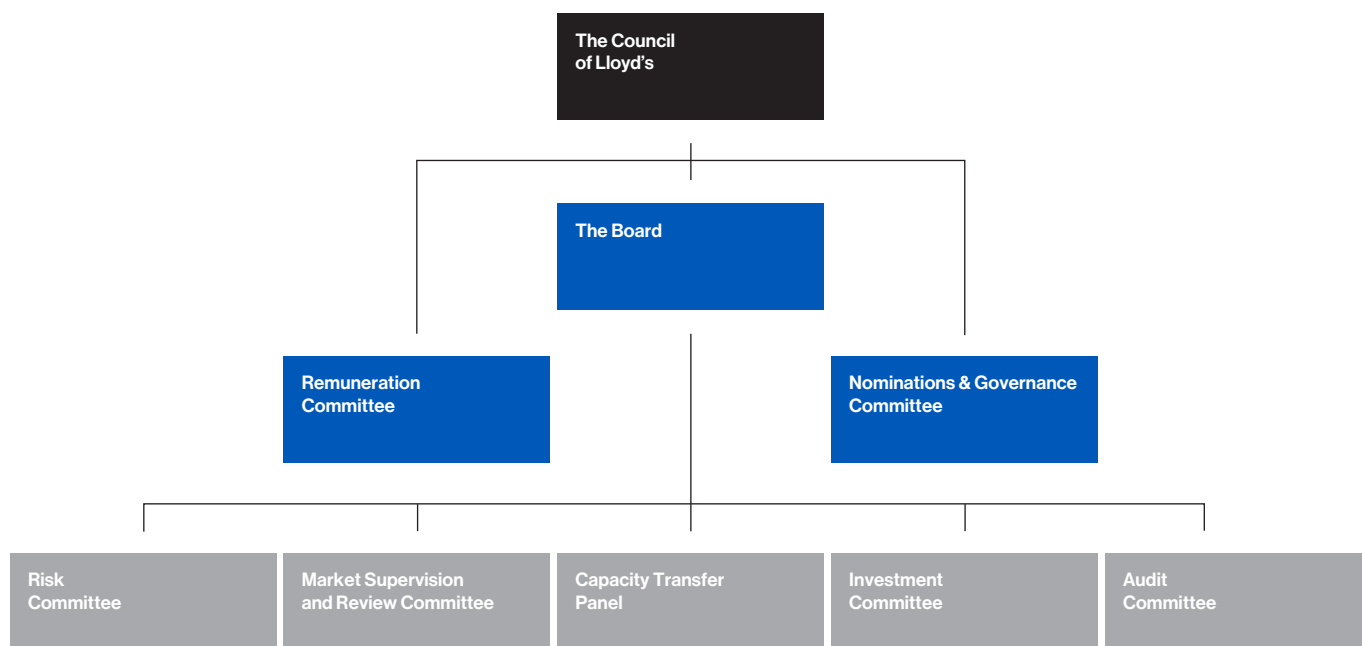

The solvency ratio is reported under the Solvency II legislative requirements which came into force on 1 January 2016. The 2017 position is an estimate of the amount which will be finalised in May 2018 for submission to the PRA. The solvency figures in the table above are unaudited.

1. The operating surplus is a metric which is consistently used to analyse financial performance in the Society Report. This metric (wherever used in the Annual Report) is an Alternative Performance Measure (APM), with further information available on page 174.
2. The Society's investments, mostly held within the Central Fund, returned £62m or 1.7% during the year (2016: £314m, 10.2%). Excluding the impact of a £108m foreign exchange loss in 2017 (2016: foreign exchange gain of £151m), arising from currency matching assets to the US dollar component of the Central Solvency Capital Requirement, underlying investment returns were relatively stable year on year, returning £170m (4.6%) in 2017 (2016: £163m or 5.2%).

Corporate Governance

Lloyd's governance structure provides challenge, clarity and accountability

Principal Committees of Lloyd's

The Council and Board

The Council is the governing body of the Society of Lloyd's and has ultimate responsibility for overall management of the market. The Council delegates many of its functions to the Board, whose members are appointed by the Council and come from both inside and outside the Lloyd's market.

The day-to-day powers and functions of the Council and Board are carried out by the Corporation's Executive Committee – the Chief Executive, Chief Financial Officer, Chief Commercial Officer, Chief Operating Officer, Chief Risk Officer, Human Resources Director, General Counsel and Company Secretary and Performance Management Director.

Lloyd's is regulated by the PRA and FCA, which have direct supervision of managing agents and monitor capital, solvency and conduct. The Corporation is active in managing risk within the market to ensure that Lloyd's central assets, brand, licences and reputation remain protected.

The Council is committed to the principle of good corporate governance and supports the application of the principles of the UK Corporate Governance Code, as far as they can be applied to the governance of a Society of members and a market of separate competing entities.

Corporate Governance

Governing body: The Council

Under Lloyd's Act 1982, the Council undertakes the management and superintendence of the affairs of the Society and has the power to regulate and direct the business of insurance at Lloyd's. Certain functions are reserved to the Council including:

- the making, amendment or revocation of byelaws (which are available at www.lloyds.com/byelaws);
- the setting of Central Fund contribution rates; and
- appointing the Chairman and Deputy Chairmen of Council.

Beyond the reserved functions, the Council can delegate its powers or functions to any person, committee or employee of the Society.

The Council has delegated authority for the day-to-day management of the market to the Board. The Board is able, in turn, to sub-delegate authority to the CEO and through her to the Lloyd's Executive. In addition, the Council has delegated authority to carry out specified functions to committees including the Remuneration and Nominations & Governance Committees, as summarised below.

The relationship between the Council and the Board is defined in the Council's Governance Policies which clarify the role of the Council and establish a more structured relationship with the Board. Further details on the role and functions of the Board and the Governance Policies are set out below.

Membership

The Council comprises a maximum of 18 members, split between six working, six external and six nominated members. The biographical details of the current members of the Council (as at 20 March 2018) are listed on pages 86 to 88.

Nominated members are usually appointed for three-year terms which can be renewed. They may be regarded, for the purposes of the Code, as independent members of the Council with the exception of the Chairman and CEO who are included within their number.

Working and external members are generally elected for terms of three years by the working and external members of the Society respectively. In the elections for working members, voting operates on a one member, one vote basis. In the elections for external members, the voting entitlement of an external member of the Society is based on the member's allocated underwriting capacity as determined under the Constitutional Arrangements Byelaw (No.2 of 2010).

The presence of working and external members of the Council enables the nominated members to gain an understanding of the views of key stakeholders in the Lloyd's market.

Other than the CEO, no member of Council may serve more than nine years in aggregate on the Council or Board.

Chairman and Deputy Chairmen

In accordance with Lloyd's Act 1982, the Chairman and Deputy Chairmen of Lloyd's are elected annually by special resolution of the Council from among its members. One of the Chairman and Deputy Chairmen must be a working member of the Council. This position is currently filled by Simon Beale.

The Chairman of Lloyd's is contracted to work a maximum of three days a week but commits as much time as is necessary to undertake the role. The Council acknowledges that the Chairman has other commitments outside Lloyd's (see page 86) and is satisfied that these can be accommodated with the Chairmanship of Lloyd's.

Andy Haste (a nominated member) was appointed Senior Independent Deputy Chairman (Lloyd's equivalent of the Senior Independent Director) with effect from 1 November 2012.

Meetings

The Council met on seven occasions in 2017. These meetings are structured to allow open discussion. At each meeting the Council receives certain regular reports – for example, a written report from the CEO and oral updates from its principal committees. It also reviews the quarterly Management Information Pack.

A table showing Council members' attendance at Council and Committee meetings which they were eligible to attend is set out on pages 84 to 85.

The detailed arrangements for Lloyd's governance processes are set out in the Council's Governance Policies and the Constitutional Requirements as set out in the Constitutional Arrangements Byelaw.

Governance Policies and the Constitutional Requirements

The Governance Policies

Among other matters, the Governance Policies are intended to improve the clarity around the role of the Council and to establish a more structured relationship with the Board.

The Corporation Purpose establishes that “the Corporation acts to create and maintain a competitive, innovative and secure market. Our dedicated people serve to protect and promote the interests of the market and its customers, provide valued services to market participants and advance the interests of capital providers over the long term”.

Under the Governance Policies, the Council is responsible for assessing the long-term strategic development of Lloyd's by reference to both the interests of capital providers and other stakeholders and through an evaluation of economic, political and social issues impacting the international insurance and reinsurance markets.

As the Council has delegated authority for the majority of its functions (other than its reserved matters) to the Board, the Governance Policies also define the accountability linkage between the Board and the Council. This includes determining the boundaries within which the Board will operate (the Board Limitations) and establishing a Monitoring and Assurance regime which, among other matters, requires the Chairman of the Board to report to the Council on all material issues impacting the world insurance market and Lloyd's as well as providing a summary of key performance indicators.

The Constitutional Requirements

The Constitutional Requirements align, so far as appropriate, Lloyd's governance arrangements with the Companies Act 2006. They include provisions concerning the duties and responsibilities of Council members. These same duties also apply to members of the Board and the other Lloyd's committees.

In summary, members of the Council, Board and their committees are required to act in a way which ‘would be most likely to promote the success of the Society for the benefit of the members as a whole’ and must have regard to:

- The likely consequences of any decision in the long term.
- The need of the Society:
 - to foster business relations with those who do business at Lloyd's;
 - to have regard to the interests of its employees;
 - to consider the impact of its operations on the community and the environment; and
 - to maintain a reputation for high standards of business conduct.

The Constitutional Requirements also deal with conflicts of interest and collective responsibility.

Board

The Council established the Board as from 1 January 2003 which develops strategies to meet the Corporation Purpose of creating and maintaining a competitive, innovative and secure market.

Specific functions delegated to the Board include:

- determining the major risks to the Lloyd's market and determining appropriate action to address or mitigate those risks;
- determining the key factors, levers and drivers which may affect the profitability of the Lloyd's market;
- developing and implementing a strategy to achieve the Corporation Goal; and
- supervising, regulating and directing the business of insurance at Lloyd's.

The Board has reserved to itself a list of specific functions and powers that only it may deal with. The Board may sub-delegate authority to the CEO, executive and employees of the Corporation save in respect of those functions and powers reserved to it, the Council and their committees.

The Board's committees, the CEO, the executive and employees must act in accordance with the Board Limitations (including the Principles) and in accordance with the strategy, policy and principles set by the Board.

Matters reserved to the Board include:

- setting the policy and principles relating to the supervision, regulation and direction of the business of insurance at Lloyd's (the Market Supervision Framework), in compliance with PRA and FCA requirements;
- considering and approving Lloyd's risk appetite (both at Corporation and market level); setting policy for the admission and removal of participants in the Lloyd's market;
- admitting and removing managing agents;
- determining the Standards for managing agents and approving the Three-Year and Annual Plan and Budget of the Corporation; and
- approving the Lloyd's Society level capital requirements.

Corporate Governance

Membership and meetings

Biographical details of the members of the Board as at 20 March 2018 are listed on pages 89 to 91. At the end of 2017, the Board comprised:

- the Chairman of Lloyd's (who was also its Chairman);
- the CEO, the Performance Management Director and the Chief Financial Officer;
- three non-executives connected with the Lloyd's market; and
- four independent non-executives.

The presence of market connected non-executive directors enables the independent non-executives to gain an understanding of market practitioner views and perspectives.

Other than the Lloyd's Executives no member of the Board may serve more than nine years in aggregate on the Board or the Council.

The Board held ten scheduled meetings in 2017. It also held a full day offsite focusing on the major strategic challenges facing Lloyd's and their impact on Lloyd's current strategy.

Board meetings are structured to allow open discussion. At each scheduled meeting, the Board receives certain regular reports – for example, a written report from the CEO. It also reviews the quarterly Management Information Pack. The Board papers and minutes are made available to members of the Council.

A table showing Board members' attendance at Board and Committee meetings which they were eligible to attend is set out on pages 84 to 85.

The Principal Committees of the Council Nominations & Governance Committee

The Nominations & Governance Committee ("the Committee") is responsible for making recommendations to the Council on the appointment of the Chairman, CEO, new nominated Council members, Board members (including the executive directors on the Board), members of a number of the Council and Board committees and the Secretary to the Council. The Committee is also responsible for succession planning arrangements for these positions.

The Committee meets at least twice annually and otherwise at the discretion of its Chairman or as directed by the Council. The Committee reports to the Council and Board on its proceedings after each meeting on all matters relating to its duties and powers. A written report is submitted to the Council annually.

Apart from the annual exercise of making recommendations with respect to the composition of Council and Board committees (together with any other necessary changes in composition during the year), the Committee made the following major recommendations to the Council during 2017:

- To appoint Bruce Carnegie-Brown as Chairman of Lloyd's for an initial period of three years commencing on 15 June 2017, following the retirement of John Nelson in May 2017. For the purposes of this search the Committee was chaired by the Senior Independent Deputy Chairman and the composition of the Committee was augmented by three market members of the Council and Board. The Committee was assisted in this search by external search consultants, The Zygos Partnership;

- To appoint Robert Childs, nominated representative of Hiscox Dedicated Member Ltd, an external member of Council, as Deputy Chairman of Lloyd's with effect from 30 June 2017;
- To appoint Patricia Jackson as an independent non-executive director of the Board for an initial period of three years from 30 March 2017. Ms Jackson was also appointed as Chair of the Risk Committee with effect from June 2017. The Committee was assisted in this search by external search consultants, Egon Zehnder;
- To appoint Gregory Fleming as a nominated member of the Council for an initial period of three years from 30 March 2017. The Committee was assisted in this search by external search consultants, Korn Ferry. Due to other work commitments Mr Fleming resigned his position on Council with effect from September 2017. The Committee is conducting a search for a replacement with the continued assistance of Korn Ferry.

The Committee's recommendations were supported and approved by the Council.

Following Ms Griffiths' retirement from the Board in June 2017 the Committee commenced a search for a new independent non-executive director of the Board. The Committee was assisted by external search consultants, Russell Reynolds, with a brief to find a candidate with recent data and tech experience. As a result of this process, two appointments were made by the Council with Mike Bracken and Nigel Hinshelwood joining the Board with effect from 1 March 2018. The Committee also commenced a search for an additional independent non-executive director of the Board with independent insurance expertise. The Committee was assisted in this search by external search consultants, The Zygos Partnership. The successful candidate would also join the Risk Committee. As a result of this process, Fiona Luck was appointed to the Board with effect from 1 March 2018. Finally, the Committee is undertaking a search for a new nominated member of the Council to replace Fred Hu who stepped down at the end of his term of office in May 2017. The Committee is being assisted by external search consultants, The Zygos Partnership, with a brief to find a candidate with experience of operating in Continental Europe.

None of the external search consultants used have any connection with the Society.

To assist with succession planning, the Committee also considered the future skills, knowledge and experience likely to be needed by the Board and the Council. The searches referred to above are being conducted after taking into account this work.

Diversity – The Committee is fully apprised of, and supportive of, the need for recent and relevant experience and diversity including gender diversity. It is difficult to establish diversity targets for the Council, given that it is two-thirds elected, but diversity will be encouraged. Candidates for appointed positions are selected on merit and with due regard to the benefits of diversity in its broadest sense. In addition, the Board, with the support of the Committee established a target of 30% of the Board being women by 2020. Three of the fourteen Board members as at the date of this report are women.

The Committee is chaired by the Chairman of Lloyd's and its remaining members are drawn from both the Council and the Board.

A table showing the Committee members' attendance at scheduled Committee meetings in 2017 is set out on pages 84 to 85. The Committee held four scheduled meetings in 2017.

Remuneration Committee

The Remuneration Committee is responsible for setting remuneration arrangements for the Chairman, CEO, the executive and any other direct reports of the CEO and any such other members of the executive management or other persons as it is designated to consider. The Remuneration Committee's proposals are considered by both the Board and the Council.

Non-executive remuneration is decided by the Council, on recommendation from the Chairman and CEO who may consult the Remuneration Committee as part of that process.

The Remuneration Committee will meet at least twice a year and otherwise at the discretion of its Chairman or as directed by the Council. The Remuneration Committee reports to the Council and Board on its proceedings after each meeting on all matters relating to its duties and powers and makes recommendations to the Council or Board on any area within its remit where action or improvement is needed.

The Remuneration Committee submits a written report to the Council annually.

The Remuneration Committee is chaired by the Senior Independent Deputy Chairman. The Chairman is a member of the committee and its remaining members are drawn from both the Council and the Board. A table showing Remuneration Committee members' attendance at Remuneration Committee meetings is set out on pages 84 to 85.

The Remuneration Committee met on four occasions in 2017. The Remuneration Committee's full report is on pages 93 to 103.

The Principal Committees of the Board Audit Committee

The Audit Committee's role is to ensure that the financial activities of Lloyd's are subject to independent review and audit. The Audit Committee's functions in 2017 included reviewing Lloyd's annual and interim financial statements in 2017, the aggregate syndicate results and the Lloyd's Return to the PRA; and the Solvency II Pillar 3 return to the PRA.

The CEO, Chief Risk Officer, Chief Financial Officer, senior managers and the external and internal auditors attend meetings as appropriate. The Chairman also attends some Audit Committee meetings by invitation.

Reports from the internal and external auditors on aspects of internal control are reviewed by the Audit Committee and appropriate action taken in response.

The Audit Committee submits an annual report to the Board.

It also reports to the Council and the Board on its proceedings after each meeting. Additional reports are submitted to the Council and/or the Board on matters of material interest as and when necessary. The minutes of Audit Committee meetings are submitted to the Board and the Council.

The Audit Committee is chaired by Richard Keers, an independent non-executive director on the Board. Its remaining members are drawn from both the Council and the Board. A table showing Audit Committee members' attendance at Audit Committee meetings is set out on pages 84 to 85.

The Audit Committee met on four occasions in 2017. The Audit Committee's full report is on pages 104 to 105.

Risk Committee

During 2017, the Risk Committee was chaired by Joy Griffiths (until May) and Patricia Jackson (from June), both independent non-executive members of the Board, and its other members are drawn from both the Council and the Board. Other individuals including the CEO, Chief Risk Officer, Chief Financial Officer and Performance Management Director are regular attendees with others invited to attend all or part of any meeting as and when deemed appropriate by the Risk Committee or its Chair. The Committee submits an annual report to the Board. It also reports to the Council and the Board on its proceedings after each meeting. The minutes of Risk Committee meetings are submitted to the Board and the Council.

A table showing the Risk Committee members' attendance at meetings is set out on pages 84 to 85. It met on ten occasions in 2017.

Market Supervision and Review Committee (MSARC)

MSARC takes decisions regarding the exercise of Lloyd's enforcement powers. It also acts as a review body capable, where appropriate, of amending, modifying or withdrawing certain decisions taken by the Executive affecting managing agents. It also acts as the body that determines whether certain decisions can be referred to the Lloyd's Appeal Tribunal and can also make certain business decisions.

MSARC meets at the discretion of its Chairman. MSARC submits a written report to the Board annually and may submit additional reports to inform the Board of any matters of material concern as and when required.

A table showing MSARC members' attendance at MSARC meetings is set out on pages 84 to 85. MSARC met on two occasions in 2017.

Capacity Transfer Panel

The Capacity Transfer Panel (CTP) was established principally to exercise the Council's powers in relation to minority buyouts and mergers. The Panel meets at the discretion of its Chairman. The Panel submits a written report to the Board annually and may submit additional reports on matters of material concern as and when necessary.

A table showing CTP members' attendance at CTP meetings is set out on pages 84 to 85. The Panel met on two occasions in 2017.

Corporate Governance

Investment Committee

The Investment Committee monitors the investment objectives and parameters of centrally managed assets and is responsible for reviewing the performance of these funds. In addition, it monitors the investment operations of the Treasury and Investment Management department in respect of all funds under its management and approves all investment counterparties. It may also make more general recommendations concerning investment activity at Lloyd's.

The Investment Committee meets at the discretion of its Chairman. The Investment Committee submits a written report to the Board annually and may submit additional reports on matters of material concern as and when necessary. The Investment Committee is required to obtain the approval of the Board before making any decisions which may materially affect the financial risks applying to the Society or Lloyd's market entities.

A table showing Investment Committee members' attendance at Investment Committee meetings is set out on pages 84 to 85. The Investment Committee met on four occasions in 2017.

Terms of reference and appointment terms

The terms of reference for the Council, Board and their committees (including the Audit, Remuneration, Nominations & Governance Committees) can be found on lloyds.com. The terms of reference for the Chairman, Deputy Chairmen (including the Senior Independent Deputy Chairman) and CEO can also be found on lloyds.com.

The terms and conditions of appointment of non-executive members of the Board and the Council are available on request from the Secretary to the Council.

Annual General Meeting

The Council reports to the members at the Annual General Meeting (AGM). A summary business presentation is given at the AGM by the CEO and Chief Financial Officer, before the Chairman deals with the business of the meeting.

Voting entitlement at general meetings is generally capacity-based for both external and working members, except at general meetings called on the requisition of members under section 6(4) of the Lloyd's Act 1982 for the purpose of revoking or annulling byelaws, at which each member has one vote. The resolutions to be considered at general meetings are published on lloyds.com.

Indemnities

The Society has given indemnities to a number of its subsidiary undertakings, and the directors thereof, in respect of any claims or actions which may be brought against them or any future operating losses incurred by them in connection with the companies' activities. The Society has also given indemnities to and has agreed to cover certain specific costs that may be incurred by members of the Council, the Board, the Lloyd's Regulatory Board and the Lloyd's Market Board (the latter two boards ceased during 2002) and of their respective sub-committees, the Society staff and also certain individuals and organisations who have been asked to carry out or provide services to the Society or on behalf of, or for the benefit of, its members.

Council, Board and committee assessments

In accordance with the UK Corporate Governance Code, an external and independent evaluation of the performance of the Council, Board, Audit, Remuneration and Nominations & Governance Committees is undertaken every three years. The next external evaluation is due to be undertaken at the end of 2018.

The Secretary to the Council conducted an assessment of the Council, Board and their principal committees at the start of 2018. The assessment was based on the results of questionnaires issued to the members of these bodies.

The principal conclusion of the assessment was that the current governance arrangements were working effectively and in accordance with the Governance Policies and that the Council and its principal committees were operating in accordance with their terms of reference.

Among the other major findings were:

- To identify further options to enable active and early engagement with members of both the Board and the Council in the development of Lloyd's longer term strategy.
- Following the first year of operation of the non-executive Risk Committee, to ensure that there is sufficient clarity in the delineation of responsibilities and interactions between the Risk Committee, Audit Committee and the Board.
- Whilst recognising that responsibility for ensuring that robust succession plans are in place for appointed positions on the Board and Council has been delegated to the Nominations & Governance Committee, it remains important to ensure that members of the Board and Council have sufficient visibility over the committee's activities in that area.

The recommendations for improvement will be taken forward under the guidance of the Chairman and the Secretary to the Council.

Individual assessment

The Chairman meets each non-executive director on the Board and each member of the Council once a year to appraise their performance. The Senior Independent Deputy Chairman also seeks the views of the Board and the Council on the performance of the Chairman. These views are conveyed to the Chairman by the Senior Independent Deputy Chairman.

