

IMPORTANT INFORMATION ABOUT THE SYNDICATE REPORT AND ACCOUNTS

Access to this document is restricted to persons who have given the certification set forth below. If this document has been forwarded to you and you have not been asked to give the certification, please be aware that you are only permitted to access it if you are able to give the certification.

The Syndicate reports and accounts set forth in this section of the Lloyd's website, which have been filed with Lloyd's in accordance with the Syndicate Accounting Byelaw (No.8 of 2005), are being provided for information purposes only. The Syndicate reports and accounts have not been prepared by Lloyd's, and Lloyd's has no responsibility for their accuracy or content. Access to the Syndicate reports and accounts is not being provided for the purposes of soliciting membership in Lloyd's or membership on any Syndicate of Lloyd's, and no offer to join Lloyd's or any Syndicate is being made hereby. Members of Lloyd's are reminded that past performance of a Syndicate in any Syndicate year is not predictive of the related Syndicate's performance in any subsequent Syndicate year.

You acknowledge and agree to the foregoing as a condition of your accessing the Syndicate reports and accounts. You also agree that you will not provide any person with a copy of any Syndicate report and accounts without also providing them with a copy of this acknowledgment and agreement, by which they will also be bound.

REPORT OF THE DIRECTORS OF THE MANAGING AGENT

The directors of Allied World Managing Agency Limited (AWMA), the managing agent, present their report for Syndicate 2232 ('the Syndicate') for the year ended 31 December 2017.

Basis of Preparation

This Annual Report is prepared using the annual basis of accounting as required by Statutory Instrument No.1950 of 2008, the Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 ('the 2008 Regulations').

Principal Activities

The principal activity of the Syndicate is the transaction of general insurance and reinsurance business. The Syndicate underwrites a broad range of classes of business concentrating mainly on property and casualty business written on both a direct and reinsurance basis.

The directors have a reasonable expectation that the Syndicate and AWMA have adequate resources to continue in operational existence for the foreseeable future. Therefore they continue to adopt the going concern basis of accounting in preparing the financial statements.

Results

The result for the year ended 31 December 2017 was a loss on the Technical Account of £98.8m (2016: £1.9m profit).

The Syndicate's key financial performance indicators during the year were as follows:

	2017	2016
	£000	£000
Gross premiums written	204,012	163,825
Gross premiums earned	186,651	158,810
Net premiums earned	111,606	113,596
Balance on Technical Account	(98,772)	1,928

Review of the Business

On 6 July 2017, Fairfax Financial Holdings Limited acquired the Company's then ultimate parent, Allied World Assurance Company Holdings, AG, which then merged with Fairfax (Switzerland) GmbH and the surviving entity was renamed Allied World Assurance Company Holdings, GmbH ("AWAC Holdings"). AWAC Holdings is ultimately held by Fairfax Financial Holdings Limited.

The business of the Syndicate continues to be that of underwriting business at Lloyd's. The Syndicate is a member of the Lloyd's Asia platform in Singapore and also operates through a Service Company in Miami, Allied World Reinsurance Management Company. During 2017 the Syndicate established a service company in Bermuda to write some US business on a non admitted basis. The Syndicate is approved by Lloyd's to engage authorised agents to write business for and on its behalf.

It became apparent during 2016 that regulatory capital changes in China were not having the anticipated effect on reinsurance buying behavior in the market and that cedants were not materially disincentivised from purchasing cover offshore. From 2017 therefore, as a temporary measure the syndicate suspended participation in Lloyd's China and resumed servicing the Chinese market from Singapore

For the 2016 and 2017 years of account the Syndicate continued to participate in a quota share arrangement with Allied World Assurance Company, Ltd, which is a related company.

Underwriting Result

The Syndicate produced a negative underwriting result in 2017 of £56.8m (2016: £44.4m profit). The result has been impacted by £63.0m of catastrophe ("CAT") losses (e.g. Hurricane's Harvey, Irma and Maria) and £26.0m of prior year loss reserve strengthening.

The overall balance on the technical account was a loss of £98.8m (2016: profit of £1.9m), after expenses and investment return but before foreign exchange adjustments.

Gross premium written for the year was £204.0m, compared to £163.8m for the prior year, an increase of £40.2m. The growth in the year is driven by the Syndicate's planned expansion through coverholder and binder partnerships.

Balance on the technical account	J 5	(98,772)	-	1,928
		, , ,	_	

Expenses and Investment results

The levels of "gross brokerage and commissions" and "other acquisition costs" (which typically include overseas taxes and levies) when expressed as a ratio of gross premium written are slightly higher at 20.5% (2016:19.4%). This increase is in partly due to a continued change in the business mix as the volume of business distributed via coverholders, typically attracting higher acquisition costs, has grown. It also reflects trends in the intermediary market including packaging business into lineslips and similar arrangements with associated higher levels of fees and charges.

The administrative expense ratio has increased to 24.5% (2016: 22.3%). The increase is being driven by accelerated stock and cash compensation settlement during the year following the acquisition of Allied World Assurance Company Holdings, AG by Fairfax Financial Holdings Limited. The ratio excluding the settlement would be 23.2%.

Given continued low interest rates, a relatively modest investment return was achieved during the year of £1.5m (2016: £1.7m).

Member's personal expenses include New Central Fund contributions and Lloyd's subscriptions.

Foreign exchange and currency translation differences

The strengthening of Sterling relative to all major currencies contributed to a foreign exchange gain of £3.3m, primarily as a result of the revaluation of unmatched liabilities.

Geographic segmentation

A geographic analysis of gross premium written by territory of original insured, for direct and facultative (D&F) (re)insurance business and territory of original cedent for treaty reinsurance business is shown below:

	2017 £000	2016 £000
UK	24,437	16,573
Other EU member states	23,047	18,851
Europe excluding EU member states	5,264	4,537
United States of America	15,184	13,656
Canada	9,886	7,690
Asia Pacific	83,556	67,865
Central & South America	32,417	30,385
Middle East & Africa	10,221	4,268
Total	204,012	163,825

Geographic segmentation (Continued)

The principal risks and uncertainties facing the Syndicate, as detailed in notes 19 and 20 to the financial statements are as follows:

- Market Risk
- Currency Risk
- Interest Rate Risk
- Credit Risk
- Liquidity Risk
- Operational Risk
- Strategic Risk
- Group Risk
- Regulatory and Compliance Risk
- Underwriting Risk
- Reserve Risk
- Reinsurance Risk

Future developments

The objective is to manage our core business, to maximise profitability through future market cycles. In addition, the Company seeks to develop a select number of initiatives to expand our geographic distribution and product mix, always with a focus on profitable growth.

