

Japan

After completing our Europe journey, we're kicking 2026 off with our Asia tour of Lloyd's Multinational Around the World. Our first stop: Japan.

The Lloyd's Japan Multinational model enables overseas market participants from syndicates and service companies to issue local policies in Japan as part of a multinational programme.

Check out our knowledge pack for further information on our Japan Multinational model: <https://lnkd.in/g3kWgJt7>

- Centralised policy issuance at no extra cost by Lloyd's Japan, enabling risks to meet regulatory requirements including a policy jacket with the relevant language specifications
- Roll out of a new competitive flat fee (500 USD), simplifying financial planning and ensuring transparency
- Comprehensive support service – Lloyd's Japan handles matters such as regulatory reporting and local funding requirements, assisting in streamlining insurance placements

This is one of the many ways we're striving to serve our multinational clients with exposures in Japan. Learn more about our enhanced multinational offerings, including:

Our global network of local partners: <https://lnkd.in/gHkhqmxe>

Our licensing capabilities: https://lnkd.in/gA5_aUpX

Drop a comment or reach out to multinational@lloyds.com to find out how we can support your business in Japan.