Training and induction

All new appointments to the Council and Board receive an induction pack containing guidance notes on Lloyd's governance arrangements.

In addition, new members of the Council and Board are provided with an induction programme which includes briefings with senior executive management and others on Lloyd's, its operations and key issues of the day.

In addition, in 2017, three briefings on a range of Lloyd's related topics were made available to all members of the Council and the Board.

Independent professional advice

Members of the Council and Board have access to independent professional advice, if required.

Conflicts of interest

A register of interests is maintained by the Secretary to the Council for members of the Council, Board and their committees and is available for inspection by members.

Notes

- Capacity Transfer Panel.
- Market Supervision and Review Committee.
- Bruce Carnegie-Brown was appointed as a nominated member of Council and as the Chairman of Council and the Board with effect from 15 June 2017. He also attended the Council meeting on 29 March 2017 and the Board meetings on 28 March 2017 and 25 May 2017 as an observer (included in the statistics above).
- John Nelson stepped down as the Chairman of the Council and as a nominated member of Council, and as the Chairman of the Board on 31 May 2017.
- John Nelson also stood down as the Chairman of the Nominations Committee and as a member of the Remuneration Committee on 31 May 2017 and was succeeded by Bruce Carnegie-Brown.
- Karen Green and Richard Pryce joined the Remuneration Committee on 2 February 2017.
- Robert Childs joined the Nominations & Governance Committee on 27 September 2017.
- Dominick Hoare was formally elected to Council as from 19 April 2017. He also attended the Council meeting on 29 March 2017 as an observer (included in the statistics above).
- Michael Watson and Martin Read joined the Audit Committee on 2 February 2017.
- Gregory Fleming was appointed as a nominated member of Council on 30 March 2017 and relinquished his position on 27 September 2017.
- Fred Hu stepped down as a nominated member of Council on 7 May 2017.
- Mark Cloutier joined the Nominations & Governance Committee on 2 February 2017.
- Joy Griffiths' term of office as an independent non-executive director of the Board expired on 30 June 2017.
- Patricia Jackson was appointed as an independent non-executive director of the Board on 30 March 2017.
- Patricia Jackson was formally appointed as a member of the Risk Committee on 6 April 2017. She also attended two Risk Committee meetings in April 2017 as an observer (included in the statistics above). Joy Griffiths chaired the first five Risk Committee meetings of the year prior to her retirement on 30 June 2017. Patricia Jackson chaired the remaining five meetings of the Risk Committee.
- Lady Delves Broughton recused herself from CTP proceedings. Her nominated alternates Lady Davis and David Harden represented her at the first and second meetings of the year respectively.
- Paul Jardine was a member of the Remuneration Committee until his term on Council expired on 31 January 2017.

Corporate Governance: The Council

1. Bruce Carnegie-Brown

Nominated member

Appointed 15 June 2017

Chairman of Lloyd's

Chairman of the Nominations

& Governance Committee

Member of the Remuneration Committee

Bruce Carnegie-Brown was appointed Chairman in June 2017. He is currently also Chairman of Moneysupermarket Group and a Vice-Chairman of Banco Santander. He was a Non-Executive Director of JLT Group plc from 2016 to 2017, prior to which he was Non-Executive Chairman of Aon UK Ltd from 2012 to 2015, Senior Independent Director of Catlin Group Ltd from 2010 to 2014 and Chief Executive for Marsh UK and Europe from 2003 to 2006. He was also a Senior Independent Director of Close Brothers Group plc from 2006 to 2014. He previously worked at JP Morgan for 18 years in a number of senior roles and was Managing Partner of 3i Group plc's Quoted Private Equity Division from 2007 to 2009. He is President of the Chartered Management Institute.

2. Inga Beale DBE

Nominated member

Appointed 27 January 2014

Chief Executive Officer

Inga Beale was appointed Chief Executive Officer in January 2014. Previously she was Group Chief Executive of Canopus with its principal operations at Lloyd's. Prior to that she spent four years with Zurich Insurance Group including a period as Global Chief Underwriting Officer. She was Group CEO of Swiss reinsurer Conventum Ltd and while there she led a major turnaround of the business before it was acquired by SCOR in 2007. She started her career as a reinsurance underwriter with Prudential before spending 14 years in a variety of international roles for GE Insurance Solutions. She is a Member of the UK Government's Financial Services Trade and Investment Board, the London Mayor's Business Advisory Board, the Geneva Association Board, and is President of the UK Chartered Insurance Institute.

3. Andy Haste*

Nominated member

Appointed 1 November 2012

Senior Independent Deputy Chairman of Lloyd's

Member of the Nominations

& Governance Committee

Chairman of the Remuneration Committee

Andy Haste is Chairman of Wonga Group. He is also Senior Independent Director of ITV, and is a Member of both its Audit and Nomination Committees. He chaired ITV's Remuneration Committee from 2010 to 2017. Since 2012 he has also been Senior Independent Deputy Chairman of Lloyd's, where he Chairs its Remuneration Committee, Investment Committee and Capacity Transfer Panel. His previous roles include Group Chief Executive of RSA Insurance Group plc, Chief Executive of AXA Sun Life plc, Director of AXA UK plc (life and pensions), President and Chief Executive Officer of GE Capital Global Consumer Finance Western Europe and Eastern Europe and President and CEO of National Westminster Bank's US Consumer Credit Business (retail banking). He was also a Member of the Board of the Association of British Insurers from 2003 to 2011. He is one of the leading practitioners from business, the media and other organisations who assist with research, programmes and events at the Oxford University Centre for Corporate Reputation.

He was Chief Executive of international IT services company Logica from 1993 to 2007 and has served as a Non-Executive Director on the Boards of Invensys, Aegis Group, British Airways, Siemens Holdings, Boots, ASDA and the UK Government Efficiency and Reform Board. He led UK Government reviews on back office operations and IT across the public sector (2009) and management information (2012).

*Considered to be an independent Non-Executive Director.

Internal Control Statement

The Board, on behalf of the Council, has responsibility for the Society's system of internal control and for reviewing its effectiveness. The Audit Committee monitors and reviews the effectiveness of the system of internal control, providing biannual reports to the Board. The Executive Committee is responsible for the implementation and maintenance of the internal control system and for instilling a strong internal control environment across the Corporation and market.

The internal control system provides the foundation for the safe and sound operation of the business, ensuring compliance with relevant laws and regulations and the safeguarding of assets. The system is designed to reduce, rather than eliminate, the risk of failure to achieve business objectives and can only provide reasonable but not absolute assurance against material misstatement or loss.

In accordance with the guidance of the UK Corporate Governance Code on internal control, and Solvency II requirements, there is an established, ongoing process for identifying, evaluating and managing significant business, operational, financial, compliance and other risks. Other procedures such as our Speaking-up Policy whereby any member of staff may take matters that concern them to the Human Resources Director, the Legal and Compliance departments or, where appropriate, to the Chairman of the Audit Committee or the FCA or the PRA, are clearly set out. Associate companies, Ins-sure Holdings Limited and Xchanging Claims Services Limited, are not dealt with as part of the Group for the purposes of applying the UK Corporate Governance Code.

The Group's key risk management processes and the system of internal control procedures include the following:

Management structure

'Lloyd's Governance Arrangements: A Guide for Members of Lloyd's Committees', reviewed and updated in February 2018, outlines the governance structure and committee members' duties and responsibilities, including confidentiality and conflicts and declarations of interest.

There is a clearly defined organisation structure with terms of reference agreed for the CEO and all directors which sets out, inter alia, their functions and powers, authority to act and limitations on authority. Role profiles are required to ensure that employees are aware of their role and responsibilities and sets out the equivalent information, as agreed with their line manager.

The Society is committed to the highest standards of business conduct. Corporate policies and procedures are available to all staff and include the Code of Conduct, Compliance Manual, Employee Handbook, Health & Safety Policy, Information Security and Computer Usage Policy, Procurement Policy, Risk Policies, Financial Policies and authorisation limits. These policies and procedures are regularly reviewed and updated.

Lloyd's maintains an internal audit function that reports to the CEO and the Audit Committee. The Head of Internal Audit is supported by Deloitte LLP which provides resources to complete the annual Internal Audit Plan.

Identification and evaluation of business risks

The Risk Management Framework (the framework) ensures that the identification, assessment, monitoring and management of all material risks affecting the Society takes place on an ongoing basis. The framework includes a number of risk assessment techniques, which are tailored to specific risk areas.

One such technique is the comprehensive risk and control assessment process, which is conducted on a regular basis. This review re-assesses the existing risks and identifies any new or emerging risks. It evaluates the performance of key controls and also seeks to monitor the action plans in place to help manage risks. The framework also enables Lloyd's to undertake a more forward looking assessment of risk, building capital consideration into the decision making processes. An Own Risk and Solvency Assessment (ORSA) is performed every year, bringing together key risk, capital and solvency management information on a more formal basis for the Board on a current and future basis. While an annual process, the ORSA is reviewed on a quarterly basis to ensure it remains relevant.

The risk governance structure, which includes the Risk Committee provides clear independent challenge to the risk takers at Lloyd's and enables tailored risk management operating models, rather than a 'one-size-fits-all' platform.

The Risk Committee oversees, challenges and where appropriate escalates issues using appropriate management information sourced from the Risk Management and internal control frameworks, such as the various risk and control assessments, details of the operating and regulatory environment and capital management reports. The risk governance structure is reviewed on a regular basis to ensure it remains fit for purpose.

A key objective of the Lloyd's risk governance structure is to provide assurance to the Board that risks facing the Society are identified and managed in accordance with approved policy and risk appetite. The Risk Appetite Framework articulates the level of risk believed to be acceptable and desirable for Lloyd's through a series of risk appetite statements and metrics. These are monitored on an ongoing basis by both the business areas responsible for each risk area and the Risk Committee.

A framework of regular self-certification, with targeted independent challenge, is in place and where control failures have been reported, details of the circumstances are required together with appropriate corrective actions. A summary of these reports is reviewed by the Executive Committee, Risk Committee, Board and the Audit Committee on a regular basis.

Internal auditors also perform independent reviews of control activities as part of their annual programme as approved by the Audit Committee. The Head of Internal Audit reports to the Executive Committee on a regular basis and to each Audit Committee meeting.

A compliance plan is in place to manage the risk associated with non-compliance with FCA/PRA regulatory processes. The Head of Compliance provides progress reports to the Risk Committee.

International regulatory compliance risk is overseen through the Overseas Risk Assessments completed by global offices.

Information and financial reporting systems

An annual budget for the Society is reviewed in detail by the Executive Committee and is considered and approved by the Board and Council. Monthly financial reports compare actual performance with the annual budget and management action is taken, where appropriate, when variances arise. Revised forecasts are prepared regularly.

Report of the Remuneration Committee

This report is based upon best practice as set out in the UK Corporate Governance Code and by reference to the Directors' remuneration reporting regulations for UK listed companies. The code and regulations are directed at companies listed on the London Stock Exchange, whereas Lloyd's is a market of many separate and competing trading entities. Nonetheless, the Council supports their principles insofar as they can be applied to the governance of the Society.

Statement by Chair of the Remuneration Committee

I am pleased to present the Remuneration Committee's report for 2017 in the following pages. As in previous years, the Committee continues to focus on delivering a remuneration policy that is capable of attracting and retaining the calibre of employees needed to deliver the Corporation's strategic priorities and maintain an effective market oversight regime. The following themes underpin our remuneration policy:

- Nature of the Corporation – our remuneration structure for Executive Directors reflects the unique nature of the Corporation. We operate a policy with a decreased emphasis on variable pay to reflect better the nature and market oversight role of the organisation.
- Alignment to strategy – individual performance bonuses are linked to the annual KPIs and our achievements against strategic priorities.
- Alignment to the Lloyd's market – an element of remuneration is based on the profitability of the Lloyd's market. This is designed to encourage an attitude of commercial partnership with the market and align the interests of participants with capital providers. We also incorporate consideration of market and corporation risk metrics when measuring performance.

Key remuneration decisions

Base salaries are reviewed annually and updated where appropriate. The Chief Executive Officer's salary will remain the same for 2018. The base salaries for the Chief Financial Officer and the Performance Management Director were increased by 2% for 2018.

Lloyd's made good progress against strategic priorities in 2017, which is reflected in the bonus awards (see pages 96 to 98).

The annual bonus awards are based on an assessment of each Director's performance against individual key performance indicators. The Committee aims to ensure that KPIs are stretching and aimed at delivering strategic priorities while remaining in accordance with Lloyd's risk policies and risk appetite.

For 2017, no LPP awards have been made.

Solvency II requirements

Last year we made a number of changes to our remuneration structure to take into account Solvency II. The key changes were:

- Increase in deferral time horizons for Solvency II staff.
- Deferral of a portion of the annual bonus where required to ensure that PRA guidelines are met for Solvency II staff.
- Introduction of a risk underpin for both the annual bonus and LPP.

Key management and Board changes

Bruce Carnegie-Brown became the Chairman of Lloyd's on 15 June 2017. His annual fee on appointment was £600,000pa, and will remain at this level for 2018.

UK Pension changes

As part of the review of benefits across the Corporation, it was decided during the year that the Lloyd's Pension Scheme (the Corporation's defined benefit scheme) would close to future accrual from 30 June 2018. As a result of this change, John Parry CFO will join the Group Personal Pension Plan (GPP), the Corporation's defined contribution plan, on the same terms as the other Executive Directors.

The GPP contribution matrix was also externally benchmarked and reviewed, with increased levels being approved from 2018 for all employees.

Review of remuneration policy

During 2017, Lloyd's carried out a review of the current incentive framework with a view to simplifying existing arrangements under a single Lloyd's Incentive Plan, for all employees across the organisation.

The key features under the revised framework effective from 2018 include:

- An individual performance award linked to the annual KPIs and strategic priorities.
- A market award directly linked to the profitability of the Lloyd's market, and now also subject to personal performance.
- Three year deferral of the market award and the annual bonus where required for Solvency II staff.
- Risk underpins apply to all incentive awards.

All employees in the Corporation are eligible to participate in Lloyd's incentive arrangements, and the framework is consistent across all employees in the Corporation.

A review of UK wider reward was also undertaken in 2017 to ensure total reward remains competitive, relevant and within risk appetite. Reward for non-UK employees will be reviewed in 2018.

Andy Haste

Chairman, Remuneration Committee
20 March 2018

Report of the Remuneration Committee

Compliance statement

The Corporation is not required to report under the Directors' remuneration reporting regulations, as these only apply to UK listed companies. The Committee has chosen to broadly follow the disclosure principles in those regulations in so far as they can be applied to the governance of the Society.

For the purposes of this report, 'Executive Directors' refers to Inga Beale (Chief Executive Officer or CEO), Jon Hancock (Performance Management Director) and John Parry (Chief Financial Officer) – i.e. Directors who are current members of the Board.

Summary of remuneration policy and outturns for 2017

The following table provides a summary of how our remuneration policy was implemented in 2017. A summary of the remuneration policy for 2018 is provided on page 102.

Salary	<p>Salaries are set to appropriately recognise responsibilities and be broadly market competitive.</p> <p>For 2017, annual salaries were as follows:</p> <p>CEO: £715,000</p> <p>Chief Financial Officer: £425,000</p> <p>Performance Management Director: £500,000</p>														
Annual Bonus	<p>The discretionary annual bonus plan links reward to corporate and individual Key Performance Indicators (KPIs) aligned with our strategy.</p> <table><tr><th>Role</th><th>Maximum</th><th>Outturn</th></tr><tr><td>CEO</td><td>75% of salary</td><td>57% of salary</td></tr><tr><td>Chief Financial Officer</td><td>50% of salary</td><td>37% of salary</td></tr><tr><td>Performance Management Director</td><td>50% of salary</td><td>41% of salary</td></tr></table> <p>In 2017, annual bonus awards were also subject to a 'risk underpin'. The Committee assessed performance against a range of Corporation risk and compliance metrics and decided to apply a downward adjustment to a number of individual bonus awards across the Corporation.</p> <p>A portion of the annual bonus will be deferred for three years, so that total incentives meet the PRA guidance to defer at least 40% of the total variable pay. As there is no LPP award for 2017, 40% of the 2017 bonus award will be deferred for three full years.</p>			Role	Maximum	Outturn	CEO	75% of salary	57% of salary	Chief Financial Officer	50% of salary	37% of salary	Performance Management Director	50% of salary	41% of salary
Role	Maximum	Outturn													
CEO	75% of salary	57% of salary													
Chief Financial Officer	50% of salary	37% of salary													
Performance Management Director	50% of salary	41% of salary													
Long-term incentives	<p>The Lloyd's Performance Plan (LPP) offers an incentive which is directly linked to the profitability of the Lloyd's market. Annual LPP awards are calculated by reference to profit levels in the year. LPP awards are only triggered for profit in excess of £100m. For 2017, there is no LPP award.</p> <p>For the Executive Directors, the whole of any LPP award is deferred for three years to be paid in the fourth financial year following the end of the performance period (April).</p> <p>For the Executive Directors, a maximum cap of 50% of salary applies.</p> <p>Executive Directors will receive any LPP deferred from prior years, payable in accordance with the deferral requirements.</p> <p>LPP awards are subject to a 'risk underpin'.</p>														
Pension	<p>The CEO and Performance Management Director are members of the Group Pension Plan (GPP), which is a defined contribution plan.</p> <p>The CEO receives an annual contribution of £40,000 into the GPP. From April 2016, due to changes in the annual allowance, this has been structured as a £10,000 contribution, with a cash allowance of £26,362 (balance of a £40,000 contribution less employer's NI). The Performance Management Director receives an annual contribution of £10,000.</p> <p>The Chief Financial Officer participates in the Lloyd's Pension Scheme, which is a defined benefit scheme which will close to future accrual from 30 June 2018. From 1 July 2018, John Parry will join the Group Personal Pension Plan with an annual contribution of £10,000.</p> <p>All Executive Directors receive an additional cash allowance of 20% of base salary.</p>														

Annual remuneration report

This part of the report sets out the annual remuneration for 2017 and a summary of how the policy will apply for 2018.

Single total figure of remuneration

The total remuneration receivable in respect of qualifying services for each person who served as a Board Director or member of Council during the year is shown below. Further detail on annual bonus and LPP Awards is shown on pages 96 to 98.

Report of the Remuneration Committee

Table notes

1. Other benefits include items such as benefit allowances, medical and life insurance.
2. Pension benefit is calculated as 20 times the increase in pension in the year (net of inflation) less the salary sacrificed, and also includes any pension cash allowances.
3. Current employee of the Corporation.
4. Member of both Council and the Board for 2017.
5. Member of the Board only.
6. Member of the Remuneration Committee during 2017. Paul Jardine retired from the Remuneration Committee on 31 January 2017. Karen Green and Richard Pryce joined the Remuneration Committee on 2 February 2017.
7. Lawrence Holder and Paul Jardine retired from Council on 31 January 2017. Jeffery Barratt and Andrew Brooks joined Council on 1 February 2018. Fred Hu retired from Council on 7 May 2017. Rupert Atkin, Christopher Harman and Alan Lovell retired from Council on 31 January 2016. Henrique Meirelles and Michael Deeny retired from Council on 7 April 2016 and 31 October 2016 respectively.
8. John Nelson retired as Chairman of Lloyd's on 31 May 2017 and Bruce Carnegie-Brown's term as Chairman of Lloyd's started on 15 June 2017.
9. The following members of Council act as representatives of limited liability underwriting vehicles – Jeffery Barratt (Nameco (No 1249) Ltd), Robert Childs (Hiscox Dedicated Corporate Member Ltd), Matthew Fosh (Novae Corporate Underwriting Ltd), Dominick Hoare (Munich Re Capital Ltd), Philip Swatman (Nomina No 115 LLP) and Michael Watson (Flectat Ltd). The following members acted as representatives of limited liability underwriting vehicles – Michael Deeny (The Michael Deeny LLP), Paul Jardine (Catlin Syndicate Ltd) and Alan Lovell (Palace House International (Two) LLP).
10. Tom Bolt resigned as a Corporation employee and as a member of the Board on 31 May 2016. Sean McGovern also resigned as a Corporation employee and as a member of the Board on 30 September 2016.
11. Jon Hancock was formally appointed as Performance Management Director and as an Executive Director on the Board on 1 December 2016.
12. Richard Pryce and Patricia Jackson joined the Board on 1 January 2017 and 30 March 2017 respectively. Nick Furlonge and Joy Griffiths retired from the Board on 31 December 2016 and 30 June 2017 respectively. Bruce Van Saun retired from the Board on 31 May 2016 and Richard Keers joined the Board on 1 June 2016. Claire Ighodaro and Nick Furlonge retired from the Board on 31 December 2016.

Salary

The annual salaries of the Executive Directors take into account a range of factors, including increases for all employees across the Corporation, and are reviewed by the Remuneration Committee annually. 2018 salaries are as follows:

	2018 Base salaries £000	Increase on 2017
CEO	715	0%
Performance Management Director	510	2%
Chief Financial Officer	433	2%

Increases awarded were lower than the average increases awarded for all employees.

Annual bonus

Executive Directors are eligible for a discretionary annual bonus. Payouts are based on the Committee's judgement of performance against corporate and individual Key Performance Indicators (KPIs) for the year. The Remuneration Committee reviews strategic and operational objectives and KPIs at the start of the financial year, to ensure that they are stretching and aligned to the Corporation's strategic objectives.

In 2017, annual bonus awards were subject to a 'risk underpin'. The Committee assessed performance against a range of Corporation risk and compliance metrics and decided to apply a downward adjustment to a number of individual bonus awards across the Corporation.

Bonus outturns for 2017

The following table sets out the strategic targets and performance against each of the annual KPIs linked to our strategy, which resulted in the bonus outcomes for 2017.

Annual KPI (strategic priority)	Performance
Market oversight	Actions taken to clean up poor performing portfolios. 2017 saw a robust but balanced approach to approving syndicate business plans. The process was more streamlined with a final outcome for 2018 showing acceptable improvement.
Global Market Access	Lloyd's onshore reinsurance platform in India became operational in April. Lloyd's obtained Morocco onshore trading rights in Casablanca. Lloyd's are making preparations to write business through a new Lloyd's Brussels subsidiary.
Ease of Doing Business	Planned Placing Platform Ltd business lines went live and a significant system upgrade was delivered. Central Service Refresh Programme claims functionality delivered. Delegated authority audit tool being used by 98% of firms resulting in 1500 fewer audits.
Capital	Lloyd's received approval from the PRA for a major model change to its internal model for solvency and capital setting under Solvency II. Lloyd's issued £300m of subordinated debt to further strengthen its central assets. Assets available to cover Central SCR remained in excess of our risk appetite.
Innovation	Several thought leadership reports published and market reports on business lines. The first in a series of innovation events was launched in June.
Talent	Succession planning process for all SIMR roles in the Corporation was reviewed and updated. The Corporation has set internal gender diversity targets in its senior management population. During the year the percentage of females in our senior management population in the UK increased by 1.6ppts to 36.7%.
Brand	For 2017, international visits to Lloyd's website increased by 5.7%. Downloads of our thought leadership reports saw a significant increase over 2016.
Global CSR	Responsible business strategy for the Corporation has been drafted. A responsible business strategy for the Lloyd's market will be considered in 2018.
Risk metric	Management actions were put in place to deal with our risk appetites that were flagged 'red' during the year. A review of the risk appetite framework was carried out.

