MANAGING AGENT'S REPORT

The Directors of CMA, the managing agent, present their report for Syndicate 1110 ('the Syndicate') for the year ended 31 December 2021. This report includes the strategic report.

Until 26 October 2017, the Syndicate was managed by ProSight Specialty Managing Agency Limited (PSMAL). The PSMAL Board was informed on 10 March 2017 by ProSight Global Holdings Limited (the ultimate Parent Company) of its intention to sell the UK subsidiary group, including the managing agency of Syndicate 1110 and the corporate members providing capital. The Syndicate went into run-off on 8 June 2017.

On 26 October 2017 PSMAL and its corporate members were sold to the R&Q group and subsequently PSMAL novated the management of the Syndicate to R&Q Managing Agency Limited (RQMA) which was renamed Coverys Managing Agency Limited on 1 December 2017. Capita assumed the Third-Party Management of S1110 by way of novation, effective 25 October 2019.

As at 31 December 2019, the Board of CMA approved the decision to put the 2017 year of account into run-off. As at year end 31 December 2021, the Board has approved the recommendation to keep the 2017 year of account in run off. The board has also made the decision to put the 2019 year of account into run off.

Strategic report

The managing agent's report should be read in conjunction with the strategic report as it includes information required to be disclosed in the managing agent's report. This information is primarily relating to a review of the business and a description of principle risks and uncertainties, although there is more extensive disclosure of risk management contained within the notes to the accounts.

Directors' Interests

None of the Directors of the managing agency have any participation in the Syndicate's premium income capacity.

Rating Agencies

Syndicate 1110 does not have its own security rating; however, it does benefit from the Lloyd's global A (Excellent) rating from A.M. Best, A+ (Strong) rating from Standard and Poor's and AA- (Very Strong) from Fitch.

Working Capital

CMA monitors the Syndicate's actual cash flow against projections to help identify any potential future working capital strain and thereby assist in actively managing any such occurrence.

Syndicate Annual General Meeting

CMA does not propose to hold an annual general meeting of members of the Syndicate. Members are asked to note that any objections to this proposal should be submitted, in writing, to the CMA Risk & Compliance Director within 21 days of this notice.

Related Party Transactions

The Syndicate did not enter into any related party transactions which were not concluded under normal market conditions. For a full listing of related party transactions please refer to the related parties section in the notes to the accounts.

Auditors

PKF Littlejohn LLP have indicated their willingness to continue in office as the Syndicate's auditor.

MANAGING AGENT'S REPORT (continued)

Disclosure of information to auditors

So far as each person who was a director of the managing agent at the date of approving this report is aware, there is no relevant audit information, being information needed by the auditor in connection with preparing its report, of which the auditor is unaware. Having made enquiries of fellow directors and the Syndicate's auditor, each director has taken all the steps that he/she is obliged to take as a director in order to make himself/herself aware of any relevant audit information and to establish that the auditor is aware of that information.

Approved by order of the Board of Directors and signed on its behalf:

Simon Sykes
Director
03 March 2022

Strategic report

The Directors of CMA present their strategic report for Syndicate 1110 for the year ended 31 December 2021.

Principal Activities

The principal activity of Syndicate 1110 is the transaction of reinsurance business in the United Kingdom by way of reinsurance to close (RITC), loss portfolio transfer (LPT) or adverse development cover (ADC).

Review of the business

For the 2017 year of account, the Syndicate's stamp capacity was £280 million, but following the decision by the Board of the PSMAL to sell Syndicate 1110, the Syndicate went into run-off on 8 June 2017. Following the decision to sell Syndicate 1110 and as part of the novation to RQMA the following arrangements were entered into:

- PSMAL commuted the treaty business as at 31 March 2017 that originated from New York Marine and General Insurance Company, Southwest Marine and General Insurance Company and Gotham Insurance Company subsidiaries of the ProSight Group.
- From 1 April 2017, PSMAL agreed to provide a 100% quota share for the delegated underwriting authority business placed by a service company of the ProSight Group.
- PSMAL cancelled an aggregate stop loss policy from a subsidiary of the ProSight Group and entered into an adverse development loss contract with that same subsidiary.
- PSMAL entered into a 100% quota share for policies written after 30 June 2017 with a subsidiary of the ProSight Group.

The ultimate strategy for the former ProSight portfolio is to run off the current net technical liabilities as efficiently as possible. There remains a desire to conclude any outstanding amounts due to and from the ProSight Group and to execute an RITC which will continue to be reviewed during 2022.

At 31 December 2021 all Gross Claims Reserves, £51.5m (2020: £59.3m), were covered by the NYMAGIC/Prosight RI arrangements with the whole account stop loss (WASL) attachment point breached in September 2020. CMA continue to monitor the collateral account in respect of the ProSight Reinsurances and take remediation actions when the fund balance falls out of tolerance as per the custody agreement.

In 2019, Syndicate 1110 was authorised by Lloyd's to write both RITCs and reinsurances of discontinued Lloyd's Syndicate Business, with two portfolios transferring into the 2019 YOA:

- Syndicate 3330 2017 YOA was accepted as an RITC as at 1 January 2020 with £11.8m of net claims transferred to Syndicate 1110 2019 YOA.
- Syndicate 1110 has provided a LPT of Financial Institutions, Directors & Officers and Professional Indemnity classes to Syndicate 3334. A Premium of £61.0m and Technical Provisions of £58.5m (including ULAE) was transferred (based on FX rates at the effective date of the contract). Claims administration has been retained by Syndicate 3334.

Strategic report (continued)

In August 2020 the Syndicate underwrote into the 2020 YOA a 90% Adverse Development Cover (ADC) in respect of the casualty reserves for S1458, years of account 2009-2017. The effective date of the cover for this transaction was from the 1 January 2020 and the Syndicate received a gross premium of \$118.6m. Syndicate 1458 continue to manage the claims while provide quarterly reports on developments.

At the end of 2020, Syndicate 1110 entered into an LPT reinsurance with QBE Syndicates 45 & 386. This transaction has strengthened the position of the 2020 year of account to £14.5m net Reserves as at 31 December 2021.

Review of underwriting activities for 2021

The table below summarises the premium volumes and performance of the Syndicate for 2021, with the comparative numbers for 2020.

Key performance indicators

	2021	2020
	£m	£m
Gross premiums written	1.4	114.1
Net premiums earned	1.6	114.7
(Loss)/Profit for the year	(46.3)	5.9
Combined ratio	(2,900%)	98%

As at 31 December 2021, Syndicate 1110 is declaring a loss of £46.3m (2020: profit of £5.9m) of which £3.4m is attributable to 2020 year of account, £41.8m to 2019 and £1.1m to 2017 & prior years of account. The combined ratio excludes investment income and foreign exchange gains or losses.

The 2017 YOA has not been able to close at 60 months, by way of RITC, as a result of continuing to be unable to obtain final confirmation regarding reinsurance balances with ProSight Speciality Group, who are the major reinsurer of the liabilities of this Syndicate.

The 2019 YOA has not been able to close at 36 months, due to material uncertainty arising from a potential accumulation of claims in respect of a single policyholder. The claims in question are very complex, due to uncertainty over coverage, liability and the quantum of the claims. The best estimate reserves is intended to strike a balance between favourable and adverse outcomes, but the ultimate cost of the claims could be materially higher or lower than this best estimate. This is discussed further in note 9.