Rating Agencies

All Lloyd's Syndicates benefit from Lloyd's central resources, including the Lloyd's brand, its network of global licences and the Central Fund. Therefore Syndicate 2232 benefits from the following ratings held by Lloyd's: A by A.M. Best Company, A+ (Strong) by Standard & Poor's, and AA- (Very Strong) by Fitch.

Directors

The directors set out in the table below have held office for the whole period from 1 January 2017 to the date of this report unless stated otherwise.

J Evans

Working Capital

AWMA liaises closely with the Syndicate's aligned capital provider, Allied World Capital (Europe) Limited concerning working capital requirements.

Disclosure of Information to the Auditor

The directors of AWMA who held office at the date of approval of this report confirm that, so far as they are each aware, there is no relevant audit information of which the Syndicate's auditor is unaware; and each director has taken all the steps that they ought to have taken as a director to make themselves aware of any relevant audit information and to establish that the Syndicate's auditor is aware of that information.

Auditor

PricewaterhouseCoopers ("PwC"), Chartered Accountants and Statutory Audit Firm, were appointed by the Board, as auditor, on 9 November 2017, for the year ended 31 December 2017, in accordance with section 384 (1) of the Companies Act 2014. PwC have indicated their willingness to continue in office in accordance with section 383(2) of the Companies Act 2014.

D Russell Managing Director

16 March 2018

STATEMENT OF MANAGING AGENT'S RESPONSIBILITIES

The managing agent is responsible for preparing the Syndicate annual report and financial statements in accordance with applicable law and regulations.

The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 ('the 2008 Regulations') require the managing agent to prepare Syndicate annual accounts for each financial year. Under that law the managing agent has elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the managing agent must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Syndicate and of the profit or loss of the Syndicate for that period.

In preparing those Syndicate annual accounts, the managing agent is required to:

- Select suitable accounting policies which are applied consistently, subject to changes arising on the adoption
 of new accounting standards in the year;
- Make judgements and estimates that are reasonable and prudent;
- State whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- Prepare the annual accounts on the basis that the Syndicate will continue to write future business unless it is inappropriate to presume the Syndicate will do so.

The managing agent is responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Syndicate and enable it to ensure that the Syndicate annual accounts comply with the 2008 Regulations. It is also responsible for safeguarding the assets of the Syndicate and hence for taking reasonable steps for prevention and detection of fraud and other irregularities.

The Managing Agent is responsible for the maintenance and integrity of the corporate and financial information included on the business' website. Legislation in the United Kingdom governing the preparation and dissemination of annual accounts may differ from legislation in other jurisdictions.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBER OF SYNDICATE 2232

Opinion

In our opinion, Syndicate 2232's Syndicate annual accounts (the "Syndicate annual accounts"):

- give a true and fair view of the state of the Syndicate's affairs as at 31 December 2017 and of its loss and cash flows for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, (United Kingdom Accounting Standards comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland); and
- have been prepared in accordance with the requirements of The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008.

We have audited the Syndicate annual accounts included within the Reports and Accounts (the "Annual Report"), which comprise: the statement of financial position at 31 December 2017, the income statement and statement of comprehensive income for the year then ended, the statement of cash flows, and the notes to the Syndicate annual accounts, which include a summary of significant accounting policies and other explanatory information.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008, as amended by The Statutory Auditors and Third Country Auditors Regulations 2017 and other applicable law.

Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the Syndicate annual accounts section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the Syndicate in accordance with the ethical requirements that are relevant to our audit of the Syndicate annual accounts in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which ISAs (UK) require us to report to you when:

- The managing agent's use of the going concern basis of accounting in the preparation of the Syndicate annual
 accounts is not appropriate; or
- The managing agent has not disclosed in the Syndicate annual accounts any identified material uncertainties that
 may cast significant doubt about the Syndicate's ability to continue to adopt the going concern basis of accounting
 for a period of at least twelve months from the date when the Syndicate annual accounts are authorised for issue.

However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Syndicate's ability to continue as a going concern.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the Syndicate annual accounts and our auditors' report thereon. The managing agent is responsible for the other information. Our opinion on the Syndicate annual accounts does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the Syndicate annual accounts, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Syndicate annual accounts or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the Syndicate annual accounts or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBER OF SYNDICATE 2232 (CONTINUED)

With respect to the Managing Agent's Report, we also considered whether the disclosures required by Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (UK) require us also to report certain opinions and matters as described below.

Managing Agent's Report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Managing Agent's Report for the year ended 31 December 2017 is consistent with the Syndicate annual accounts and has been prepared in accordance with The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008.

In light of the knowledge and understanding of the Syndicate and its environment obtained in the course of the audit, we did not identify any material misstatements in the Managing Agent's Report.

Responsibilities for the Syndicate annual accounts and the audit

Responsibilities of the managing agent for the Syndicate annual accounts

As explained more fully in the Statement of Managing Agent's Responsibilities set out on page 9, the managing agent is responsible for the preparation of the Syndicate annual accounts in accordance with the applicable framework and for being satisfied that they give a true and fair view. The managing agent is also responsible for such internal control as they determine is necessary to enable the preparation of Syndicate annual accounts that are free from material misstatement, whether due to fraud or error.

In preparing the Syndicate annual accounts, the managing agent is responsible for assessing the Syndicate's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless it is intended for the Syndicate to cease operations, or it has no realistic alternative but to do so.

Auditors' responsibilities for the audit of the Syndicate annual accounts

Our objectives are to obtain reasonable assurance about whether the Syndicate annual accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Syndicate annual accounts.