Taking into account an overall assessment of individual performance and contribution, and Corporation risk, the Committee determined the following annual bonus payments:

Role	Maximum	Outturn
CEO	75% of salary	57% of salary
Chief Financial Officer	50% of salary	37% of salary
Performance Management Director	50% of salary	41% of salary

An element of the 2017 annual bonus will be deferred for payment in April 2021, to comply with Solvency II remuneration requirements on minimum levels of variable remuneration subject to deferral.

Report of the Remuneration Committee

Lloyd's Performance Plan

The Lloyd's Performance Plan (LPP) has been designed to meet Lloyd's strategic objectives by enabling the Corporation to offer an incentive which:

- Is directly linked to the profitability of the Lloyd's market and will therefore encourage an attitude of commercial partnership with the market and align the interests of participants with capital providers; and
- Will provide a competitive reward and therefore assist Lloyd's in attracting and retaining the talented individuals required to develop and support future strategy.

The plan is operated at the discretion of the Remuneration Committee and can be amended or terminated at any time.

All employees of the Corporation and international offices were eligible to participate in the LPP for 2017 on the basis set out as below.

Overview of LPP awards

- LPP awards are calculated by reference to profit on ordinary activities before tax (PBT), as reported in the pro forma financial statements in the Lloyd's Annual Report for each financial year.
- Awards will only be triggered for PBT in excess of £100m.
- Awards for each financial year will be calculated as a percentage of the participants' salaries at 31 December in that year, for each £1bn of PBT.
- LPP awards are subject to a 'risk underpin'. The Committee assesses performance against market-based risk and compliance metrics, and may apply a downward adjustment where appropriate.
- In respect of the CEO and all Directors and other designated Solvency II staff, any 2017 LPP awards are deferred and paid in April 2021 (subject to a proportionality test as described below).
- For Level 1 employees whose remuneration is below the proportionality test, the LPP will be paid on an ongoing fund basis. Under this approach, one half of an award will be paid in April following the relevant financial year, with the remaining 50% paid one year later.
- For other employees, the LPP is paid in full in April following the relevant financial year.

The framework for determining LPP awards is as follows:

Job level	Amount of LPP award	Limits on LPP awards (cap as a percentage of salary)
Executive Directors and other Directors*	15% of salary per £1bn of PBT	50%
Senior managers (Level 1)	10% of salary per £1bn of PBT	30%
Other employees (Level 2-4)	5%-3% of salary per £1bn of PBT (depending on level)	15%-9% (depending on level)

*One Director is on a legacy arrangement of 20% of salary per £1bn PBT, capped at 100% of salary.

2017 LPP awards (outturns)

For 2017, no LPP awards have been made.

The LPP for Executive Directors was previously structured as an ongoing fund. A summary of fund movements in the year is provided below:

	Total fund outstanding as at 31 December 2016 or date of appointment £000	Amount paid during the year ended 31 December 2017 £000	LPP Award in respect of 2017 £000	Total fund outstanding as at 31 December 2017 £000
Inga Beale	752	(304)	—	448
Jon Hancock	—	—	—	—
John Parry	261	(16)	—	245

The information in this table has been audited by the independent auditors, PricewaterhouseCoopers LLP.

Pensions

The CEO receives an annual contribution of £40,000 into the Group Personal Pension Plan (GPP), the Corporation's pension scheme. From April 2016, due to changes in the annual allowance, this has been structured as a £10,000 contribution, with a cash allowance of £26,362 (which is the balance of a £40,000 contribution less employer's NI). The CEO also receives a cash allowance of 20% of salary, in line with other Executive Directors.

The Performance Management Director (Jon Hancock) receives an annual contribution of £10,000 into the GPP Plan. He also receives an annual cash allowance of 20% of base salary.

The Chief Financial Officer is a member of the Lloyd's Pension Scheme. The terms of the Scheme and details of accruals and contributions in the year are as follows:

Details of pension arrangements	Pension arrangements provide for a pension at normal retirement of two thirds base annual salary after 20 years' eligible service less any entitlement from previous pension arrangements and subject to a Scheme earnings cap of £154,200 from 6 April 2017.
Contributions and accruals in 2017	Salary sacrifice of 10% of the earnings cap in exchange for additional employer pension contributions of the same amount.

The Chief Financial Officer also received a cash allowance of 20% of base salary. Details of his rights under the Lloyd's Pension Scheme and the transfer value of accrued pension benefits are set out below.

Salary sacrifice in year to 31 December 2017 £000	Age at 31 December 2017	Increase in pension in year to 31 December 2017 – actual £000	Increase in pension in year to 31 December 2017 – net of price inflation £000	Total accrued annual pension in year to 31 December 2017 £000 pa	Scheme rights		Transfer value		
					Normal retirement age		Transfer value of accrued pension as at 31 December 2016 £000	Transfer value of accrued pension as at 31 December 2017 £000	Movement in transfer value over the year less amounts salary sacrificed £000
15	54	6	4	70	60		1,376	1,535	159

The transfer value represents a liability of the Lloyd's Pension Scheme, not a sum paid or due to the individual. The transfer value has increased over the year in line with the increase in accrued pensions and due to changes in market conditions.

From 1 July 2018, John Parry will join the GPP Plan on the same terms as other Executive Directors (i.e. capped annual contribution of £10,000) and there will be no further accruals under the Lloyd's Pension Scheme. He will continue to receive a cash allowance of 20% of base salary.

No other payments to the Executive Directors are pensionable. Their dependants are eligible for the payment of a lump sum in the event of death in service and, for the Chief Financial Officer, dependants' pensions.

Departing Directors and Executives

John Nelson, Chairman, left Lloyd's on 31 May 2017 and payment of his annual fee ceased at this time. No other payments were made on leaving.

Service contracts and loss of office payment policy

The Executive Directors have rolling contracts with notice periods which will not exceed one year. The Chairman has a contract for three years from appointment.

	Appointment date	Unexpired term as at 31 December 2017	Notice period
Bruce Carnegie-Brown	15 June 2017	2 years 6 months	12 months
Inga Beale	27 January 2014	rolling 1 year	12 months
John Parry	11 December 2014	rolling 6 months	6 months
Jon Hancock	1 December 2016	rolling 6 months	6 months

The Chairman and the Executive Directors' service contracts are kept available for inspection by Lloyd's members at the Corporation's registered office.

Report of the Remuneration Committee

External and working members are elected to Council while nominated members are appointed to Council, usually for a three year period. Members of the Board are appointed by Council with Non-Executive Directors' terms of office varying between one and three years. These are not contractual arrangements and compensation is not paid if a member leaves early.

Additional disclosures

Nine year CEO remuneration

	CEO single figure of total remuneration £000	Annual bonus award as a percentage of maximum opportunity	LPP award as a percentage of maximum opportunity
2017	1,304	76%	0%
2016	1,525	75%	63%
2015	1,531	81%	63%
2014	1,494	74%	95%
2013	1,795	75%	65%
2012	1,759	75%	55%
2011	1,499	90%	0%
2010	1,750	90%	44%
2009	1,771	83%	77%

Chief Executive Officer pay increase in relation to all employees

The table below sets out details of the change in remuneration for the CEO and all Corporation employees.

	CEO %	All employees %
Salary	0	5
Other benefits	6	0
Annual bonus	1	11

Relative importance of spend on pay

	2017 £m	2016 £m
Operating income	351	332
Total remuneration – all employees	120	130

Operating income excludes income relating to the Central Fund. Total remuneration excludes items such as employer's social security costs, net interest on defined benefit liability, non-executive remuneration, and recruitment fees.

Remuneration for the Chairman and members of the Council and Board who are not employees of the Corporation

The Chairman's remuneration will not be increased in 2018 and will remain unchanged at £600,000 per annum.

Fees for 2017 for Council and Board members were £38,500 and £62,000 per annum respectively. Fees will not be increased for Board members for 2018. Fees are also payable in respect of membership of a number of Council and Board committees, including ad hoc committees established to consider specific issues requiring a significant time commitment. Fees payable for members of the Risk Committee were increased for 2018. For 2017 the additional fee payable to the Deputy Chairmen, over and above the standard Council member's fee, was £11,000 per annum. This was increased to £12,000 for 2018.

Details of the Remuneration Committee, advisers to the Committee and their fees

Within the policy for remuneration approved by the Council, the Remuneration Committee is responsible for setting the total individual remuneration package for the Chairman of Lloyd's, the Chief Executive Officer, each Executive Director, any other senior direct reports of the Chief Executive Officer and such other members of the executive management (including individual consultants) as it is designated to consider.

The Remuneration Committee currently comprises six members – three members of Council, two members of the Board and the Chairman of Lloyd's. It has been chaired by Andy Haste (a Nominated member of Council and Senior Independent Deputy Chairman) since November 2012.

The Remuneration Committee met four times in 2017. The attendance record is set out in the Corporate Governance report on page 84. The Committee's terms of reference are available on lloyds.com and on request from the Secretary to the Council.

The Remuneration Committee was assisted by its remuneration consultants, Deloitte LLP, who adhere to the Code of Conduct for executive remuneration consultants. Deloitte LLP was appointed by the Remuneration Committee. Deloitte LLP adheres to working practices which have been agreed with the Remuneration Committee Chairman, for the purpose of maintaining independence.

The Committee is satisfied that the advice received from Deloitte LLP was objective and independent. Total fees paid in respect of advice and services to assist the Remuneration Committee amounted to £57,250 for the year. Deloitte LLP also provided other services to the Corporation during the year, including the co-sourced Internal Audit resource, risk and project management advice, other ad-hoc assurance services and tax advice.

At the request of the Remuneration Committee, the Chief Executive Officer and HR Director regularly attend Remuneration Committee meetings. Other senior executives, for example the Chief Risk Officer are invited to attend for specific agenda items from time to time.

Neither the Chairman, nor the Executive Directors or any other Director, plays a part in any discussion about his or her own remuneration.

Remuneration policy for 2018 (summary and key changes)

This part of the report summarises how the Corporation's remuneration policy will apply for the Executive Directors in 2018.

These changes include:

- the simplification of the existing annual bonus plan and LPP under a single Lloyd's Incentive Plan, to align with the approach taken across the wider population. There is no change to the maximum incentive levels; and
- the closure of Lloyd's Pension Scheme (the Corporation's defined benefit scheme) to future accrual from 1 July 2018. All Executive Directors will be members of the Group Personal Pension Plan and receive cash allowances.

All other elements will operate in accordance with the remuneration policy set out in the 2016 Annual Report, on pages 111 to 116. The policy is not legally binding, and the Committee reserves the right to amend the policy at any time.

Report of the Remuneration Committee

Summary of policy

Base salary		<ul style="list-style-type: none">Salaries set to appropriately recognise responsibilities and be broadly market competitive.Generally reviewed annually by the Remuneration Committee.No maximum salary increase; however, any increases will generally reflect our approach to all employee salary increases. Exceptions, in certain circumstances, may be made, for example to reflect a new appointment, change in role/adoption of additional responsibilities, changes to market practice or the development of the individual in the role.
Lloyd's Incentive Plan	Individual element	<p>Performance measures</p> <ul style="list-style-type: none">Individual awards paid with reference to performance against objectives and KPIs (linked to strategy) during the year.Individual awards are subject to a 'risk underpin'. The Committee will assess performance against Corporation risk and compliance metrics, and may apply a downward adjustment where appropriate. <p>Maximum</p> <ul style="list-style-type: none">Current individual maximums are 75% of salary (CEO); 50% of salary (other Executive Directors). <p>Operation</p> <ul style="list-style-type: none">Payment is usually made in April following the end of the financial year. However, an element may be deferred for three years where the total variable deferred amount does not meet the 40% deferral threshold.The Committee may apply malus and clawback to individual awards (see below).
	Market element	<p>Performance measures</p> <ul style="list-style-type: none">Market awards directly linked to Lloyd's market profitability in the year, subject to a minimum threshold of £100m.Market awards are subject to a 'risk underpin'. The Committee will assess performance against market-based risk and compliance metrics, and may apply a downward adjustment where appropriate.The Market element is also subject to individual performance. <p>Maximum</p> <ul style="list-style-type: none">Current individual maximums are 50% of salary for Executive Directors. <p>Operation</p> <ul style="list-style-type: none">For the Executive Directors, it is intended that the whole of the award will be deferred for three years and paid in April of the fourth financial year following the end of the performance period.The Committee may apply malus and clawback to market awards (see below).
Pension		<ul style="list-style-type: none">Executive Directors are members of the Group Personal Pension Plan, a defined contribution plan, and receive an annual contribution of £10,000.¹Due to changes in the pension legislation during 2016, the CEO also receives a cash payment (equal to the balance of her previous annual pension contribution, less a deduction for employer's NI).The Executive Directors also receive a cash allowance of 20% of base salary.
Benefits		<ul style="list-style-type: none">Benefits include a benefits cash allowance, private medical insurance, life insurance and a season ticket loan facility. The CEO does not receive a benefits cash allowance.Relocation benefits may be offered in certain circumstances.

¹As set out on page 94, for the period 1 January 2018 to 30 June 2018, John Parry will remain a member of the Lloyd's Pension Scheme.

Malus and Clawback

For incentive awards in respect of 2014 and subsequent years, malus and clawback provisions apply.

Malus may be applied prior to payment including any deferral period. For senior employees (excluding the CEO) the circumstances in which malus may be applied are employee misconduct, material financial misstatement for which the employee was responsible, or deliberate or negligent failure in risk management for which the employee was responsible. In addition, the Committee retains the discretion to clawback awards for a period of six years from the date of award. The circumstances in which clawback may be applied are serious employee misconduct, material financial misstatement for which the employee was responsible, or deliberate failure in risk management for which the employee was responsible.

For the CEO, the circumstances in which malus may be applied are broader and include, but are not limited to, employee misconduct or the performance indicators relied on to determine the award being found to be materially different. The circumstances in which clawback may be applied are employee misconduct or the performance indicators relied on by the Committee being found to be materially different to those previously considered by the Committee (whether or not involving any culpability on the part of the individual). The clawback period is indefinite for the CEO.

Fee policy for the Chairman and members of the Council and Board who are not employees of the Corporation.

The Chairman does not participate in the Corporation's incentive plans.

The Chairman and CEO are responsible for making recommendations to the Council for the remuneration of members of Council, the Board and their committees (other than themselves and the Executive Directors). In making their recommendations, the Chairman and CEO may liaise and consult with the Remuneration Committee as they think appropriate.

Remuneration for all members of Council and Board who are not employees of the Corporation is designed to attract people of sufficient calibre and experience to govern Lloyd's affairs by providing an appropriate level of fees which reflects the demands made upon them. Reference may also be made to independent surveys of fees paid to non-executive directors of similar organisations.

Fees for non-employee members of the Council and Board comprise payment of an annual fee and additional fees to reflect specific responsibilities (eg membership or chairmanship of a number of Council and Board committees), where applicable.

Non-employee members of the Council and Board are not eligible to join the Lloyd's Pension arrangements.

Andy Haste

Chairman, Remuneration Committee
20 March 2018

Report of the Audit Committee

Statement by Chair of Audit Committee

On the following pages we set out the Report of the Audit Committee. The report comprises the following sections:

- Composition of the Audit Committee;
- Financial Reporting;
- Internal Control; and
- Auditors.

Our principal aim is to assist the Council in discharging its responsibilities for monitoring the integrity of the Society's financial reporting, assessing the effectiveness of the internal controls of the Society and monitoring the effectiveness, independence and objectivity of the internal and external auditors. The committee's reporting line was moved from the Council to the Board in June 2017.

Richard Keers

Chairman, Audit Committee
20 March 2018

Composition of the Audit Committee

The committee, at the end of 2017, comprised two external members of the Council and four Non-Executive members of the Board. The committee met four times during the year. The members of the committee in 2017 and their attendance at meetings are shown in the Corporate Governance report on pages 84 to 85.

The committee members have extensive commercial experience which enables the committee to fulfil its terms of reference in a robust and independent manner.

For the purposes of the UK Corporate Governance Code, the committee considers Richard Keers, Michael Watson and Philip Swatman have recent and relevant financial experience. More information on the skills and experience of the committee members is set out in the biographies on pages 86 to 91.

Members of the Executive Committee and other senior management regularly attend meetings at the invitation of the Chairman together with the Head of Internal Audit and the external auditor. The committee as a whole meets privately with the internal and external auditors on a regular basis.

In addition, throughout the year, the Chairman of the committee meets informally and has open lines of communication with the Executive Committee, Head of Internal Audit, external auditors and senior management.

The committee received technical updates from senior management and the external auditor on developments in financial reporting, accounting policy and regulatory developments.

The committee's terms of reference can be found on [lloyds.com](https://www.lloyds.com).

Financial reporting

The committee reviewed the Lloyd's published annual and interim financial statements including the pro forma financial statements, the Aggregate Accounts, the Group financial statements of the Society of Lloyd's and the Lloyd's Solvency and Financial Condition Report. The committee, with the support of the external auditor, assessed whether suitable accounting policies had been adopted and whether management had made appropriate estimates and judgements.

The principal issues reviewed were:

- The market notional investment return on Funds at Lloyd's and the methodology of the calculation;
- The valuation of investments held by both the Society and within Funds at Lloyd's, on an exceptional basis;
- The continuing status of the Society as a going concern as part of the Year End and Interim Financial Statements processes;
- Reporting requirements and governance arrangements for Solvency II Pillar 3 reporting for both the market and the Society;
- The review of key assumptions and valuation of the Lloyd's pension scheme and the Society lease provision; and
- Ensuring the methodology of the valuation of loans recoverable within the Society is consistent with previous years and reviewing any methodology changes as they arise.

At the request of the Council, the committee considered whether the Annual Report was fair, balanced and understandable and whether it provided the necessary information to assess performance, business model and strategy.

Internal control

The committee reviewed and monitored the effectiveness of the systems of internal control of the Society. Regular reports and updates on specific control issues were received throughout the year. Specific issues considered were:

- The committee reviewed reports from the Risk Committee on developments to the Lloyd's Risk Framework. The committee also considered the quarterly ORSA reports. Throughout the year, the committee was updated on the key risks which are set out on pages 14 to 15;
- The committee reviewed internal audit reports, the actions taken to implement the recommendations made in the reports and the status of progress against previously agreed actions; and
- The committee reviewed the external auditor's controls observation report and management's assessment of the internal control environment including reports on control failures during the period and status of progress against previously agreed actions.

Auditors

Internal audit

The use of Internal Audit is governed by a Charter and Operating Standards and the Internal Audit Plan, which provides the three year audit cycle and details the annual scope of work and allocation of resources based on an assessment of inherent risks and existing controls. The committee is satisfied that Internal Audit has the appropriate resources.

The performance of Internal Audit is subject to ongoing assessment and to an annual formal evaluation that is achieved through assessment of the results of questionnaires completed by the Executive Committee and departments that have been subject to an internal audit in addition to committee members' own views.

Deloitte LLP provides co-sourced Internal Audit resource who report directly to the Head of Internal Audit. The committee keeps under review the relationship with Deloitte LLP and the procedures to ensure appropriate independence of the Internal Audit function is maintained.

External auditor

The committee monitors and reviews the objectivity and independence of the external auditor. This includes having in place a policy to govern the non-audit services that may be provided by the external auditor, that sets out the circumstances in which the external auditor may be permitted to undertake non-audit services. All non-audit services require approval from the committee and must be justified and, if appropriate, tendered before approval. The committee receives a regular report on engagements undertaken by the external auditor in order to monitor the types of services provided and the fees incurred and to ensure they do not impair their independence and objectivity. The external auditor also confirmed to the Audit Committee that they believe they remain independent within the meaning of the regulations on this matter and their professional standards.

A breakdown of the fees paid to the external auditor for non-audit work may be found in note 6. Significant engagements undertaken in 2017 include services pursuant to legislation (work undertaken on the Aggregate Accounts and regulatory returns) and the pro forma financial statements.

The committee performs a specific evaluation of the performance of the external auditor annually, through assessment of the results of questionnaires completed by members of the Executive Committee and senior management in addition to committee members' own views. The committee is satisfied with the performance of External Audit.

Report of the Lloyd's Members' Ombudsman

Report by Mark Humphries, Lloyd's Members' Ombudsman

I am pleased to present the Annual Report of the Lloyd's Members' Ombudsman to the Council for the year ended 31 December 2017.

The role of the Lloyd's Members' Ombudsman is to investigate complaints by members and former members who were members at any time after 30 November 2001 and who believe that they have suffered injustice in consequence of maladministration in relation to any action taken by or on behalf of the Society.

Complaints received

During the course of the year no complaints were received by my office.

Costs

The expenses incurred by my office amounted to £15,000.

Financial Review

This review should be read in conjunction with the financial statements of the Society on pages 120 to 169. This review should also be read in conjunction with the Strategic Report on pages 10 to 27. These sections set out the strategic priorities for both the Society and the Lloyd's market as a whole.

Operating surplus

The Society of Lloyd's achieved an operating surplus for the year of £170m (2016: surplus of £137m). The operating surplus by business segment is set out below:

	Corporation of Lloyd's £m	Lloyd's Central Fund £m	2017 Total £m	2016 Total £m
Total income	351	125	476	452
Central Fund claims and provisions incurred	–	–	–	(8)
Other Group operating expenses	(294)	(12)	(306)	(307)
Operating surplus	57	113	170	137

Corporation of Lloyd's

Total income for the Corporation increased by £19m to £351m (2016: £332m); within this, subscription income was broadly flat. The subscription rate changed on 1 January 2017 from 0.45% of gross written premiums to 0.40% of gross written premiums (further details are given in note 3), although this was offset by the higher level of premiums written as a result of favourable exchange rate movements.

In aggregate, other income streams also increased compared with the prior period, reflecting an increase in the overseas levy which covers the cost of our global network. Within income, premiums written through Lloyd's Insurance Company (China) Limited increased to £253m (2016: £238m) reflecting exchange rate movements and growth across a number of lines of business. All business underwritten through the company is reinsured to Lloyd's syndicates.

Other Group operating expenses reduced slightly to £294m (2016: £296m). The operating costs of our overseas network of offices when translated to sterling increased, reflecting exchange rate movements and continuing investment in the strategic priorities. This was offset by a one off curtailment gain of £20m in respect of the closure of the Lloyd's Pension Scheme.

Central Fund

Total income for the Central Fund increased by £5m to £125m (2016: £120m). Contribution income increased as a result of the higher level of written premiums. The rate of contribution remained constant at 0.35% of gross written premiums (further details are given in note 3).