Other performance indicators

Staff matters

The managing agent considers its staff to be a key resource and seeks to provide a good working environment for its staff that is rewarding and safe, and complies with appropriate employee legislation. During the year there have been no significant injuries to staff in the workplace nor any significant actions taken by any regulatory bodies with regard to staff matters.

Environmental matters

The managing agent does not consider that a business such as an RITC Syndicate at Lloyd's has a large adverse impact upon the environment. As a result the agent does not manage its business by reference to any environmental key performance indicators.

Strategic report (continued)

Post Balance sheet events

The Syndicate completed an RITC of Vibe Syndicate 5678 with effect from 1st January 2022, which aligns to the R&Q strategy of consolidating their Lloyd's platforms into one syndicate. The Syndicate have also entered into an LPT with Hiscox of their Casualty Treaty Reinsurance Book and a 2022 Year of Account will be opened to receive it. CMA are now working to progress the overall R&Q strategy for the syndicate and migrate the management of Syndicate 1110 into the Vibe Managing Agency during 1st half year of 2022.

Approved by order of the Board of Capita Managing Agency Limited and signed on its behalf:

Simon Sykes
Director
03 March 2022

Statement of managing agent's responsibilities

The managing agent is responsible for preparing the Syndicate annual report and financial statements in accordance with applicable law and regulations.

The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 ('the 2008 Regulations') require the managing agent to prepare Syndicate annual accounts for each financial year. Under that law the managing agent has elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the managing agent must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Syndicate and of the result or loss of the Syndicate for that period.

In preparing those Syndicate annual accounts, the managing agent is required to:

1. select suitable accounting policies which are applied consistently, subject to changes arising on the adoption of new accounting standards in the year;
2. make judgements and estimates that are reasonable and prudent;
3. state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
4. prepare the annual accounts on the basis that the Syndicate will continue to write future business and administer claims, using the going concern basis of accounting.

The managing agent is responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Syndicate and enable it to ensure that the Syndicate annual accounts comply with the 2008 Regulations. It is also responsible for safeguarding the assets of the Syndicate and hence for taking reasonable steps for prevention and detection of fraud and other irregularities.

Legislation in the UK governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Independent auditor's report to the members of Syndicate 1110

Opinion

We have audited the syndicate annual accounts of Syndicate 1110 (the 'syndicate') for the year ended 31 December 2021 which comprise the Statement of profit or loss, Balance Sheet, the Statement of Changes in, the Statement of Cash Flows, statement of accounting policies, risk management and notes to the syndicate annual accounts. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland and FRS 103 Insurance Contracts (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the financial statements:

- give a true and fair view of the state of the Syndicate's affairs as at 31 December 2021 and of its loss for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the syndicate annual accounts section of our report. We are independent of the syndicate in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion

Emphasis of matter –uncertainty relating to technical provision for outstanding claims

As disclosed in note 9, for the 2019 year of account, within the business reinsured by that year of account there are a series of significant claims arising from one original insured that has emerged during 2021. These claims have a large number of factors that will need to be resolved before a final quantum of claims and related expenses payable under the policy can be determined. A large material outstanding claims technical provision has been established for potential claims and expenses related to this matter but depending upon the legal outcome of these various factors this reserve may be significantly higher or lower than the outstanding claims provision established. This uncertainty is beyond the usual level of uncertainties within outstanding claims provisions.

Our opinion is not modified in respect of this matter.

Conclusions relating to going concern

In auditing the Syndicate annual accounts, we have concluded that the managing agent's use of the going concern basis of accounting in the preparation of the syndicate annual accounts is appropriate.

Based upon the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the syndicate's ability to continue as a going concern for a period of at least twelve months from when the syndicate annual accounts are authorised for issue.

Our responsibilities and the responsibilities of the managing agent with respect to going concern are described in the relevant sections of this report.

Independent auditor's report to the members of Syndicate 1110 (continued)

Other information

The other information comprises the information included in the report and financial statements, other than the syndicate annual accounts and our auditor's report thereon. The managing agent is responsible for the other information contained within the report and financial statements. Our opinion on the syndicate annual accounts does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon. Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the syndicate annual accounts or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the syndicate annual accounts themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the managing agent's report for the financial year for which the Syndicate annual accounts are prepared is consistent with the Syndicate annual accounts; and
- the managing agent has been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the syndicate and its environment obtained in the course of the audit, we have not identified material misstatements in the managing agent's report.

We have nothing to report in respect of the following matters in relation to which the Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept on behalf of the Syndicate; or
- the Syndicate annual accounts are not in agreement with the accounting records and returns; or
- certain disclosures of managing agent emoluments and other benefits specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of the managing agent

As explained more fully in the statement of managing agent's responsibilities, the managing agent is responsible for the preparation of the Syndicate annual accounts and for being satisfied that they give a true and fair view and for such internal control as the managing agent determines is necessary to enable the preparation syndicate annual accounts that are free from material misstatement, whether due to fraud or error.

In preparing the Syndicate annual accounts, the managing agent is responsible for assessing the Syndicate's ability to continue to write new business and administer claims, disclosing, as applicable, matters related to its ability to continue as a going concern and using the going concern basis of accounting, unless the managing agent intends to cease to operate the Syndicate or has no realistic alternative but to do so.

Independent auditor's report to the members of Syndicate 1110 (continued)

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the syndicate annual accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these syndicate annual accounts.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below

- We obtained an understanding of the Syndicate and the insurance sector in which it operates to identify laws and regulations that could reasonably be expected to have a direct effect on the Syndicate annual accounts. We obtained our understanding in this regard through discussions with management, industry research and the application of our cumulative audit knowledge and experience of the insurance sector.
- We determined the principal laws and regulations relevant to the syndicate in this regard to be those arising from the Financial Conduct Authority ('FCA'), the Prudential Regulation Authority ('PRA'), Lloyd's of London and The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 and the financial reporting framework (UK GAAP).
- We designed our audit procedures to ensure the audit team considered whether there were any indications of non-compliance by the Syndicate with those laws and regulations. These procedures included, but were not limited to:
 - agreement of the Syndicate annual accounts disclosures to regulatory requirements;
 - enquiries of management and review of minutes of Board and management meetings throughout the period;
 - understanding the Syndicate's policies and procedures in monitoring compliance with laws and regulations;
 - inspection of correspondence with Lloyd's, the PRA and FCA; and
 - reviewing compliance reports and internal audit reports relating to the Syndicate.
- We also identified possible risks of material misstatement of the Syndicate annual accounts due to fraud. We considered in addition to the non-rebuttable presumption of a risk of fraud arising from management override of controls, that there was potential for management bias in the reporting of events and transactions in the Syndicate annual accounts relating to the calculation of technical provisions and premium income. To address this, we challenged the assumptions and judgements made by management when auditing those significant accounting estimates.
- As in all of our audits, we addressed the risk of fraud arising from management override of controls by performing audit procedures which included, but were not limited to, the testing of journals and reviewing accounting estimates for evidence of bias and evaluating the business rationale of any significant transactions that are unusual or outside the normal course of business.

Independent auditor's report to the members of Syndicate 1110 (continued)

Because of the inherent limitations of an audit, there is a risk that we will not detect all irregularities, including those leading to a material misstatement in the syndicate annual accounts or non-compliance with laws and regulations. This risk increases the more that compliance with a law or regulation is removed from the events and transactions reflected in the syndicate annual accounts, as we will be less likely to become aware of instances of non-compliance. This risk is also greater regarding irregularities occurring due to fraud rather than error, as fraud involves intentional concealment, forgery, conclusion, omission or misrepresentation.