A further description of our responsibilities for the audit of the Syndicate annual accounts is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the Syndicate's members as a body in accordance with part 2 of The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008, as amended by The Statutory Auditors and Third Country Auditors Regulations 2017 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBER OF SYNDICATE 2232 (CONTINUED)

Other required reporting

Other matters on which we are required to report by exception

Under the Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008, as amended by the Statutory Auditors and Third Country Auditors Regulations 2017, we are required to report to you if, in our opinion:

- · we have not received all the information and explanations we require for our audit;
- the managing agent in respect of the Syndicate has not kept adequate accounting records;
- · certain disclosures of managing agent remuneration specified by law are not made; or
- the Syndicate annual accounts are not in agreement with the accounting records.

We have no exceptions to report arising from this responsibility.

NOTES TO THE FINANCIAL STATEMENTS

AT 31 DECEMBER 2017

1. Basis of Preparation

These financial statements have been prepared in accordance with the Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008, Financial Reporting Standard 102, The Financial Standard applicable in the UK (FRS 102) as issued in August 2014, and Financial Reporting Standard 103 Insurance Contracts (FRS 103) as issued in February 2017. These financial statements for the year ended 2016 comply with FRS 102.

The directors of the managing agent have prepared the annual accounts on the basis that the Syndicate will continue to underwrite business in the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the annual report and financial statements.

2. Accounting Policies

The principal accounting policies are described below. These accounting policies have been applied consistently throughout the current and preceding reporting period.

2(a) Premiums written and reinsurance premiums ceded

Gross written and outwards reinsurance premiums comprise premiums on contracts incepting during the financial year. Written premiums are disclosed gross of commission payable to intermediaries and exclude taxes and duties levied on premiums. Outwards reinsurance premiums are disclosed gross of commissions and profit participations recoverable from reinsurers. Premiums written include estimates for 'pipeline' premiums. Reinstatement premiums related to property catastrophe reinsurance are estimated and accrued based upon contractual terms applied to the amount of losses expected to be paid.

2(b) Unearned premiums

The provision for unearned premium comprises the proportion of gross and outwards reinsurance premiums written, which is estimated to be earned in the following or subsequent financial years, computed separately for each insurance contract using the daily pro-rata method.

2(c) Acquisition costs

Acquisition costs comprise all direct and indirect costs arising from the acquisition of insurance contracts. Deferred acquisition costs represent the proportion of acquisition costs incurred which corresponds to the proportion of gross premiums written which is unearned at the balance sheet date.

2(d) Claims provisions and related recoveries

The provision for claims and claims expenses includes estimates for unpaid claims and claims expenses on reported losses as well as an estimate of losses incurred but not reported (IBNR). The provision is based upon individual claims, case reserves and other reserve estimates reported by insured's and ceding companies as well as management estimates of ultimate losses. Inherent in the estimates of ultimate losses are expected trends in claims severity and frequency and other factors which could significantly vary as claims are settled. The directors of the managing agency consider that the provisions for gross claims and related reinsurance recoveries are fairly stated on the basis of the information currently available to them. However, ultimate losses may vary materially from the amounts provided in the financial statements. Ultimate loss estimates are reviewed regularly and, as experience develops and new information becomes known, the reserves are adjusted as necessary. Such adjustments, if any, are reflected in the financial statements of operations in the period in which they become known and are accounted for as changes in estimates.

Amounts recoverable from reinsurers are calculated in a manner consistent with the claim liability associated with the reinsured policies. The amounts recoverable from reinsurers are recorded net of bad debt provision for estimated uncollectable recoveries.

2(e) Unexpired risk

Provision is made for unexpired risks arising from general business where the expected value of the claims and expenses attributable to the unexpired periods of policies in force at the balance sheet date exceeds the unearned premiums provision in relation to such policies after the deduction of any acquisition costs deferred. The provision for unexpired risks is calculated separately by classes of business which are managed together, after taking into account the relevant investment return.

AT 31 DECEMBER 2017

2(f) Investments

Investments are carried at their current fair market value as shown in note 9.

2(g) Investment return

Investment return comprises income received and receivable on fixed income securities, interest earned and accrued on cash, realised gains on disposal of investments and unrealised gains on investments held.

All investment return is initially recognised in the non-technical account. It is then transferred to the technical account as it all relates to funds supporting underwriting business.

2(h) Rates of exchange

Monetary assets and liabilities denominated in foreign currencies are translated at the exchange rates ruling at the balance sheet date. Revenues, costs and non-monetary assets and liabilities are translated at the exchange rates ruling at the dates of the transactions. Profits and losses arising from foreign currency translation and on settlement of amounts receivable and payable in foreign currencies are dealt with through the profit and loss account. Profits and losses arising from the translation from functional to presentational currency are dealt with through the statement of other comprehensive income.

2(i) Taxation

Under Schedule 19 of the Finance Act 1993, managing agents are not required to deduct basic rate income tax from trading income. In addition, all UK basic rate income tax deducted from Syndicate investment income is recoverable by managing agents and consequently the distribution made to the member is gross of tax. Capital appreciation falls within trading income and is also distributed gross of tax.

No provision has been made for any United States Federal Income Tax payable on underwriting results or investment earnings. Any payments on account made by the Syndicate during the year are included in the balance sheet under the heading 'other debtors'.

No provision has been made for any overseas tax payable by members on underwriting results.

2(j) Bad debts

Bad debts are provided for only where specific information is available to suggest a debtor may be unable or unwilling to settle its debt to the Syndicate.

2(k) Reinsurers' commissions and profit participations

Reinsurers' commissions and profit participations, which include reinsurance profit commission and overriders, have been treated as a contribution to expenses, rather than as a premium adjustment.

2(I) Reporting currency

The functional currency of the Syndicate is United States Dollars (\$), as it is the currency of the primary economic environment. The presentational currency is United Kingdom Pounds Sterling (£).

2(m) Critical accounting judgments and key sources of uncertainty

In the application of the Syndicate's accounting policies, which are described above, the Directors are required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The key area of uncertainty which requires the use of accounting judgments is the calculation of claims provisions. This is covered in detail earlier in note 2(d) and in notes 20 under insurance risk management. The estimates and underlying assumptions used are reviewed on an ongoing basis.