Central Fund claims and provisions were nil for the year (2016: charge of £8m). Undertakings to meet the liabilities of insolvent members to policyholders are approved at the discretion of the Council and are normally based on anticipated cash flow requirements of insolvent members in the following 12 months. During 2017, payments made in respect of insolvent corporate members were nil (2016: £14m). There were no payments made in respect of individual members in 2017 and 2016.

Other Group operating expenses were broadly flat at £12m (2016: £11m).

Investment performance

	2017 £m	2016 £m
Finance income	62	314
Finance costs	(55)	(54)
	7	260

The Society's investments, mostly held within the Central Fund, returned £62m or 1.7% during the year (2016: £314m, 10.2%). Excluding the impact of a £108m foreign exchange loss in 2017 (2016: foreign exchange gain of £151m), arising from currency matching assets to the US dollar component of the Central Solvency Capital Requirement, underlying investment returns were relatively stable year on year, returning £170m (4.6%) in 2017 (2016: £163m or 5.2%).

Financial Review

Investment performance continued

Risk asset returns went from strength to strength in 2017 aided by an increasingly positive economic environment and low levels of volatility. Whilst there was no shortage of political risk across the globe, financial markets were largely non reactionary. Developed market monetary policy continued to be tightened with central banks in the USA, Canada and UK raising interest rates. Europe continued to diverge although there was some tapering of quantitative easing. Credit spreads on corporate bond investments tightened in line with the general risk-on sentiment whilst returns on sovereign bonds were weaker as expectation of higher interest rates led to some increase in yields.

For the Central Fund investment portfolio, developed equities were the best performing asset class closely followed by emerging equities. Returns generated by asset classes were lower by comparison but solid nonetheless. Investment grade bonds saw the lowest return with solid corporate bond returns compensating for small losses on UK sovereign bonds.

Currency markets saw another year of significant movement. In the case of sterling versus US dollars, the movement was a change in trajectory from the previous year as the pound strengthened. Against euros though, sterling continued to weaken albeit at a slower pace than was seen in the previous year.

The disposition of the Society's financial investments is set out in note 16 on pages 154 to 158.

Finance costs of £55m in 2017 (2016: £54m) predominantly relate to interest on the subordinated notes and perpetual subordinated capital securities.

Adjusting for interest costs results in net finance income of £7m (2016: £260m).

Taxation

A tax charge of £31m (2016: £75m) on the surplus before tax of £187m (2016: £405m) has been recognised for the year ended 31 December 2017. Further details are set out in note 11 on pages 145 to 146.

Movement in net assets (£m)

Net assets at 1 January 2017*		1,996
Surplus for the year		156
Actuarial gain on pension schemes		50
Currency translation differences		(5)
Tax charge on other comprehensive income		(9)
Net assets at 31 December 2017*		2,188

Additions to net assets
 Deductions to net assets
 Net assets

*Net assets data not to scale

The net assets of the Central Fund are included within the above amounts and at 31 December 2017 were £2,043m (2016: £1,952m).

Pension schemes

Lloyd's pension scheme

On an IFRS basis, the Lloyd's pension scheme valuation at 31 December 2017 was a deficit of £161m before allowance for a deferred tax asset of £27m (31 December 2016: £228m deficit before allowance for a deferred tax asset of £39m).

The movement in the pension deficit during the year is summarised below:

	2017 £m	2016 £m
Pension deficit as at 1 January	(228)	(94)
Pension expense recognised in the Group income statement	2	(12)
Employer contributions	17	5
Remeasurement effects recognised in the Group statement of comprehensive income	48	(127)
Pension deficit as at 31 December	(161)	(228)

The reduction in the pension deficit was mainly due to an increase in the value of Scheme assets during the year. Further details are provided in note 12 on pages 146 to 152 which includes the sensitivity of the valuation to changes in these assumptions.

The triennial funding valuation as at 30 June 2016 was undertaken by Willis Towers Watson. The total market value of the Scheme's assets at the date of the valuation was £667m and the total value of accrued liabilities was £730m showing a funding deficit of £63m. These figures exclude both liabilities and the related assets in respect of money purchase Additional Voluntary Contributions (AVCs). A recovery plan is in place and has been agreed with the Trustees. This will be kept under review as circumstances develop.

The Society carried out a review of its rewards and recognition package during the year. The aim of this review was to ensure that the Society offers a competitive and attractive package which is fair and consistent to all employees and which is in line with other employers, both within and beyond the financial services industry.

As a result, the Society announced on 4 September 2017 a number of proposals regarding future pension provision for its employees. Following that announcement, the Society entered into a collective consultation process for those in the Defined Benefit scheme, during which employee representatives were elected and workshops were held, followed by meetings with affected individuals.

Following completion of that consultation process on 22 November 2017, and responding to some proposals from employees, the Society subsequently announced that it will be proceeding with the closure of the Defined Benefit Pension Scheme to all members with effect from 30 June 2018. Following that, all existing members of the scheme will be automatically enrolled into the Lloyd's Group Personal Pension plan (GPP). The GPP contribution was also externally benchmarked and reviewed, with increased levels being approved from 2018 for all employees.

Overseas pension schemes

The actuarial valuations of the overseas pension schemes at 31 December 2017 resulted in a deficit of £3m (2016: deficit of £3m). Further details are provided in note 12 on pages 146 to 152.

Financial Review

Solvency

Total assets for solvency purposes are set out below. The 2017 position is an estimate of the amount which will be finalised in early May 2018 for submission to the PRA. The figures are calculated on a Solvency II basis. The solvency figures in the table below are unaudited:

	2017 £m	2016 £m
Central assets at 31 December	2,188	1,996
Subordinated debt	793	883
Total	2,981	2,879
Solvency valuation adjustments	597	554
Available central own funds to meet the Central Solvency Capital Requirement (SCR)	3,578	3,433
Excess central own funds not eligible to meet the Central SCR	(133)	–
Eligible central own funds available to meet the Central SCR	3,445	3,433
Central SCR	1,600	1,600
Central solvency ratio	215%	215%

The central SCR covers central risks of the Society. This includes the risk that members may have insufficient capital to meet their losses. The central SCR may be covered only by central eligible own funds of the Society.

The solvency valuation adjustments above include items such as valuation differences arising and assets being disallowed due to the valuation principles used in Solvency II. It also includes recognition of the callable layer, which may be taken from member level capital to strengthen central resources.

The eligibility of assets to count towards the solvency coverage is also subject to tiering restrictions. All Tier 1 assets count fully towards the solvency coverage assessment. However, Tier 2 and Tier 3 assets may only count up to a maximum of 50% of the SCR. The inclusion of the Tier 2 subordinated debt issued in early 2017 means that Lloyd's Tier 2 and 3 central capital exceeded 50% of the central SCR by £133m as at 31 December 2017.

Based on own funds eligible to meet the central SCR of £3.4bn (2016: £3.4bn), the estimated solvency ratio is 215% (2016: 215%). In setting contribution levels, account is taken of the central SCR to ensure that Lloyd's is prudently but competitively capitalised.

Brexit

As noted previously, one of the key priorities for Lloyd's in 2017 was retaining access to European Union (EU) markets following the UK's decision to leave the EU (Brexit). Over the course of 2017 work has been progressing to establish a Lloyd's subsidiary in Brussels, which will ensure that customers based in the EU are able to access the Lloyd's market as seamlessly as possible. Lloyd's new Brussels subsidiary will be a fully-fledged insurance company, with an executive committee based in Brussels. The company will be fully capitalised and will be regulated by, and report to, the Belgian regulator. An application was submitted to the Belgian regulator in October 2017 with a view to commencing the underwriting of European Economic Area (EEA) risks from 1 January 2019. The decision to choose Brussels was based on a number of critical elements, including the fact that Brussels has a robust regulatory framework and is a central European location. The EU is an important market for Lloyd's and the new insurance subsidiary will ensure that Lloyd's customers continue to have access to our specialist, innovative policies, and benefit from the security of the Lloyd's market. Furthermore, Lloyd's believes that being at the heart of Europe will provide an opportunity to continue to grow our business on the continent.

Cash flows and liquidity

Cash and cash equivalents increased during the year ended 31 December 2017 by £106m to £497m (2016: £391m). Cash balances are maintained at appropriate levels to meet the short term operating expenses of the Society. Any surplus cash balances are invested and are included as financial investments within the Group statement of financial position.

The Corporation's free cash balances* are regularly monitored. Free cash represents the amounts, both at bank and on deposit, held in the UK and available to the Corporation to meet operating expenses, including those of overseas operations, excluding any balances held in respect of insurance and arbitration activities. Free cash balances at 31 December 2017 were £208m (2016: £178m).

The liquidity of the Central Fund is monitored separately. Cash balances are managed to meet short term operational commitments including the payment of drawdowns. Any surplus cash balances are invested in compliance with defined investment parameters approved by the Investment Committee.

Central Fund investment strategy

Central Fund investment strategy is considered in three parts. A proportion of assets is assigned to meet liquidity needs, based on a prudent estimate of net cash flows. These assets are commingled with other liquid assets of Lloyd's Group companies and invested in bank deposits and other short-term securities, with maturities of up to 12 months. The objective is to optimise income, for a low level of risk, while ensuring that all cash flow requirements are met as they fall due.

A significant proportion of assets are invested in fixed interest securities of a high credit quality and typically medium term maturities. The financial risk exposures represented by subordinated debt securities issued by the Society are considered when determining the disposition of fixed interest investments. The return objective is to optimise investment return in the longer term while maintaining overall financial risk within defined limits.

A smaller proportion of assets are invested in equities and other return seeking asset classes, also with an aim to optimise investment return in the longer term without exceeding defined risk tolerances. These investments are diversified among different asset classes to help manage risk, and third party investment managers are retained to manage these investments within clearly defined investment parameters specified by Lloyd's. Equity investments currently include global developed and emerging market equities. Investments in other growth assets include high yield and emerging market debt, hedge funds, senior secured loans and commodity based investments.

Financial risk management and treasury policies

Overview

The Society's principal financial instruments comprise cash and cash equivalents, investments, borrowings and items that arise directly from operations such as trade receivables and payables. These include assets and liabilities of the Central Fund.

The Society's treasury operations and investments are managed by reference to established policies which are reviewed regularly by the Investment Committee. Overall risk is managed within defined limits, specified by the Board. Policies for managing these risks, in particular credit risk, liquidity risk and market risk, are summarised below. The following financial risk management disclosures within note 18 on pages 158 to 160 are audited.

Credit risk

Credit risk represents the risk of financial loss to the Society if a counterparty, or the issuer of a security, fails to meet its contractual obligations.

Trade and other receivables

The Society has established procedures to minimise the risk of default by trade and other receivables, which are mainly in respect of the Lloyd's market, the main source of income. These procedures include minimum standard checks for new market entrants.

Financial investments

A list of permissible bank counterparties, for the purposes of money-market investment, is maintained and restricted to banks having strong balance sheets and credit ratings. Investment parameters exist for all investment assets, controlling overall credit quality and ensuring appropriate risk diversification. Permitted counterparties to capital market transactions are also carefully controlled. All applicable parameters are reviewed regularly by the Investment Committee in accordance with the risk appetite set by the Board.

Guarantees

The Society provides certain financial guarantees as security for the underwriting activities of the members of Lloyd's.

* Free cash balances are a metric which is consistently used to analyse financial performance in the Society Report. This metric (wherever used in the Annual Report) is an Alternative Performance Measure (APM), with further information available on page 174.

Financial Review

Financial risk management and treasury policies continued

Liquidity risk

The value and term of short-term assets are carefully monitored against those of the Society's liabilities. The Society maintains sufficient liquid assets to meet liabilities as they fall due.

The liquidity of the Central Fund is monitored separately. Cash balances are managed to meet short-term operational commitments including the payment of drawdown. Any surplus cash balances are invested in compliance with defined investment parameters approved by the Investment Committee in accordance with the risk appetite set by the Board.

The Society had no committed borrowing facilities as at 31 December 2017 (2016: nil).

Market risk

Market risk represents the risk that movements in financial markets will affect the financial position of the Society. Market risks arising from the disposition of the Society's investments are monitored against defined parameters using Value at Risk (VAR) methodology. The position is reviewed regularly by the Investment Committee. Investments are actively monitored on a fair value basis and all investments are designated as fair value through profit or loss.

Foreign currency risk

The Society enters into a variety of foreign exchange transactions in response to the foreign currency requirements of Lloyd's Group companies. In managing the exposures arising from such foreign exchange activity, which may involve transactions for forward settlement, the net risk arising from all such exposures is considered and the level of this risk is managed within defined parameters. Consequently, while some net foreign exchange exposures may accrue to the Society from time to time as a result of this activity, the level of such exposures is carefully monitored and is not significant in the context of its activities.

Foreign currency exposures arising from overseas investments are considered together with any foreign currency liabilities of the Society as well as the underlying currency mix of the Central Solvency Capital Requirement, of which a high proportion is US dollar based. Net foreign currency exposures arising are managed through the use of forward foreign exchange contracts.

Separately, the Society provides a Currency Conversion Service (CCS) to participating Lloyd's syndicates, converting insurance premiums and claims between pounds sterling and other Lloyd's settlement currencies as required. Foreign exchange exposures arising from the provision of the CCS are again managed on a net basis, within defined parameters. The CCS is operated separately from other foreign exchange activity of the Society because, under the terms of the service, any profit (or loss) arising from CCS exposures is distributed to (or collected from) syndicates participating in the CCS. Currency exposures arising from CCS activity consequently do not, ultimately, represent risks to the Society.

Interest rate risk

Borrowings from the Lloyd's market for the purpose of funding statutory insurance deposits do not bear a fixed rate of interest. Instead, investment returns earned on the borrowed assets are passed on to lenders. Consequently, no interest rate risk arises on such borrowings.

Short term assets held by the Society may be significant at certain times but such balances cannot be precisely predicted. These are invested in money market instruments of up to 12 months' duration with the objective of maximising current income while meeting liquidity requirements.

Interest rate risk arising from the requirement to make fixed rate coupon payments in respect of the Lloyd's subordinated loan notes and the perpetual subordinated capital securities is considered in conjunction with the market risk arising on the Society's investments.

As part of the strategy to mitigate these risks, the Society has entered into a number of interest rate swap contracts.

Capital management

The Society monitors its capital to ensure that it maintains sufficient assets for both operational and solvency purposes. Further disclosures with regard to financial instruments are provided in note 18 on pages 158 to 163. Further details regarding solvency are given on page 110.

Related party transactions

Except for disclosures made in note 26 (see page 168), no related party had material transactions with the Society in 2017.

Going concern and viability statement

Assessment of prospects

The Lloyd's business model and strategy are central to an understanding of its prospects and details can be found on pages 10 to 27. The strategy is subject to ongoing monitoring and development.

The prospects of the Lloyd's market, including the Society, are primarily assessed through the annual strategic review and planning process. The output of the review is a strategic plan to deliver the Lloyd's vision. The review is led by the CEO through the Executive Committee and all relevant departments are involved. The Board and the Council participate fully in the process and part of their role is to consider whether the strategic plan continues to take appropriate account of the external environment and meets the needs of the market.

The review determines a set of medium term targets, key performance indicators for the current year and activities to deliver on those metrics. The latest three year strategic plan (Lloyd's Strategy 2018 to 2020) was approved in December following completion of the latest review cycle. As part of the planning process, detailed financial budgets were prepared for the Society for the three year period to 31 December 2020.

Assessment of viability

The Board and Council of Lloyd's receive quarterly reports from the Risk Committee on the key risks and risk appetites, including the Society's own risk and solvency assessment as well as stress testing resilience to severe yet plausible scenarios. The principal risks and material uncertainties that would threaten the business model, future performance, liquidity or solvency of the Lloyd's market as a whole are set out on pages 14 to 15. In addition, the Financial Statements include notes on investment strategy, financial risk management, treasury policies and sensitivity analysis.

The Lloyd's capital structure is set out on pages 22 to 23 and Lloyd's is required to maintain solvency on a continuous basis, and the solvency position of each member, and thus of Lloyd's as a whole, is monitored on a regular basis. The Audit Committee considers biannually management's assessment of the current solvency position and the forecast position over a three year period, including resilience of central assets to meet the Central SCR and the expectation, but not the obligation, that the perpetual subordinated capital securities are redeemed at the first option date.

Viability statement

While the members of the Council have no reason to believe that the Society will not be viable over a longer period, the period over which the assessment is based is the three year period to 31 December 2020, being the period considered under the strategic plan, including the detailed budgets prepared, and the solvency projections of the Society.

The members of the Council believe that the Society is well placed to manage its business risks successfully, having taken into account the current economic outlook, and confirm that they have a reasonable expectation that the Society will be able to continue in operation and meet its liabilities as they fall due over the three year period ending 31 December 2020.

Going concern

After making enquiries, the members of the Council also consider it appropriate to adopt the going concern basis in preparing the Society's Financial Statements.

Statement as to disclosure of information to auditors

Having made enquiries, the Council confirms that:

- to the best of each Council member's knowledge and belief there is no information relevant to the preparation of the Society Report of which the Society's auditors are unaware; and
- each Council member has taken all the steps a Council member might reasonably be expected to have taken to be aware of relevant audit information and to establish that the Society's auditors are aware of that information.

Outlook

Central assets, which exclude subordinated liabilities, are expected to remain stable at £3bn in 2018. Following its meeting on 20 March 2018, the Council gave no further undertakings to corporate members to use the New Central Fund to discharge the liability of members with unpaid cash calls who do not have the resources to meet those calls. After taking account of the expiry of unutilised undertakings, the net movement in undertakings is nil (see note 4 on page 134). The operating expenses for the Corporation and its subsidiaries are budgeted to be £340m in 2018.* This includes net investment of £43m in respect of market modernisation and £19m of costs for services recharged directly to specific managing agents. The Council is responsible for preparing the Group financial statements in accordance with byelaws made under Lloyd's Act 1982 and International Financial Reporting Standards (IFRS) as adopted by the European Union.

The Council is required to prepare Group financial statements for each financial year which present fairly the financial position of the Society and the financial performance and cash flows of the Society for that period. In preparing these Group financial statements, the Council is required to:

- Select suitable accounting policies and then apply them consistently;
- Present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information;
- Provide additional disclosures when compliance with the specific requirements in IFRS is insufficient to enable users to understand the impact of particular transactions, other events and conditions on the Society's financial position and financial performance; and
- State that the Society has complied with IFRS, subject to any material departures disclosed and explained in the Group financial statements.

* Budgeted operating expenses are a metric which is consistently used to analyse financial performance in the Society Report. This metric (wherever used in the Annual Report) is an Alternative Performance Measure (APM), with further information available on page 174.

Statement of the Council's responsibilities for the Financial Statements

The Council is responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Society and enable it to ensure that the Group financial statements comply with Article 4 of the IAS Regulation. As the Society's subordinated debt and perpetual subordinated capital securities are admitted to trading in a regulated market in the European Union, Council has elected to comply with Article 4, which requires Group financial statements to be prepared in conformity with IFRS as adopted by the European Union. The Council is also responsible for safeguarding the assets of the Society and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Council is responsible for the maintenance and integrity of the corporate and financial information included on the Society's website (lloyds.com). Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

The Council considers that the Annual Report, taken as a whole, is fair, balanced and understandable and provides the information necessary for stakeholders to assess the Society's performance, business model and strategy.

Independent Auditor's Report to the Members of the Society of Lloyd's

Report on the audit of the financial statements

Opinion

In our opinion, the Society of Lloyd's group financial statements (the "financial statements"):

- give a true and fair view of the state of the group's affairs as at 31 December 2017 and of its surplus and cash flows for the year then ended;
- have been properly prepared in accordance with IFRSs as adopted by the European Union; and
- have been prepared in accordance with the requirements of the Council byelaws made under Lloyd's Act 1982.

We have audited the financial statements, included within the Annual Report, which comprise: the Group Statement of Financial Position as at 31 December 2017, the Group Income Statement and the Group Statement of Comprehensive Income, the Group Statement of Cash Flows, and the Group Statement of Changes in Equity for the year then ended, and the notes to the financial statements, which include a description of the significant accounting policies.

Our opinion is consistent with our reporting to the Audit Committee.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, as applicable to listed public interest entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

To the best of our knowledge and belief, we declare that non-audit services prohibited by the FRC's Ethical Standard were not provided to the group.

Other than those disclosed in the Annual Report, we have provided no non-audit services to the group in the period from 1 January 2017 to 31 December 2017.

Our audit approach

Overview

Materiality

- Overall group materiality: £22.7m (2016: £22.0m), based on 0.5% of total assets.

Audit scope

- The two key components of The Society of Lloyd's are considered to be the Central Fund and the Corporation. These were fully scoped in for the purposes of the audit. For the remaining components, a group scoping exercise was undertaken to identify significant balances.

Key audit matters

- Valuation of financial investments
- Lloyd's Pension Scheme
- Revenue Recognition
- Valuation of loans recoverable

The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we looked at where the Council made subjective judgements, for example in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain.

We gained an understanding of the legal and regulatory framework applicable to the group and the industry in which it operates, and considered the risk of acts by the group which were contrary to applicable laws and regulations, including fraud. We did not identify any key audit matters relating to irregularities, including fraud. We designed audit procedures at group and significant component level to respond to the risk, recognising that the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion. We focused on laws and regulations that could give rise to a material misstatement in the group financial statements, including, but not limited to the Lloyd's Act 1982 and regulations of the Financial Conduct Authority ("FCA") and Prudential Regulation Authority ("PRA"). Our tests included, but were not limited to, review of the financial statement disclosures to underlying supporting documentation, review of correspondence with the regulators, review of correspondence with legal advisors and enquiries of management. There are inherent limitations in the audit procedures described above and the further removed non-compliance with laws and regulations is from the events and transactions reflected in the financial statements, the less likely we would become aware of it.

Key audit matters

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. This is not a complete list of all risks identified by our audit. As in all of our audits we also addressed the risk of management override of internal controls, including testing journals and evaluating whether there was evidence of bias by the Council that represented a risk of material misstatement due to fraud.

