## **Delegated authority placement**

**2022** 2023 / 2024

## **Current state**

Lengthy processes prone to errors due to reliance on disjointed, duplicative and manual cross market activities

## **Target state**

Streamlining the placement of delegated authority risks, enabling quicker movement of money

## **Onboarding Delegated authority Risk placement Digital processing** Renewal risk Coverholder onboarding Individual risks bound placement placement and ongoing compliance Binding authority agreement and associated data capture and reporting placement Streamlined Contract creation with coverholder placement completes Centralisation of Centralised premium onboarding and registration, transactional data Continuous contracts processing and ongoing compliance supported by (bordereaux) settlement oversight collaboration tools Binder registration (if contract creation functionality is not used)