AT 31 DECEMBER 2017

3. Segmental Analysis

An analysis of the underwriting result before investment return is set out below:

	Gross premiums	Gross premiums	Gross claims	Net operating	Reinsurance balance	Total
2017	written £000	earned £000	incurred £000	expenses £000	£000	£000
Direct Insurance						
Aviation	2,581	3,196	(5,337)	(584)	394	(2,331)
Transport	8,220	6,748	(13,592)	(1,743)	4,508	(4,079)
Fire and other damage to property	16,131	12,753	(17,543)	(3,055)	548	(7,297)
Third-party liability	66,060	61,821	(77,203)	(12,337)	(424)	(28,143)
Pecuniary loss	3,261	2,039	(5,337)	(669)	2,129	(1,838)
	96,253	86,557	(119,012)	(18,388)	7,155	(43,688)
Reinsurance	107,759	100,094	(176,977)	(25,042)	56,579	(45,346)
Total	204,012	186,651	(295,989)	(43,430)	63,734	(89,034)

Of the £204.0m gross premiums written, £130.6m were underwritten in the UK, £72.9m were underwritten in Singapore and £0.5m were underwritten in China.

2016	Gross premiums written	Gross premiums earned	Gross claims incurred	Net operating expenses	Reinsurance balance	Total
	£000	£000	£000	£000	£000	£000
Direct Insurance						
Aviation	2,785	3,247	(3,390)	(821)	(340)	(1,304)
Transport	5,044	5,250	(2,054)	(1,449)	(928)	819
Fire and other damage to property	5,476	7,408	(4,201)	(1,995)	(557)	655
Third-party liability	50,851	46,739	(30,954)	(12,169)	(5,580)	(1,964)
Pecuniary loss	3,433	1,673	(1,049)	(831)	(369)	(576)
	67,589	64,317	(41,648)	(17,265)	(7,774)	(2,370)
Reinsurance	96,236	94,493	(51,410)	(26,953)	(13,551)	2,579
Total	163,825	158,810	(93,058)	(44,218)	(21,325)	209

Of the £163.8m gross premiums written, £107.5m were underwritten in the UK, £42.2m were underwritten in Singapore, £13.6m were underwritten in China and £0.5m were underwritten in Japan.

AT 31 DECEMBER 2017

4. Change in Net Provision for Claims

The change in net provision for claims is made up of the following:

Total	90,993	27,434
Reinsurers' share	(94,770)	(17,340)
	185,763	44,774
Provision for unallocated loss adjustment expenses	1,556	444
Gross claims incurred but not reported	91,236	26,631
Gross reported for outstanding claims	92,971	17,699
	2017 £000	2016 £000

5. Net Syndicate Operating Expenses

Change in deferred acquisition costs	(1,212) 40,716	4,995 36,892
Gross acquisition costs Reinsurers' commissions and profit participations	(24,583)	(18,079)
Net acquisition costs	16,133	18,813
Administrative expenses-other	25,524	23,704
Total	41,657	42,517
		2016
Administrative expenses include fees payable to the auditors and its associates (exclusive of VAT) An analysis of the auditor's remuneration is as follows:	2017 £000	£000
its associates (exclusive of VAT) An analysis of the auditor's remuneration is as follows: Audit fees:		
its associates (exclusive of VAT) An analysis of the auditor's remuneration is as follows:		

Other services pursuant to legislation include fees for the Syndicate half year review, half year review and year- end audit of Solvency II balance sheet and fees payable to an affiliate of the Syndicate auditor in respect of the Singapore branch regulatory return.

AT 31 DECEMBER 2017

6. Staff Numbers and Costs

The average number of full time equivalent employees employed by the Allied World Group of Companies working on the Syndicate matters during the year was as follows:

	2017	2016
Administration and finance	45	43
Underwriting and claims	50	45
Total	95	88

AWMA does not charge a managing agency fee, it has recharged various expenses which have been properly incurred on the Syndicate's behalf. These amounted to £15.6m (2016: £12.9m) for the financial period.

7. Emoluments of the Directors of AWMA

The directors of AWMA received the following aggregate remuneration of £1,329k (2016:£1,386k) charged to the Syndicate and included within net operating expenses.

The amount recharged to the Syndicate in respect of the aggregate remuneration of the active underwriter for the year ended 31 December 2017 was £368k (2016: £444k).

8. Member's Personal Expenses

	2017 £000	2016 £000
New Central Fund (NCF)	828	748
Lloyd's Subscriptions	945	953
Total	1,773	1,701

AT 31 DECEMBER 2017

9. Financial Investments

Total	125,320	125,824	124,390	129,422
Shares and other variable yield securities Debt securities and other fixed income securities	82,390	82,894	111,570	116,602
of any and a the any ariable violation	42,930	42,930	12,820	12,820
	Market Value 2017 £000	Cost 2017 £000	Market Value 2016 £000	Cost 2016 £000

All debt securities and other fixed income securities are listed on a recognised stock exchange.

The Syndicate classifies its financial instruments held at fair value in its balance sheet using fair value hierarchy, as follows:

- Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 Prices based on recent transactions in identical assets (either unadjusted or adjusted)
- Level 3 Prices determined using the valuation technique

Fair value is the amount for which an asset or liability could be exchanged between willing parties in an arm's length transaction. Fair values are determined at prices quoted in active markets. In some instances, such price information is not available for all instruments and the Syndicate applies valuation techniques to measure such instruments. These valuation techniques make maximum use of market observable data but in some cases management estimate other than observable market inputs within the valuation model. There is no standard model and different assumptions would generate different results.

The table below analyses financial instruments held at fair market value in the Syndicate's balance sheet at the reporting date by its level in the fair value hierarchy.

2017	Level 1	Level 2	Level 3	Total
	£000	£000	£000	£000
Shares and other variable yield securities	42,930		22—22	42,930
Debt securities and other fixed income securities	10,767	71,623	_	82,390
Overseas deposits	1,503	8,454		9,957
Total	55,200	80,077	_	135,277
2016	Level 1	Level 2	Level 3	Total
	£000	£000	£000	£000

Overseas deposits	2,779	3,557		6,336
Total	43,888	86,838	_	130,726

AT 31 DECEMBER 2017

10. Debtors

	2017 £000	2016 £000
Debtors arising from insurance/reinsurance operations:		
Due from intermediaries	86,088	67,351

11. Overseas Deposits

Overseas deposits comprise funds that are lodged as a condition of conducting underwriting business in certain countries. Certain overseas deposits relating to Australian situs business previously funded by the Syndicate were replaced in 2013 by a letter of credit (LOC) funded by Allied World Assurance Company, Ltd. The amount of LOC provided as at 31 December 2017 was AUS\$18.8m (31 December 2016: AUS\$20.8m).

