Background

In connection with FCA and PRA rules relating to the calculation of contributions to the Financial Services Compensation Scheme (FSCS) retail pool, the Society of Lloyd's ("Lloyd's") is required to provide an annual report to the FCA and PRA with information relating to premium and liabilities in respect of relevant retail business (see below for the scope of this).

Action by managing agents

In accordance with this, managing agents are required to submit data in respect of relevant business for each managed syndicate as at 31 December 2022 to Lloyd's by completing the template available for download at the link provided above, and emailing it to Lloyds-solvencyreturns@lloyds.com by **3 May 2023**. This is to enable Lloyd's to submit the aggregate Lloyd's level numbers to the PRA and FCA by 31 May 2023. Each managing agent must submit a signed return, even if it is a nil return.

The CFO or another director of the managing agent must confirm that the information submitted has been prepared in accordance with the instructions, and must complete the sign-off to this effect provided on the template. **Please remember to submit the template as an Excel file.**

Reporting rules

The reporting rules are set out in FCA Handbook FEES 6.5 and in the PRA Policyholder Protection Rulebook (details set out in FCA CP17/36 and PRA Instrument 2017/39, see Notes below).

For the purposes of interpreting these provisions, the Handbook refers to the PRA Policyholder Protection Rulebook for the tariff measures and definitions. Using those definitions, the business which Lloyd's needs to report against for this purpose is set out below:

- gross written premiums for the year preceding that in which the date for submission by Lloyd's of the required report falls for 'protected contracts with eligible claimants'
- For best estimate liabilities - 'protected contracts with eligible claimants'

The definitions for protected contracts and eligible claimants are in the PRA Policyholder Protection Rulebook (see Notes below).

The definitions of "gross written premiums for fees purposes" and "best estimate liabilities for fees purposes" is set out in the PRA Fees Rulebook (see PRA PS 28/17 Appendix 2 in Notes below).

Accordingly, Lloyd's needs managing agents to provide this gross written premium and best estimate liabilities information **but ONLY in respect of the relevant business** written on behalf of their syndicates so that it can, in turn, fulfil its own reporting obligations to the FCA and PRA.

The reported figures should include the proportion of relevant business written by a managing agent on behalf of the syndicates under its management as both lead and follow.

These figures may be sourced from the annual Pillar 3 reporting templates but it should be noted that **only** the relevant business which falls within the scope of "protected contracts with eligible claimants" should be reported. The Pillar 3 reporting references to the Lloyd's Annual Solvency Return (ASR) templates which syndicates complete are set out on the template.

Questions regarding this request should be directed to Lloyds-solvencyreturns@lloyds.com.
