Agents are reminded that if they have any loss to be reported on QMR800 that does not have an XIS Catastrophe code, they need to ensure that the loss has been allocated a major loss code. Details of the procedure for obtaining a major loss code were issued in an e-mail from MSU last week. The deadline for submission of requests for new major loss codes to Market Reporting is Friday 7 October.

Agents are also reminded that a number of events have been assigned an XIS Catastrophe code and these should also be reported if a material loss to the syndicate: for this purpose a loss is material if the "Incurred Gross Loss" or the "Estimated Ultimate Net Loss" exceeds

5% and 1% respectively of the syndicate's capacity for the relevant reporting year of account