12. Reconciliation of Member's Balances

Member's balances carried forward at 31 December	(142,730)	(43,441)
Loss for the financial period	(93,610)	(2,593)
Profit distribution	(5,679)	(3,152)
Cash calls released in year	_	(4,624)
Member's balance at 1 January	(43,441)	(33,072)
	2017 £000	2016 £000

13. Creditors

	2017 £000	2016 £000
Creditors arising from insurance/reinsurance operations:		
Amounts due to Intermediaries within one year	70,062	36,889
Other creditors		

Other creditors balance above comprises mainly of expense recharges from affiliated companies.

14. Accruals and Deferred Income

	2017 £000	2016 £000
Amounts due within one year	16,520	14,224

The balance above relates to various operating expenses.

AT 31 DECEMBER 2017

15. Post Balance Sheet Events

There have been no post balance sheet events which require disclosure or an adjustment to the financial statements for the year ended 31 December 2017.

16. Funds at Lloyd's

Every member is required to hold capital at Lloyd's which is held in trust and known as Funds at Lloyd's (FAL). These funds are intended primarily to cover circumstances where Syndicate assets prove insufficient to meet participating underwriting members' underwriting liabilities.

The level of FAL that Lloyd's requires a member to maintain is determined by Lloyd's based on UK regulatory requirements. FAL has regard to a number of factors including the nature and amount of risk to be underwritten by the member and the assessment of the reserving risk in respect of business that has been underwritten.

Since FAL is not under the management of the managing agent, no amount has been shown in these annual accounts by way of such capital resources. However, the managing agent is able to make a call on the member's FAL to meet liquidity requirements or to settle losses.

Foreign Exchange Rates

The following currency exchange rates illustrate the main foreign currency rates of exchange which were used for currency translation.

	2017 Average rate	2017 Year end rate	2016 Average rate	2016 Year end rate
Australian Dollar	1.68	1.76	1.77	1.70
US Dollar	1.29	1.34	1.36	1.23
Canadian Dollar	1.68	1.73	1.74	1.66

18. Capital Management

The solvency capital requirement for the Syndicate is based on the modelled output of the economic capital model (ECM). The capital requirement as at 31 December 2017 will be reported in line with Solvency II Pillar 3 deadlines in 2018.

The ECM is also used for internal reporting and outputs are provided to the board of directors of AWMA and committees. ECM outputs are included in the Syndicate's Own Risk Solvency Assessment (ORSA) report, which will be submitted to Lloyd's on or before 30 March 2018.

AT 31 DECEMBER 2017

19. Financial Risk Management

The Syndicate's financial instruments include investments in securities at fair value through the profit and loss, other receivables, cash and cash equivalents, other payables, accruals and liabilities. The risks associated with these financial instruments include market risk (currency risk, inflation risk and interest rate risk), credit risk and liquidity risk. The Syndicate also has insurance-related assets and liabilities which have similar financial risks.

The policies on how to mitigate these risks are set out below. Management monitors these exposures to ensure appropriate measures are implemented in a timely and effective manner.

Market risk

Currency risk, interest rate risk and price risk are all grouped under market risk which is defined as the risk arising from fluctuations in values of, or income from, invested assets including fluctuations due to movements in interest rates, foreign exchange rates, credit spreads, or credit defaults.

AT 31 DECEMBER 2017

19. Financial Risk Management (continued)

Currency risk

The Syndicate's exposure to currency risk arises primarily from insurance debtors and insurance creditors denominated in currencies other than the functional currency. Management monitors foreign exchange exposure and will consider hedging significant foreign currency exposure when the need arises.

Carrying amounts of the Syndicate's material foreign currency denominated assets and liabilities are shown below, this excludes members balances (see note 12):

2017	GBP £000	USD £000	CAD £000	AUD £000	Total £000
Financial investments	-	33,146	34,410	57,764	125,320

Total liabilities	(127,743)	(207,074)	(7,345)	(37,097)	(379,259)

AT 31 DECEMBER 2017

19. Financial Risk Management (continued)

Interest rate risk

The fixed income securities in the Syndicate's investment portfolio are subject to interest rate risk. Any changes in interest rates have a direct effect on the market values of fixed income securities. As interest rates rise, the market values fall and vice versa.

In the table below, 50 basis point increase or decrease is used when reporting interest rate risk and represents management's assessment of the reasonably possible change in interest rates over the next year.

	2017 £000	2016 £000
Impact of 50 basis point increase on result	(733)	736
Impact of 50 basis point decrease on result	733	(736)
Impact of 50 basis point Increase on net assets	(733)	736
Impact of 50 basis point decrease on net assets	733	(736)

The Syndicate's method for interest rate fluctuations has not changed significantly over the financial year.

Credit risk

Credit risk arises out of the failure of a counterparty to perform according to the terms of the contract. The Syndicate's major areas of credit risk are in relation to its investment portfolio, its reinsurance program and the amounts due from policyholders and intermediaries.

The Syndicate's investment portfolio is managed pursuant to guidelines that follow the prudent person principles. The guidelines limit the allowable holdings of a single issue and issuers. The Syndicate believes that there are no significant concentrations of credit risk associated with its investment portfolio.

The Syndicate purchases reinsurance in order to limit its maximum loss, to protect against concentration of risk within the portfolio and to manage exposure to catastrophic events. Because the ceding of insurance does not discharge the Syndicate from its primary obligation to the insureds, the Syndicate remains liable to the extent that its reinsurers do not meet their obligations under the reinsurance agreements. Therefore, the Syndicate evaluates the financial condition of its reinsurers and monitors concentration of credit risk. No material provision has been made for unrecoverable reinsurance as of 31 December 2017 and 2016 as the Syndicate believes that reinsurance balances will be recovered.

Insurance balances receivable primarily consist of net premiums due from insureds and reinsureds. The Syndicate believes that the counterparties to these receivables are able to meet, and will meet, all of their obligations. The Syndicate's credit risk is further reduced by the contractual right to offset loss obligations or unearned premiums against premiums receivable or to cancel policies as per the cancellation clause in all policies for non-payment. Consequently, the Syndicate has not included any material provision for unrecoverable accounts receivable.

