Important information about Syndicate Reports and Accounts

Access to this document is restricted to persons who have given the certification set forth below. If this document has been forwarded to you and you have not been asked to give the certification, please be aware that you are only permitted to access it if you are able to give the certification.

The syndicate reports and accounts set forth in this section of the Lloyd's website, which have been filed with Lloyd's in accordance with the Syndicate Accounting Byelaw (No. 8 of 2005), are being provided for informational purposes only. The syndicate reports and accounts have not been prepared by Lloyd's, and Lloyd's has no responsibility for their accuracy or content. Access to the syndicate reports and accounts is not being provided for the purposes of soliciting membership in Lloyd's or membership on any syndicate of Lloyd's, and no offer to join Lloyd's or any syndicate is being made hereby. Members of Lloyd's are reminded that past performance of a syndicate in any syndicate year is not predictive of the related syndicate's performance in any subsequent syndicate year.

You acknowledge and agree to the foregoing as a condition of your accessing the syndicate reports and accounts. You also agree that you will not provide any person with a copy of any syndicate report and accounts without also providing them with a copy of this acknowledgment and agreement, by which they will also be bound.

The directors of the managing agent present their report and accounts for the 2012 year of account ("YOA") of Syndicate 6105 ("the Syndicate") as closed at 31 December 2014 and their annual report and accounts for the year to 31 December 2014.

Principal activity and review of the business

The Syndicate is a Special Purpose Syndicate, established in 2008 to underwrite a quota share of Syndicate 4020. The quota share for the 2014 YOA covers all Syndicate 4020 lines with a cession of 15.00%. For 2013 YOA, the cession is 3.70% for all classes with the exception of Property Reinsurance which is 9.25%. For the 2012 YOA, the quota share does not cover the Casualty Reinsurance and Specialty Programmes accounts, and the cession for all other classes is 3.3%.

For the 2012 and prior year of account ("YOA") and the 2013 YOA, the Syndicate is charged its share of expenses incurred by Syndicate 4020. From the 2014 YOA, the Syndicate is charged an overriding commission on all gross premiums, net of commissions, written under the contract. A profit commission is payable to ASML based on the profit earned under the contract.

Gross written premium income for the year split by the underlying class of business of Syndicate 4020 was as follows:

	2014 YOA estimate £'000	2013 YOA estimate £'000	2012 YOA estimate £'000	2014 Cal. Year £'000	2013 Cal. year £'000
Accident & Health	5,115	1,311	1,347	4,772	1,736
Cargo & Specie	1,398	362	423	1,303	501
Casualty Reinsurance	1,713	659	-	1,696	388
Energy – Upstream	3,776	1,032	1,605	3,473	1,352
Liability – Marine & Energy	733	196	370	681	244
Marine Hull	1,293	313	390	1,196	427
Property Reinsurance	3,114	2,244	1,787	3,010	2,521
Specialty Programmes	10,462	2,436	-	9,896	1,067
Specialty Reinsurance	1,720	451	397	1,714	499
War, Terrorism and Political Risk	3,593	853	1,273	3,199	994
Worldwide Property – Direct and Facultative	1,961	342	503	1,749	415

Contingency	755	195	198	744	229
Property Treaty	-	1,108	902	-	1,048
Fine Art & Specie	1,031	242	278	1,003	296
Package Programmes	3,395	801	-	3,422	389
	42,639	13,192	10,316	40,407	13,088

The managing agent of the Syndicate is Ark Syndicate Management Limited ("ASML"), a company incorporated in the UK. ASML also manages the affairs of Syndicate 4020. On 20 May 2014, Ark insurance Holdings Limited ("AIHL") bought the entire share capital of Group Ark Insurance Holdings Limited ("GAIHL") and as a result is the ultimate parent company of ASML.

Set out below is a brief description of each class of business.

Class of business	Description
Casualty Reinsurance – US	Predominantly Medical Malpractice, Professional Liability and some General Liability.
Property Reinsurance	Predominantly non-proportional, balanced between US and Rest of World ("ROW") exposures.

Principal activity and review of the business (continued)

Class of business	Description
Specialty Reinsurance	Consists of Aviation and Specialty reinsurance, including crop and satellite. Marine is no longer written.
Energy Upstream	Insurance of exploration and production property (on and offshore), control of well, removal of wreck, business interruption, construction and renewable energy from a broad geographic spread.
Marine & Energy Liabilities	Marine includes the reinsurance of the International Group of P&I Clubs. Energy is only offered in conjunction with Upstream Energy packages.
Marine Hull	Insurance of low profile, smaller fleet business and specialised tonnage, with some vessel construction, marine property and marine war.
Cargo & Specie	Cargo is made up of general cargo transit and storage as well as higher value and more complex risks such as satellites, heavy lift, tows and project cargo. Specie includes fine art, metals, securities and vault risk written on an excess basis.
Property D&F	Mostly low fire hazard occupancies, avoiding higher risk exposed classes such as mining, mineral processing and other heavy industries.
Property Programmes	US and Canadian binding authorities, avoiding middle market / larger commercial property accounts which are highly competitive.
Aviation War & Terror	Aviation War consists of airline hull war and excess AV52. Terror is primarily pure Terrorism physical damage and business interruption, with a small amount of broad-form political violence, including war on land.
Political Risk	Focus is contract frustration and confiscation / expropriation. War on land is also written. Peak exposures are in emerging countries and include China, Ivory Coast, Angola and Cameroon.
Accident & Health	Includes a spread of exposure across war, key man, disability, credit card personal accident insurance and reinsurance catastrophe.
Specialty Programmes	There are three parts - Professional liability, Contingency and Crisis management. The largest is Professional liability which includes architects and engineers, insurance professionals and real estate agents E&O, Allied Health, Cyber Liability and Miscellaneous E&O.
Contingency	Predominantly short tail with event cancellation the largest part.
Fine Art & Specie	Includes jewellers block, cash in transit, general specie and fine art written both primary and excess.
Package Programmes	Mostly Ark-led US binding authorities. Balanced between Property and Commercial General Liability. Target risks are small commercial low-medium hazard occupancy.

