Accessing the portal

Access the portal via www.loyds.com.

Brief overview of the portal

Home

You will land on a central dashboard, where you can navigate to any page. It includes accessible information, holdings, articles, and interactive graphs showing valuation of assets over time.

The screenshot shows the Lloyd's FAL Online portal dashboard. At the top, there is a navigation bar with the Lloyd's logo and menu items: Home, Funds at Lloyd's, Transactions, Documents, Underwriting Capacity, and Coming Soon. A dark blue banner below the navigation bar says "Welcome back." The main content area is divided into several sections:

- My Funds:** A section with two columns. The left column shows "Non Cash Value (GBP)" and "Cash Value (GBP)" both with a "-" sign. The right column has a "SEE ALL" link and a date range selector (From: [] To: []) with "No data to display." below it.
- My Funds For Others:** A section showing "Non Cash Value (GBP)" and "Cash Value (GBP)" both with "£0" below them.
- Latest Documents:** A section with a "SEE ALL" link and "No data" below it.
- Latest Transactions:** A section with a "SEE ALL" link.
- My Funds (GBP):** A section with a "Portfolio" dropdown menu and a table with columns: Fund Description, Total Value, IA, and Non-IA. The table content is "No data".
- Funding Requirements:** A table with columns: Member, Life Funding Requirement, Non-Life Funding Require..., and As of Date. The table content is empty.
- Insights from Lloyd's:** A section with three cards:
 - COVID-19 information hub:** "This hub provides customers and the Lloyd's market community with the latest guidance and updates in relation to COVID-19."
 - Latest Press Releases:** "Stay up to date with the latest press releases from Lloyd's"
 - Complex Risk Platform:** "A digital, end-to-end platform that complements face-to-face negotiation to submit, quote, bind, issue, endorse and renew complex risks for insurance and reinsurance business. This will evolve over time from a 'document-plus-data' to a 'data-first' solution."

At the bottom of the dashboard, there is a footer with the Lloyd's logo, a small disclaimer: "Lloyd's and Corporation of Lloyd's are registered trademarks of the Society of Lloyd's. Lloyd's is authorised under the Financial Services and Markets Act 2000.", and navigation links for Privacy & Security, Terms & Conditions, and FAQ, along with social media icons for Facebook, Twitter, LinkedIn, and YouTube.

Funds at Lloyd's

The funds at Lloyd's page shows asset information visualised via clear graphs and has a customisable table of holdings which can be downloaded instantly via the download button.

You can sort the view on any screen by clicking on a field in the grey bar. You can filter what you see/download by keying details into any box with the spyglass.

Assets can be viewed by asset class, sub asset class or Currency (GBP equivalent value).