A further description of our responsibilities for the audit of the Syndicate annual accounts (financial statements) is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the syndicate's members, as a body, in accordance with Part 2 of the Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008. Our audit work has been undertaken so that we might state to the syndicate's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone, other than the syndicate and the syndicate's members as a body, for our audit work, for this report, or for the opinions we have formed.

The accounting policies and notes on pages 21 to 46 form part of these financial statements.

Statement of accounting policies

General information

Syndicate 1110 is a Lloyd's Syndicate domiciled in England and Wales. On 25 October 2019 the management of it was novated from Coverys at Lloyd's (CaL) to Capita Managing Agency Limited (CMA). The Syndicate's years of account are supported by R&Q's corporate names.

Compliance with accounting standards

These financial statements have been prepared in accordance with United Kingdom Accounting Standards including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", FRS 103 "Insurance Contracts" and the Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts Regulations 2008). There were no material departures from those standards.

Basis of preparation

The financial statements have been prepared on the historical cost basis, except for financial assets which are measured at fair value through the profit and loss account.

Going concern basis

The Syndicate ceased active underwriting on 2017 year of account on 8 June 2017. Following the novation to CMA on the 25 October 2019, the Syndicate has accepted LPT reinsurance from Hamilton Underwriting Limited. Furthermore, effective from 1 January 2020 the Syndicate also accepted the RITC of 3330, into 2019 year of account. During 2020 the Syndicate also accepted ADC cover on 1458 and an LPT from Syndicates 45 and 386, into 2020 year of account. The Syndicate is a vehicle for underwriting run-off business. As the Syndicate has accepted the RITC of Syndicate 5678 with effect from 1 January 2022 into the 2020 year of account and has a pipeline of further opportunities, the going concern basis has been used for the preparation of the financial statements. A provision has been made for unallocated loss adjusted expenses (ULAE) of £6,165k which is included within the technical provisions. The managing agent considers that the ULAE reserve is sufficient to allow the Syndicate to run-off the current portfolios and meet its liabilities as they fall due. The ULAE provision will be assessed annually to ensure that any future acquisitions will be provided for adequately.

Basis of accounting

The underwriting results are determined on an annual basis of accounting. Under the annual basis of accounting, the incurred cost of claims, commission and related expenses are charged against the earned proportion of premiums, net of reinsurance as follows:

Premiums written

Gross written premiums comprise the total premiums receivable for the whole period of cover provided by the contracts entered into during the reporting period, regardless of whether these are wholly due for payment in the reporting period, together with any adjustments arising in the reporting period to such premiums receivable in respect of business written in prior reporting periods. They are recognised on the date on which the policy commences. Additional or return premiums are treated as a re-measurement of the initial premium. Premiums are shown gross of brokerage payable and exclude taxes and duties levied on them.

Reinsurance premium ceded

Reinsurance premiums are allocated to a year of account in accordance with the underlying risks being protected or in relation to the coverage period of the contract as appropriate. Any reinsurance premium adjustments are charged to a year of account according to the basis on which the adjustments concerned are calculated.

Statement of accounting policies (continued)

Technical provisions – claims incurred and reinsurers' share

Gross claims incurred represents the change in the forecast ultimate cost of settling all claims, whether reported or not, including related direct and indirect claims handling costs.

The technical provisions include an estimate of the cost of claims incurred but not reported (IBNR) at the balance sheet date based on statistical methods. This reserve also includes an allowance for any expected deficiency or redundancy in notified outstanding claims. The provision for reserves also includes a provision for related claims handling costs and bad debts. The technical provisions have been calculated using statistical techniques.

The statistical methods, referred to above, generally involve projecting aggregated historical data in order to form a view of the likely ultimate claims to be experienced for more recent underwriting years. These methods can incorporate judgemental allowances, for example, for changes in business mix or market conditions.

The reinsurers' share of provisions for claims is based on the amounts of outstanding claims and projected IBNR, net of estimated irrecoverable amounts, having regard to the relevant reinsurance programme for each class of business.

The most critical assumption as regards claims provisions is that the past is a reasonable guide of the likely level of future claims development. The directors consider that the provisions for gross claims and related reinsurance recoveries are fairly stated on the basis of the information currently available to them. However, the ultimate liability will vary as a result of subsequent information and events and this may result in significant adjustments to the amounts provided.

Adjustments to the amounts of claims provisions established in prior years are reflected in the financial statements for the period in which the adjustments are made. The methods used, and the estimates made, are reviewed regularly.

Reinsurance to close

A reinsurance to close contract of insurance which, in return for a premium paid by the closing year of account, transfers, normally to the following year of account, all known and unknown liabilities arising out of transactions connected with insurance business underwritten by the closing year of account. However, it should be noted that a reinsurance contract does not extinguish the primary liability of the original underwriter.

Net operating expenses

Net operating expenses are accounted for on the accruals basis. Employee costs include the cost of all employee benefits to which employees have become entitled as a result of service rendered to the entity during the reporting period, which the managing agent considers to be attributable to this Syndicate.

Distribution of profits and collection of losses

Lloyd's operates a detailed set of regulations regarding solvency and the distribution of profits and payment of losses between Syndicates and their members. Lloyd's continues to require membership of Syndicates to be on an underwriting year of account basis and profits and losses belong to members according to their membership of a year of account. Normally profits and losses are transferred between the Syndicate and members after results for a year of account are finalised after 36 months. This period may be extended if a year of account goes into run-off. The Syndicate may make earlier on account distributions or cash calls according to the cash flow of a particular year of account and subject to Lloyd's requirements.

Foreign currencies

The presentational and functional currency of the Syndicate is Sterling. Transactions in US dollars, Euros, Canadian dollars and Australian dollars are translated at the average rates of exchange for the period. Transactions denominated in other foreign currencies are included within GBP having been converted at the rate of exchange ruling at the date the transaction is processed.

Statement of accounting policies (continued)

Foreign currencies (continued)

In accordance with FRS 102 all monetary balance sheet assets and liabilities are translated into the Sterling functional currency at the rates of exchange at the balance sheet date. The profit or loss arising on the retranslation of balances to the closing rate of exchange is dealt with through the profit or loss account – non technical account.

Financial assets and liabilities classification

The full provisions of FRS 102 have been applied to the treatment of financial instruments. The accounting classification of financial assets and liabilities determines their basis of measurement and how changes in those values are presented in the profit or loss or other comprehensive income. These classifications are made at initial recognition and subsequent reclassification is only permitted in restricted circumstances.

Investments in shares and other variable yield securities and unit trusts and debt securities and other fixed income securities are classified as fair value through profit or loss as they are managed on a fair value basis. Cash at bank, deposits with credit institutions, debtors and accrued interest are classified as held at amortised cost.

Recognition

Financial assets and liabilities are recognised when the Syndicate becomes party to the contractual provisions of the instrument. Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the asset after deducting all of its liabilities.

Initial measurement

All financial assets and liabilities are initially measured at transaction price (including transaction costs), except for those financial assets classified as at fair value through profit or loss, which are initially measured at fair value (which is normally the transaction price excluding transaction costs), unless the arrangement constitutes a financing transaction. If an arrangement constitutes a finance transaction, the financial asset or liability is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument.

Subsequent measurement

Non-current debt instruments are subsequently measured at amortised cost using the effective interest method. Debt instruments that are classified as payable or receivable within one financial year and which meet the above conditions are measured at the undiscounted amount of the cash or other consideration expected to be paid or received. Investments in shares and other debt instruments are measured at fair value through profit or loss.