Underwriting performance - YOA

2012 YOA

Special Purpose Syndicate 6105 has been closed with a profit of £ 1.8 m after all standard personal expenses, equivalent to a profit on stamp capacity of 16.7%. The 2012 YOA was supported by Hampden Names only and received the reinsurance to close of the 2011 pure YOA .

Loss estimates for the major catastrophe losses that impacted the 2011 and 2012 YOA's were broadly unchanged in the aggregate.
The 2012 YOA is expected to close into the 2013 YOA of Syndicate 4020, with a quote share agreement to cede the appropriate share of the prior years to the 2013 YOA of the Syndicate.

2013 and 2014 YOA

	2014 YOA	2013 YOA
Capacity	£60.0m	£19.0m
Actual / Forecast Results (% of capacity)	na	4.6%-9.6%

The 2013 YOA is forecast at the 24 month stage to produce an adequate return on stamp capacity. The aviation war account has been impacted by a number of losses in 2014 including Malaysia Airlines flight MH370 which was reported missing in March, the destruction of aircraft at Tripoli airport in July and the downing of Malaysia Airlines flight MH17 over Ukraine in the same month. There has only been one major property loss to date being the German flood and hails storm in mid 2013.

There have been no major losses reported that impact the 2014 YOA.

Five year summary of closed years of account

	2012 YOA	2011 YOA	2010 YOA	2009 YOA	2008 YOA

Other personal expenses	(51)	(75)	(70)	(90)	(114)
Profit after illustrative personal expenses and profit commission	1,669	1,306	35	2,058	219

Underwriting performance – 2014 calendar year

I am pleased to report an underwriting profit for the calendar year 2014 of £5.5m. The major contributing factor is low catastrophe losses (both natural and man-made) which has also enabled a healthy and consistent margin of reserves to be held versus the recommended best estimate. The aviation war account was impacted by a number of losses in 2014 but otherwise the claims environment, on the whole, continues to be positive.

The calendar year result together with key performance indicators is shown below:

	2014	2013
Profit for the financial year (£'000)	1,298	1,614
Claims ratio (%)	50.3%	49.1%
Expenses ratio (%)	46.1%	38.3%
Combined ratio (%)	96.4%	87.4%

The claims ratio is the ratio of claims incurred net of reinsurance to earned premiums net of reinsurance. The expense ratio is the ratio of operating expenses and acquisition costs to earned premiums net of reinsurance.

Operating expenses

	2014 £'000	2013 £'000
Acquisition costs – brokerage and commissions	6,826	2,483
Ceding commission under quota share contract	3,503	84
Administrative expenses	288	927
Managing agency fee	382	130
Personal expenses	450	441
Operating expenses	11,449	4,065

Expenses are broadly in line with expectations.

Investment return

The quota share contract with Syndicate 4020 is written on a funds withheld basis. No funds are currently held directly by the Syndicate. Under the terms of the quota share agreement, an experience account is maintained and investment income receivable by Syndicate 4020 is allocated to the Syndicate based on the average balance of the experience account throughout the year.

Syndicate 4020 funds are actively managed by third party investment managers and the returns compared to benchmarks agreed as part of the investment guidelines. Syndicate 4020 has a diversified portfolio in primarily corporate debt, cash and asset backed securities with an average duration that is appropriate compared to the expected liability duration. In the current financial climate, the returns achieved in 2014 are satisfactory.

2012 YOA

The investment return for the period was £0.4m. The average experience account balance was £3.4m and the average return over the three years was 3.5%.

2014 calendar year

A summary of the investment performance of Syndicate 4020 is set out below:

	Currency	2014	2013
Average syndicate funds available for investment (£'000)	Combined Sterling (inc. US dollars)	486,886	492,333
	US dollars	503,359	474,041
Investment return for the year (£'000)	Combined Sterling (inc. US dollars)	17,795	12,070
	US dollars	8,017	4,449
Annualised investment return (%)	Combined Sterling (inc. US dollars)	3.7%	2.5%
	US dollars	1.6%	0.9%

In the current financial climate, the returns achieved are satisfactory.

Financial position

The main components of the balance sheet are technical provisions and amounts due from Syndicate 4020 in respect of the quota share agreement.

Technical provisions include a provision for outstanding claims of £15.1m (2013: £6.5m) and a provision for unearned premiums of £22.6m (2013: £6.0m). No reinsurance protection has been purchased by the Syndicate. The provision for outstanding claims is based on evaluations of reported claims and estimates for losses incurred but not reported ("IBNR"). As claims may not be settled for a number of years after they are incurred, the setting of provisions involves a degree of judgement as to the ultimate exposure to losses.

Amounts due from Syndicate 4020 in respect of the quota share agreement of £31.4m (2013: £12.1m) are receivable when the relevant YOA closes. The 2012 YOA was closed with effect from 31 December 2014 and the amounts due from Syndicate 4020 will be settled when the profits of the YOA are distributed in April 2015. It is currently anticipated that the 2013 YOA will close on 31 December 2015 and the 2014 YOA will close on 31 December 2016.

Directors

The directors of ASML below served from 1 January 2014 to the date of this report, unless stated otherwise. Shareholdings in AIHL are stated as at 31 December 2014. A Limited Liability Partnership ("LLP") was established to enable management and staff of ASML to participate on the 2012 YOA of Syndicate 4020. The amounts stated below represent the effective share of the directors in the total capacity of Syndicate 4020 through their involvement in the LLP.