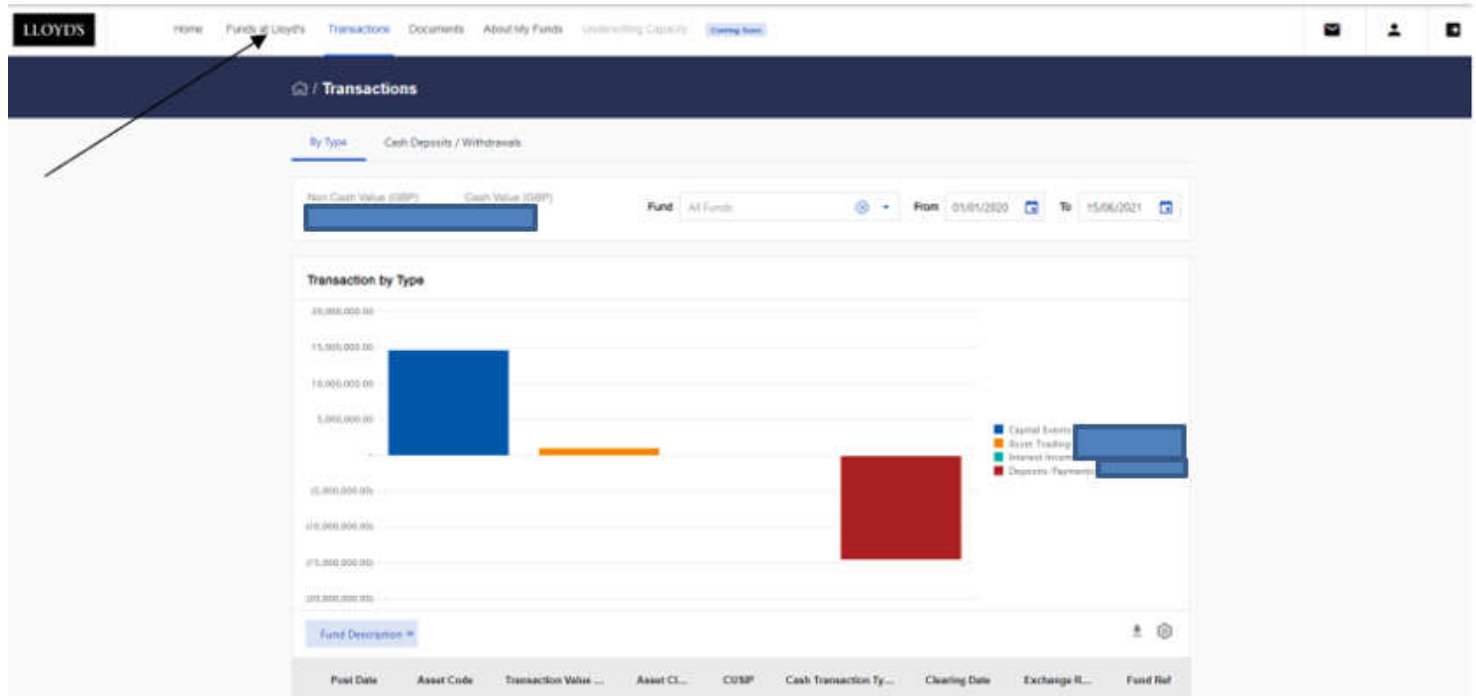

*******IMPORTANT INFORMATION RELATING TO VALUATIONS*******

Valuations for a given day may change if Member Services backdate transactions.

Transactions

You can access the transactions page using the navigation menu at the top of the screen

You can view transactions either 'By Type' (the default view) or you can click on 'Cash/Deposits/Withdrawals' to view cash portfolio movements only.

You can also change different variables to fit your viewing requirements, for example you can filter on a specified fund using the drop down feature (default option to display 'All Funds') and alter the 'From' and 'To' dates according to the date period you are interested in accessing.

Dependent on the selected view, a graph will be displayed containing either the total values transacted for each transaction type, or the total values for any cash deposits/withdrawals, across the date period selected.

If you wish to only see certain transaction types within the graph, you can remove any of the categories listed within the key by clicking on the relevant category. It will then be excluded from view, as per the below.

When you first access the transactions page, you will be presented with a default view, which is fully customisable. Additional field headings can be applied by selecting the cog icon and dragging and dropping the headings back and forth between the transaction data table and the cog headings list.

In the below example, 'Asset Code' is being dragged from the additional heading options which are listed against the cog icon and dropped into the current transaction table.

00123 General Deposit	07/07/2020	07/07/2020			USD

Please note, you will only be able to view around 8 field headings at a time within the portal view, before any additional headings will begin disappearing out of view, however the full table of data can be extracted to an Excel workbook (.xlsx format).

Transactions can be 'grouped' by any of the available field headings (unless there is no data populated within that column). For example, you cannot group your transaction view by exchange rate, if all your transactions have been processed in GBP, as no data will be present in this column.

Groupings can be made by dragging and dropping the relevant field heading from the existing transactions table or from any of the headings listed against the gear icon, to the bar above the transaction data table. In the case of the below example, transactions have been grouped by Transaction Type e.g. Capital Events, Deposits/Payments, Asset Trading etc.

Fund Description	Transaction Date	Asset Description	Total Qty	Total Value Local CCY	Local CCY
Asset Trading					
00123 General Deposit	02/07/2020		(1,200,000.00)		-

Once you have customised the table, as per your desired field headings, you can click 'save' in the cog menu to retain this view for subsequent logins.

To extract the transactions data to an Excel workbook (.xlsx format), click on the download icon at the top of the data table.