Movements in unrealised gains and losses on investments represent the difference between their valuation at the balance sheet date and their purchase price or, if they have been previously valued, their valuation at the last balance sheet date, together with the reversal of unrealised gains and losses recognised in previous calendar years in respect of the investment disposed of in the current period.

De-recognition of financial assets and liabilities

Financial assets are derecognised when and only when a) the contractual rights to the cash flow from the financial asset expire or are settled, b) the Syndicate transfers to another party substantially all of the risks and rewards of ownership of the financial asset, or c) the Syndicate, despite having retained some significant risks and rewards of ownership, has transferred control of the asset to another party and the other party has the practical ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without needing to impose additional restrictions on the transfer.

Financial liabilities are derecognised only when the obligation specified in the contract is discharged, cancelled or expires.

Statement of accounting policies (continued)

Fair value measurement

The best evidence of fair value is a quoted price for an identical asset in an active market. When quoted prices are unavailable, the price of a recent transaction for an identical asset provides evidence of fair value as long as there has not been a significant change in economic circumstances or a significant lapse in time since the transaction took place. If the market is not active and recent transactions of an identical asset on their own are not a good estimate of fair value, the Syndicate's estimate the fair value by using a valuation technique.

Impairment of financial instruments measured at amortised cost or cost

For financial assets carried at amortised cost, the amount of an impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the financial asset's original effective interest rate, i.e. using the effective interest method.

For financial assets carried at cost less impairment, the impairment loss is the difference between the asset's carrying amount and the best estimate of the amount that would be received for the asset if it were to be sold at the reporting date.

Where indicators exist for a decrease in impairment loss, and the decrease can be related objectively to an event occurring after the impairment was recognised, the prior impairment loss is tested to determine reversal. An impairment loss is reversed on an individual impaired financial asset to the extent that the revised recoverable value does not lead to a revised carrying amount higher than the carrying value had no impairment been recognised. The amount of the reversal is recognised in profit and loss immediately.

Offsetting

Debtors/creditors arising from insurance/reinsurance operations shown in the balance sheet include the totals of all outstanding debit and credit transactions as processed by the Lloyd's central facility. No account has been taken of any offsets which may be applicable in calculating the net amounts due between the Syndicate and each of its counterparty insureds, reinsurers or intermediaries as appropriate.

Restatement of prior year

The 2020 comparatives for other debtors and other creditors have been restated to offset inter-year loans in notes 12 and 15.

Investment return

Investment return comprises all investment income, realised investment gains and losses and movements in unrealised gains and losses, net of investment expenses, charges and interest.

Realised gains and losses on investments are calculated as the difference between sale proceeds and purchase price. Unrealised gains and losses on investments represent the difference between the valuation at the balance sheet date and their valuation at the previous balance sheet date, or purchase price, if acquired during the year, together with the reversal of unrealised gains and losses recognised in earlier accounting periods in respect of investment disposals in the current period.

Investment return is initially recorded in the non-technical account. A transfer is made from the non-technical account to the general business technical account. Investment return has been wholly allocated to the technical account as all investments relate to the technical account.

Statement of accounting policies (continued)

Taxation

Under Schedule 19 of the Finance Act 1993 managing agents are not required to deduct basic rate income tax from trading income. In addition, all UK basic rate income tax deducted from Syndicate investment income is recoverable by managing agents and consequently the distribution made to members is gross of tax. Capital appreciation falls within trading income and is also distributed gross of tax.

No provision has been made for any United States Federal Income Tax payable on underwriting results or investment earnings. Any payments on account made by the Syndicate during the year have been included in the balance sheet under the heading 'other debtors'.

No provision has been made for any other overseas tax payable by members on underwriting results.

Pension costs

No pension costs are directly borne by the Syndicate.

Key accounting judgements and estimation uncertainties

Of the various accounting judgements, assumptions and estimates made in the preparation of these financial statements those relating to the determination of the technical provisions and investment valuations are considered to be those most critical to understanding the Syndicate's results and financial position.

Investment valuations

All investments are shown at their fair value as described in the accounting policies above and details of the risks relating to investments are disclosed in the risk management section. Most investments are Investment Grade securities and regularly traded on major stock exchanges so that the risks in their valuations are reduced.

Technical provisions

The accounting policy for technical provisions is described on page 16 and the related risks are described within the risk section below. The net technical provisions after the reinsurers' share is £169.4m (2020: £146.2m).

The most uncertain element within these technical provisions is the amount for gross claims outstanding, which covers amounts where either, the claim has been notified to the Syndicate, or where there has not yet been a notification, or although notified there has been insufficient information to date to be certain regarding its ultimate costs. This amounted to £221.9m (2020: £206.4m). As described in the risk note there is a thorough review process of claims notifications and reserving estimates, including detailed actuarial evaluation of past claims development. There is however a risk that past performance may not be a good indicator of the future developments.

A large proportion of the reserves held are in respect of business where the claims are handled by the reinsured syndicates and therefore there can be additional lag in notifications although the syndicate maintains close contact with the reinsured syndicates.

This is however mitigated by a diverse portfolio of policies from a number of geographical areas across several years that should reduce the risk of a common trend of adverse development occurring. The uncertainty within technical provisions is mitigated by the element of reinsurers' share, although there are uncertainties in calculating that amount.

Risk management

Capita approach to Syndicate risk management

The Syndicate's activities expose it to a variety of financial and non-financial risks. The Syndicate's core business is to accept significant insurance risk, whilst the appetite for other risks is low. The managing agent is responsible for understanding and managing the Syndicate's exposure to such risks and does this through the deployment of its risk management framework.

CMA's risk management framework includes an annual review, setting and Board approval of risk appetite for the Syndicate as a part of the Syndicate's Own Risk and Solvency Assessment (ORSA) and capital setting process.

The Syndicate novated management to CMA on 25 October 2019. The Run-Off Management Committee currently oversees the management of the Syndicate and receives a risk dashboard at each meeting to enable it to review the risks to which the Syndicate is exposed.

Critical to the risk management of the Syndicate is ensuring sufficient capital is in place to meet the solvency needs of the Syndicate. The capital for the 2020 calendar year was based upon output submitted to Lloyd's from the previous managing agent's Capital Model. Capital for the 2021 calendar year has been based on the Syndicate's newly approved Internal Model.

Syndicate risk exposures

The following provides a summary of the types of risks to which the Syndicate is exposed, the materiality of the risk to the Syndicate and their key drivers, and the risk management tools and procedures in place to mitigate these risks.

Investment risk

The Syndicate's investments expose it to investment risk, driven by the following sub-risk types: currency risk, interest rate risk, spread risk, concentration risk and market liquidity risk.

The Syndicate's investment policy is established by the Board, based on the recommendations by the Investment Committee. In order to mitigate market risk, the committee assesses reports from external fund managers, monitor the economic developments, and takes appropriate action to mitigate their effect on the value of Syndicate assets. Asset-Liability Matching, by currency and duration, is used to mitigate currency risk and interest rate risk, see below. Spread risk and concentration risk are mitigated by the investment guidelines, which place limits on the amounts that can be invested with different grades of counterparty. Liquidity risk is mitigated by holding highly marketable short-term assets, such as government bonds and highly rated corporate bonds with deep and liquid markets.

Currency risk, interest rate risk and liquidity risk are covered in more detail in the following sections.