		AIHL	AIHL	AIHL	AIHL	LLP
		"B" Shares	"E" Shares	"G" Shares	"H" shares	2012 YOA

Disclosure of information to auditors

The directors of ASML who held office at the date of approval of this report confirm that, so far as they are each aware, there is no relevant audit information of which the auditors of Syndicate 6105 are unaware; and each director has taken all the steps that he ought to have taken as a director to make himself aware of any relevant audit information and to establish that the auditors of Syndicate 6105 are aware of that information.

Auditors and Annual general meeting

As permitted under the Syndicate Meeting (Amendment No.1) Byelaw it is not proposed to hold a Syndicate Annual General Meeting. The members of Syndicate 6105 intend to re-appoint KPMG LLP as auditors.

Future developments

The capacity for the Syndicate for the 2015 YOA is £60.0m (2014 YOA: £60.0m). The capacity for Syndicate 4020 for the 2015 YOA is £340.0m (2014 YOA: £340.0m). The Syndicate has written a 15% quota share of the 2015 YOA of Syndicate 4020 covering all classes of business.

Principal risks and uncertainties

Risk management framework

ASML has developed and maintains a risk register within its risk management framework. Identified risk events are grouped into major risk categories according to the nature of the potential threat they pose to the business. The risk management framework allows risks to be identified and controls to be put in place as necessary, either to prevent the occurrence of the event or to mitigate its impact.

Insurance risk

The ASML Board agrees the syndicate business plan which sets out targets for volumes, pricing, line sizes and retention by class of business. Performance against these targets is measured regularly throughout the year by the Board.

Risks written are subject to peer review and, on a selective basis, independent review. Pricing is controlled by the monitoring of rate movements and the comparison of target price to actual price for all classes of business. Controls over the aggregation of catastrophe exposures include limiting total exposures written in defined geographical zones, monitoring aggregation by country / region / blast zones and applying line size limits in all classes.

Principal risks and uncertainties (continued)

Catastrophe modelling software and other techniques are used to model expected loss outcomes for Lloyd's Realistic Disaster Scenario returns and in-house catastrophe event scenarios. Reserves are reviewed for adequacy on a quarterly basis and subject to independent actuarial review on an annual basis. The Syndicate also purchases reinsurance, with an appropriate number of reinstatements, to arrive at an acceptable net risk.

The Audit and Risk Assurance Committee ("ARAC"), comprising non-executive directors, reviews and reports to the Board on the management's recommendations on reserves and enquires into any conflicts of interests relevant to the setting of reserves, including any such arising out of profit-related remuneration, so that these are properly managed.

Credit risk

Investment guidelines aim to ensure that the Syndicate's investments are of appropriate quality to match the risk appetite of the business. The portfolio is monitored for concentration with respect to any one issuer and credit ratings across the portfolio.

Underwriters may only write business presented by an approved broker or coverholder. New brokers and coverholders are approved by the Compliance team prior to any business being underwritten. Annual coverholder reviews are required for all lead and material follow binding authority business, which will include a review of financial performance of the coverholder and of the contract, as well as the results of any audits performed on the coverholder, in line with Ark delegated underwriting guidelines. ASML has a Security Advisory Committee ("SAC") which meets quarterly.

The SAC ensures that reinsurance is placed with reinsurers who have a rating of A- or above, or have alternative collateral provided, and who have a good record of claims payment. The SAC also ensures there is no inappropriate concentration of exposure.

Market risk

The investment of syndicate funds is controlled by ASML management with the objective of achieving an investment return commensurate with the risk appetite of the ASML Board.

Liquidity risk

Cash flow forecasts are prepared on a quarterly basis by major currency and reviewed by ASML management on a regular basis. These are also stress tested against major catastrophe loss scenarios.

Operational risk

ASML manages risks in respect of people, IT systems, outsourcing, governance, regulation and business continuity by reviewing its processes and performance on a regular basis. The Syndicate is also exposed to the risk that Lloyd's fails to attain approval for the Lloyd's Internal Model ahead of the implementation of Solvency II on 1 January 2016.

Independent Assurance

ASML has developed a combined assurance plan, providing the ARAC with assurance that key risk and controls are subject to independent assurance. This is provided internally by team and peer review and externally by the Syndicate auditors, signing actuaries, internal audit and in certain circumstances by Lloyd's, the Prudential Regulatory Authority ("PRA") or the Financial Conduct Authority ("FCA"). ASML has outsourced the internal audit function to Mazars, who develop a risk based annual audit plan using the risk register to select areas for reviews.

Corporate governance

The ASML board comprises executive directors and non-executive directors. The non-executive directors include shareholder representatives and independent directors. The Board delegates some of its activities to the following committees: Capital & Risk Allocation, Audit & Risk Assurance, Reserving and Security Advisory.

The non-executive directors are expected to constructively challenge the executive directors on their recommendations and running of the business, to review the performance of management in meeting agreed objectives and targets and to monitor the reporting of performance, to satisfy themselves on the integrity of financial information and to satisfy themselves that financial controls and systems of risk management are adequate.

Principal risks and uncertainties (continued)

The key risks of the Syndicate are aligned with Syndicate 4020, which are set out in the table below:

