Go to: <https://www.menti.com> and enter pin: **92 97 17 1**

The screenshot shows the Mentimeter website interface. At the top, a browser address bar displays 'https://www.menti.com' with a lock icon on the left and a star icon on the right. Below the address bar is the Mentimeter logo, which consists of a colorful bar chart icon followed by the word 'Mentimeter' in a large, bold, black sans-serif font. Underneath the logo, the text 'Please enter the code' is centered. Below this text is a long, thin rectangular input field with a light gray border. Inside the input field, the numbers '12 34 56' are displayed in a light gray font. Directly below the input field is a solid blue rectangular button with the word 'Submit' in white, bold, sans-serif font. At the bottom of the form area, the text 'The code is found on the screen in front of you' is centered in a small, gray font.

Delegated Contract Manager

Onboarding, Pilot & MVP Update

DCM Onboarding – High Level Market Activities

Provisional Dates – to be confirmed nearer the time

Roles in Your Organisation

Change Lead

- To nominate who will be performing the registration.

Registrant
Identified

1 – 12 February 2021

Registrant

- Will complete the Registration form for their organisation
(A Registrant requirements one-page checklist will be provided prior to onboarding)

Registrant
Invited

Registrant
Registers

15 - 26 February 2021

Legal Signatory

- Will be given 1 month to sign the Legal Agreement
(T&C of Legal Agreements will have already been pre-approved by representatives of a market review panel)

Legal
Agreement
Signed

DA Account
created &
approved

1 – 16 April 2021

Devolved Administrator

- Will create and manage their organisation's employees access to DCOM
(Can create groups and set group permissions)

DA
Permission
Setting

14 May 2021

End-user

- Will be added to DCOM by the Devolved Administrator(s)
(Will have access dependent on permissions allocated by the Devolved Administrator)

End-user
Permission
setting

17 May 2021

Delegated Contract Manager Pilot

December 2020

PILOT

We are running an exciting pilot
with two managing agents, *Brit*

*and Atrium (supported by
Bowood), using real data*

Benefits

- ✓ **Proof of Concept** – To demonstrate the functionality of DCM Release 1 to the Market
- ✓ **Validate System Logic** – Contract Builder's logic can be validated against a real contract. As it is still an early version of the solution (MVP), QA validation will be manual
- ✓ **Gather feedback** – To develop and improve a post-MVP solution suitable for wider market roll out

How will it work?

- **A Real Binder** – Atrium and Brit will create a real binder on Contract Manager (A user from Lloyd's Delegated Authority Team will enter the data on behalf of the pilot organisations)
- **Data inputted into Delegated Data Manager** – Real data from the Delegated Contract Manager binder will be entered manually (rather than through integration) into Delegated Data Manager

Contract Manager & Builder MVP

RELEASE 1

VISION

1. **BAR replacement**
 - Full contract lifecycle management; contract registration of new business, endorsements & renewals
2. **DDM feed**
 - Data required for DDM populated as part of registration in DCM
3. **MVP Contract Builder**
 - Fields required for contract registration leveraged to produce *partially completed* MRC (schedule population, no clauses)

ADDITIONAL FEATURES

- Data validations and dynamic question set
- Automatic data population through internal integrations e.g. MPR
- Electronic 'Share' functionality between participants
- Automated notifications to participants

BENEFITS

- **REDUCED EFFORT** of data entry – partially completed MRC + 85% of data required for DDM already populated in DCM
- **ENHANCED DATA & CONTRACT QUALITY** through validations & auto-population, still requires DXC checks
- **IMPROVED MESSAGING** to participants through automatic notifications e.g. for DCAs added to a contract

FUTURE RELEASES

1. **Right first time contract**
 - Business rules enriching contract with 300 plus regulatory requirements to ensure right first time
2. **Full electronic placement**
 - Rolled out to all participants *including Coverholders* enabling collaboration and negotiation (including signing)
3. **Full Contract Builder**
 - MRC fully completed, including contract clauses – bespoke and regular (through Lloyd's Wording Repository integration)

- Fully automated Quality Assurance checks
- Contract bespoke (branding)
- Market facing Contract API (Inbound and Outbound)

- **ELIMINATE THE NEED FOR DXC CHECKS** through right first time contract (enrichments & validations)¹
- **FURTHER IMPROVED DATA INTEGRITY & USABILITY** through full contract builder
- **FURTHER REDUCED EFFORT** of data entry through full MRC creation

¹ Currently 2.2 million errors/year, with 90% unable to be signed at DXC first time