AT 31 DECEMBER 2017

19. Financial Risk Management (continued)

Credit risk (continued)

The following table show aggregated credit risk exposure for assets with external credit ratings:

AT 31 DECEMBER 2017

19. Financial Risk Management (continued)

Liquidity risk

The Syndicate considers that it follows a prudent person principle investment strategy in line with Allied World Group's strategy. The Group strategy is designed to emphasise the preservation of invested assets, and provide adequate liquidity for the prompt payment of claims as well as attractive returns for the member.

To help ensure adequate liquidity for the payment of claims, the Syndicate takes into account the maturity and duration of its investment portfolio and its liability profile. In making investment decisions, the Syndicate considers the impact of various catastrophic events to which the Syndicate may be exposed. The majority of its assets are invested in the fixed income markets. There are restrictions on the maximum amount of its investment portfolio that may be invested in alternative investments (such as hedge funds and private equity vehicles) as well as a minimum amount that must be maintained in investment grade fixed income securities and cash. There are also restrictions on the portfolio's composition, including limits on the type of issuer, sector limits, credit quality limits, portfolio duration, limits on the amount of investments in approved countries and permissible security types.

For several asset classes the Syndicate has engaged outside investment managers to provide us with certain discretionary investment management services. The managing agent has agreed to pay investment management fees based on the market values of the investments in the portfolio. The fees, which vary depending on the amount of assets under management, are included as a deduction to net investment income. These investment management agreements may generally be terminated by either party upon 30 days prior written notice.

The Syndicate has also developed investment guidelines that include restrictions on the permissible security types the investment managers may include in the portfolios that they manage. The Syndicate may direct its investment managers to invest some of the investment portfolio in currencies other than US dollar based on the business the Syndicate has written, the currency in which our loss reserves are denominated on our books or regulatory requirements.

The following table details the Syndicate's expected maturity for its non-derivative assets. The tables below have been drawn up based on the undiscounted contractual maturities of the assets including interest that will be earned on those assets except where the Syndicate anticipates that the cash flow will occur in a different period.

2017	No stated maturity	0-1 year	1-3 years	3-5 years	>5 years	Total
	£000	£000	£000	£000	£000	£000
Claims outstanding	_	132,758	140,710	74,136	49,146	396,750
Creditors	_	80,459	_	_		80,459
Total		213,217	140,710	74,136	49,146	477,209
2016	No stated maturity	0-1 year	1-3 years	3-5 years	>5 years	Total

AT 31 DECEMBER 2017

19. Financial Risk Management (continued)

Operational risk

Operational risk is the loss resulting from inadequate or failed internal processes, people and systems. It also includes legal risks that arise from failure to comply with relevant laws or regulations. "External events" as countenanced by business continuity plans are also covered under operational risk.

AWMA has developed and implemented a risk reporting and risk governance system to ensure effective risk management of operational risk is carried out. Management receives regular operational risk updates and the Board of Directors oversees the risk framework.

AWMA has entered into a number of outsourcing arrangements in accordance with outsourcing policies and procedures, the risks and performance of that are monitored by management.

It is critical for the Syndicate that the key resources required to support its underwriting and other essential business activities continue to be available. A number of contingency plans are in place to mitigate any loss of key resources from disrupting the ongoing operations of the Syndicate.

Strategic risk

This relates to the risk of not achieving the Syndicate's short and long term objectives due to any inability to implement appropriate business plans and strategies, make decisions (especially in the context of risk mitigation), allocate capital or resources, or adapt to changes in the business environment.

Group risk

Group risk refers to the potential impact of risk events, of any nature, arising in or from membership of a corporate group. Potential negative impacts on the activities of the Syndicate by AWAC Holdings and its subsidiaries (collectively, the "Group").

Regulatory and compliance risk

This is the risk of there being a financial loss owing to a breach of regulatory requirements and/or a failure to respond to a regulatory change.

The Syndicate is required to comply with the requirements of a number of regulators including the Financial Conduct Authority (FCA), Prudential Regulation Authority (PRA), Monetary Authority Singapore (MAS), The Office Of the Superintendent of Financial Institutions (OFSI), Australian Prudential Regulation Authority (APRA) and Lloyd's. Lloyd's requirements include those imposed on the Lloyd's market by overseas regulators, particularly in respect of US situs business.

AT 31 DECEMBER 2017

19. Financial Risk Management (continued)

Policies and processes

Policies specific to the Syndicate are in place for all of the above risk categories, under the auspices of an overarching Risk Management Strategy and Framework document. These documents are approved by the Board on an annual basis, with the responsibility delegated on an operational basis to the risk management function under the leadership of the Chief Risk Officer.

In addressing insurance risk, and all other risk types, the Syndicate aims to ensure that :

- All significant insurance risks are identified, measured, assessed, managed and monitored in a consistent and effective manner;
- Appropriate and reliable risk management tools are deployed to support insurance risk management, particularly management reporting, decision making and capital assessment;
- All directors, management and staff are accountable for managing insurance risk in line with the roles and responsibilities which are set out in detail in the policy; and
- An effective governance framework is in place to ensure that risk management is embedded in business activity. The governance structure is based on a three lines of defence model.

The insurance risk management methodology employed by the Syndicate reflects the relevant elements identified in the risk register. Risks relating to underwriting (including business planning and pricing risk), reserving and outwards reinsurance are identified, along with relevant emerging risks are identified, measured, monitored and reported. Correlations between insurance risks as well as between this risk category and others will be taken into account, in particular as regards capital requirements.

Insurance risks are monitored on a regular and timely basis based on suitable management information. Risks at all relevant levels and over appropriate geographical areas are measured regularly. This information can then be reported to appropriate parties, such as committees and Board of directors of the managing agent at a suitable level of aggregation and on a regular basis, typically quarterly. Key risk indicators are used to measure exposure to insurance risk against risk appetite, based on tolerance criteria which are set beforehand by the Board of the managing agent.

AT 31 DECEMBER 2017

20. Insurance Risk Management

Insurance risk is defined as the risk of fluctuations in benefits payable to policyholders including underwriting risk (which covers catastrophe and non-cat risk), reserve risk and reinsurance risk. Thus it includes the risk of loss arising from prospective underwriting and the development of prior years and also encompasses risks associated with potential for increased operating expenses.