ASML Risk Events	Risk category	Overview of Risk Event
Exposure management	Insurance	Risks aggregate such that the exposure to any one event or loss materially exceeds expectations
Underwriting quality	Insurance	Underwriters cannot access risks at adequate pricing levels / do not bind the Syndicate appropriately
Reinsurance purchasing	Insurance	Failure or inability to purchase appropriate or sufficient reinsurance
Delegated underwriting quality	Insurance	Exposure to inappropriate risks through third parties
Reserving	Insurance	Actual experience materially differs from reserves causing adverse movement of results
Underwriting management	Insurance	Returns from policies written are different from expectations, or the business does not meet plan
Claims management	Insurance	Claims are not managed in an appropriate way leading to material adverse results
Broker default	Credit	Brokers do not or cannot make premium payments when due
Reinsurer default	Credit	Reinsurers do not or cannot make payments under valid claims
Coverholder /TPA default	Credit	Coverholders do not or cannot make premium payments when due
Investment counterparty default	Credit	Counterparties do not or cannot make returns when they fall due
Capital availability	Group	Unavailability of appropriate capital
Investor risk	Group	Conflicts of interest with principal investors
Liquidity	Liquidity	Claims not met due to insufficient free funds, failure to satisfy overseas regulatory trust fund requirements
Cash flow management	Liquidity	Poor or inappropriate forecasting of cash flows
Financial market movement	Market	Market movements adversely impacting syndicate assets
Investment returns	Market	Investment portfolio returns are materially different from expectations
People	Operational	Over reliance on key individuals, or potential impact of the loss of one or more key individuals
Emerging and cyclical risks	Operational	Failure to consider the impact of emerging or cyclical events on strategy
Regulatory Risk	Operational	Censure following a breach of regulatory or legal requirements
Data integrity and quality	Operational	Incomplete or inaccurate data resulting in unreliable management information
Distribution Risk	Operational	Distribution chains become unavailable or uncompetitive
Financial crime	Operational	Loss arising from fraud, money laundering, corruption
Outsourcing	Operational	Inappropriate or failure of outsource arrangements
Disaster recovery / business continuity	Operational	Business is disrupted by unforeseen events or downtime in systems
Governance structure and oversight	Operational	Inadequate / inappropriate governance structure leading to poor decisions or failure to provide oversight
Legal risk	Operational	Legal action by policyholders, suppliers, employees or other stakeholders
Strategy and planning	Operational	Strategy is not aligned to the management of the business or is not communicated properly
Financial mis-statement	Operational	Financial statements are inaccurate or misleading
IT infrastructure & applications	Operational	IT systems, hardware or applications failure causing material disruption to business operations

Underwriting Year Distribution Accounts

2012 Year of Account

Statement of managing agent's responsibilities

The Insurance Accounts Directive (Lloyd's Syndicates and Aggregate Accounts) Regulations 2008 require the managing agent to prepare Syndicate underwriting year accounts at 31 December in respect of any underwriting year which is being closed by reinsurance to close which give a true and fair view of the result of the underwriting year at closure. Detailed requirements in respect of the underwriting year accounts are set out in the Lloyd's Syndicate Accounting Byelaw (No 8 of 2005).

In preparing the Syndicate underwriting year accounts, the managing agent is required to:

1. select suitable accounting policies which are applied consistently and where there are items which affect more than one year of account, ensure a treatment which is equitable as between the members of the Syndicate affected. In particular, the amount charged by way of premium in respect of the reinsurance to close shall, where the reinsuring members and reinsured members are members of the same Syndicate for different years of account, be equitable as between them, having regard to the nature and amount of the liabilities reinsured;

2. take into account all income and charges relating to a closed year of account without regard to the date of receipt or payment;

3. make judgements and estimates that are reasonable and prudent; and

4. state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in these accounts.

The managing agent is responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Syndicate and enable it to ensure that the Syndicate underwriting year accounts comply with Lloyd's Regulations and Syndicate Accounting Byelaw. It is also responsible for safeguarding the assets of the Syndicate and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The managing agent is responsible for the maintenance and integrity of the corporate and financial information included on the company's website. Legislation in the UK governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Independent auditors' report to the members of Syndicate 6105 for the 2012 closed year of account

We have audited the syndicate underwriting year accounts for the 2012 year of account of Syndicate 6105 for the three years ended 31 December 2014, as set out on pages 15 to 20, 34 and 35. The financial reporting framework that has been applied in their preparation is applicable law and UK Accounting Standards (UK Generally Accepted Accounting Practice).

This report is made solely to the members of the Syndicate, as a body, in accordance with the Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008. Our audit work has been undertaken so that we might state to the Syndicate's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Syndicate's members as a body for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of the Managing Agent and the auditor

As explained more fully in the Statement of Managing Agent's Responsibilities set out on page 13, the Managing Agent is responsible for the preparation of syndicate underwriting year accounts under the Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 and in accordance with the Lloyd's Syndicate Accounting Byelaw (no. 8 of 2005), which give a true and fair view.

Our responsibility is to audit, and express an opinion on, the syndicate underwriting year accounts in accordance with applicable legal and regulatory requirements and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's (APB's) Ethical Standards for Auditors.

Scope of the audit of the syndicate underwriting year accounts

A description of the scope of an audit of accounts is provided on the Financial Reporting Council's website at www.frc.org.uk/auditscopeprivate.

Opinion on syndicate underwriting year accounts

In our opinion the syndicate underwriting year accounts:

- give a true and fair view of the profit for the 2012 closed year of account;
- have been properly prepared in accordance with UK Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 and have been properly prepared in accordance with the Lloyd's Syndicate Accounting Byelaw (no. 8 of 2005).

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Lloyd's Syndicate Accounting Byelaw (no. 8 of 2005) requires us to report to you if, in our opinion:

- the Managing Agent in respect of the Syndicate has not kept adequate accounting records; or
- the syndicate underwriting year accounts are not in agreement with the accounting records; or
- we have not received all the information and explanations we require for our audit.

The quota share contract with Syndicate 4020 is written on a funds withheld basis. No funds are currently held directly by the Syndicate.

The notes on pages 18 to 20, 34 and 35 form part of these accounts.

Notes to the accounts

1. Basis of preparation

These accounts have been prepared in accordance with the Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 ("the Regulations") and applicable Accounting Standards in the United Kingdom. They comply with the Statement of Recommended Practice on Accounting for Insurance Business issued in December 2005 by the Association of British Insurers (as amended in December 2006).

The Lloyd's Syndicate Accounting Byelaw requires the aggregation of movements in each of the three calendar years' for any Underwriting Year account. For the 2012 YOA each calendar year is aggregated using the closing rate of exchange as at 31 December 2014.