Independent Auditor's Report to the Members of the Society of Lloyd's

Key audit matters continued

Key audit matter	How our audit addressed the key audit matter
Valuation of financial investments	
<p>We focused on this area because it represents 73% of the total assets of the Society and so the valuation of financial investments has a significant impact on the financial statements. We focused in particular on the non-publicly traded investments in the Society's portfolio, which includes investments held as statutory insurance deposits by Additional Securities Limited ('ASL'), and other non-publicly traded investments in the Corporation and Central Fund. These investments are harder to value because quoted prices are not readily available and the valuation is based on a model, which can include unobservable inputs.</p> <p>(Refer also to note 16 to the financial statements)</p>	<p>For these non-publicly traded investments, we assessed both the methodology and assumptions used by management in the calculation of the year end values as well as tested the governance controls that the Council has in place to monitor these processes. The testing included performing the following procedures:</p> <ul style="list-style-type: none"> — Assessing the methodology and assumptions used within the valuation models; — Comparing the assumptions used against appropriate benchmarks and investigating significant differences; and — Testing the operating effectiveness of the valuation controls over assets managed by third parties. <p>Our work and the evidence provided identified no significant issues.</p>
Lloyd's Pension Scheme	
<p>The Society of Lloyd's operates a number of defined benefit and defined contribution pension schemes. The principal scheme is the Lloyd's Pension Scheme whose net liabilities total £161m at 31 December 2017. Certain key assumptions have a material impact in determining the pension scheme liabilities and therefore were subject to more audit attention from us. We focused on key assumptions such as discount rate; inflation; and post-retirement life expectancy.</p> <p>In 2017, Lloyd's recognised a £19.8m curtailment gain primarily driven by the closure of the Defined Benefit Pension Scheme to all participants. We have focused on validating that the recognition criteria for the curtailment gain, as set out in IAS 19, was satisfied and evaluating the reasonableness of the assumptions used in calculating the gain.</p> <p>(Refer also to note 12 to the financial statements)</p>	<p>We used our actuarial experts to evaluate the key assumptions used to value the Lloyd's Pension Scheme. This included comparison of Lloyd's assumptions to our own independent expectations based on our knowledge of the Lloyd's Pension Scheme and current financial market conditions. We found the following:</p> <ul style="list-style-type: none"> — the discount rate used in the valuation of the pension liability was consistent with our expectations, taking into account the duration of the pension liability and investment market conditions at 31 December 2017; — the retail and consumer price inflation rates used in the valuation of the pension liability were consistent with our expectations, taking into account the duration of the pension liability and market expectations at 31 December 2017; and — the post-retirement life expectancy assumptions were in line with the recent mortality experience of the Lloyd's Pension Scheme and with assumptions made by other UK companies, and contain an appropriate allowance for how rates of mortality may fall in future. <p>We found the assumptions to be acceptable.</p> <p>We have assessed the appropriateness of the accounting treatment adopted by Lloyd's for the Defined Benefit Pension Scheme closure and consider it to be reasonable. We have also used our actuarial specialists to evaluate the key assumptions used to estimate the curtailment gain recognised in connection with the closure and consider them to be acceptable.</p>
Revenue Recognition	
<p>The Central Fund contributions (recognised as revenue in the Central Fund reporting unit) and members' subscription fees (recognised as revenue within the Corporation reporting unit) represent a significant portion of the revenue of the Society.</p> <p>We focused on these components of revenue because they are recognised based in part on management's estimate of the future premium of each syndicate underwriting year. Although not complex, this estimate involves subjectivity with regards to assumptions on the estimation of future premium. The future premium is estimated based on historical development trends. From this analysis, management selects an extrapolation factor, which is then applied to the current year.</p> <p>(Refer also to note 2 to the financial statements)</p>	<p>We evaluated the reasonableness of the assumptions applied in the estimation of the future premium. As future premium is estimated based on the development trend of historical premium (the extrapolation factor), we traced a sample of the historical premium data to the system which aggregates market results. We tested Information Technology General Controls over the system, where no exceptions were noted. Based on our work on the assumptions, we found that management's analysis supported the extrapolation factor that was selected.</p> <p>We tested the application of the extrapolation factor to the underlying data and recomputed the total Central Fund contributions and members' subscription fees.</p> <p>We found management's assumptions to be reasonable. No significant exceptions were noted in our testing of underlying data or our recalculation of revenue.</p>

Key audit matter	How our audit addressed the key audit matter
Valuation of loans recoverable	
<p>Loans recoverable are Central Fund loans made to hardship members. The valuation of loans recoverable is subjective and judgemental due to the assumptions used to determine their recoverable amounts. The loans recoverable amount represents the lower of:</p> <ul style="list-style-type: none"> — valuation of property and investment assets held as charge in the event that the principal loan amount cannot be repaid; and — principal loan amount including accrued interest. <p>We focused on the following assumptions because they have a material impact on the valuation of loans recoverable:</p> <ul style="list-style-type: none"> — discount rate used in respect of the assets and principal loan amount; — fair value of properties; and — property inflation rate. <p>(Refer also to note 15 to the financial statements)</p>	<p>For a sample of loan receivable balances, we performed procedures to verify the accrued loan balance, and the valuation of the property and investments. We evaluated the reasonableness of the assumptions used and found the following:</p> <ul style="list-style-type: none"> — the discount rate used was consistent with our expectations, taking into account the market conditions at 31 December 2017; — the fair value of properties was reasonable, based on comparing the valuation to the current offer price of similar properties on the open market on a sample basis; and — the property inflation rate used was set at an appropriate level, based on our assessment of market conditions at 31 December 2017. <p>In addition, we tested a sample of loans by agreeing the principal loan amount to the signed agreements and recalculated the accrued interest. No significant exceptions were found in our testing.</p>

How we tailored the audit scope

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the group, the accounting processes and controls, and the industry in which it operates.

The Society of Lloyd's financial statements are a consolidation of 33 reporting units. In establishing the overall approach to the group audit, we determined the type of work that needed to be performed at the reporting units by us, as the group engagement team, or component auditors within PwC UK and from other PwC network firms operating under our instruction. For the audit of the Society of Lloyd's financial statements, all audit procedures were performed centrally by the group engagement team with the exception of the audit of the financial information of Lloyd's Insurance Company (China) Limited. Where the work was performed by a component auditor, we determined the level of involvement we needed to have in the audit work at that reporting unit to be able to conclude whether sufficient appropriate audit evidence had been obtained as a basis for our opinion on the financial statements as a whole. We were involved in the risk assessment process for this reporting unit, and obtained an understanding of the audit procedures performed by the component auditor to address the identified risks.

For each reporting unit we determined whether we required an audit of their complete financial information or whether specified procedures for particular balances would be sufficient. Audit procedures were performed over the complete financial information for the Corporation and Central Fund reporting units to address the key audit matters identified above. Additionally, we identified Lloyd's Insurance Company (China) Limited, Centrewrite Limited and Additional Securities Limited, where certain account balances were considered to be significant in size in relation to the Society, and scoped our audit to include detailed testing of those account balances.

Together, the reporting units where we performed our audit work accounted for 96% of the Society's total assets and 93% of the Society's surplus before tax.

Independent Auditor's Report to the Members of the Society of Lloyd's

Materiality

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements as a whole as follows:

Overall group materiality

£22.7m (2016: £22.0m)

How we determined it

0.5% of total assets

Rationale for benchmark applied

We identified the key financial statement users as rating agencies, syndicate members and policyholders who will be primarily concerned over the solvency position of Lloyd's, as well as the quality of assets held by Lloyd's. Therefore, we assessed that it is more appropriate to use an assets based benchmark for the materiality determination for the 31 December 2017 year end.

For each component in the scope of our group audit, we allocated a materiality that is less than our overall group materiality. The range of materiality allocated across components was between £57k and £20.5m.

We agreed with the Audit Committee that we would report to them misstatements identified during our audit above £1.1m (2016: £1.1m) as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

Going concern

In accordance with ISAs (UK) we report as follows:

Reporting obligation

The Council has voluntarily included a statement in relation to going concern in accordance with provision C1.3 of the UK Corporate Governance Code (the 'Code') in the Financial Review section of the Society report. We agreed with the Council to report if we have anything material to add or draw attention to in respect of the Council's statement about whether it is appropriate to adopt the going concern basis of accounting in preparing the financial statements and the Council's identification of any material uncertainties to the group's ability to continue as a going concern over a period of at least twelve months from the date of approval of the financial statements.

Outcome

We have nothing material to add or to draw attention to. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the group's ability to continue as a going concern.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The Council is responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

The Council's assessment of the prospects of the group and of the principal risks that would threaten the solvency or liquidity of the group

Under the terms of our engagement, we agreed to report to you if we have anything material to add or to draw attention to in relation to:

- the Council's confirmation on page 113 of the Annual Report, in accordance with provision C.2.1 of the Code, that it has carried out a robust assessment of the principal risks facing the group, including those that would threaten its business model, future performance, solvency or liquidity;
- the disclosures in the Society Report that describe those risks and explain how they are being managed or mitigated;
- the Council's explanation on page 113 of the Society's Report, in accordance with provision C.2.2 of the Code, as to how it has assessed the prospects of the Society, over what period it has done so and why they consider that period to be appropriate, and its statement as to whether it has a reasonable expectation that the Society will be able to continue in operation and meet its liabilities as they fall due over the period of their assessment, including any related disclosures drawing attention to any necessary qualifications or assumptions.

We have nothing material to add or to draw attention to regarding the above responsibilities.

Other Code Provisions

Under the terms of our engagement, we agreed to report to you if we have anything material to add or to draw attention to in relation to:

- The statement given by the Council, on page 114, in accordance with provision C.1.1 of the Code, that they consider the Annual Report taken as a whole to be fair, balanced and understandable, and provides the information necessary for the members to assess the group's position and performance, business model and strategy is materially inconsistent with our knowledge of the group obtained in the course of performing our audit.
- The section of the Annual Report on pages 104 to 105, as required by provision C.3.8 of the Code, describing the work of the Audit Committee does not appropriately address matters communicated by us to the Audit Committee.

We have nothing to report in respect of this responsibility.

Report of the Remuneration Committee

The Council is responsible for preparing the part of the report of the Remuneration Committee that has been described as audited in accordance with Schedule 8 Part 3 of the Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008 (the "basis of preparation").

Under the terms of our engagement, we agreed to report to you whether, in our opinion, the part of the report of the Remuneration Committee that is described as audited has been properly prepared in accordance with the basis of preparation as described therein. In our opinion, the part of the report of the Remuneration Committee that is described as audited has been properly prepared in accordance with the basis of preparation as described therein.

Responsibilities for the financial statements and the audit

Responsibilities of the Council for the financial statements

As explained more fully in the Statement of the Council's Responsibilities for the Financial Statements set out on page 114, the Council is responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The Council is also responsible for such internal control as it determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Council is responsible for assessing the group's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the Council either intends to liquidate the group or to cease operations, or has no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the Society of Lloyd's members as a body in accordance with the Lloyd's Act 1982 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Other reporting

Under the terms of our engagement, we have agreed to report to you if, in our opinion:

- We have not received all the information and explanations we require for our audit; or
- Proper accounting records have not been maintained by the Society.

We have no exceptions to report arising from this responsibility.

Appointment

Following the recommendation of the Audit Committee, we were appointed by the members on 4 April 2013 to audit the financial statements for the year ended 31 December 2013 and subsequent financial periods. The period of total uninterrupted engagement is 5 years, covering the years ended 31 December 2013 to 31 December 2017.

Notes to the Financial Statements

(For the year ended 31 December 2017)

1. Basis of preparation and consolidation

In 1871, by Lloyd's Act 1871, the then existing association of underwriters was incorporated in the United Kingdom as the Society and Corporation of Lloyd's (the 'Society'). Its activities are accordingly governed by statute and, since 1982, have been managed by the Council of Lloyd's (the 'Council') pursuant to Lloyd's Act 1982. Its principal place of business is at One Lime Street, London EC3M 7HA.

The Society's main corporate purposes are to facilitate the carrying on of insurance business by members of Lloyd's and the advancement and protection of their interests in this context. The Group financial statements of the Society of Lloyd's comprise the financial statements of the Society of Lloyd's and all its subsidiary undertakings, the Lloyd's Central Fund and the Group's interest in associates as at each reporting date. Subsidiary undertakings are consolidated from the date of their acquisition, being the date on which the Society obtains control, and continue to be consolidated until the date that such control ceases. The financial statements are prepared using consistent accounting policies. All intra-Group balances and transactions are eliminated in full.

The Group financial statements have been prepared in accordance with International Financial Reporting Standards (as adopted by the European Union) and on a historic cost basis, except for financial assets and liabilities at fair value through profit or loss and the Lloyd's Collection, which are measured at fair value.

Other financial liabilities, which include the subordinated notes and the perpetual subordinated capital securities are carried at amortised cost. The Group financial statements are presented in pounds sterling and all values are rounded to the nearest million (£m).

The Society is regulated by the PRA and the FCA.

New standards, interpretations and amendments to existing standards that have been adopted by the Society

The Society has adopted the following new International Financial Reporting Standards (IFRSs), International Accounting Standards (IASs), and interpretations and amendments to existing standards, which are effective by EU endorsement for annual periods beginning on or after 1 January 2017:

- Recognition of Deferred Tax Assets for Unrealised Losses (amendments to IAS 12);
- Disclosure Initiative (amendments to IAS 7); and
- Annual improvements to IFRS Standards 2014-2016 cycle (amendments to IFRS 12).

None of the amendments have a material impact on the Group financial statements of the Society.

2. Principal accounting policies

Critical accounting estimates and assumptions

In preparing the financial statements significant estimates and judgements are made in respect of some of the items reported. The main accounting policies identified involving such assessments are:

- Central Fund claims and provisions – undertakings (see note 2(q) and note 4);
- Employee benefits – defined benefit pension scheme (see note 2(i) and note 12);
- Insurance contracts – liabilities and reinsurance assets (see note 2(g) and note 5);
- Loans recoverable – hardship loans (see note 2(j) and note 15); and
- Provisions – lease cost provision (see note 22).

(a) Plant and equipment

Plant and equipment are held at cost less accumulated depreciation and any impairment in value.

Depreciation is charged on a straight-line basis on the following principal categories:

- Furniture and fittings are depreciated over seven to 25 years according to the estimated useful life of the asset;
- Computer and specialised equipment are depreciated over three to 15 years according to the estimated useful life of the asset; and
- Equipment on hire or lease is depreciated over the period of the lease.

(b) Software development

Costs incurred in acquiring and developing computer software are capitalised as intangible assets where the software supports a significant business system and the expenditure leads to the creation of an identifiable asset of value. Software development is held at cost less accumulated depreciation and any impairment in value. Capitalised software is amortised over three years.

(c) Lloyd's Collection

Lloyd's Collection represents various paintings, antiques and artefacts which are included at fair value. Any revaluation surplus or deficit is recognised in the Group statement of comprehensive income and is reflected in the revaluation reserve within the Group statement of changes in equity.

(d) Investment in associates and joint ventures

An associate is an entity in which the Society has significant influence and which is not a subsidiary undertaking or joint venture. A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the arrangement. The Society's investments in associates and joint ventures are accounted for under the equity method of accounting.

Notes to the Financial Statements

(For the year ended 31 December 2017)

2. Principal accounting policies continued

(d) Investment in associates and joint ventures continued

Under the equity method, the investments in associates and joint ventures are carried in the Group statement of financial position at cost plus post-acquisition changes in the Society's share of net assets of the associates and joint ventures. Goodwill relating to an associate is included in the carrying amount of the investment and is not amortised. After application of the equity method, the Society determines whether it is necessary to recognise any additional impairment loss with respect to the Society's net investment in an associate or joint venture. The Group income statement reflects its share of the results of operations of associates and joint ventures. The Society's share of associates' other comprehensive income is recognised in the Group statement of comprehensive income.

(e) Impairment of non-financial assets

The Society performs annual impairment testing to assess whether there is an indication that an asset may be impaired. If any such indication exists an impairment loss is recognised for the amount by which the asset's carrying value exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use.

Prior impairments of non-financial assets are reviewed for possible reversal at each reporting date.

(f) Financial instruments

Financial assets

Initial recognition

Financial assets within the scope of IAS 39 are classified as financial assets at fair value through profit or loss or loans and receivables. The Society determines the classification of its financial assets at initial recognition.

Financial assets are recognised initially at fair value plus, in the case of loans and receivables, directly attributable transaction costs. A financial asset is classified in this category if acquired principally for the purpose of selling in the short term.

Purchases or sales of financial assets that require delivery of assets within a timeframe established by regulation or convention in the market place (regular way purchases) are recognised on the settlement date.

The Society's financial assets include loans recoverable, statutory insurance deposits and other investments designated at fair value through profit or loss, trade and other receivables, accrued income, cash and cash equivalents and derivative assets.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

- (i) Financial assets at fair value through profit or loss include derivative financial assets which are classified as held for trading, and financial assets designated upon initial recognition at fair value through profit or loss. They are carried in the Group statement of financial position at fair value. Gains and losses arising from changes in their fair value are included in the Group income statement in the period in which they arise. When financial assets are interest bearing, interest calculated using the effective interest method is recognised in the Group income statement; and

- (ii) Loans and receivables are non-derivative financial assets with fixed or determinable payment that are not quoted in an active market. They arise when the Society provides money, goods or services directly to a debtor with no intention of trading the receivable. These financial assets are carried at amortised cost using the effective interest method. Gains and losses are recognised in the Group income statement when the loans and receivables are derecognised or impaired, as well as through the amortisation process.

Financial liabilities

Initial recognition

Financial liabilities within the scope of IAS 39 are classified as financial liabilities at fair value through profit and loss or other financial liabilities. The Society determines the classification of its financial liabilities at initial recognition.

Financial liabilities are recognised initially at fair value and in the case of other financial liabilities, directly attributable transaction costs. The Society's financial liabilities include trade and other payables, accruals, subordinated notes and perpetual subordinated capital securities and derivative liabilities.

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

- (i) Financial liabilities at fair value through profit or loss include derivative financial liabilities which are classified as held for trading. Gains or losses on liabilities held for trading are recognised in the Group income statement; and
- (ii) Other financial liabilities, which include the subordinated notes and the perpetual subordinated capital securities, are carried at amortised cost using the effective interest method.

Fair value of financial instruments

Financial instruments are categorised for disclosure purposes into a hierarchy consisting of three levels depending upon the source of input as required by IFRS 7 Financial Instruments: Disclosures.

Level 1 – The fair value of financial instruments which are actively traded in organised financial markets is determined by reference to quoted market bid prices at the close of business on the reporting date. The quoted market price used for financial assets held by the Society is the current bid price; the appropriate quoted market price for financial liabilities is the current offer price.

Level 2 – The fair value of financial instruments for which quoted market prices are not used for valuation purposes are derived both directly and indirectly from observable market conditions. The fair value of forward currency contracts is calculated by reference to current forward exchange rates for contracts with similar maturity profiles. The nominal value less estimated credit adjustments of trade receivables and payables are assumed to approximate to their fair values.

Level 3 – The fair value of financial instruments for which there is no observable quoted market price is determined by a variety of methods incorporating assumptions that are based, so far as possible, on market conditions existing at each reporting date.

Where the significance of the inputs used in the determination of the fair value of a financial instrument changes, the classification of the financial instrument in the fair value hierarchy is reviewed. Where the assessment of the classification has changed, a transfer is made between the respective levels.

Amortised cost of financial instruments

Amortised cost is computed using the effective interest method less any allowance for impairment and principal repayment or reduction. The calculation takes into account any premium or discount on acquisition and includes transaction costs and fees that are an integral part of the effective interest rate.

Impairment of financial assets

The Society assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, the asset is written down to its recoverable amount.

Derecognition of financial instruments

Investments are derecognised when the right to receive cash flows from the asset have expired or, in the case of a financial liability, when the obligation under the liability is cancelled or discharged.

(g) Insurance contracts (liabilities and reinsurance assets)

In accordance with IFRS 4 Insurance Contracts, the Society applies established UK accounting practices for insurance contracts, modified as appropriate to comply with the IFRS framework and applicable standards.

Insurance contracts are defined as those containing significant insurance risk which arises if, and only if, an insured event could cause an insurer to pay significant additional benefits in any scenario, excluding scenarios that lack commercial substance, at the inception of the contract. Such contracts remain insurance contracts until all rights and obligations are extinguished or expired.

An impairment review is performed on all reinsurance assets when an indication of impairment occurs. Reinsurance assets are impaired only if there is objective evidence that the Society may not receive all amounts due to it under the terms of the contract and this can be measured reliably.

The Society's policy for measuring balances for insurance contracts issued by overseas subsidiaries is to apply the valuation technique used in the issuing entity's local statutory or regulatory reporting. Therefore, for insurance contracts issued by Lloyd's Insurance Company (China) Limited (LICCL), balances are calculated in accordance with the People's Republic of China Generally Accepted Accounting Principles (PRC GAAP).

In particular, unearned premium reserves are calculated after deducting acquisition costs such as commissions, handling fees, business taxes, surcharges and regulatory charges, whilst outstanding claims reserves include a risk margin.

(h) Inventories

Inventories are stated at the lower of cost and net realisable value on a first in, first out (FIFO) basis. Net realisable value is the estimated selling price in the ordinary course of business less estimated costs necessary to make the sale.

(i) Employee benefits

The Society accounts for pensions and similar benefits (principally income protection due to ill health) under IAS 19 Employee Benefits. The Society operates a number of defined benefit pension schemes in which obligations are measured at discounted present value using the projected unit credit method, while plan assets are recorded at fair value. The operating and financing income and costs of the scheme are recognised in the Group income statement. Service costs, financing income (expected return on plan assets) and costs are recognised in the periods in which they arise. Actuarial gains and losses are recognised in full in the Group statement of comprehensive income in the period in which they occur. Costs of discretionary awards in respect of past service are recognised in the Group income statement when amounts are committed to be paid or there is a constructive liability to make awards to pensioners.

Payments to separately administered defined contribution schemes are charged to the Group income statement as they fall due.

Short-term bonuses are accrued in the period to which they relate, long-term bonuses are recognised over their vesting period.

(j) Loans recoverable

Recoverable Central Fund loans made to Hardship members are valued on a fair value basis and are designated as fair value through profit or loss. Any gains or losses arising from changes in the fair value are included in the Group income statement in the period in which they arise. Fair values are determined by reference to an estimate of the valuation of the underlying investments at the dates at which they may be exercised and discounted back to present day values. A security can normally only be exercised on the later date of death of the member or of their spouse. This date is assessed using actuarial assumptions.

(k) Taxation

Corporation tax on the surplus or deficit for the periods presented comprise current and deferred tax. Corporation and income tax are recognised in the Group income statement except to the extent that it relates to items recognised directly in the Group statement of comprehensive income.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised for all deductible temporary differences and unutilised tax losses to the extent that it is probable that taxable profits will be available against which the deductible temporary differences or tax losses can be utilised.

Notes to the Financial Statements

(For the year ended 31 December 2017)

2. Principal accounting policies continued

(k) Taxation continued

Deferred tax is measured on an undiscounted basis at the rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantially enacted at the reporting date.

(l) Subordinated notes and perpetual subordinated capital securities

Subordinated debt is initially recognised at fair value, being the fair value of the consideration received net of issue costs associated with the borrowing.

After initial recognition, the subordinated debt is subsequently recorded at amortised cost using the effective interest rate over the period to the earliest option date. Amortised cost is calculated after taking into account issue costs and issue discount.

(m) Cash and cash equivalents

For the purposes of the Group statement of cash flows, cash comprises cash at banks and demand deposits, and cash equivalents comprise highly liquid investments that are convertible into cash with an insignificant risk of changes in value, with original maturities of less than three months.

(n) Income recognition

Income, which is stated net of value added tax, comprises the fair value of amounts receivable. Revenue arising in respect of Members' subscriptions, the Market modernisation levy and Central Fund contributions is calculated by applying a percentage to management's estimate of the future premium of each syndicate underwriting year. This future premium is estimated based on historical development trends. This approach therefore assumes that the premium written in the current year will develop in a similar pattern to that demonstrated in previous years.

