

Italy

Lloyd's Multinational Around the World Tour continues — and this time, we're heading to Italy.

The Lloyd's market can place Italian risks via Lloyd's Insurance Company S.A. (LIC), which can cover EEA exposure.

The Lloyd's Italy team provides support to facilitate placements and enable operations to stay aligned with local regulations.

In conjunction with our broader multinational offering, our Summary of Coverage service is available in Italian to provide clarity of cover for local clients.

- Strengthen Italian placements through DOPRINT, which provides automated checks of each declaration against certain key elements of coverholder Binding Authority Agreements
- Deliver client confidence through locally issued policies in the Italian language, facilitated by the Summary of Coverage service
- Utilise MOCHA to streamline input of policyholder details and risk data

Deliver multinational placements involving Italian risks with ease by using Lloyd's existing structure and our new multinational offerings, including:

Our global network of local partners: <https://lnkd.in/eP83pw8g>. Our licensing capabilities: <https://lnkd.in/eymz6gm4>

Drop a comment or reach out to multinational@lloyds.com to find out how we can support your business in Italy.