Members participate on a syndicate by reference to a YOA and each syndicate YOA is a separate annual venture. These accounts relate to the 2012 YOA which has been closed by reinsurance to close at 31 December 2014; consequently the balance sheet represents the assets and liabilities of the 2012 YOA and the profit and loss account and cash flow statement reflect the transactions for the YOA during the three year period until closure.

2. Accounting policies

The underwriting accounts for each YOA are normally kept open for three years before the result on that year is determined. At the end of the three year period, outstanding liabilities can normally be determined with sufficient accuracy to permit the YOA to be closed by payment of a reinsurance to close premium to the successor year of account.

a Premiums written

Gross premiums are allocated to each YOA on the basis of the inception date of the policy. Premiums are shown gross of acquisition costs such as brokerage payable and taxes and duties levied on them. Estimates are made for pipeline premiums, representing amounts due but not yet notified. Premiums written are treated as fully earned at 36 months.

b Claims Paid

Gross claims paid include claims settlement expenses and are attributed to the same YOA as the original premium for the underlying policy.

c Reinsurance to close premium payable

The reinsurance to close premium is determined on the basis of estimated outstanding liabilities and related claims settlement costs, including claims incurred but not reported ("IBNR") relating to the closed YOA.

Outstanding claims consist of amounts set aside for notified claims and a provision for IBNR claims. The amount included in respect of IBNR is arrived at by considering the actuarially calculated provision, using techniques which generally involve statistical techniques of estimation applied by ASML's actuaries and reviewed by external consulting actuaries, as well as the opinion of the class underwriters and executive management. The actuarial techniques generally involve projecting from past experience the development of claims over time to form a view of the likely ultimate claims to be experienced for more recent underwriting, having regard to variations in the business accepted and the underlying terms and conditions. Large claims are generally assessed individually, being calculated on a case by case basis or projected separately to allow for the possible distortive effects of the developments of these claims on the balance of the data. The provision for claims also includes amounts in respect of internal and external claims handling costs.

Accordingly the two most critical assumptions as regards claims provisions are that the past is a reasonable predictor of the likely level of claims development and that the rating and other models used for current business are fair reflections of the likely level of ultimate claims to be incurred.

Ultimate liability will vary as a result of subsequent information and events and this may result in significant adjustments to the amounts provided. Adjustments to the amounts of claims provisions established in prior years are reflected in the financial statements for the year in which the adjustments are made. The methods used, and the estimates made, are reviewed regularly.

2. Accounting policies (continued)

d Foreign currencies

Transactions in US dollars, Euros, Canadian dollars and Australian dollars are translated at the closing rate of exchange for the closing year. Underwriting transactions denominated in other foreign currencies are included at the rate of exchange ruling at the date the transaction is processed.

Assets and liabilities denominated in US dollars, Euros, Canadian dollars and Australian dollars, where the assets and liabilities in the currency ledgers are broadly matched, are translated at the closing rate of exchange for the year. Assets and liabilities denominated in other foreign currencies are translated into sterling at the rates of exchange at the balance sheet date.

The following rates of exchange have been used in the preparation of these accounts; US dollars 1.56 , Canadian dollars 1.81 , Euros 1.29 and Australian dollars 1.91 .

e Investment return

Investment return represents all investment income, realised investment gains and losses and movements in unrealised gains and losses, net of investment expenses, charges and interest. The returns on assets arising in a calendar year are apportioned to each YOA open during the calendar year in proportion to the average funds available for investment for Syndicate 4020, and the average experience account for Syndicate 6105.

Investment return is initially recorded in the non-technical account. A transfer is made from the non-technical account to the general business technical account to reflect the investment return on funds supporting underwriting business. Investment return has been wholly allocated to the technical account as all investments relate to the technical account.

f Taxation

Under Schedule 19 of the Finance Act 1993 managing agents are not required to deduct basic rate income tax from trading income. In addition, all UK basic rate income tax deducted from syndicate investment income is recoverable by managing agents and consequently the distribution made to members or their members' agents is gross of tax. Capital appreciation falls within trading income and is also distributed gross of tax.

No provision has been made for any United States Federal Income Tax payable on underwriting results or investment earnings. Any payments on account made by the Syndicate during the year have been included in the balance sheet under the heading 'other debtors'.

No provision has been made for any other overseas tax payable by the members on underwriting results.

g Profit commission

Profit commission is charged by ASML in accordance with the managing agent's agreement.

3. Segmental Analysis

All the Syndicate's business, as set out in the technical account, is classified as reinsurance accepted and all premiums were concluded in the UK.

Notes to the accounts

4. Operating expenses

	2012 £'000
Personal expenses	571
Gain on currency sales	34
Other expenses	711
	1,316

Personal expenses comprise Lloyd's subscriptions, central fund contributions, and a managing agent's fee and profit commission paid to ASML. All other expenses, including audit fees, are charged to and borne by the Syndicate.

All executive directors and staff are employed and remunerated by ASML. Salaries and related costs are included within the management fee charged by ASML and accordingly no direct salary cost is borne by the Syndicate. Details of salary cost and directors remuneration are disclosed in the financial statements of ASML

5. Reinsurance to close premium received

	2012 £'000
Gross and net outstanding claims	559
Provision for gross and net claims incurred but not reported	510
Unallocated loss adjustment expenses	0
Foreign exchange movement	39
	1,108

The reinsurance to close is effected to the 2013 YOA of Syndicate 4020.

6. Reconciliation of members' balances

	2012 £'000
Profit for the year of account	1,752
Open year distribution to members	(1,098)
Members subscriptions	(105)
At 31 December	549

Calendar Year Report & Accounts

2014

Statement of managing agent’s responsibilities

The managing agent is responsible for preparing the syndicate annual accounts in accordance with applicable law and regulations.