Notes on Transactions

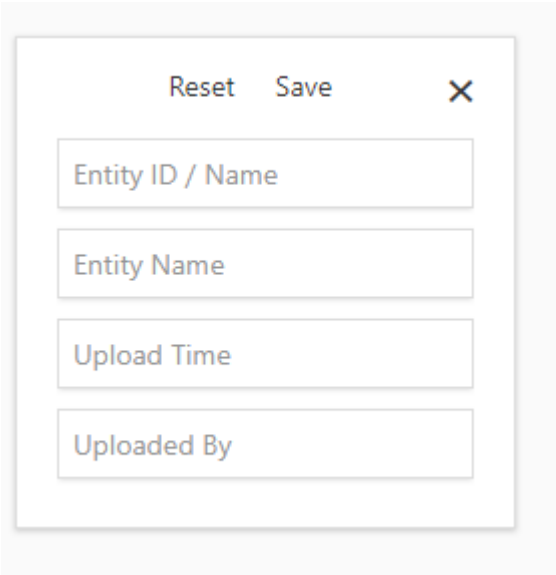

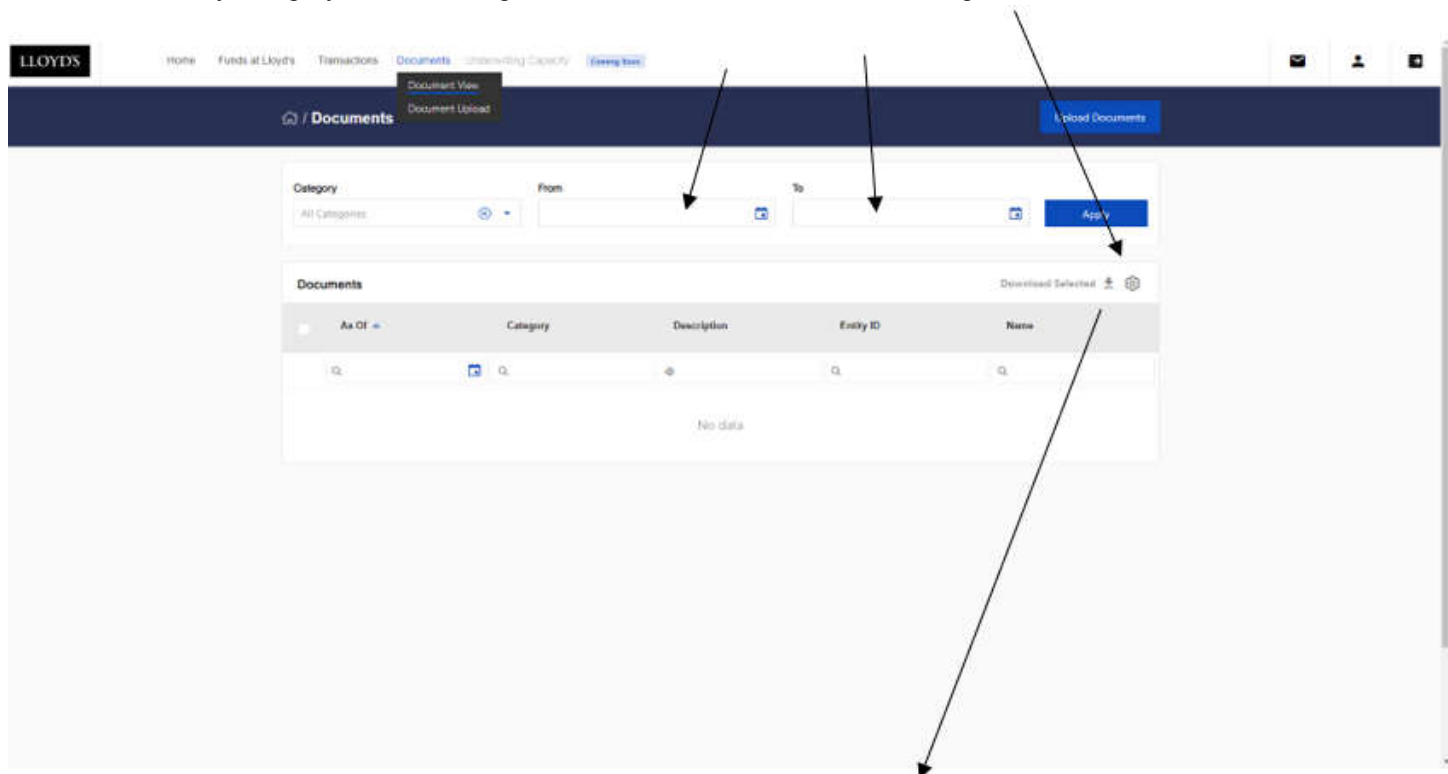

- **Rounded Figures** – within the portal view, transaction data is rounded to two decimal places. If reconciling transactions, please ensure that the data is extracted to Excel, with any value columns formatted to the correct number of decimal places. Note that the Excel workbook will also display 2 decimal places by default, however you can click into each cell to see the true number of decimal places required.