The impact of any potential anomalies in the premium earning pattern of any one particular year is mitigated by applying an average development factor which is calculated based on the experience of a number of years. The extrapolation factor is based on a development factor which is applied to the current year written premium. Income is recognised as follows:

(i) Members' subscriptions, market charges and other services

Members' subscriptions, market charges and other services are recognised in the period for which the service is provided. They are recognised on a basis that reflects the timing, nature and value of the benefits provided.

(ii) Central Fund contributions

Central Fund contributions from members underwriting in the year are recognised in the period for which the service is provided.

(iii) Interest income

Interest receivable is recognised in the Group income statement on a time apportioned basis using the effective interest method. Any unwinding of discount is recognised as interest income.

(iv) Dividend income

Dividend income from equity investments is included in the Group income statement on the ex-dividend date.

(v) Other income

Other income is recognised when recoverability is agreed.

(o) Insurance premiums

Insurance premiums represent premiums on business incepting during the year, together with adjustments for premiums written in previous accounting periods. Premium income is recognised over the period of cover, taking the underlying risk exposure into account. Premiums written are stated before deduction of commissions but net of taxes, duties levied on premiums and other similar deductions.

(p) Insurance claims

Claims incurred in insurance related activities consist of claims and claims handling expenses paid during the year together with the movement in outstanding claims. Outstanding claims are the estimated final cost of all claims incurred but not settled at the reporting date, including claims incurred but not reported (IBNR). Outstanding claims are discounted. Subsequent information and events may result in the ultimate liability being less than, or greater than, the amount provided. Any differences between the provision and subsequent settlements are reflected within the Group financial statements of later years when differences between provision and subsequent settlement become apparent.

(q) Central Fund claims and provisions

Central Fund claims and provisions (undertakings) are accounted for when they are approved by the Council and become contractual commitments. These undertakings are granted wholly at the discretion of the Council for a fixed period, normally one year, and therefore are not deemed to be constructive obligations, except for renewals of those commitments previously granted. For those corporate members in provisional liquidation, the Council provides a supporting commitment, which will ensure that in no circumstance will an insurance creditor receive less than the amount it would have received in a winding up commencing on the date of the provisional liquidation. As the supporting undertakings are legally enforceable commitments, an estimate of their value is included within provisions in the Group financial statements and changes during the period are reflected in the Group income statement.

Recoveries in respect of undertakings previously given are credited to the Group income statement when contractually committed to be received.

(r) Foreign currency and derivative instruments foreign currency translation

(i) Functional and presentation currency

The Group financial statements are presented in pounds sterling, which is the Society's functional and presentation currency. Items included in the financial statements of each of the Society's entities are measured using the currency of the primary economic environment in which the entity operates (the 'functional currency').

(ii) Transactions and balances

Transactions in foreign currencies are recorded at the exchange rate prevailing on the date of the transaction. At each reporting date, monetary assets and liabilities denominated in foreign currencies are retranslated at the exchange rate prevailing at the reporting date. Translation differences on monetary items are taken to the Group income statement.

Translation differences on non-monetary items measured at fair value are reported as part of the fair value gain or loss and included in the Group statement of comprehensive income.

The results and financial position of overseas Society operations are translated into pounds sterling as follows:

- (i) Assets and liabilities are translated at the closing rate at the date of that statement of financial position;
- (ii) Income and expenses are translated at the average exchange rate for the year; and
- (iii) Any resulting exchange differences are recognised in the Group statement of comprehensive income.

The Society enters into forward currency contracts to manage exposures to fluctuation in foreign exchange rates, and to provide a service to the Lloyd's market. Where gains and losses are not expected to be refunded or recovered from the Lloyd's market, these amounts are taken to the Group income statement.

The principal exchange rates were:

	2017 Average	2016 Average	2017 Closing	2016 Closing
US\$	1.29	1.35	1.35	1.24
Can\$	1.67	1.78	1.70	1.66
RMB	8.73	8.94	8.75	8.53
Euro	1.14	1.22	1.13	1.17

(s) Leases

Payments made under operating leases are charged to the Group income statement on a straight line basis over the period of the lease. Contractual capital expenditure is provided for over the term of the underlying lease agreement. The lease cost provision (see note 22) is an accounting estimate which arises due to the fact the Society has entered into a number of fully repairing leases.

(t) New standards and interpretations not applied

International Accounting Standards	(beginning on or after)
IFRS 9 Financial Instruments	1 January 2018
IFRS 15 Revenue from Contracts with Customers	1 January 2018
IFRS 16 Leases	1 January 2019
IFRS 17 Insurance Contracts	1 January 2021

IFRS 9 – Financial Instruments

IFRS 9 replaces IAS 39 and specifies how an IFRS reporter will recognise, measure, present and disclose financial instruments. The standard is effective for annual periods beginning on or after 1 January 2018, although it is available for early application.

The standard focuses on three key areas set out below:

- (i) Classification and measurement, determining how financial assets and financial liabilities are accounted for in financial statements and, in particular, how they are measured on an ongoing basis;

- (ii) Impairment, introducing a new, expected loss impairment model that will require more timely recognition of expected credit losses; and

- (iii) Hedge accounting, by introducing a substantially reformed accounting model, with enhanced disclosures about risk management activity.

In advance of implementation of the standard, a review of the main financial instruments of the Society has been carried out. From this review, it is not expected that implementation of IFRS 9 will have a material impact on the Group financial statements of the Society. The main difference will be that certain financial assets will be valued using an amortised cost model going forwards, whereas currently most of the Corporation assets and liabilities (with the exception of the subordinated loan notes) are valued at fair value.

The following table gives details of how the key balances within the balance sheet will be valued going forwards:

Investment category	2017 Amount £m	Valuation method under IFRS9	Current valuation method
Government fixed interest securities	808	Fair value	Fair value
Corporate securities	733	Fair value	Fair value
Emerging market and high yield fixed interest	336	Fair value	Fair value
Equities	392	Fair value	Fair value
Hedge funds	151	Fair value	Fair value
Commodities	48	Fair value	Fair value
Loan investments	98	Fair value	Fair value
Short term and security deposits	241	Amortised cost	Fair value
Statutory insurance deposits	486	Amortised cost	Fair value
Total financial investments	3,293		
Trade and other receivables due within one year	265	Amortised cost	Fair value
Cash and cash equivalents	497	Amortised cost	Fair value
Subordinated notes and perpetual subordinated capital securities	793	Amortised cost	Amortised cost
Trade and other payables	481	Amortised cost	Fair value

There is currently no material difference between fair value and amortised cost for the above balances.

Further information on the Society's current accounting policy for financial instruments is provided in note 2(f) and note 18.

Notes to the Financial Statements

(For the year ended 31 December 2017)

2. Principal accounting policies continued

IFRS 15 – Revenue from Contracts with Customers

IFRS 15 specifies how and when an IFRS reporter will recognise revenue as well as requiring such entities to provide users of financial statements with more informative, relevant disclosures. IFRS 15 was issued in May 2014 and applies to annual reporting periods beginning on or after 1 January 2018. The standard provides a single, principles based five step model to be applied to all contracts with customers.

- (i) Identify the contract(s) with a customer;
- (ii) Identify the performance obligations in the contract;
- (iii) Determine the transaction price;
- (iv) Allocate the transaction price to the performance obligations in the contract; and
- (v) Recognise revenue when (or as) the entity satisfies a performance obligation.

In advance of implementation of the standard, a review of the Society's revenue streams has been carried out. In particular, each source of revenue has been reviewed applying each of the five steps set out above. From this review, it is not expected that implementation of IFRS 15 will have a material impact on the Group financial statements of the Society. Further information on the Society's current accounting policy for revenue recognition is provided in note 2(n).

IFRS 16 – Leases

IFRS 16 specifies how an IFRS reporter will recognise, measure, present and disclose leases. It will result in almost all leases being recognised on the balance sheet (except for short term and low leases). Under the new standard, an asset (the right to use a leased item) and a financial liability to pay rentals are recognised. IFRS 16 was issued on 1 January 2016 and applies to annual reporting periods beginning on or after 1 January 2019. The majority of the Society's leases are longer term operating leases in respect of properties, within both the UK and a number of overseas locations.

It is expected that implementation of IFRS 16 will have a material impact on the Group financial statements of the Society. Although the requirements of IFRS 16 do not change the total amount of cash flows between the parties to a lease, the recognition pattern of those cash flows will change, with the charge to the Income statement in the earlier stages of a lease typically higher than under current IFRS. Processes and systems are being reviewed to identify where changes are required in order to ensure full compliance with the new accounting standard from 2019 onwards. The outcome of this review and quantification of the impact on the Society's financial statements will be published in 2018. Further information on the Society's current accounting policy for leases is provided in note 2(s) and note 25.

IFRS 17 – Insurance Contracts

IFRS 17 was issued in May 2017, with an effective date of 1 January 2021. The standard is expected to have a material impact on the Society's consolidated accounts, driven by the insurance operations in China, Lloyd's Insurance Company (China) Limited, and the Society's new insurance subsidiary in Belgium, Lloyd's Insurance Company S.A. Further information on the Society's current accounting policy for insurance contracts is provided in note 2(g) and note 5.

3. Segmental analysis

Segmental information is presented in respect of the Society's business segments. The primary business segments are based on the Society's management and internal reporting structure.

Intra-segment pricing is determined on an arm's length basis.

Segmental results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

Segmental capital expenditure is the total cost incurred during the year to acquire segment assets that are expected to be used for more than one period.

The Society's primary business segments are as follows:

- (i) Corporation of Lloyd's: the main corporate purposes are to facilitate the carrying on of insurance business by members of Lloyd's and the advancement and protection of their interests in this context. The activities of authorised insurance company subsidiary undertakings are included within this business segment; and
- (ii) Lloyd's Central Fund: these funds, comprising the New Central Fund and Old Central Fund, are assets of the Society and are held and administered at the discretion of the Council, primarily as funds available for the protection of the policyholders. Unless the approval of members is obtained, the New Central Fund may not be used for the purposes of extinguishing or reducing liabilities which have been reinsured by Equitas.

Central Fund contributions from members and Corporation of Lloyd's subscriptions

During the year, members paid to the Corporation (members' subscriptions) and to the Central Fund (Central Fund contributions from members) 0.40% and 0.35% respectively of their syndicate forecast gross written premium (2016: 0.45% and 0.35% respectively). Central Fund contributions in the first three years of membership are charged at 1.4% of syndicate forecast gross written premium. The ultimate amounts to be retained by the Corporation and the Central Fund for 2017 will be based on actual 2017 gross written premiums of members, the quantification of which will not be known until 2019. The £122m (Central Fund contributions from members) and £133m (members' subscriptions) included in the Group income statement are based on the present best estimates of the ultimate amounts that will be retained by the Central Fund and the Corporation respectively.

In order to fund the operation of the Society's overseas network of offices, an overseas operating charge is levied on the market based on a set percentage of gross written premiums overseas. The collection method is quarterly with an adjustment after 12 months to the actual level of premiums written.

In addition to the above, a levy was charged to fund the costs of market modernisation, the levy is calculated as 0.09% (2016: 0.10%) of gross written premiums.

Other Group income includes foreign exchange gains, market settlement recoveries which represent continuing debt recoveries from the 1996 'Reconstruction and Renewal' settlement and recoveries in respect of undertakings given by the Central Fund.

Notes to the Financial Statements

(For the year ended 31 December 2017)

4. Central Fund claims and provisions incurred

	Note	2017 £m	2016 £m
Net undertakings granted	22	–	(8)
Central Fund claims and provisions incurred		–	(8)

The Council has given undertakings within financial limits to certain corporate members to use the New Central Fund to discharge the liability of those members where they have unpaid cash calls and do not have the resources to meet those cash calls (see note 2(q) for further information). Unutilised undertakings as at 31 December 2017 were nil (2016: nil).

5. Insurance activities

Lloyd's Insurance Company (China) Limited

Lloyd's Insurance Company (China) Limited (LICCL) is the principal insurance business of the Society. LICCL is a wholly owned subsidiary undertaking of the Society. The company's principal activity during 2017 was the reinsurance of non-life business in the China insurance market and direct non-life insurance in the Shanghai municipality. Lloyd's syndicates participate in LICCL's business by means of retrocession agreements which allow a 100% risk transfer.

For insurance contracts, claims provisions (comprising provisions for claims reported by policyholders and claims incurred but not reported) are established to cover the ultimate cost of settling the liabilities in respect of claims that have occurred and are estimated based on known facts at the reporting date. Outstanding claims provisions are discounted for the time value of money.

Reinsurance expenses recovered from reinsurers	62	71
Total insurance claims and expenses recoverable from reinsurers	212	200

Insurance contract assets and liabilities are analysed as follows:

	2017 Insurance contract liabilities £m	2017 Reinsurer's share of liabilities £m	2017 Net £m	2016 Insurance contract liabilities £m	2016 Reinsurer's share of liabilities £m	2016 Net £m
Provision for claims reported	116	(116)	–	60	(60)	–
Provision for IBNR claims	117	(117)	–	106	(106)	–
Total provision for insurance claims	233	(233)	–	166	(166)	–
Unearned premiums	109	(109)	–	88	(88)	–
Insurance contract liabilities	342	(342)	–	254	(254)	–

The increased balances flow from additional business written through the LICCL platform and the duration of claims payments.

The movement in provision for insurance claims is analysed as follows:

	2017 Insurance contract liabilities £m	2017 Reinsurer's share of liabilities £m	2017 Net £m	2016 Insurance contract liabilities £m	2016 Reinsurer's share of liabilities £m	2016 Net £m
At 1 January	166	(166)	–	79	(79)	–
Claims incurred/(released)	150	(150)	–	129	(129)	–
Claims paid (see below)	(78)	78	–	(55)	55	–
Effect of exchange rates	(5)	5	–	13	(13)	–
At 31 December	233	(233)	–	166	(166)	–

Claims incurred consist of claims and claims handling expenses paid during the year, together with the movement in outstanding claims. Full provision is made, on the basis of available information, for the estimated ultimate cost of claims notified but not settled as at the date of the statement of financial position, after taking into account handling costs and settlement trends. A provision for claims incurred but not notified is also established as at that date on a statistical basis. The provision also reflects claims settlement expenses and anticipated reinsurance and other recoveries. The provision for outstanding claims is based on information available at the reporting date. Subsequent information and events may result in the ultimate liability being less than, or greater than, the amount provided.

Any differences between the provision and subsequent settlements are recorded in the Group income statements of later years.

Claims development table

The table below shows the development of claims over a period of time on a gross basis. The claims development table shows the cumulative incurred claims, including both notified and IBNR claims for each successive year, together with cumulative claims at the current reporting date.

	2013 and prior £m	2014 £m	2015 £m	2016 £m	2017 £m	Total £m
At end of underwriting year	111	19	72	122	107	
One year later	109	24	77	163		
Two years later	101	24	72			
Three years later	103	25				
Four years later	99					
Current estimate of cumulative claims	99	25	72	163	107	
Cumulative payments to date	(91)	(20)	(49)	(68)	(5)	
Total provision for insurance claims	8	5	23	95	102	233

Due to the fully reinsured liabilities of the vast majority of the Society's insurance business, the Society has not prepared a claims development table on a net basis.

Notes to the Financial Statements

(For the year ended 31 December 2017)

5. Insurance activities continued

The movement in provision for unearned premiums is analysed as follows:

	2017 Insurance contract liabilities £m	2017 Reinsurer's share of liabilities £m	2017 Net £m	2016 Insurance contract liabilities £m	2016 Reinsurer's share of liabilities £m	2016 Net £m
At 1 January	88	(88)	–	31	(31)	–
Premiums written	253	(253)	–	238	(238)	–
Premiums earned	(231)	231	–	(186)	186	–
Effect of exchange rates	(1)	1	–	5	(5)	–
At 31 December	109	(109)	–	88	(88)	–

Insurance Risk

Insurance risk represents the possibility of the occurrence of a risk event, which results in uncertainties in relation to claim payments and timing. Under the Society's insurance contracts, the key insurance risk of the company is that the actual claim payment exceeds the carrying amount of insurance reserves provided. These risks are likely to take place under the following circumstances:

- Occurrence risk – the possibility that the number of risk events is different from expectation;
- Severity risk – the possibility that the cost of risk events is different from expectation; and
- Development risk – the possibility that there is a change in reserves before the end of the contract.

LICCL has reinsured and retroceded 100% of the insurance risk for all underwritten premiums.

The concentration of insurance risk is presented by major line of business below:

	2017 %	2016 %
Commercial property insurance	30	34
Agricultural insurance	12	22
Credit insurance	22	13
Engineering insurance	9	11
Hull insurance	7	6
Special risk insurance	4	4
Liability insurance	8	4
Other	8	6
	100	100

Risks

In addition to the risks which are set out in the Financial Risk Management section on pages 111 to 112, the Corporation's subsidiary LICCL is also subject to the following risks:

- Credit risk: there is a risk that a syndicate may be unable to fulfil its reinsurance obligations, in which case LICCL could potentially be exposed to a loss;
- Regulatory risk: as an overseas underwriting company, LICCL is subject to the requirements of the local regulator and could be subject to penalties if these regulations are not satisfied; and
- Management do not consider that LICCL is subject to insurance risk due to the fact that all business is 100% reinsured.

Risk margin

Risk margin is the reserves provided for the uncertainty of estimated future cash flow. As LICCL does not have the basic historic data to perform accurate computation of risk margin now, the risk margin of non-life business is determined based on an industry ratio. Under this basis, the risk margin of unearned premium reserve is set at 3% and the risk margin of outstanding claims reserve is set at 2.5% of the unbiased estimation of future cash flow respectively.

Credit Risk

LICCL is exposed to credit risks primarily associated with insurance, reinsurance and retrocession arrangements with its insurance counterparties. Credit risk is minimised by actively monitoring the credit worthiness of counterparties and reviewing the pattern of aged debt across the portfolio to ensure this is managed proactively.

Significant accounting estimates

Insurance contract reserves are calculated based on estimates of future payments arising from insurance contract obligations. The estimates are based on current available information as at the balance sheet date taking into account the respective probability of various scenarios.

Unearned premium reserve

The main assumptions used in the calculation of the unearned premium reserve relate to the loss ratio, expenses and the discount rate.

(a) Loss ratio

The insurance loss ratio is calculated by making estimates with reference to the historical experience of loss ratios in the London insurance market; the expected loss ratio provided by syndicates; and the Corporation's actual claims experience.

(b) Expenses

In determining expense assumptions, estimates are made based on analysis of future development trends and after taking inflation into account where applicable. The assumptions set for the inflation rate are consistent with those used for determining the discount rate.

(c) Discount rate

The discount rate used to calculate the unearned premium reserve is based on the market rate corresponding to the term and risk of liabilities. Discount rates are determined with reference to the 750 day moving average bond yield curve, taking liquidity, taxation and other factors into account. The discount rate assumption is affected by certain factors, such as future macro economics and capital markets and is therefore subject to uncertainty.

Outstanding claims reserve

When calculating the outstanding claims reserve, the estimate is based on the expected ultimate cost of reported and unreported claims at the balance sheet date. The ultimate claim cost is determined based on historical experience; the expected loss ratio provided by the syndicates; actual claims experience and other elements. Claims expense reserves are calculated with reference to actual claims expenses and future developing trends.

Outstanding claims reserves are calculated taking the time value of money into account. The discount rate used is the same as that used for the calculation of the unearned premium reserve.

Notes to the Financial Statements

Notes to the Financial Statements

(For the year ended 31 December 2017)

9. Investments in subsidiary undertakings

Subsidiaries are those entities over which the Society directly or indirectly has the power to govern the operating and financial policies in order to gain economic benefits. The basis by which subsidiaries are consolidated in the Group financial statements is outlined in the basis of preparation (note 1).

The following subsidiaries principally affected the Group's results as at 31 December 2017, as set out in the Society Group income statement.

Company name	Nature of business	Country of incorporation
Additional Underwriting Agencies (No. 5) Limited	Acts as members' agent for Names	England and Wales
Additional Securities Limited	Provision of deposits overseas on behalf of Lloyd's underwriters to comply with local insurance regulations	England and Wales
Centrewrite Limited	Authorised UK insurance company	England and Wales
Lloyd's Finance Company Limited	Capital management	England and Wales
Lloyd's Housing Support Limited	General commercial company	England and Wales
Lloyd's Members Agency Services Limited	Acts as members' agent for run off affairs	England and Wales
Omniline Services Limited	Incorporated for the purpose of sale and leaseback of Lloyd's 1958 Building	England and Wales
Syndicate Underwriting Management Limited	Provision of insurance run off and related administrative services	England and Wales
Tutelle Limited	Acts as a trustee of a fund established in order to secure the performance of obligations under certain indemnities given by the Society	England and Wales
Lloyd's Australia Limited	Provision of administrative functions for Lloyd's underwriters and acts as liaison office with the insurance regulatory authorities in Australia	Australia
Lloyd's Canada Inc.	Provision of administration function on behalf of the Society and Lloyd's underwriters in Canada	Canada
Lloyd's Cyprus Limited	Acts as general and fiscal representative in Cyprus of Lloyd's underwriters	Cyprus
Lloyd's Escritorio de Representacao no Brasil Ltda.	Provides representative, administrative and management services on behalf of the Society and participant of Lloyd's insurance market. Also acts as general and fiscal representative for Lloyd's underwriters	Brazil
Lloyd's France SAS	Provides administrative and management services on behalf of the Society and insurance market participants	France
Lloyd's Iberia Representative S. L. U.	Provides administrative and management services on behalf of the Society and participants of Lloyd's insurance market	Spain
Lloyd's Insurance Company (China) Limited	Authorised insurance company in China	China
Lloyd's Insurance Company S.A.	Lloyd's planned insurance company in Belgium for EU business	Belgium
Lloyd's Ireland Representative Limited	Provides administrative and management services on behalf of the Society and participants of Lloyd's insurance market. Also acts as general representative for Lloyd's underwriters in Ireland	Ireland
Lloyd's Japan Inc.	Acting as a general agent for the Society in Japan	Japan
Lloyd's Labuan Limited	Licensed to carry on business as underwriting manager in Malaysia	Malaysia
Lloyd's Limited	Provides administrative and management services on behalf of the Society and participants of Lloyd's insurance market	United Arab Emirates
Lloyd's Malta Limited	Acts as a local general representative of the Society and those underwriting members of Lloyd's who transact insurance business in Malta	Malta
Lloyd's Netherlands Representative B. V.	Acts as representative office of Lloyd's underwriters and the Society	Netherlands
Lloyd's of London (Asia) Pte Ltd	Provides support for business development, administration and coordination services to the Society and Lloyd's managing agents. Also provides administrative functions for Lloyd's underwriters and acts as a liaison with the relevant regulatory authorities in Singapore	Singapore
Lloyd's of London (Representative Office) Greece SA	Acts as general and fiscal representative of Lloyd's underwriters in Greece	Greece
Lloyd's Polska Sp. z o.o.	Provides administrative and management services on behalf of the Society of Lloyd's and participants of Lloyd's insurance market	Poland
Lloyd's South Africa (Proprietary) Ltd	Provision of administration function on behalf of the Society and Lloyd's underwriters in South Africa	South Africa

Company name	Nature of business	Country of incorporation
Lloyd's America Ltd.	Parent Company of Lloyd's America Holding Inc.	England and Wales
Lloyd's America Holding Inc.	Provision of services to the Society of Lloyd's and its brokers and customers in North America	USA
Lloyd's America Inc.		
Lloyd's Illinois Inc.		
Lloyd's Kentucky Inc.		