The Insurance Accounts Directive (Lloyd’s Syndicate and Aggregate Accounts) Regulations 2008 (“the Regulations”) require the managing agent to prepare syndicate annual accounts for the Syndicate at 31 December each year in accordance with UK accounting standards and applicable law (UK Generally Accepted Accounting Practice). The annual accounts are required by law to give a true and fair view of the state of affairs of the Syndicate and of the profit or loss of the Syndicate for that year.

In preparing the syndicate annual accounts, the managing agent is required to:

1. select suitable accounting policies which are applied consistently, with the exception of changes arising on the adoption of new accounting standards in the year;

2. make judgments and estimates that are reasonable and prudent;

3. state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the annual accounts; and

4. prepare the accounts on the going concern basis that the Syndicate will continue to write future business unless it is inappropriate to presume that the Syndicate will do so.

The managing agent is responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the Syndicate and enable it to ensure that the syndicate annual accounts comply with the 2008 Regulations. It is also responsible for safeguarding the assets of the Syndicate and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The managing agent is responsible for the maintenance and integrity of the corporate and financial information included on the company’s website. Legislation in the UK governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Independent auditors' report to the members of Syndicate 6105

We have audited the Syndicate 6105 annual accounts for the year ended 31 December 2014, as set out on pages 25 to 35. The financial reporting framework that has been applied in their preparation is applicable law and UK Accounting Standards (UK Generally Accepted Accounting Practice).

This report is made solely to the members of the syndicate, as a body, in accordance with the Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008. Our audit work has been undertaken so that we might state to the syndicate's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the syndicate's members as a body for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of the Managing Agent and the auditor

As explained more fully in the Statement of Managing Agent's Responsibilities set out on page 23, the Managing Agent is responsible for the preparation of syndicate annual accounts which give a true and fair view. Our responsibility is to audit, and express an opinion on, the syndicate annual accounts in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's (APB's) Ethical Standards for Auditors.

Scope of the audit of the syndicate annual accounts

A description of the scope of an audit of accounts is provided on the Financial Reporting Council's website at www.frc.org.uk/auditscopeprivate.

Opinion on syndicate annual accounts

In our opinion the annual accounts:

- give a true and fair view of the Syndicate's affairs as at 31 December 2014 and of its profit for the year then ended;
- have been properly prepared in accordance with UK Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008.

Opinion on other matter prescribed by the Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008

In our opinion the information given in the Managing Agent's Report for the financial year in which the annual accounts are prepared is consistent with the annual accounts.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 require us to report to you if, in our opinion:

- the managing agent in respect of the Syndicate has not kept adequate accounting records; or
- the syndicate annual accounts are not in agreement with the accounting records; or
- we have not received all the information and explanations we require for our audit.

Robert Lewis (Senior Statutory Auditor)

The quota share contract with Syndicate 4020 is written on a funds withheld basis and no funds are held directly by the Syndicate.

The notes on pages 28 to 35 form part of these accounts

Notes to the accounts

1. Basis of preparation

These accounts have been prepared in accordance with the Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 ("the Regulations") and applicable Accounting Standards in the United Kingdom. They comply with the Statement of Recommended Practice on Accounting for Insurance Business issued in December 2005 by the Association of British Insurers (as amended in December 2006).

2. Accounting policies

The accounts have been prepared on an annual basis of accounting, whereby the incurred cost of claims, commissions and related expenses are charged against the earned proportion of premiums, net of reinsurance as follows:

a Premiums written

Premiums written comprise premiums on contracts incepted during the financial year as well as adjustments made in the year to premiums written in prior accounting years. Premiums are shown gross of acquisition costs such as brokerage payable and taxes and duties levied on them. Estimates are made for pipeline premiums, representing amounts due but not yet notified.

b Unearned premiums

Written premiums are recognised as earned according to the risk profile of the policy. Unearned premiums represent the proportion of premiums written in the year that relate to unexpired terms of policies in force at the balance sheet date. The provision is calculated on a policy by policy basis.

c Claims provisions

The provision for claims comprises amounts set aside for claims notified and claims incurred but not yet reported ("IBNR").

Claims incurred comprise claims and claims handling expenses paid in the year and the movement in provision for outstanding claims and future claims handling expenses. Recoverable amounts arising out of subrogation and salvage together with reinsurance recoveries are deducted from the cost of gross claims.

Outstanding claims consist of amounts set aside for notified claims and a provision for IBNR claims. The amount included in respect of IBNR is arrived at by considering the actuarially calculated provision, using techniques which generally involve statistical techniques of estimation applied by ASML's actuaries and reviewed by external consulting actuaries, as well as the opinion of the class underwriters and executive management. The actuarial techniques generally involve projecting from past experience the development of claims over time to form a view of the likely ultimate claims to be experienced for more recent underwriting, having regard to variations in the business accepted and the underlying terms and conditions. Large claims are generally assessed individually, being calculated on a case by case basis or projected separately to allow for the possible distortive effects of the developments of these claims on the balance of the data. The provision for claims also includes amounts in respect of internal and external claims handling costs.

Accordingly the two most critical assumptions as regards claims provisions are that the past is a reasonable predictor of the likely level of claims development and that the rating and other models used for current business are fair reflections of the likely level of ultimate claims to be incurred.

Ultimate liability will vary as a result of subsequent information and events and this may result in significant adjustments to the amounts provided. Adjustments to the amounts of claims provisions established in prior years are reflected in the financial statements for the year in which the adjustments are made. The methods used, and the estimates made, are reviewed regularly.

d Acquisition costs

Acquisition costs, comprising brokerage and taxes and duties levied on them are deferred to the extent that they are attributable to premiums unearned at the balance sheet date.

2. Accounting policies (continued)

e Foreign currencies

Transactions in US dollars, Euros, Canadian dollars and Australian dollars are translated at the average rates of exchange for the year. Underwriting transactions denominated in other foreign currencies are included at the rate of exchange ruling at the date the transaction is processed. Realised exchange differences are included in the technical account within operating expenses.