Risk management (continued)

Gross Reserving risk

Reserves are established for claims arising from earned premium income, which includes an allowance for ULAE. Reserving risk is the risk is that ultimate claims and expenses exceed the forecast amounts due to inherent uncertainty, unsuitable data, invalid assumptions or model limitations.

This risk is mitigated by CMA's actuarial function using recognised actuarial reserving approaches, coupled with close liaison with the claims personnel to identify potential downside risks before they become apparent in the data. These results are then subject to formal annual external peer review, the result of which is a Statement of Actuarial Opinion over the held reserves being at least as high as a mean best estimate and is provided annually to Lloyd's.

The governance process is through the Technical Provisions Committee, reporting to the Audit Committee which then makes a reserve recommendation to the Board. The level of booked reserves requires formal approval by the Board and is subject to an external audit.

Reinsurance credit risk

The 2017 and prior years have third party reinsurers and whole account protections with New York Marine and General Insurance Company (NYMAGIC). The exposure to NYMAGIC is significant at £52.1m (2020: £58.7m). However, this risk is largely mitigated by forecast recoveries being collateralised. Contracts ceded net to the Syndicate are not considered to carry reinsurance credit risk and are assessed as part of gross reserving risk. Reinsurance aged debt and risk of default are monitored by R&Q who report to CMA through the Run-Off Management Committee.

Risk management (continued)

Insurance Risk

The following table shows the estimates of cumulative incurred claims, including both claims notified and IBNR for each successive underwriting year at each reporting date, together with cumulative payments to date. The cumulative claim estimates and cumulative payments are translated to Converted Sterling at the rate of exchange that applied at the end of the underwriting year.

Insurance contract outstanding claims provision by year of account as at 31 December 2021:

Analysis of claims development by year of account in £'000

	2020	2019	2017	2016	2015	2014	2013	2012
Estimate of cumulative gross claims incurred:								
At end of underwriting year	100,225	58,790	16,398	53,309	47,197	37,001	31,485	25,533
After one year	97,073	67,383	20,940	118,625	136,135	116,003	73,295	55,648
After two years	-	107,888	25,189	125,451	151,389	131,879	80,489	51,305
After three years	-	-	22,634	126,599	150,526	126,566	82,636	49,337
After four years	-	-	25,052	129,646	149,864	125,085	81,240	57,688
After five years	-	-	-	134,794	151,310	133,113	83,742	57,562
After six years	-	-	-	-	155,620	129,731	85,350	57,097

After eight years	-	-	-	-	-	-	91,822	58,591
After nine years	-	-	-	-	-	-	-	59,739
Cumulative gross payments to date	2,653	31,934	16,230	115,699	143,725	124,119	87,002	58,032
Outstanding gross claims provision at 31 December 2021	94,420	75,954	8,822	19,095	11,895	5,173	4,820	1,707
Estimate of cumulative net claims incurred:								
At end of underwriting year	99,133	58,790	6,689	47,925	42,832	34,089	27,239	21,905
After one year	95,745	64,886	8,357	74,667	124,662	108,686	67,469	43,084
After two years	-	105,751	12,324	76,421	126,213	119,259	70,442	40,338
After three years	-	-	9,239	75,060	127,153	115,466	68,357	39,326
After four years	-	-	9,870	82,188	123,536	114,748	67,937	43,481
After five years	-	-	-	83,051	116,853	113,595	67,755	43,701
After six years	-	-	-	-	116,133	109,887	67,324	43,721
After seven years	-	-	-	-	-	109,388	68,013	43,518
After eight years	-	-	-	-	-	-	67,403	42,237
After nine years	-	-	-	-	-	-	-	41,644
Cumulative net payments to date	2,419	31,934	6,374	83,304	116,655	109,569	67,569	41,718
Outstanding net claims provision at 31 December 2021	93,326	73,817	3,496	(253)	(522)	(181)	(166)	(74)

The fixed exchange rates on the whole account stop loss give rise, in some cases, to negative net claims provisions.

In setting claims provisions the Syndicate gives consideration to the probability and magnitude of future experience being more adverse than assumed and exercises a degree of caution in setting reserves where there is considerable uncertainty. In general, the uncertainty associated with the ultimate claims experience in an underwriting year is greatest when the underwriting year is at an early stage of development and the margin necessary to provide the necessary confidence in the provision's adequacy is relatively at its highest. As claims develop, and the ultimate cost of claims becomes more certain, the relative level of margin maintained should decrease. However, due to the uncertainty inherent in the estimation process, the actual overall claim provision may not always be in surplus.

Risk management (continued)

Liquidity risk

To mitigate liquidity risk the investment committee regularly reviews cash flow projections and maintains cash levels consistent with the needs of the Syndicate. The Syndicate maximises the inflow of funds from reinsurance recoveries and monitors costs through the reporting of actuals against budget.

The following table illustrates the maturity profile of the Syndicate's financial liabilities.

As at 31 December 2021	Within one year	Between one and three years	Between three and five years	Over five years	Total
	£000	£000	£000	£000	£000
Outstanding claims liabilities	47,110	86,321	55,289	33,166	221,885
Creditors	5,690	-	-	-	5,690
As at 31 December 2020					
Outstanding claims liabilities	32,834	43,631	53,171	76,779	206,415
Creditors	20,727	-	-	-	20,727

Currency risk

The main exposure to foreign currency risk arises from insurance business originating overseas. The Syndicate seeks to mitigate the risk by looking to match the estimated foreign currency denominated liabilities with assets denominated in the same currency where possible.

The Syndicate is exposed to changes in the unmatched value of assets and liabilities due to movements in foreign exchange rates. The Syndicate has five settlement currencies: UK sterling; Canadian dollars; Euros; Australian dollars; and US dollars. Transactions also take place in other currencies, although these are immediately converted to UK sterling. A 10% adverse movement in the values of all overseas net assets would lead to a £2.2m loss with US dollar net assets being the largest element of that at £1.0m loss.

The Syndicate has not taken out any transactions to hedge these balances.

At 31 December 2021	Sterling £000	US Dollar £000	Euro £000	CAD £000	Total £000
Total assets	75,343	106,837	1,144	4,953	188,277
Total liabilities	(104,865)	(116,094)	(5,526)	(2,589)	(229,074)
Net assets	(29,522)	(9,257)	(4,382)	2,364	(40,797)
At 31 December 2020	Sterling £000	US Dollar £000	Euro £000	CAD £000	Total £000
Total assets	85,302	140,753	7,520	9,060	242,635
Total liabilities	(86,214)	(133,205)	(6,200)	(4,677)	(230,296)
Net assets	(912)	7,548	1,320	4,383	12,339

Risk management (continued)

Interest rate risk

The Syndicate's main exposure to fluctuation in interest rates arises from its effect on the valuation of assets invested in fixed interest securities, such as government and corporate bonds. Asset-Liability Matching (ALM) by currency and duration is used to mitigate the interest rate risk in each currency. Interest rates in different currencies can move independently. Discounting of future cash flows using risk-free interest rates is not recognised in the GAAP technical provisions, but it is recognised in solvency returns.

A large element of the Syndicate's investments comprises fixed income securities. The fair value of the investment in fixed income securities is inversely correlated to the movement in market interest rates. If market rates fall, the fair value of the Syndicate's fixed interest investments would tend to rise and vice versa.