The main territory of operation of subsidiaries incorporated in England and Wales is the UK. For overseas subsidiaries, the principal country of operation is the same as the country of incorporation. All operating subsidiaries have a 31 December year end reporting date with the exception of Lloyd's Japan Inc. with the year end reporting date of 31 March. All operating subsidiaries are 100% owned with the exception of Lloyd's Escritorio de Representacao no Brasil Ltda. which is 99.99% owned by the Society of Lloyd's.

Restrictions

Lloyd's operates in more than 200 territories around the world and uses a number of different operating models depending upon local regulatory requirements. Different countries operate different regulatory regimes and, in some cases, these may place certain restrictions on the use of capital and assets that are held within those countries, including capital of RMB 1bn (2016: RMB 1bn) within Lloyd's Insurance Company (China) Limited (LICCL). Lloyd's proactively manages its international asset base to ensure that any such restrictions have a minimal impact upon the utilisation of capital and investments or upon the operations of the Corporation.

Dormant subsidiaries

The Society has an ongoing interest in the following dormant subsidiaries. These subsidiaries are all 100% owned by the Society and they have not actively traded as at 31 December 2017.

Company name	Country of incorporation
Additional Underwriting Agencies (No. 9) Limited	England and Wales
Additional Underwriting Agencies (No.10) Limited	England and Wales
Bankside Nominees Limited	England and Wales
Barclay & Marsh Nominees Limited	England and Wales
CI de Rougemont (Nominees) Limited	England and Wales
CMA (CT&W) Nominees Limited	England and Wales
Crowe Agency Nominees Limited	England and Wales
Cuthbert Heath Nominees Limited	England and Wales
Devonshire Underwriting Agencies Nominees Limited	England and Wales
EHW (Nominees) Limited	England and Wales
EWG (Nominees) Limited	England and Wales
GP Eliot (Nominees) Limited	England and Wales
Gammell Kershaw Nominees Limited	England and Wales
GTUA Nominees Limited	England and Wales
Habit Nominees Limited	England and Wales
Hayter Brockbank Shipton Nominees Limited	England and Wales
Higgins Brasier Nominees Limited	England and Wales
Lloyd's Nominees Director Limited	England and Wales
Lloyd's Nominees Secretary Limited	England and Wales
Lloyd's of London (Cassidy Members) Nominees Limited	England and Wales
Lloyd's of London (Claremount) Nominees Limited	England and Wales
Lloyd's of London (Harrison Brothers) Nominees Limited	England and Wales
Lloyd's of London (Murray Lawrence) Nominees Limited	England and Wales
Lloyd's of London (Octavian) Nominees Limited	England and Wales
Lloyd's of London (R J Kiln) Nominees Limited	England and Wales
Lloyd's of London (Sedgwick) Nominees Limited	England and Wales
Lloyd's of London (Spratt & White) Nominees Limited	England and Wales

Notes to the Financial Statements

(For the year ended 31 December 2017)

9. Investments in subsidiary undertakings continued

Dormant subsidiaries continued

Company name	Country of incorporation
Lloyd's of London (Stewart Members) Nominees Limited	England and Wales
Lloyd's of London (Wellington) Nominees Limited	England and Wales
Lloyd-Roberts & Gilkes Nominees Limited	England and Wales
Mander, Thomas & Cooper Nominees Limited	England and Wales
Meacock (Nominees) Limited	England and Wales
MFK Nominees Limited	England and Wales
Miles Smith Nominees Limited	England and Wales
Mocatta Dashwood Nominees Limited	England and Wales
MUA Nominees Limited	England and Wales
Mythzone Nominees Limited	England and Wales
Nomad Nominees Limited	England and Wales
Pieri Nominees Limited	England and Wales
Pound Nominees Limited	England and Wales
R F Kershaw (Nominees) Limited	England and Wales
Rilong Nominees Limited	England and Wales
Scott Caudle Hilsum Nominees Limited	England and Wales
Sturge Central Nominees Limited	England and Wales
Wendover Nominees Limited	England and Wales
WFDA Nominees Limited	England and Wales
Lloyd's Aviation Limited	England and Wales
Lloyd's Building Limited	England and Wales
Lloyd's.com Limited	England and Wales
Lloyd's Information Services Limited	England and Wales
Lloyd's Life Limited	England and Wales
Lloyd's List Limited	England and Wales
Lloyd's of London Press Limited	England and Wales
Lloyd's Recoveries Limited	England and Wales
Lloyd's Shelf Company 1 Limited	England and Wales
Lutine Nominees & Insurance Limited	England and Wales
Sharedealer Limited	England and Wales

All subsidiary undertakings are included in the consolidated Society Report. The proportions of the voting rights in the subsidiary undertakings held directly by the Society do not differ from the proportion of the ordinary shares held. With the exception of £1 preference share for Lloyd's Building Limited, the Society does not have any preference shares of subsidiary undertakings included in the Group.

10. Investments in Associates and Joint Ventures

The Society has the following significant holdings which have been included as investments in associates and joint ventures.

Company Name	Country of Incorporation	Proportion of equity capital held	Nature of business
Ins-sure Holdings Limited	England and Wales	25%	Provision of premiums and claims accounting and settlement, policy production and ancillary insurance services principally to the London insurance market
Xchanging Claims Services Limited	England and Wales	50%	Provision of claims and recoveries services
The Message Exchange Limited	England and Wales	Limited by guarantee 25%	Provision of messaging infrastructure to the London insurance market
Structured Data Capture Limited	England and Wales	Limited by guarantee 33%	Provision of standardisation of data capture across the London market

The issued share capital of Ins-sure Holdings Limited is £4,000. There are three classes of shares. The Society holds 1,000,000 B shares of 0.1p each that have the right to participate in 25% of any profits available for distribution.

The issued share capital of Xchanging Claims Services Limited is £4,001. There are three classes of shares. The Society holds 1,000 A shares of £1 each and 2,001 C shares of £1 each. The A and C shares have the following rights with respect to dividends:

- (a) The A shares participate in 50% of any profits available for distribution after taking account of the dividend rights outlined above; and
- (b) The C shares carry a right to a fixed cumulative preference dividend of 5% calculated on the nominal capital and a variable participating dividend calculated by reference to trading profits.

The Society entered into a joint venture agreement with International Underwriting Association of London Limited (IUA); London and International Brokers' Association Limited; and Lloyd's Market Association (LMA) for an equal participation in The Message Exchange Limited (TMEL) which was incorporated on 27 August 2010. TMEL operates The Exchange – a simple messaging hub provided to the London insurance market to support its efforts to extend the use of electronic processing of business. As at 31 December 2016 and 2017, the net assets of TMEL had no material impact on the Society accounts.

In 2017, the Society entered into a joint venture agreement with IUA and LMA for an equal participation in Structured Data Capture Limited (SDC) which was incorporated on 14 June 2017. The share capital of SDC is £3.

Tax charge	16.6%	(31)	18.6%	(75)

Notes to the Financial Statements

(For the year ended 31 December 2017)

11. Taxation continued

(c) Deferred tax

	2017 Balance at 1 January £m	2017 Income statement £m	2017 Equity £m	2017 Balance at 31 December £m
Plant and equipment	4	1	–	5
Financial investments	(7)	(6)	–	(13)
Pension liabilities	39	(1)	(9)	29
Other employee benefits	3	(1)	–	2
Provisions	–	1	–	1
Other items	1	–	–	1
Total deferred tax	40	(6)	(9)	25

In 2017 there were no unrecognised deductible temporary differences (2016: nil).

Deferred tax assets and liabilities are measured at the tax rate that will apply to the period when an asset is expected to be realised or a liability is expected to be settled. The applicable rate is that which has been enacted or substantively enacted by the balance sheet date.

The deferred tax asset is based on a corporation tax rate of 19% to 17% depending on when an asset is expected to unwind (2016: 19.25% to 17%). Reductions to the UK corporate tax rate to 19% from 1 April 2017 and 17% from 1 April 2020 were substantively enacted in September 2016.

12. Pension schemes

Lloyd's operates a number of defined benefit and defined contribution pension schemes. The principal scheme is the Lloyd's Pension Scheme, which is a defined benefit scheme. Other schemes have been established for certain employees based overseas.

These schemes are generally funded by the payment of contributions to separately administered funds.

Defined benefit and contribution plans

The pension deficits of the schemes at 31 December 2017 are as follows:

	2017 £m	2016 £m
Lloyd's Pension Scheme	(161)	(228)
Overseas pension schemes	(3)	(3)
Total schemes deficit	(164)	(231)

The amounts (credited)/charged to the Group income statement and Group statement of comprehensive income in respect of defined benefit plans and defined contribution plan, are as follows:

	2017 £m	2016 £m
Group income statement		
Lloyd's Pension Scheme	(2)	12
Overseas pension schemes	2	2
Other pension contributions	2	1
Total	2	15
Group statement of comprehensive income		
Lloyd's Pension Scheme	(48)	127
Overseas pension schemes	–	–
Total	(48)	127

Lloyd's Pension Scheme

The Lloyd's Pension Scheme is a defined benefit pension scheme with assets held in a separately administered fund. The Scheme provides pensions to members on retirement, as well as benefits on the death of members. The Scheme operates in accordance with the Scheme's Trust Deed and Rules and relevant legislation. A Board of Trustees manage and administer the Scheme; they are primarily responsible for ensuring that members are paid the correct benefits at the correct time, and that there are sufficient Scheme assets to pay benefits as they fall due.

The Scheme was originally set up as a final salary pension scheme (i.e. benefits for employed members were linked to their latest salary), with a normal retirement age of 60 and an enhanced benefit section for senior managers. In recent years, in order to mitigate exposure to pension scheme liabilities, several changes have been made to the Lloyd's Pension Scheme.

- In February 2005, the senior management section of the Scheme was closed to new entrants and the Normal Retirement Age (NRA) for all new joiners was increased from 60 to 65.
- The final salary scheme was closed to new joiners at the end of June 2006. New entrants from July 2006 were eligible to join the Lloyd's Pension Scheme but accrue benefits on a career average basis (where benefits are based on their average salary rather than final salary).
- In April 2013, Lloyd's made some further changes to its pension arrangements. The career average (i.e. CARE) section of the scheme was closed to new joiners from April 2013, and to existing hires from June 2013 (existing employed members of each section continue to accrue benefits). After these dates, employees are eligible to join the Lloyd's Group Personal Pension Plan, which is administered by Aviva. The amount charged to the Group income statement in respect of Lloyd's Group Personal Pension Plan is £2m (2016: £1m).

Closure of pension scheme

The Society carried out a review of its rewards and recognition package during the year. The aim of this review was to ensure that the Society offers a competitive and attractive package that is fair and consistent to all employees and in line with other employers, both within and beyond the financial services industry.

As a result, the Society announced on 4 September 2017 a number of proposals regarding future pension provision for its employees. Following that announcement, the Society entered into a collective consultation process for those in the Defined Benefit Pension Scheme, during which employee representatives were elected and workshops were held, followed by meetings with affected individuals.

Following completion of that consultation process on 22 November 2017, and responding to some proposals from employees, the Society subsequently announced that it will be proceeding with the closure of the Defined Benefit Pension Scheme to all members with effect from 30 June 2018. Following that, all existing members of the Scheme will be automatically enrolled into the Lloyd's Group Personal Pension plan (GPP). The GPP contribution was also externally benchmarked and reviewed, with increased levels being approved from 2018 for all employees.

Notes to the Financial Statements

(For the year ended 31 December 2017)

12. Pension schemes *continued*

Scheme contributions and funding valuation

UK legislation requires the funding position of the Scheme to be assessed at least every three years by an independent qualified actuary. Contributions are paid to provide for the cost of benefit accrual and to meet any funding deficit. Any funding deficit or surplus is typically amortised over a period. Contributions are made at the funding rates based on assumptions recommended by the actuary, and agreed between the Trustees and Lloyd's.

The last formal actuarial valuation of the Scheme was carried out by Willis Towers Watson as at 30 June 2016 using the projected unit credit method. The total market value of the Scheme's assets at the 2016 valuation was £667m, and the total value of accrued liabilities was £730m showing a funding deficit of £63m. These figures exclude both liabilities and the related assets in respect of money purchase Additional Voluntary Contributions (AVCs). A recovery plan is in place and has been agreed with the Trustees. This will be kept under review as circumstances develop.

Employee contributions of 5% of pensionable earnings (or 10% of pensionable earnings for members of the senior management section) have been introduced from July 2006. Normally, instead of making an employee contribution, employees make a salary sacrifice of the appropriate percentage of their salary and Lloyd's makes an additional employer contribution of the same amount.

Following the 2016 actuarial valuation, employer contributions to meet the cost of future accrual as a percentage of salaries are 35% for final salary members with an NRA of 60, 30.8% for final salary members with an NRA of 65 and 18.6% for members accruing benefits on a career average basis.

Members of the Lloyd's Group Personal Pension plan can elect their contribution rate (payable via salary sacrifice) and can change this at any time.

Following the review of the UK reward in 2017, a revised contribution matrix has been introduced from 1 January 2018, as follows:

Employee	Lloyd's	Total
3%	8%	11%
4%	9%	13%
5%	10%	15%
6%	11%	17%

The cap on Lloyd's contribution has been increased to 11%.

With effect from 1 July 2018, the contribution matrix will be further extended.

Discretionary pension increases – treatment for funding purposes

There are no guaranteed increases in payment for pensions accrued before 6 April 1997. In 2003, Lloyd's instructed Willis Towers Watson not to allow for such increases in calculating the Scheme's liabilities for future actuarial funding valuations. Such increases have always been payable at the discretion of Lloyd's and will continue to be considered on the basis of affordability, but are not taken into account by the actuary in determining the funding level.

Information about the risks of the Scheme to Lloyd's

The ultimate cost of the Scheme to Lloyd's will depend upon actual future events rather than the assumptions made. Many of the assumptions made are unlikely to be borne out in practice and as such the cost of the Scheme may be higher or lower than disclosed. In general, the risk to Lloyd's is that the assumptions underlying the disclosures, or the calculation of contribution requirements, are not borne out in practice and the cost to Lloyd's is higher than expected. This could result in higher contributions required from Lloyd's and a higher deficit disclosed. This may also impact Lloyd's ability to grant discretionary benefits or other enhancements to members.

More specifically, the assumptions not being borne out in practice could include:

- The return on the Scheme's assets being lower than assumed, resulting in an unaffordable increase in the required contribution;
- Falls in asset values (particularly equities) not being matched by similar falls in the value of liabilities;
- A decrease in corporate bond yields will increase the Scheme's liabilities, although this will be partially offset by an increase in the value of the Scheme's bond assets;
- The majority of the Scheme's assets are linked to inflation, and higher inflation will lead to higher liabilities; and
- Unanticipated future changes in mortality patterns leading to an increase in the life expectancy for members, resulting in higher liabilities. Future mortality rates cannot be predicted with certainty.

The Scheme's investment strategy

The Scheme's investment strategy apportions the Scheme's assets into two portfolios. The risk-reducing portfolio, amounting to around 40% of the total assets, is invested in bonds, structured with the intention of generating cash flows that match as far as possible those required to meet a proportion of the Scheme's obligations. The return-seeking portfolio is intended to generate returns which over the long term will fund the remainder of the Scheme's obligations. This portfolio is invested in passive and active equities, and active property. During 2017, three equity fund managers were appointed to manage the new active equity allocation. The combined equity proportion is approximately 50% of the total assets and the property proportion is around 10%.

As the Scheme matures, the Trustees and Lloyd's expect to gradually reduce the proportion allocated to return-seeking assets and increase the proportion allocated to matching assets.

Principal actuarial assumptions in respect of IAS 19

The demographic assumptions that are the most financially significant are those relating to the life expectancy of retired members. The mortality table used for the purposes of the IAS 19 valuation as at 31 December 2017 was 110% (2016: 105%) of SAPs light tables for males and 115% (2016: 110%) SAPs light tables for females, with allowance for future improvements in line with CMI 2015 core projections with 1.5% per annum trend improvement.

These assumptions are equivalent to expected longevity at age 60 approximately as follows:

- For pensioners currently aged 60: ranging from 28 years to 29 years (2016: 29 years to 30 years); and
- For non-pensioners currently aged 45: ranging from 30 years to 31 years (2016: 30 years to 31 years).

The other major financial assumptions used by the actuary as at 31 December 2017 for the purposes of IAS 19 were:

	2017 % per annum	2016 % per annum	2015 % per annum	2014 % per annum	2013 % per annum
General salary and wage inflation	4.2	4.4	4.2	4.1	4.4
Rate of increase in pensions in payment					
6 April 1997 to 5 April 2005	3.1	3.2	3.1	3.0	3.2
Post 5 April 2005	2.2	2.3	2.2	2.2	2.3
Increases to final salary deferred pensions					
Benefits accrued before April 2009	2.2	2.4	2.2	2.1	2.4
Benefits accrued from April 2009	2.2	2.4	2.2	2.1	2.4
CARE revaluation in service and in deferment, and increase in payment	2.2	2.3	2.2	2.2	2.3
Discount rate	2.4	2.6	3.8	3.7	4.4
Price inflation					
Retail Price Inflation (RPI)	3.2	3.4	3.2	3.1	3.4
Consumer Price Inflation (CPI)	2.2	2.4	2.2	2.1	2.4

An allowance is made for members commuting 20% (2016: 20%) of their pension on retirement using the factors in use at the respective date.

For IAS 19 purposes, Lloyd's recognises the cost of discretionary increases to pre 6 April 1997 benefits in payment when there is a constructive liability to make such increases. Lloyd's provided £10m in 2007 and a further £20m in 2011 to meet the expected cost of future discretionary increases. This amount has been notionally segregated from the Scheme's other assets (the 'notional fund') and its investment performance will be tracked on the assumption that it is invested in the same way as the Scheme's other assets.

The notional fund will be used to facilitate the award of future discretionary pension increases when Lloyd's carries out its annual review of pensions in accordance with the Scheme's Definitive Trust Deed. As long as there is a notional fund set aside for this purpose, discretionary increases will continue to be made. As at 31 December 2017 the value of the notional fund was £30m (2016: £29m).

Notes to the Financial Statements

(For the year ended 31 December 2017)

12. Pension schemes *continued*

Sensitivity of pension obligation to changes in assumptions

The actuarial valuation of liabilities under IAS 19 is particularly sensitive to changes in market conditions.

A change of 1% per annum in the discount rate as at 31 December 2017 would result in a change to the pension liabilities at that date of around 20%, or approximately £190m (2016: £190m).

A change of 1% per annum in the assumption for future inflation (both RPI and CPI) as at 31 December 2017, which would change future expectations of salary increases, pension increases and deferred revaluation, would result in a change to the pension liabilities at that date of around 10%, or approximately £95m (2016: £95m).

A change in the mortality assumptions could have a significant impact on the pension liability. For instance, if members aged 60 were instead expected to live for one year longer, with all other members' life expectancies increasing by a proportionate amount, then the liability as at 31 December 2017 would be 3% higher (2016: 3%).

Amounts for the current and previous years were:

Asset/(liability) analysis of the Scheme	2017 Fair value £m	2016 Fair value £m	2015 Fair value £m	2014 Fair value £m	2013 Fair value £m

(For the year ended 31 December 2017)

12. Pension schemes continued

Maturity profile of Defined Benefit Obligation

The Scheme is maturing over time, with 38% of the members in the Scheme being retired members and with an approximate duration of the Scheme's liabilities of around 20 years.

The expected benefit payments from the Scheme over the next few years are as follows:

	£m
Expected benefit payments during year ending 31-Dec-18	25
Expected benefit payments during year ending 31-Dec-19	24
Expected benefit payments during year ending 31-Dec-20	25
Expected benefit payments during year ending 31-Dec-21	27
Expected benefit payments during year ending 31-Dec-22	27
Expected benefit payments during period 01-Jan-23 to 31-Dec-27	161
Expected benefit payments during period 01-Jan-28 to 31-Dec-32	186
Expected benefit payments from 01-Jan-33 onward	1,205

Overseas pension schemes

Lloyd's operates a number of defined benefit schemes for qualifying employees based overseas. The actuarial valuations of these pension schemes at 31 December 2017 resulted in a deficit of £3m (2016: £3m).

Development of net balance sheet position	2017 £m	2016 £m
Value of assets	3	3
Actuarial value of scheme liabilities	(6)	(6)
Deficit in the scheme	(3)	(3)
Net defined benefit liability	(3)	(3)

The total expense recognised in other Group operating expenses of £1m (2016: £1m) represents the related current service cost of these schemes. No actuarial gain/loss has been recognised in the Group statement of comprehensive income (2016: nil).

Defined contribution plans

Lloyd's operates a number of defined contribution retirement benefit schemes for qualifying employees based overseas. The assets of the schemes are held separately from those of Lloyd's in funds under the control of the Trustees.

In some countries, employees are members of state-managed retirement benefit schemes. Lloyd's is required to contribute a specified percentage of payroll costs to fund these benefits. The only obligation of Lloyd's with respect to the retirement benefit scheme is to make the specified contributions.

The total expense recognised in the Group income statement of £2m (2016: £1m) represents contributions payable to these schemes by Lloyd's at pricing levels specified in the rules of these schemes.

14. Tangible assets continued

Impairment losses

Impairment reviews are undertaken annually of the recoverability of the carrying value of plant and equipment assets held. As part of this review, £2m of plant and equipment was written off in 2017 (2016: nil).

Lloyd's Collection

The Lloyd's Collection represents various paintings, antiques and artefacts. The collection was valued at £13m in November 2015, on the basis of open market auction value assuming all items are not sold at the same time taking into account the nature, age, condition and quality of each chattel. This resulted in a revaluation gain of £1m in 2015.

In 2017, it was assessed that there was no change in valuation.

15. Loans recoverable

Finance is arranged by advances from syndicates in the Lloyd's market. These advances are renewed annually. By agreement with the lenders, investment returns earned on these assets are paid, in appropriate proportions, to the lenders. In this way, the Society avoids any risk arising from a mismatch between borrowing and lending terms. Book cost is stated at historical exchange rates; market value is quoted at year end exchange rates.

The provision of funds by members in respect of the establishment and maintenance of overseas deposits is a condition of permission to underwrite insurance business at Lloyd's.

Tutelle Limited

In 1996 the Council set aside £20m of the 'Old' Central Fund, under a Lloyd's special account, to secure the Society's obligations under staff indemnities and certain indemnities that have been given by Lloyd's to certain individuals and advisers in respect of the 'Reconstruction and Renewal' plan. These include members of the Reserve Group, directors and officers of Equitas, members of the Council, Lloyd's Regulatory Board, Lloyd's Market Board (the latter two boards ceased during 2002) and of their respective sub committees and Corporation staff.