Assets and liabilities denominated in US dollars, Euros, Canadian dollars and Australian dollars, where the assets and liabilities in the currency ledgers are broadly matched, are translated at the closing rate of exchange for the year with exchange differences arising from the retranslation of the opening net investment, and the result for the year, in the respective ledgers recorded as a movement in reserves within the Statement of total recognised gains and losses. Assets and liabilities denominated in other foreign currencies are translated into sterling at the rates of exchange at the balance sheet date.

f Investment return

Investment return represents the Syndicate's share of the investment return of the 2014, 2013, and 2012 YOA of Syndicate 4020. This comprises all investment income, realised investment gains and losses and movements in unrealised gains and losses, net of investment expenses, charges and interest.

Realised gains and losses on investments carried at market value are calculated as the difference between sale proceeds and original cost. Unrealised gains and losses on investments represent the difference between the valuation at the balance sheet date and purchase price, together with the reversal of unrealised gains and losses recognised in earlier accounting years in respect of investment disposals in the current year.

Investment return is initially recorded in the non-technical account. A transfer is made from the non-technical account to the general business technical account to reflect the investment return on funds supporting underwriting business. Investment return has been wholly allocated to the technical account as all investments relate to the technical account.

g Taxation

Under Schedule 19 of the Finance Act 1993 managing agents are not required to deduct basic rate income tax from trading income. In addition, all UK basic rate income tax deducted from syndicate investment income is recoverable by managing agents and consequently the distribution made to members or their members' agents is gross of tax. Capital appreciation falls within trading income and is also distributed gross of tax.

No provision has been made for any United States Federal Income Tax payable on underwriting results or investment earnings. Any payments on account made by the Syndicate during the year have been included in the balance sheet under the heading 'other debtors'.

No provision has been made for any other overseas tax payable by the members on underwriting results.

h Profit commission

Profit commissions expected to arise on closure of a Lloyd's year of account are recognised on an accruals basis subject to an assessment of certainty over the year's profitability.

3. Management of financial risk

The Syndicate is exposed to financial risks primarily through the financial assets, reinsurance assets and policyholder liabilities generated from the quota share contract with Syndicate 4020. The key financial risks assessed for Syndicate 4020 are:

a Market risk

Market risk is the risk that Syndicate 4020 suffers loss from volatility or over concentration in its investment portfolio or due to currency mismatch between assets and liabilities. The investment manager of Syndicate 4020 produces a monthly report which sets out the investment mix and performance against benchmark indices. This is reviewed by executive management each month. The principal market risks and how exposure to these risks is managed are:

- Interest rate risk: Syndicate 4020 works to manage the impact of interest rate fluctuations on the fixed interest portfolio. The effective duration of portfolio profile is managed with consideration given to the estimated duration of policyholder liabilities.
- Foreign Exchange Risk: Foreign Exchange Risk is managed primarily by matching assets and liabilities in each foreign currency as closely as possible. To assist in the matching of assets and liabilities in foreign currencies Syndicate 4020 may enter into foreign exchange contracts.

b Credit risk

Credit Risk is the risk that a counterparty will be unable to pay amounts in full when they fall due. Key areas where Syndicate 4020 is exposed to credit risk are:

- reinsurance recoverables;
- amounts due from insurance intermediaries;
- amounts due from insurance contract holders; and
- amounts due from corporate bond issuers

The Syndicate's fixed interest maturity portfolio is monitored to ensure credit risk does not exceed the Syndicate's risk appetite. In addition, the Syndicate places limits on concentrations of exposures to a specific counterparty. The average rating of the portfolio is 'A+'.

Syndicate 4020 takes a proactive approach to the collection of reinsurance recoveries. New reinsurers may be required to post collateral depending on their size, rating and potential exposure.

c Liquidity risk

Liquidity risk is the risk that cash may not be available to pay obligations when due at a reasonable cost, primarily claims to policyholders. Syndicate 4020 monitors the projected settlement of liabilities and sets guidelines on the composition of the portfolio in order to manage this risk.

Notes to the accounts

4. Segmental analysis

Year ended 31 December 2014	Gross premiums written £'000	Gross premiums earned £'000	Gross claims incurred £'000	Operating expenses £'000	Total £'000

The members participate on the Syndicate by reference to years of account and its ultimate result, assets and liabilities are assessed with reference to policies incepting in that year of account in respect of its membership of a particular year.

10. Claims outstanding

The over provision for claims, net of reinsurance, at the beginning of the year compared with payments and provisions at the end of the year in respect of prior years was £1.0m (2013: under provision of £1.0m). The favourable claims environment in 2014 has led to reserve releases across a number of classes, primarily Property Reinsurance, Energy Upstream, Political Risks, Terrorism, and Accident & Health.

Notes to the accounts

Ultimate parent company

The parent company of ASML is AIHL. The registered office is Clarendon House, 2 Church Street, Hamilton, HM11, Bermuda.

Other disclosures

Swiss Reinsurance Company Limited, which forms part of the Swiss Reinsurance group, holds 11.69% of the ordinary share capital of AIHL. Syndicate 4020 has purchased reinsurance protection on normal commercial terms and at arms length from Swiss Reinsurance Company (UK) Limited ("Swiss Re"), which is part of the Swiss Reinsurance group. Premiums paid by Syndicate 4020 to Swiss Re in the year amounted to £4.5m (2013: £1.2m).

C Watson is employed by Aquiline Capital Partners LLC ("Aquiline"). Funds managed by Aquiline hold 27.14% of the ordinary share capital of AIHL. Aquiline own Conning Asset Management Company ("Conning") which provides investment management services to ASML in respect of syndicate funds under a contract entered into on normal commercial terms and at arms length. Fees paid by ASML to Conning in the year in respect of these services amounted to £0.3m (2013: £0.3m) and are recharged to Syndicate 4020.

