Elected C-External Member Statement

I have been involved with the Lloyd's market for over 44 years, ever since leaving university. I have underwritten at every level and written most classes of insurance and reinsurance, and for the last ten years have directed the underwriting for the Hiscox Group worldwide.

I have also spent time working outside the UK. In 2005 I founded our reinsurance company in Bermuda, and became its CEO. As Chairman of Hiscox USA, I oversaw the creation of our insurance business in the US. I gained hands-on experience in not only planning new overseas ventures at a strategic level but also had the opportunity to carry out the tactical implementation. This has given me an understanding of the challenges facing start-ups as well as those facing established players.

I have been a Director of Hiscox Ltd (a FTSE 250 Company) and its predecessor, Hiscox plc, for 22 years. I was appointed Chairman of Hiscox Ltd in February 2013. I have been involved in Group strategy as well as accepting the responsibility for delivering the result as an Executive.

I believe that an effective Council member should offer candid advice to the Lloyd's Chairman and Executive, and make decisions in the best interests of the whole Society not in favour of any section of it. I believe my experience in London and overseas puts me in a good position to do that.

As ever, I believe in effective cycle management and the protection of the mutual. I am opposed to micro management of the Lloyd's businesses and think the Lloyd's leadership needs to resist trying to do the job of the underwriters and brokers. Cycle management includes the encouragement of better quality management and people within the market and in particular a careful focus on new entrants.

I believe in supporting the Lloyd's leadership in modernising the markets, both in process and distribution.