Unless and until there is any default under the security documentation, interest earned on the trust fund is paid to the 'Old' Central Fund. The security was deposited for an initial period of two years and the Council exercised its discretion to renew this in June 1998. The Council further amended the period of the deposit in November 1998, so that the security could only be released if the Council was satisfied that there was no reasonable prospect of a claim being made under these indemnities. Tutelle's position is under biennial review and, having been reviewed in July 2016, will be reviewed again in July 2018. The security may continue for a period of up to 80 years. Any of the funds remaining after this period will be repaid to the 'Old' Central Fund.

17. Trade and other receivables due within one year

	2017 £m	2016 £m
Due within one year		
Trade (net of allowance for impairment)	3	3
Insurance and reinsurance receivables	196	123
Members' subscriptions and contributions receivable	–	3
Interest receivable	16	17
Taxation and social security	4	2
Overseas office deposits	2	3
Amounts due from underwriters	5	7
Other receivables	39	47
Total trade and other receivables	265	205

18. Financial instruments

Explanations of the Society's financial instrument risk management objectives, policies and strategies are set out in the discussion of the Society's financial risk management and treasury policies on pages 111 to 112 of the Financial Review.

Fair values and credit risk

The methods and assumptions used in estimating the fair value of financial instruments are detailed in note 2(f) on pages 126 to 127.

The fair value (based on the quoted offer prices) of subordinated debt is £925m (2016: £952m) against a carrying value measured at amortised cost of £793m (2016: £883m). All other financial instruments are either held at fair value or at an amount that approximates fair value.

At the reporting date there were no significant concentrations of credit risk. The maximum exposure to credit risk is represented by the carrying value of each financial asset, including derivative financial instruments, in the Group statement of financial position.

Impairment losses

Trade receivables

The ageing of trade receivables as at 31 December 2017 and 2016 was as follows:

	2017 Gross £m	2017 Impairment £m	2017 Net £m	2016 Gross £m	2016 Impairment £m	2016 Net £m
1-30 days	2	–	2	2	–	2
Past due 31-120 days	1	–	1	–	–	–
More than 120 days	–	–	–	1	–	1
Total	3	–	3	3	–	3

The Society's normal credit terms are 30 days. Receivables of more than 120 days represent amounts due from members no longer underwriting in respect of Society charges.

There was no movement in the allowance for impairment in respect of trade receivables during the year.

Sensitivity analysis

Foreign currency exposure

Currency risk is the risk that the sterling value of the Society's assets and liabilities will fluctuate due to changes in foreign exchange rates. The Society's exposure to the risk of changes in the foreign exchange rates relates primarily to retranslating foreign currency subordinated notes, revaluation of loans recoverable and changes in the fair value of foreign currency denominated investments and forward contracts. Further details on foreign currency risk can be found on page 112.

The majority of foreign exchange exposures arising from investments denominated in foreign currencies are managed via a foreign exchange hedging programme. However, some net exposures to foreign currencies remain and the sterling value of the Society's investments may be impacted by movements in exchange rates relating to these exposures. At 31 December 2017, a 10% rise in the value of sterling, against all other currencies, would have reduced the surplus before tax by £150m (2016: £133m). This analysis is presented net of foreign exchange hedges, and assumes that all other variables remain constant. In practice, actual results may differ.

Debt securities sensitivities

The value of the Society's investments in debt securities is affected by changes in the level of yields, as determined by the financial markets.

As at 31 December 2017, a consistent increase of 100 basis points in the yields applicable to all relevant securities would have reduced the surplus before tax by approximately £35m (2016: £34m). Relevant securities include investment grade sovereign and corporate bonds, floating rate notes and interest rate swaps. This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant. In practice, actual results may differ. Further details on market risk can be found on page 112.

Equity price risk

Equity price risk is the risk that the market values of equity investments fall. At 31 December 2017, a 15% fall in the value of all the Society's equity investments would have reduced the surplus before tax by approximately £86m (2016: £84m). This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant. In practice, actual results may differ. Further details on market risk can be found on page 112.

Notes to the Financial Statements

(For the year ended 31 December 2017)

18. Financial instruments continued

Liquidity risk

The table below summarises the maturity profile of the Society's non-derivative financial liabilities as at 31 December 2017 based on undiscounted contractual cash flows:

	Carrying amount £m	Contractual cash flows £m	Within 1 year £m	1-2 years £m	2-5 years £m	More than 5 years £m
As at 31 December 2017						
Subordinated loan notes	793	(1,112)	(38)	(38)	(115)	(921)
Loans funding statutory insurance deposits	483	(483)	(483)	–	–	–
Trade and other payables	481	(481)	(481)	–	–	–
Total	1,757	(2,076)	(1,002)	(38)	(115)	(921)
As at 31 December 2016						
Subordinated loan notes	494	(690)	(24)	(24)	(71)	(571)
Perpetual subordinated capital securities	389	(421)	(421)	–	–	–
Loans funding statutory insurance deposits	494	(494)	(494)	–	–	–
Trade and other payables	378	(378)	(378)	–	–	–
Total	1,755	(1,983)	(1,317)	(24)	(71)	(571)

The contractual cash flows have been based on the expectation, but not the obligation, that the subordinated notes and perpetual subordinated capital securities are redeemed at the first option date.

Forward currency contracts are settled gross; notional amounts are a close proxy for gross cash flow amounts. Further details regarding the subordinated notes and the perpetual subordinated capital securities can be found in note 21 on page 164.

Derivative financial instruments

The Society enters into forward currency contracts to manage exposures to fluctuation of exchange rates and to provide a service to the Lloyd's market. The Society's derivative financial instruments are categorised as fair value Level 2.

	2017 £m	2016 £m
Analysis of forward currency contracts		
Outstanding forward foreign exchange gains	16	16
Outstanding forward foreign exchange losses	(10)	(19)

The fair value and notional amounts of forward currency contracts, all of which mature within one year, are analysed as follows:

	2017 Assets		2017 Liabilities	
	Fair value £m	Notional £m	Fair value £m	Notional £m
As at 31 December 2017				
Currency conversion service	6	223	(6)	(224)
Other forward foreign exchange contracts	8	545	(2)	(538)
Interest rate swaps	2	179	(2)	(179)
Total	16	947	(10)	(941)
	2016 Assets		2016 Liabilities	
	Fair value £m	Notional £m	Fair value £m	Notional £m
As at 31 December 2016				
Currency conversion service	6	207	(7)	(207)
Other forward foreign exchange contracts	8	441	(9)	(442)
Interest rate swaps	2	187	(3)	(187)
Total	16	835	(19)	(836)

Fair value hierarchy

To provide further information on the valuation techniques the Society uses to measure assets carried at fair value, the Society has categorised the measurement basis for assets carried at fair value into a 'fair value hierarchy' described as follows, based on the lowest level input that is significant to the valuation as a whole:

Level 1

Inputs to Level 1 fair values are quoted prices in active markets for identical assets. An active market is one in which transactions for the asset occur with sufficient frequency and volume to provide pricing information on an ongoing basis. Examples are listed debt securities in active markets, listed equities in active markets, listed deposits held with credit institutions in active markets.

Level 2

Inputs to Level 2 fair values are inputs other than quoted prices included within Level 1 that are observable for the asset, either directly (i.e. as prices) or indirectly (i.e. derived from prices) and fair value is determined through the use of models or other valuation methodologies. Level 2 inputs include quoted prices for similar (i.e. not identical) assets in active markets, quoted prices for identical or similar assets in markets that are not active or in which little information is released publicly, unlisted deposits held with credit institutions in active markets or low volatility hedge funds where tradeable net asset values are published.

Level 3

Inputs to Level 3 fair values are inputs that are unobservable for the asset. Unobservable inputs have been used to measure fair value where observable inputs are not available, allowing for situations where there is little or no market activity. Unobservable inputs reflect assumptions that the Society considers that market participants would use in pricing the asset and have been based on a combination of independent third party evidence and internally developed models.

This table has been re-presented from that shown in the 2016 Annual Report to show interest rate swaps of both £2m assets and £3m liabilities as Level 2 that were previously shown as Level 1 and £235m of deposits with credit institutions as Level 2 that were previously shown as Level 1.

The Society's senior secured loans (reported within unlisted securities) and loans recoverable are categorised within Level 3 fair values.

Unlisted securities

Senior secured loans represent corporate lending to third parties that are held directly by the Society and managed by an external specialist investment manager. Gains and losses arising from changes in fair value are included in the Group income statement in the period in which they arise. The revaluation process is carried out on a monthly basis.

When specific loans are insufficiently traded, the investment manager will determine fair value based on various unobservable factors and market inputs. This approach aligns with a Level 3 classification. Level 3 asset price estimation processes involve significant judgement including the input choice. The investment manager will determine the most appropriate valuation method, which may comprise of, but is not limited to: discounted cash flow models, option adjusted spread prices, trading values on comparable assets or indicative broker quote(s).

Fair values are determined using a pricing hierarchy structure for valuation purposes. The valuation principles employed are to provide the most accurate valuations, while also working to provide independent valuations. The pricing process employs a hierarchy that utilises numerous third party sources in a tiered system. The standard pricing hierarchy includes the following independent pricing vendors: FT Interactive Data; Reuters; Barclays Indices; Citigroup Indices; Merrill Lynch Indices; SNP (Standard & Poor's); MarkIt/LoanX – senior secured loans; Broker/Dealer Pricing; Fair Value/Model Pricing and Spread Pricing.

Loans recoverable

Recoverable Central Fund loans made to hardship members are managed on a fair value basis and relate solely to the revaluation of hardship, LFAA and legal assets. Gains and losses arising from changes in the fair value are included in the Group income statement in the period in which they arise. The revaluation process is carried out twice a year at both interim and year end.

Fair values are determined by reference to an estimate of the valuation of the underlying securities at the dates at which they may be exercised and discounted back to present day values. In the calculation of the fair value, the securities include both properties that have had a 2% increase applied and hardship trust fund assets with an annual increase of 1.3%. Both securities have had the percentage increase applied until the date at which they may be exercised. The property market remained stable throughout 2017 and showed a slight increase in property values since 2016. A discount rate of 2.4% has also been applied to achieve present day fair value. The securities include both properties and hardship trust fund assets. A security can normally only be exercised on the later of the date of death of the member or of their spouse. This date is assessed using actuarial assumptions.

The fair value movements during the year are recognised as finance income or finance costs in the Group income statement. The table below sets out a reconciliation from the opening balances to the closing balances of Level 3 fair values:

	2017 £m	2016 £m
As at 1 January	61	58
Purchases	10	6
Sales	(5)	(6)
Transfers from Level 3	(7)	(3)
Total net (loss)/gain recognised in the profit and loss	(1)	6
As at 31 December	58	61

Sensitivity analysis

The majority of the Society's investments are valued based on quoted market information or other observable market data.

The Society holds 1.7% (2016: 1.8%) of its financial investments at a fair value based on estimates and recorded as Level 3 investments.

Unlisted securities sensitivities

Where estimates are used to value unlisted securities, these are based on a combination of independent third party evidence and internally developed models, calibrated to market observable data where possible. While such valuations are sensitive to estimates, it is believed that changing one or more of the assumptions to reasonably possible alternative assumptions is unlikely to result in a significant change in fair value.

Loans recoverable sensitivities

The value of loans recoverable is affected by changes in both property and hardship trust fund values. The property values are determined by periodic valuations, together with applying Halifax price indices bi-annually to revalue the assets at interim and year end. Inflationary increases are then applied to both property values and hardship trust funds until the estimated exercised date and then discounted back to present day values. Inflationary increases are estimated taking current economic conditions into account.

As at 31 December 2017, a decrease of 100 basis points in the property values, comprising the greatest part of the total balance, would not have an impact on the surplus before tax (2016: nil). This analysis assumes that all other variables, including inflationary increases and discounted rates, remain the same.

19. Cash and cash equivalents

	2017 £m	2016 £m
Cash at banks	251	179
Short term deposits	246	212
Total cash and cash equivalents	497	391

Cash at banks earns interest at floating rates based on daily bank deposit rates. Short term deposits are made for varying periods of between one day and three months, depending on the immediate cash requirements of the Society, and earn interest at the respective short term deposit rates. The fair value of cash and cash equivalents is £497m (2016: £391m).

Notes to the Financial Statements

(For the year ended 31 December 2017)

20. Equity

Accumulated reserves

	2017 £m	2016 £m
Attributable to:		
Corporation of Lloyd's	94	(1)
Central Fund	2,043	1,952
Associates	18	7
Total accumulated reserves	2,155	1,958

Revaluation reserve

The revaluation reserve is used to record increases in the fair value of the Lloyd's Collection and decreases to the extent that such decreases relate to the amount previously recognised in the Group statement of comprehensive income.

Translation reserve

The translation reserve is used to record foreign exchange gains and losses recognised in other comprehensive income as a result of translating the results and financial position of Group entities that have a functional currency different from the presentation currency.

21. Subordinated notes and perpetual subordinated capital securities

	2017 £m	2016 £m
Details of loans payable wholly or partly after more than five years:		
4.875% subordinated notes of £300m maturing 7 February 2047 (Sterling 2017 Notes)	300	–
4.750% subordinated notes of £500m maturing 30 October 2024 (Sterling 2014 Notes)	500	500
7.421% perpetual subordinated capital securities of £392m redeemed on 21 June 2017	–	392
	800	892
Less issue costs to be charged in future years	(4)	(6)
Less discount on issue to be unwound in future years	(3)	(3)
Total	793	883

Subordinated notes

The notes are subordinated obligations of the Society. Each tranche of the notes will rank pari passu with the other in a winding-up of the Society. Upon the occurrence of any winding-up proceedings of the Society, payments on the notes will be subordinated in right of payment to the prior payment in full of all other liabilities of the Society, except for liabilities which rank equally with or junior to the notes. Payments on the notes will also be subordinated to certain payments which may be made out of central assets including payments made to discharge the liabilities of an insolvent member to any person (including any policyholders) arising out of, or in connection with, insurance business carried on at Lloyd's by that insolvent member and payments made in respect of the costs required by or under any insolvency procedure to which the Society or the Lloyd's market may be subject. However, in the event of a winding-up of the Society, the claims of the holders of the Notes rank senior to the distribution of any central assets to members of Lloyd's generally (other than payments made to members in their capacity as senior creditors of the Society).

The Sterling 2014 Notes issued on 30 October 2014 mature on 30 October 2024 and bear interest at a rate of 4.75% per annum, payable annually in arrears on 30 October in each year.

The Sterling 2017 Notes issued on 7 February 2017 mature on 7 February 2047 and bear interest at a rate of 4.875% per annum, payable annually in arrears on 7 February in each year.

Subordinated debt issued in 2007

The perpetual subordinated capital securities ('capital securities') were perpetual securities and had no fixed redemption date. However, they were redeemed in whole on 21 June 2017 at the option of the Society. The capital securities bore interest at a rate of 7.421% per annum until 20 June 2017, payable annually in arrears on 21 June in each year.

22. Provisions

	2017 Undertakings given to insolvent members £m	2017 Income Assistance Scheme £m	2017 Lease cost provision £m	2017 Restructuring £m	2017 Other risks and charges £m	2017 Total £m

Charged in the year	8	–	2	–	–	10
Utilised in the year	(14)	–	(4)	–	–	(18)
Balance at 31 December	–	2	11	–	1	14

Undertakings given to insolvent members

The Council has given undertakings with financial limits to certain corporate members to use the New Central Fund to discharge the liability of those members where they have unpaid cash calls and do not have the resources to meet those cash calls.

The purpose of these undertakings is primarily to allow valid claims made on policies underwritten by those insolvent members to continue to be paid in full. For those corporate members in provisional liquidation, the Council has also provided a supporting commitment, which will ensure that in no circumstance will an insurance creditor receive less than the amount it would have received in a winding-up commencing on the date of the provisional liquidation.

	Note	2017 £m	2017 £m	2016 £m	2016 £m
Provisions for amounts payable at 1 January			–		6
Undertakings granted in the year	4		–		8
Analysis of paid undertakings by member					
Ebury Underwriting Limited		–		(7)	
Hermanus Underwriting Limited		–		(7)	
Paid during the year			–		(14)
Undertakings given to insolvent members at 31 December			–		–

Income Assistance Scheme

The Income Assistance Scheme was effective from 1 January 2010 and replaced both the Hardship Income Top-up Scheme and the Income and Housing Support Scheme. The Income Assistance Scheme is permanent and replaces the discretionary nature of the previous schemes and guarantees ongoing payment of income assistance to eligible members of the previous schemes until the full undertaking has been utilised, other than in the event that Lloyd's faces severe financial stress.

Lease cost provision

The lease cost provision represents the Society's obligations in respect of the contractual capital expenditure and dilapidation cost under fully repairing leases.

Restructuring provision

The provision is mainly in respect of obligations to impacted employees arising from the implementation of the new Corporation Operating Model (COM).

Sensitivities

Undertakings given to insolvent members

This provision is calculated with reference to the financial exposure that is expected to be borne by the Central Fund based upon forecast member losses. It is therefore sensitive to both the likelihood of these losses occurring as well as the potential value of the losses.

Notes to the Financial Statements

(For the year ended 31 December 2017)

22. Provisions continued

Sensitivities continued

Income Assistance Scheme

The provision covers expected future payments under the Income Assistance Scheme. The Names covered by the scheme receive quarterly payments until (a) death (or a spouse's death depending upon the individual arrangements agreed), (b) earlier settlement of the debt by the Name or (c) default by the Name of their contractual obligations. The value of the provision is therefore sensitive to the factors above as well as changes in inflation rates.

Lease cost provisions

The value of the lease cost provision is calculated with reference to the costs which are expected to be incurred during the remainder of the lease term. A 10% increase in these costs will therefore increase the value of the provision by 10%. The value of the provision is not sensitive to the timing of expenditure during the lease term.

Restructuring provision

The provision is calculated using assumptions regarding the average salary and length of service of potentially impacted employees, and is therefore sensitive to changes in these assumptions.

23. Trade and other payables

	2017 £m	2016 £m
Due within one year		
Trade and other creditors	122	130
Insurance and reinsurance payables	320	204
Members' subscriptions and contributions repayable	16	19
Taxation and social security	4	3
Arbitration awards	2	2
Interest payable on subordinated loan notes	17	20
Total trade and other payables	481	378

24. Cash generated from operations

	Notes	2017 £m	2016 £m
Surplus before tax		187	405
Net finance income	8	(7)	(260)
Share of profits of associates	10	(10)	(8)

Increase/(decrease) in provisions other than for Central Fund claims		1	(2)
Cash generated from operations before claims paid		219	206
Claims paid in respect of corporate/insolvent members	22	–	(14)
Cash generated from operations		219	192

	1 January 2017 £m	Cash flows £m	Non-cash changes £m	31 December 2017 £m
Subordinated notes	883	(94)	4	793
Loans funding statutory insurance deposits	494	18	(29)	483
Total	1,377	(76)	(25)	1,276

25. Commitments

(a) Capital expenditure commitments

Capital expenditure commitments contracted but not provided for in the financial statements was nil (2016: £1m).

(b) Operating lease commitments – Lloyd's as lessee

	2017 £m	2016 £m
Non-cancellable operating lease rentals are payable as follows:		
Within one year	32	34
After one year but not more than five years	105	99
More than five years	166	186

Commitments outstanding under the terms of the lease for the Lloyd's 1986 building have been included at the current rental value (£17m per annum) to the end of the lease term in February 2031. The lease is subject to a rent review every fifth year, the 2016 review is not settled.

During the year ended 31 December 2015, the Society entered into a new lease agreement for Lloyd's Limited in Dubai. The lease expires in January 2021 following an option to extend the lease. An option to extend for both the Lloyd's lease and sub-leases for three years was agreed in 2017.

Subsidiary undertakings are party to a number of small operating leases mainly for property rental and small machinery. The commitments outstanding have been included at current rental value to the first break in the lease. These arrangements do not impose any significant restrictions on the Society.

During the year ended 31 December 2017, £29m (2016: £28m) was recognised as an expense in the Group income statement in respect of operating leases.

(c) Operating lease commitments – Lloyd's as lessor

	2017 £m	2016 £m
Non-cancellable operating lease rentals are receivable as follows:		
Within one year	8	8
After one year but not more than five years	11	20
More than five years	–	–

The two major tenants for the Lloyd's 1986 building are included at the current rental value to the first break in the leases in 2020 and 2021.

Subsidiary undertakings are party to a number of small operating leases for property sub-rental. The lease rentals receivable have been included at current rental value to the first break in the lease.

The option to extend the Dubai lease has resulted in sub-lease agreements entered into between Lloyd's Limited and various managing agents also being extended to January 2021.

During the year ended 31 December 2017, £15m (2016: £14m) was recognised as income in the Group income statement in respect of operating leases.

Notes to the Financial Statements

(For the year ended 31 December 2017)

26. Disclosure of related party transactions

The Group financial statements include the financial statements of the Society and all of its subsidiary undertakings, the Lloyd's Central Fund and the Group's interests in its associates and joint ventures as listed in note 10.

Services provided to Ins-sure Holdings Limited Group in the year ended 31 December 2017 included operating systems support and development, premises and other administrative services.

Services provided to Xchanging Claims Services Limited Group in the year ended 31 December 2017 included premises and other administrative services.

Structured Data Capture Limited, a company in which the Society holds a 33% interest, was incorporated on 14 June 2017 with a share capital of £3. The company has been set up as part of the Target Operating Model project in order to improve the efficiency of Market Reform Contract processing and to implement standardisation of data capture across the market.

Services provided to The Message Exchange Limited in the year ended 31 December 2017 included the provision of messaging infrastructure.

The following table provides the total amount of transactions that have been entered into with related parties for the relevant financial years together with information regarding the outstanding balances at 31 December 2017 and 2016.

	Sales to related parties		Purchases from related parties		Amounts owed by related parties		Amounts owed to related parties	
	2017 £m	2016 £m	2017 £m	2016 £m	2017 £m	2016 £m	2017 £m	2016 £m
Associates:								
Ins-sure Holdings Limited	–	–	2	5	–	–	–	1

Joint Ventures:								
Structured Data Capture Limited	–	–	–	–	–	–	–	–
The Message Exchange Limited	–	–	1	–	–	–	–	–

Transactions with associates and joint arrangements are priced on an arm's length basis.

The Chairman of Lloyd's, Bruce Carnegie-Brown, is also Vice Chairman of Banco Santander, as noted in the Chairman's biography on page 86. Lloyd's Iberia Representative Limited S.L.U., a wholly owned subsidiary of the Society as listed in note 9 on page 140, changed its main operating bank account from La Caixa Bank Spain to Banco Santander in June 2017. Any transactions with Banco Santander are on an arm's length basis.

In the normal course of business, the Society may enter into transactions with Lloyd's market businesses in which members of Council and the Board may have an interest.

Details of the compensation paid to key management personnel including short-term employee benefits, post-employment benefits, other long-term benefits and termination benefits are disclosed within the Report of the Remuneration Committee on pages 93 to 103.