The elements of insurance risk (underwriting, reserving and outwards reinsurance) are mutually dependent. They are described as follows:

a) Underwriting Risk (Premium Risk)

This is split into two parts - (i) The risk that actual losses and expenses on a future underwriting year are greater than the premium income and (ii) The risk that actual losses and expenses on unearned incepted business, which is associated with future premiums for policies previously written, will differ from the expected losses and expenses.

This is further divided into both catastrophe risk and non-catastrophe elements. Catastrophe risk is the risk that a single event (or series of events) of major magnitude, usually over a short period of time, leads to a significant deviation in actual claims from the total expected claims.

b) Reserve Risk

This is the risk that actual reserves and expenses, associated with policies previously written and earned, will differ from the best estimate expected reserves or prove to be inadequate as per the technical provisions

c) Reinsurance Risk

Reinsurance risk is defined as the inability of the ceding company to obtain reinsurance coverage at the appropriate time for a reasonable cost. The assessment of reinsurance risk relates to risks arising from mismatch, dispute and exhaustion.

Use of judgments and estimates

In preparing these financial statements, the directors of the managing agent have made judgments, estimates and assumptions that affect the application of the Syndicate's accounting policies and the reported amounts of assets, liabilities and expenses.

Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

The measurement of the provision for claims outstanding involves judgments and assumptions about the future that have the most significant effect on the amounts recognised in the financial statements.

The provision for claims outstanding comprises the estimated cost of settling all claims incurred but unpaid at the balance sheet date, whether reported or not. This is a judgemental and complex area due to the subjectivity inherent in estimating the impact of claims events that have occurred but for which the eventual outcome remains uncertain. In particular, judgment is applied when estimating the value of amounts that should be provided for claims that have been incurred at the reporting date but have not yet been reported (IBNR) to the Syndicate.

The amount included in respect of IBNR is based on statistical techniques of estimation applied by the Syndicate managing agent's in house actuaries and reviewed by external consulting actuaries. These techniques generally involve projecting from past experience the development of claims over time in view of the likely ultimate claims to be experienced and for more recent underwriting, having regard to variations in business accepted and the underlying terms and conditions.

AT 31 DECEMBER 2017

20. Insurance Risk Management (continued)

The Syndicate suffered losses from hurricane's Harvey, Irma and Maria which resulted in a net reserve of £63m as at 31st December 2017. The events were within our risk appetite tolerances and are in line with the quarterly Catastrophe Probable Maximum Loss (PML) reports produced. The reserves have been set consistently with our approach for all other such events using a bottom up approach, which includes gathering the most up to date information from our brokers and cedants, to identify all policies and treaties impacted and the potential loss impact to the Syndicate. There is still some uncertainty in the reserves due to the events having occurred within the past six months however, we believe the Syndicate reserves have been set conservatively and do not anticipate any deteriorations.

The provision for claims also includes amounts in respect of internal and external claims handling costs. For the most recent years, where a high degree of volatility arises from projections, estimates may be based in part on output from rating and other models of business accepted and assessments of underwriting conditions.

Stress Testing and Sensitivity Analysis

Stress testing is an important risk management tool utilised by AWMA as part of its internal risk management and is also a key part of the Own Risk and Solvency Assessment (ORSA) process. Stress testing provides management with information on adverse unexpected outcomes related to a variety of risks and provides an idea of relative importance and impetus for management action as necessary. Moreover, stress testing is a tool that supplements other risk management approaches and measures such as risk profile monitoring and exposure management.

Stress testing covers the following categories:

- a) Scenario Tests assessing the financial impact on the business of possible future scenarios e.g. a large catastrophic event or multiple events
- b) Sensitivity Tests assessing the implication of possible alternative assumptions e.g. variations in premium income and in particular their impact on capital requirements

Insurance Risk - Scenario tests

- The potential cost of non-modelled natural catastrophe losses
- The cost impact given the Syndicate experiences the same level of catastrophic activity as under bad historic years.
- Errors in Catastrophe PML calculations
- The impact of man-made catastrophe losses. Disaster scenarios are run for event-exposed classes of business such as Property, Aviation and Marine
- The possible exhaustion of reinsurance arrangements
- Reserve understatement. These tests may cover certain correlating classes e.g. all Casualty classes
- Latent claims / mass tort scenarios
- The effect of unexpected inflation

Insurance Risk - Sensitivity Analysis

- Mis-pricing of risks / incorrect loss ratio assumptions. A 5% deviation in loss ratios from plan may be postulated, either upwards or downwards.
- The effects of the weather event industry loss.
- The tolerance for variations in expenses, including indirect costs, such as overheads.

AT 31 DECEMBER 2017

20. Insurance Risk Management (continued)

The results of sensitivity testing are set out below:

	Profit fo financia		Members balance at financial year end		
	2017 £000			2016 £000	
5% increase in loss ratios					
Gross	(106,275)	437	(152,063)	(51,382)	
Net	(102,523)	2,697	(148,310)	(49,121)	
5% decrease in loss ratios					
Gross	(87,610)	16,318	(133,398)	(35,501)	
Net	(91,362)	14,057	(137,150)	(37,761)	
Weather event- industry loss					
Gross	(118,627)	(7,591)	(164,415)	(59,408)	
Net	(112,121)	(2,250)	(157,909)	(54,067)	
5% increase in expenses					
Gross	(100,254)	5,347	(146,042)	(46,471)	
Net	(99,025)	6,251	(144,813)	(45,567)	
5% decrease in expenses					
Gross	(93,630)	11,407	(139,418)	(40,411)	
Net	(94,860)	10,503	(140,647)	(41,315)	

Concentrations of Insurance Risk

Concentrations of risk can occur through a number of sources, including but not limited to:

- · Natural catastrophe.
- Man-made catastrophe.
- Territorial exposures.
- Outwards reinsurance counterparties.
- Broker balances or over-reliance on one brokerage firm / source of business.
- Asset holdings by currency, class or counter-party.
- High dependence across risk categories.

The economic capital model as employed by AWMA captures all elements of concentration risk, most notably the potential for a clash between categories of risk. Diversification effects are also allowed for. Capital model outputs are reported on a quarterly basis to the Board and management committees.