	2021	2020
	£000	£000
Impact of a 50 basis point increase in interest rates on result	(569)	(539)
Impact of a 50 basis point decrease in interest rates on result	569	539
Impact of a 50 basis point increase in interest rates on net assets	(569)	(539)
Impact of a 50 basis point decrease in interest rates on net assets	569	539

Credit risk

Credit risk arises where counterparties fail to meet their financial obligations in full as they fall due. The primary sources of credit risk for the Syndicate are:

- **Reinsurers:** Whereby reinsurers may fail to pay valid claims against a reinsurance contract held by the Syndicate.
- **Brokers and intermediaries:** Whereby counterparties fail to pass on premiums collected or claims paid on behalf of the Syndicate.
- **Financial instruments:** Whereby issuer default results in the Syndicate losing all or part of the value of a financial instrument.

Risk management (continued)

Financial instruments risk

The Syndicate has debtors, creditors, bank balances and investments in various currencies in the normal course of its business. The risks with regard to these transactions are detailed above and none of these financial instruments are considered to present any risks that are exceptional in their nature for their type of instrument. The Syndicate does not actively enter into derivatives, hedging or other uses of financial instruments as part of its financial risk management.

The following table shows credit risk exposure of the Syndicate's financial assets.

At 31 December 2021	AAA	AA	A	Other/ non-rated	Total
	£000	£000	£000	£000	£000
Variable yield securities and unit trusts	2,729	487	1,832	1,104	6,152
Debt securities and other fixed income securities (including derivative contracts)	9,328	6,806	31,233	40,493	87,860

Risk management (continued)

Operational risk

Much of the effect of the Syndicate's exposure to operational risks is reflected in the various other risk headings above, and is mitigated and managed through the exercise of the management controls and actions described above. The main additional exposures are in relation to business continuity, i.e. the risk that the ability of the Syndicate to continue in business will be affected by events not reflected under other headings, for example the impact of terrorist activity, and in the management of relationships and arrangements with key individuals.

In relation to the former, the managing agent maintains a Business Continuity Plan (BCP) which sets out the anticipated risks, including those relating to the robustness and sustainability of IT infrastructure and business applications, and the arrangements in place to mitigate those risks. The BCP is monitored and updated regularly. In addition, to mitigate the risk of loss of key staff, the managing agent seeks to maintain a succession plan to reduce the dependence on any one individual so far as is practicably possible.

Operational risk is monitored via regular risk and control assessments and tested for adequate risk mitigation in place through scenario assessments; the insight from these processes is used to quantify operational risk in the internal model.

Regulatory risk

The managing agent is required to comply, inter alia, with the requirements of the Prudential Regulation Authority, the Financial Conduct Authority and Lloyd's. Failure to comply with applicable regulations could result in a variety of sanctions, the most extreme being a withdrawal of the right to conduct business at Lloyd's. The managing agent has established a business ethos in which best practice is the required standard for all operations, both in the commercial interests of the business and to ensure regulatory compliance. Management has also put in place appropriate monitoring structures to mitigate the risk of failing to meet this standard. The Risk & Compliance Director monitors regulatory developments to ensure the managing agent remains compliant. In addition, the Risk Management function reports on the regulatory risk. The internal audit function supports the monitoring process, and reports into the Audit Committee, itself comprised of non-executive directors of the managing agent.

Risk management (continued)

Solvency risk

The Board sets the Syndicate's risk appetite in line with its strategy and ensures that sufficient capital resources are raised to cover those risks in line with regulatory and Lloyd's capital setting processes. The Risk committee monitors risk appetite and tolerances on behalf of the Board.

In the event of extreme adverse claims experience, it is possible that the Syndicate may not be able to settle its claim liabilities out of its own funds. In that event, the capital structure underpinning the Syndicate is such that any deficits can be called from the Syndicate's capital providers (members) in accordance with Lloyd's rules. In the event of any member being unable to fulfil its share of such a call, Lloyd's Central Fund may, at Lloyd's discretion, be applied to make good any deficits for the benefit of policyholders.

Brexit – Lloyd's Europe & Lloyd's Part VII Transfer

Following the UK's decision in the Referendum of 23 June 2016 to leave the European Union, Lloyd's has given much thought to and has developed a solution allowing Syndicates to continue to trade beyond the transition period ending 31 December 2020. Lloyd's Europe (Lloyd's Insurance Company S.A) is Lloyd's first Europe wide operation, established to bring the scale, expertise and capacity of the world's specialist insurance market closer to its customers in Europe through a locally staffed and regulated insurer.

The transfer does not change the terms and conditions of any policy, except that Lloyd's Europe becomes the Insurer and Data Controller in respect of Transferring Policies. The transfer has been carefully designed to ensure that it will not change how policies operate. Policyholders will see no direct administrative change as a result of the proposed transfer and the process for making claims and any payments that may be due as settlement of a valid claim is unaffected by the proposed transfer. The transfer took effect on 30 December 2020.

As Lloyd's Europe is wholly reinsured by the Syndicates in respect of the transferred business, one innovation in the scheme is to convert the applicable Syndicates' external reinsurance into retrocessions of the Syndicates that reinsure Lloyd's Europe with the intention of preserving reinsurance cover for the transferred risks. The managing agent has determined that the Syndicate is no longer carrying on any underwriting in Europe.

Covid-19

Direct exposure to the Covid-19 pandemic is not believed to be material as the portfolio is in run-off. The underlying insurance policies were originally underwritten between 1992 and 2018, and coverage ceased before the start of the pandemic, with few exceptions. However, the secondary effects of the pandemic could still affect future claim settlements; for example, the economic fallout could lead to higher inflation and higher claims awards as a consequence.

Operational Resilience

Operational Resilience is concerned with "the ability of firms (and the financial sector as a whole) to prevent, adapt, respond to, recover and learn from operational disruptions".

Given factors such as the increasing interconnectedness of the financial system, increasing outsourcing / concentration risks, unprecedented levels of change, unproven technology (on top of ageing legacy systems), high profile disruptions, and rising political concern, the Financial Conduct Authority (FCA) and Prudential Regulation Authority (PRA) consider Operational resilience to be "at least as important as Financial Resilience", and is consequently a major focus for the UK regulators.

Risk management (continued)

Operational Resilience (continued)

CMA's Operations Committee is responsible for monitoring progress made on the new regulatory requirement of Operational Resilience and to consider the work undertaken to date on the existing client base and also the future strategy / framework for new clients. For Run-Off syndicates, operational resilience is far less onerous as the books of business have typically been in run-off for a long time and most policies have expired. The operational resilience work is therefore restricted to consider Endorsement processing / Claims handling & payment / Customers & Complaints. In line with regulatory requirements, important business services have been identified and impact tolerances will be set and tested by 31 March 2022.

Climate Change

Climate change is driving unprecedented physical impacts, with increased frequency of extreme weather events and rising sea levels resulting in business disruption. At the same time, global policy and technology changes that seek to limit warming and reduce the associated physical impacts can also cause disruption to business. As with any form of disruption, climate change is creating and will continue to create risks and opportunities for business in a diverse number of ways. As prompted by the Paris Agreement, the recommendations of the Financial Stability Board's Task Force on Climate-Related Financial Disclosures (TCFD), the heightened awareness of physical impacts and risks detailed in the Special Report of the Intergovernmental Panel on Climate Change (IPCC) on Global Warming 1.5°C, the impact of climate change, risk management and its integration into business is key in long term resilience.