Whittington Ventures Limited held 6% of the ordinary share capital of GAIHL until October 2012, when their entire shareholding was purchased by GAIHL. ASML entered into a contract on normal commercial terms and at arms length for the provision of outsourced services with Whittington Management Services Limited, which formed part of the Whittington group along with Whittington Ventures Limited. In 2012, Whittington Management Services Limited was sold by the Whittington group and was renamed Asta Management Services Limited ("Asta"). Fees paid by ASML to Asta in the year in respect of these services were £0.3m (2013: £0.3m).

C Watson is a director of Validus Holdings Ltd. Syndicate 4020 has purchased reinsurance protection on normal commercial terms and at arms length from the Validus Group. Premiums paid by Syndicate 4020 in the year amounted to £1.7m (2013: £1.7m).

R Oakes was a non-executive director of Omega Underwriting Agents Limited ("Omega"), until his resignation on 5 September 2012. Omega was the managing agent of Syndicate 958 at Lloyd's. Syndicate 4020 has purchased reinsurance protection on normal commercial terms and at arms length from Syndicate 958. Premiums paid by Syndicate 4020 in the year amounted to nil (2013: £0.8m).

In 2012, R Oakes was appointed a non-executive director of Cathedral Underwriting Limited, the managing agent of Syndicate 2010 and Syndicate 3010 at Lloyd's. Syndicate 4020 has purchased reinsurance protection on normal commercial terms and at arms length from Syndicate 2010. Premiums paid by Syndicate 4020 in the year amounted to less than £0.1m (2013: £0.1m). Also, Syndicate 4020 provided reinsurance under separate contracts to Syndicate 2010 on normal commercial terms and at arms length. Gross premium income, excluding brokerage and commissions, due to Syndicate 4020 under these contracts amounted to £0.4m (2013: £0.5m).

Until his resignation on 10 April 2013, V Southey was a non-executive director of Talbot Underwriting Limited, managing agent of Syndicate 1183 at Lloyd's. Syndicate 4020 has purchased reinsurance protection on normal commercial terms and at arms length from Syndicate 1183. Premiums paid by Syndicate 4020 in the year amounted to £0.3m (2013: £0.2m). Also, Syndicate 4020 provided reinsurance under separate contracts to Syndicate 1183 on normal commercial terms and at arms length. Gross premium income, excluding brokerage and commissions, due to Syndicate 4020 under these contracts amounted to £0.2m (2013: £0.2m).

I Beaton, N Bonnar, N Deshpande, D Foreman and P McIntosh participated in an LLP which was established to enable management and staff of ASML to participate on the 2012 YOA of Syndicate 4020. The directors' effective share in the total capacity of Syndicate 4020 through their involvement in the LLP is set out in the Managing Agent's report.

I Beaton, N Bonnar and D Foreman are partners of Elvis Capital Partners ("ECP"). GAIHL has a contingent profit commission arrangement with ECP based on the profit after tax produced by Syndicate 4020 operations. Profit commission due to ECP from GAIHL under this contract amounted to £1.7m (2013: £1.7m).

Notes to the accounts

Other disclosures (continued)

ECP owns Mercury Capital Limited ("Mercury"), a catastrophe risk manager. Mercury provides actuarial consultancy services to GAIHL on normal commercial terms which GAIHL then recharges to ASML. Fees paid by GAIHL to Mercury in the year in respect of these services amounted to £0.1m (2012: £0.1m).

Syndicate 4020 has made investments through Mercury in assets exposed to catastrophe insurance risk through various Industry Loss Warranty arrangements. Swiss Re is a counterparty of one of these arrangements. At the year end, included within the investments of Syndicate 4020 is £16.0m relating to these assets (2013: £14.7m). Investment income of £0.3m generated by these assets has been recognised in the year (2013: £1.5m). No fee is paid by Syndicate 4020 in respect of these arrangements to Mercury, whose remuneration is a transaction cost to the original assured counterparty.

Syndicate 4020 underwrites business through Cove Program Managers Limited ("Cove") under a binding authority. Gross premium income, excluding brokerage and commissions, due to Syndicate 4020 under this binding authority amounted to £3.8m (2013: £1.6m). Commissions paid by Syndicate 4020 in the year to Cove amounted to £1.4m (2013: £0.5m). ASML has entered into share and finance arrangements with Cove, which owns 90% of the Cove Program Underwriting cell of Aquila Underwriting LLP. ASML holds 14.52% of the ordinary share capital of Cove and under the terms of a Shareholders Agreement governing this investment has loaned £0.2m (2013: £0.6m) to Cove. This amount remains outstanding at the year end. I Beaton serves without fee as a non-executive director of Cove.

In February 2013, Syndicate 4020 acquired a share in a sea vessel after the underwriters on the slip exercised their subrogation rights under a political risk claim. MJHR Pte Limited ("MJHR") has been established to manage and ultimately sell the vessel. ASML holds 46% of the ordinary share capital of MJHR and ECP holds 9%.

The Xchanging group provides premium processing, administration and claims adjusting services to Syndicate 4020 on normal commercial terms. Until his resignation in 2013, I Beaton served without fee as a non-executive director of Xchanging Claims Services Limited ("XCS") which is part of the Xchanging group. Fees paid by Syndicate 4020 in the year to the Xchanging group amounted to £1.8m (2013: £1.8m).

Ark Underwriting Inc. ("AUI") was established in 2013 as a wholly owned subsidiary of ASML to facilitate the introduction of US Reinsurance Business into Syndicate 4020 through a binding authority. AUI will earn commission set on normal commercial terms. Initial start-up costs and ongoing profit or loss from AUI will be retained in the Ark Group. In 2014 the amount paid in commission to AUI was $0.7m (2013: less than $0.1m), and the loss retained by the Ark Group was $0.9m.
