Programme Objectives

The Business Case

At Lloyd's our strength lies in the diversity of our people. Their talent means we continue to innovate and provide insurance that supports the economic growth and resilience of communities, cities and countries, enabling human progress. Lloyd's is committed to developing the ethnic minority talent in the Lloyd's market as part of a wider five-part action plan. We know that ethnic minority talent is under-represented across the Lloyd's market and particularly in management and leadership positions.

Shockingly, only 6% of the total top management positions in the UK are held by individuals from ethnic minority groups, meaning unfortunately many role models simply aren't visible, and finding leaders who reflect your identity is challenging. Hearing and sharing lived experiences, and meeting inspirational role models is so key to the career progression of talented ethnic minority individuals – accompanied with effective sponsorship and support from managers and their organisations. These are all things this programme provides, alongside peer-to-peer support and a network built on understanding and empowerment.

Programme Objective

The "Accelerate" programme aims to improve the pipeline of ethnic minority future talent within the Corporation and the Market, through a modular based development programme targeted at individuals identified as future talent.

For participants it aims to build the skills, relationships and confidence to help them effectively manage their future careers.

Please note, this is not a leadership development programme that covers leadership ideas and concepts. It is a programme designed to help our future talent know how to leverage the skills, role models and opportunities that will enable them to manage their career.