As a writer of run-off business, the Syndicate considers that it is less exposed to the financial risks presented by climate change than a live business would be but recognises that there may be some effects on its reserves. As part of the risk management strategy of the agency the impact of climate change is considered through business continuity planning, scenario analysis and risk assessment presentations from the Risk Officer to the Executive Directors. Further work continues to promote effective governance surrounding climate risk and opportunity. This endeavour will be ongoing, with review and development to quantify the financial impact, while devising and implementing appropriate measures to mitigate downside risk where possible.

The Syndicate will continue to ensure compliance with future Lloyd's disclosures in relation to climate change.

Notes to the annual financial statements
at 31 December 2021

1. Analysis of underwriting results

An analysis of the technical account balance before investment return is set out below:

2021	Gross premiums written £000	Gross premiums earned £000	Gross claims incurred £000	Gross operating expenses £000	Re- insurance balance £000	Total £000
Direct insurance:						
Fire and other damage to property	735	735	(4,157)	(421)	3,546	(297)
Marine, aviation and transport	146	146	(2,358)	(91)	1,880	(423)
Third party liability	748	748	(8,972)	(431)	7,495	(1,160)

	114,133	115,442	(119,132)	(5,489)	12,728	3,549

All premiums were concluded in the United Kingdom.

All Part VII business is in reinsurance acceptances following the change of rules from 1.1.2021, including any previously treated as direct business within the 2021 table above.

Notes to the annual financial statements (continued)
at 31 December 2021

2. Particulars of business written

Gross operating expenses are the same as net operating expenses shown in the statement of profit or loss technical account, as no commissions in respect of outward reinsurance were received and set off in arriving at the net operating expenses. Net assets are not managed by reference to the classes on page 30. An allocation of net assets and net liabilities is shown on page 26.

	2021	2021	2020	2020
	Gross	Profit/	Gross	Profit/
	premiums	(loss)	premiums	(loss)
	written		written	
	£000	£000	£000	£000
Direct	1,812	(2,265)	358	1,841
Reinsurance	(446)	(43,574)	113,775	4,280
	<u>1,366</u>	<u>(45,839)</u>	<u>114,133</u>	<u>6,121</u>

3. Net operating expenses

	2021	2020
	£000	£000
Acquisition costs	3,361	2,914
Administrative expenses	3,314	2,574
	<u>6,675</u>	<u>5,488</u>

Members' standard personal expenses amounting to £900k (2020: £900k) are included in administrative expenses. Members' standard personal expenses include Lloyd's subscriptions, New Central Fund contributions and managing agent's fees.

Administrative expenses include:

	2021	2020
	£000	£000
Auditor's remuneration:		
Audit of the Syndicate's financial statements	143	140
Audit /review of the Syndicate's returns to Lloyd's	75	70
Other audit related services	12	45
Standard personal expenses	900	900

Notes to the annual financial statements (continued)
at 31 December 2021

4. Employees

The following amounts were recharged to the Syndicate in respect of salary and related costs:

	2021	2020
	£000	£000
Wages and salaries	2,284	2,375
Social security costs	318	331
Other pension costs	165	171
	<u>2,767</u>	<u>2,877</u>

Salaries and related costs, where they relate to ULAE are treated as paid claims and charged against the ULAE reserve.

The average number of employees working for the Syndicate during the year was as follows:

	2021	2020
Underwriting	3	2
Underwriting support	3	2
Claims	2	2
Administration and finance	10	13
	<u>18</u>	<u>19</u>

5. Directors' and run-off manager's emoluments

The following amounts in respect of emoluments paid to the run-off manager were charged to the Syndicate during the year.

	2021	2020
	£000	£000
Run-off manager's emoluments	370	307
	<u>370</u>	<u>307</u>

No emoluments of the directors of CMA were directly charged to the Syndicate and consequently no meaningful disclosure can be made.

Notes to the annual financial statements (continued)
at 31 December 2021

6. Investment return

(a) Investment return

	2021	2020

7. Other financial investments (continued)

The following table shows financial investments recorded at fair value analysed between the three levels in the fair value hierarchy.

	<i>Level 1</i>	<i>Level 2</i>	<i>Level 3</i>	<i>Total</i>
	£000	£000	£000	£000
Year ended 31 December 2021				
Shares and other variable yield securities and units in unit trusts	2,323	3,829	-	6,152
Debt securities and other fixed income securities	-	87,860	-	87,860
Participation in investment pools	230	8,149	-	8,379
Other investments	340	-	-	340
Total	<u>2,893</u>	<u>99,838</u>	<u>-</u>	<u>102,731</u>

Year ended 31 December 2020				
Shares and other variable yield securities and units in unit trusts	5,145	4,055	-	9,200
Debt securities and other fixed income securities	19,219	68,509	-	87,728
Participation in investment pools	-	-	-	-
Other investments	244	-	-	244
Total	<u>24,608</u>	<u>72,564</u>	<u>-</u>	<u>97,172</u>

In accordance with FRS 102 paragraph 11.27 the above financial instruments have been classified using three levels to estimate their fair values, with Level 1 being the most reliable. The levels within the fair value hierarchy are defined as follows:

Level 1: The unadjusted quoted prices in an active market for identical assets or liabilities that the entity can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable (i.e.. developed using market data), for the asset or liability, either directly or indirectly.

Level 3: Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability.

8. Provision for unearned premiums

2021	Gross £000	Reinsurers' share £000	Net £000
At 1 January 2021	7	-	7
Premiums written in the year	1,366	228	1,594
Premiums earned in the year	(1,373)	(228)	(1,601)
Foreign exchange	-	-	-
At 31 December 2021	<u>7</u>	<u>-</u>	<u>7</u>
2020			
At 1 January 2020 (corrected)	1,317	-	1,317
Premiums written in the year	114,133	(721)	113,412
Premiums earned in the year	(115,443)	721	(114,722)
Foreign exchange	-	-	-
At 31 December 2020	<u>7</u>	<u>-</u>	<u>7</u>

9. Claims outstanding

2021	Gross £000	Reinsurers' share £000	Net £000
At 1 January 2021	206,422	(60,261)	146,160
Claims incurred in the year	55,110	(15,359)	39,751
Claims paid during the year	(40,253)	22,993	(17,260)
Foreign exchange	606	183	789
At 31 December 2021	<u>221,885</u>	<u>(52,444)</u>	<u>169,440</u>
2020			
At 1 January 2020	133,771	(62,222)	71,548
Claims incurred in the year	127,798	(13,448)	114,350
Claims paid during the year	(47,895)	16,123	(31,772)
Foreign exchange	(7,252)	(714)	(7,966)
At 31 December 2020	<u>206,422</u>	<u>(60,261)</u>	<u>146,160</u>

Within the calendar year net technical result, deficit of £2.2m on direct business (2020: surplus of £1.0m) and deficit of £42.6m on reinsurance accepted business (2020: surplus of £2.5m) relate to the reassessment of net claims incurred for previous accident years. The £42.6m deficit is primarily due to material uncertainty arising from a potential accumulation of claims in respect of a single policyholder. The claims in question are very complex, due to uncertainty over coverage, liability and the quantum of the claims. The best estimate reserves is intended to strike a balance between favourable and adverse outcomes, but the ultimate cost of the claims could be materially higher or lower than this best estimate.

The early stage of development of this particular group of potential claims, the possible scale and range of outcomes of the claims and number of factors to be resolved mean that this uncertainty is greater than the usual level of uncertainty that exists for outstanding claims.

