Purpose of bulletin

This bulletin is to advise those syndicates who have written or assumed direct French medical malpractice legal liability business during 2013 and prior years, that they are required to report details of this business to Lloyd's France in the prescribed format by 2 April 2014. Lloyd's France will then combine all returns and provide one submission to the French regulator, L'Autorité de contrôle prudentiel et de résolution (ACPR).

Syndicates who have previously reported medical malpractice legal liability business to Lloyd's France, but who have now ceased writing the business will need to continue to report this run off business. Where business has been transferred to another syndicate, arrangements will need to be made for the appropriate entity to report the business to Lloyd's France.

Background

Under the provisions of Article 1 of the Decree of 24 June 2008 issued by the Minister of Health and the Minister of Economy, Industry and Employment, reporting of medical malpractice business in France is compulsory. Insurers providing medical malpractice insurance to health professionals for risks located in France written on both a freedom of

services and freedom of establishment basis must submit an annual return to the French Regulator, the ACPR.

Reporting requirements

Those syndicates who have relevant business to report should contact Lloyd's France as soon as possible to obtain a copy of the template for completion.

Guidance regarding the completion of the spreadsheets is available in the [medical malpractice reporting manual](#) available on Crystal.

Please note that the spreadsheets must not be altered in anyway, formulas must not be overwritten, and no data should be entered in shaded cells.

The template must be submitted via email to Lloyd's France by 2 April 2014.

Further information

Copies of the template are available from stephanie.leninivin@lloyds.com.
Completed templates must be sent to stephanie.leninivin@lloyds.com by 2 April 2014.