Catastrophe exposure is the key area of concentration risk within the broader insurance risk definition. This exposure is captured via the exposure management process, which enables the calculation of problematic maximum Loss ('PMLs') and realistic disaster scenarios ('RDSs'). As regards natural catastrophes, key region perils for AWMA are identified and underlying risk data utilised to determine loss potential at associated return periods. External catastrophe models are used for pricing and exposure rating calculations. These latter calculations are performed gross and net of outwards reinsurance, by country and by peril within territory. Deterministic stress testing is also used to measure natural catastrophe risk and is the main tool for measuring man-made catastrophe risk. Results are presented on a quarterly basis to the Board and management committees.

AT 31 DECEMBER 2017

20. Insurance Risk Management (continued)

The above criteria has resulted in 12 classes of business (for the 2017 Year of Account) which have concentrations or pools of risks that have common characteristics and are similar in nature.

COB Code	Class of Business
COB10	Property D&F
COB30	Treaty Casualty
COB40	E&O
COB50	D&O
COB60	General Casualty
COB70	Aviation
COB80	Treaty Property - CAT
COB90	Treaty Property - Non CAT
COB100	Marine- Cargo
COB120	Marine-Liability
COB150	Onshore Construction
COB160	Trade Credit

Risk mitigation

Transfer:

 Outwards reinsurance: There is cover in place to protect the Company from catastrophe loss and volatility in results. Strict controls are applied in terms of security ratings of all approved reinsurers.

Acceptance:

- The AWMA strategy is to employ a prudent approach to underwriting and risk selection.
- A business plan is set and adherence to this is monitored.
- Capital modeling processes (economic capital model) are used to ensure that AWMA has sufficient capital
 resources to support its insurance risks.

Limitation:

- Catastrophe probable maximum losses ('PMLs') are limited by defined capital tolerance levels at the 1 in 250 year event.
- There are geographical/regional limits in place by line of business to limit concentration risk.
- Underwriters have set line size limitations.
- Maximum concentration limits for third parties are in place

Avoidance:

AWMA writes business only within its risk appetites.

AT 31 DECEMBER 2017

20. Insurance Risk Management (continued)

Claims development tables

The following tables show the development of claims over a period of time on both a gross and net of reinsurance basis. The top half of the table shows how the estimates of total claims for each underwriting year develop over time. The lower half of the table reconciles the cumulative claims to the amount appearing in the balance sheet.

The cumulative claims estimates and payments for each underwriting year are translated into GBP£ at the rates that applied at the end of each underwriting year.

Analysis of claims development - Gross	2012 £000	2013 £000	2014 £000	2015 £000	2016 £000	2017 £000	Total £000
Estimates of gross claims							
End of underwriting year	26,858	59,045	56,806	73,590	64,631	182,141	
One year later	33,881	73,190	83,582	118,237	134,627		
Two years later	32,060	66,160	91,202	136,819			
Three years later	30,835	65,024	86,956				
Four years later	31,666	62,606					
Five years later	32,511						
Less gross claims paid	19,393	43,200	52,604	55,070	40,520	30,001	240,788
Gross claims reserve	13,117	19,406	34,353	81,749	94,107	152,140	394,872
Gross claims reserve for 2011 and prior years							1,879
years							
	2012	2013	2014	2015	2016	2017	Total
Analysis of claims development - Net	£000	£000	£000	£000	£000	£000	£000
Estimates of net claims							
End of underwriting year	20,075	51,428	48,500	62,306	41,937	98,078	
One year later	24,100	61,810	70,488	100,028	85,168		
Two years later	23,599	54,947	77,453	112,863			
Three years later	23,091	54,989	73,411				
Four years later	22,907	50,803					
Five years later	23,050						
Less net claims paid	13,130		45,256	46,919	26,055	20,516	•
Net claims reserve	9,920	10,971	28,155	65,944	59,113	77,563	251,666
Net claims reserve for 2011 and prior years							1,427

AT 31 DECEMBER 2017

21. Related Parties

Ultimate parent company

The immediate holding company of AWMA is Allied World Europe Holdings, Ltd, which is incorporated in Bermuda. The company's ultimate parent and to which the results of the Company are consolidated into is Fairfax Financial Holdings Limited.

The Syndicate has entered into various reinsurance arrangements with affiliates of Fairfax Financial Holdings Limited. In respect of insurance and ceded outwards reinsurance activity, these amounts are included as part of the technical account within the income statement.

Group financial statements may be obtained from 95 Wellington Street West, Suite 800, Toronto, Canada.

AWMA

AWMA is the managing agent of the Syndicate. It does not charge a set managing agent fee but receives a mark-up on expenses recharged to the Syndicate of 5%. In respect of expense recharge activity, these amounts are included as part of operating expenses.

Allied World Syndicate Services (Singapore) PTE Ltd ("AWSS")

The Syndicate underwrites business via the Lloyd's Asia Singapore platform. From 1 April 2014, AWSS has acted as the Lloyd's Asia service company to facilitate the Syndicate's underwriting in Singapore. In respect of expense recharge activity, these amounts are included as part of operating expenses.

Allied World Reinsurance Management Company ("ARM")

ARM acts as a cover-holder for the Syndicate underwriting business in Central and South America including the Caribbean. In respect of insurance and ceded outwards reinsurance activity, these amounts are included as part of the technical account within the income statement. In respect of expense recharge activity, these amounts are included as part of operating expenses.

Allied World Syndicate Services (Bermuda), Ltd ("AWSB")

AWSB acts as a cover-holder for the Syndicate underwriting business in Bermuda. In respect of insurance and ceded outwards reinsurance activity, these amounts are included as part of the technical account within the income statement. In respect of expense recharge activity, these amounts are included as part of operating expenses.

Allied World Assurance Company (Europe) dac ("AWE")

The Syndicate is serviced in terms of accommodation, staff and other overhead costs by AWE. The Syndicate is charged its share of these central costs. In respect of the cost sharing activity, these amounts are included as part of operating expenses.

Allied World Assurance Company, Ltd ("AWA")

The Syndicate participates in an intra-group reinsurance contract with AWA. In respect of insurance and ceded outwards reinsurance activity, these amounts are included as part of the technical account within the income statement.