Notes to the annual financial statements (continued)
at 31 December 2021

10. Significant reinsurance arrangements

There are significant reinsurance arrangement on the 2017 year of account to ensure that any adverse claim developments will be covered. These reinsurances are supported by a Custody Agreement. Collateral held to support the reinsurances can be drawn if payment is not received.

11. Debtors

	2021	2020
	£000	£000
Debtors due within one year		
Due from intermediaries		
Amounts arising out of direct insurance operations	10,055	3,715
Amounts arising out of reinsurance operations	8,001	33,843

(Loss)/Profit for the financial year	(46,262)	5,867
Members' fees	<u>126</u>	<u>1,278</u>
Members' balances carried forward at 31 December	<u>(40,797)</u>	<u>12,339</u>

Members participate on Syndicates by reference to years of account and their ultimate result, assets and liabilities are assessed with reference to policies incepting in that year of account in respect of their membership of a particular year.

Notes to the annual financial statements (continued)
at 31 December 2021

15. Creditors

	2021	2020
	£000	£000
Creditors due within one year		restated
Amounts arising out of:		
Reinsurance operations	5,690	20,727
Other creditors including taxation	<u>-</u>	<u>-</u>
Amounts falling due within one year	<u>5,690</u>	<u>20,727</u>

Please note that 2020 year has been restated to eliminate inter-year loans, £9,562k has been removed from Other Creditors and Sundry Debtors in note 12.

16. Cash and cash equivalents

	2021	2020
	£000	£000
Cash at bank and in hand	3,184	4,382
Short-term deposits with financial institutions (note 7)	<u>6,152</u>	<u>9,201</u>
	<u>9,336</u>	<u>13,583</u>

17. Regulatory capital requirements

Funds at Lloyd's

Every member of Lloyd's is required to hold additional capital at Lloyd's which is held in trust and known as Funds at Lloyd's ("FAL"). These funds are required primarily in case Syndicate assets prove insufficient to meet members' underwriting liabilities.

The level of FAL that Lloyd's requires a member to maintain is determined by Lloyd's according to the nature and the amount of risk to be underwritten by the member and the assessment of the reserving risk in respect of that business. FAL is not hypothecated to any specific Syndicate participation by a member, therefore there are no specific funds available to a Syndicate which can be precisely identified as its capital.

In addition to the FAL and any additional funds a member may introduce to meet losses, there is a Central Guarantee Fund controlled by Lloyd's which they may utilise to meet any Syndicate liabilities that are not met by a member.

Notes to the annual financial statements (continued) **at 31 December 2021**

17. Regulatory capital requirements (continued)

Capital framework at Lloyd's

The Society of Lloyd's (Lloyd's) is a regulated undertaking and subject to the supervision of the Prudential Regulation Authority (PRA) under the Financial Services and Markets Act 2000 and in accordance with Solvency II requirements.

Within this supervisory framework, Lloyd's applies capital requirements at member level and centrally to ensure that Lloyd's complies with Solvency II, and beyond that to meet its own financial strength, licence and ratings objectives.

Although, as described below, Lloyd's capital setting processes use a capital requirement set at Syndicate level as a starting point, the requirement to meet Solvency II and Lloyd's capital requirements apply at overall and member level only respectively, not at Syndicate level. Accordingly, the capital requirement in respect of Syndicate 1110 is not disclosed in these financial statements.

Lloyd's capital setting process

In order to meet Lloyd's requirements, each Syndicate is required to calculate its Solvency Capital Requirement (SCR) for the prospective underwriting year. This amount must be sufficient to cover a 1 in 200 year loss, reflecting uncertainty in the ultimate run-off of underwriting liabilities (SCR 'to ultimate'). The Syndicate must also calculate its SCR at the same confidence level but reflecting uncertainty over a one year time horizon (one year SCR) for Lloyd's to use in meeting Solvency II requirements. The SCRs of each Syndicate are subject to review by Lloyd's and approval by the Lloyd's Capital and Planning Group.

A Syndicate may comprise one or more underwriting members of Lloyd's. Each member is liable for its own share of underwriting liabilities on the Syndicate(s) on which it is participating but not other members' shares. Accordingly, the capital requirement that Lloyd's sets for each member operates on a similar basis. Each member's SCR shall thus be determined by the sum of the member's share of the Syndicate SCR 'to ultimate'. Where a member participates on more than one Syndicate, a credit for diversification is provided to reflect the spread of risk, but consistent with determining an SCR which reflects the capital requirement to cover a 1 in 200 year loss 'to ultimate' for that member. Over and above this, Lloyd's applies a capital uplift to the member's capital requirement, known as the Economic Capital Assessment (ECA). The purpose of this uplift, which is a Lloyd's not a Solvency II requirement, is to meet Lloyd's financial strength, licence and ratings objectives. The capital uplift applied for 2019 was 35% of the member's SCR 'to ultimate'.

The corporate name has covered the 2021 loss by increasing FAL in 2022.

Notes to the annual financial statements (continued) at 31 December 2021

17. Regulatory capital requirements (continued)

Provision of capital by members'

Each member may provide capital to meet its ECA either by assets held in trust by Lloyd's specifically for that member (FAL), held within and managed within a Syndicate (funds in Syndicate) or as the member's share of the members' balances on each Syndicate on which it participates.

There are no funds in Syndicate held for this Syndicate, accordingly all of the assets less liabilities of the Syndicate, as represented by the member's balances reported on the balance sheet represent resources available to meet members' and Lloyd's capital requirements. Every member is required to hold capital at Lloyd's which is held in trust and known as FAL. These funds are intended primarily to cover circumstances where Syndicate assets prove insufficient to meet participating members' underwriting liabilities. The level of FAL that Lloyd's requires a member to maintain is determined by Lloyd's based on PRA requirements and resource criteria. FAL has regard to a number of factors including the nature and amount of risk to be underwritten by the member and the assessment of the reserving risk in respect of business that has been underwritten. Since FAL is not under the management of the managing agent, no amount has been shown in these annual financial statements by way of such capital resources. However, the managing agent is able to make a call on the members' FAL to meet liquidity requirements or to settle losses.

18. Related parties

- (i) During the year R&Q MA Services Limited, was paid £0.2m (2020: £0.2m) by the Syndicate for services provided. This amount has been charged on an arms-length basis.
- (ii) During the year Coverys MA Services Limited (CMAS), was paid £0.1m (2020: £0.1m) by the Syndicate for services provided to reflect the conclusion of services to S.3330, which closed by way of RITC on 1 January 2021. This amount has been charged on an arms-length basis.
- (iii) During the year Capita Managing Agency Limited recharged £1.39m in respect of time and materials costs (2020: £1.35m). This amount has been charged on an arms-length basis.

19. Derivatives

During the year, the Syndicate has not held or purchased any derivative contracts.

20. Off-balance sheet items

The Syndicate has not been party to an arrangement, which is not reflected in its balance sheet, where material risks and benefits arise for the Syndicate.

21. Post Balance Sheet Events

The Syndicate completed an RITC of Vibe Syndicate 5678 with effect from 1st January 2022, which aligns to the R&Q strategy of consolidating their Lloyd's platforms into one syndicate. The Syndicate have also entered into an LPT with Hiscox of their Casualty Treaty Reinsurance Book and a 2022 Year of Account will be opened to receive it. CMA are now working to progress the overall R&Q strategy for the syndicate and migrate the management of Syndicate 1110 into the Vibe Managing Agency during 1st half year of 2022.

The Russia/Ukraine conflict does not have any direct impact on the Syndicate.
