

## Leaders in Partnership

## ELBA's Community Coaching Programme

### Partnering community and corporate leaders on a highly impactful 1:1 coaching programme

#### Volunteer Feedback

"I think one of the results of the programme was to give me a different perspective on my role - it is easy to be absorbed in the day to day as running an organisation will always have a lot of different challenges. Speaking to someone who worked on such a different scale, and with a completely different set of challenges helped in seeing the immediate challenges more in perspective."

#### Community Feedback

"I feel the programme allowed me time to focus on my needs and helped me take a step back and assess how I manage my team, the organisation and how I can work towards my own personal goals."

Leaders in  
Partnership

## About the Programme

→ 10 month programme of 1:1 coaching between a corporate volunteer and leader from a community organisation

→ ELBA provides training for both community partners and corporate leaders to ensure the partnership is effective

→ Once successfully matched both community partners and corporate leaders will meet one hour a month at your suitability

→ Both community leaders and corporate volunteers are expected to attend the launch, mid-point review and celebration events.

→ Programmes launch in Spring and Autumn annually

## What's in it for you?

→ Enhance your coaching, communication and strategic planning skills

→ Gain insight into the third sector and present an opportunity to support those working in this area

→ The 1:1 coaching partnership will improve capacity, confidence and share cross-sector knowledge

→ An opportunity to share your expertise and experience in a new environment
