Important information about Syndicate Reports and Accounts

Access to this document is restricted to persons who have given the certification set forth below. If this document has been forwarded to you and you have not been asked to give the certification, please be aware that you are only permitted to access it if you are able to give the certification.

The syndicate reports and accounts set forth in this section of the Lloyd's website, which have been filed with Lloyd's in accordance with the Syndicate Accounting Byelaw (No. 8 of 2005), are being provided for informational purposes only. The syndicate reports and accounts have not been prepared by Lloyd's, and Lloyd's has no responsibility for their accuracy or content. Access to the syndicate reports and accounts is not being provided for the purposes of soliciting membership in Lloyd's or membership on any syndicate of Lloyd's, and no offer to join Lloyd's or any syndicate is being made hereby. Members of Lloyd's are reminded that past performance of a syndicate in any syndicate year is not predictive of the related syndicate's performance in any subsequent syndicate year.

You acknowledge and agree to the foregoing as a condition of your accessing the syndicate reports and accounts. You also agree that you will not provide any person with a copy of any syndicate report and accounts without also providing them with a copy of this acknowledgment and agreement, by which they will also be bound.

FOR THE YEAR ENDED 31 DECEMBER 2021

The Directors of the managing agent present their report and audited annual report and accounts for the year ended 31 December 2021.

This annual report and accounts is prepared using the annual basis of accounting as required by Regulation 5 of Statutory Instrument No 1950 of 2008, the Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 ("the Regulations").

PRINCIPAL ACTIVITY

Newline Underwriting Management Limited ("NUML") is the managing agent for Syndicate 1218. The principal activity of the Syndicate is primarily the underwriting of casualty (re)insurance business at Lloyd's. Syndicate 1218, whose capacity is 100% provided by Newline Corporate Name Limited, had a capacity of £230.0m for the 2021 year of account (2020: £165.0m, 2019: £137.0m). Syndicate capacity is based on gross premiums net of commissions.

The insurance cover provided by the syndicate includes the following lines of business:

Affinity and Special Risks

This line of business provides motor-related warranty (extended warranty, GAP, and collision waiver), non-motor warranty (brown, white and yellow goods, mobile phones, etc.) and value-driven add-ons (e.g. excess waiver).

Cargo and Specie

This line of business provides physical damage coverage for all types of goods during transit, store, exhibition, consolidation, clearing, distribution, restoration and whilst at manufacturing centres.

Clinical Trials

This line of business protects pharmaceutical and biotech manufacturers and developers as well as clinical research organisations in respect of claims made by research subjects who participated in clinical trials and assert they sustained bodily injury by exposure to the products being tested in the clinical trial.

Crime

This line of business protects financial institutions and other organisations against losses that are discovered during the policy period arising from a variety of dishonest, fraudulent or criminal acts committed by either employees or third parties and includes coverage for robbery, hold-ups, forged documents or computer crime.

Cyber

This line of business protects companies in relation to the financial exposure that arises in the digital and data protection age either on a first party and/or third party basis.

Directors' and Officers' (D&O) Liability

This line of business protects directors and officers of commercial entities, financial institutions and other organisations against claims that are made during the policy period alleging mismanagement and seeking to hold the directors and officers liable.

Errors and Omissions (E&O)

This line of business protects professional service firms, commercial entities and financial institutions against claims made during the policy period by third parties alleging negligence and seeking to hold the company liable.

General Liability

This line of business protects companies against claims made by employees or third parties for bodily injury and property damage losses, arising from employee injuries at work or activities of the company that cause damage to third parties.

(CONTINUED)

Life Sciences

This line of business protects manufacturers, developers and distributors of a wide range of pharmaceutical, nutraceutical, biotech, medical, health and wellbeing related products against claims made by third parties for bodily injury and property damage by use of or exposure to the products manufactured, developed and distributed by these insureds.

Medical Malpractice

This line of business protects hospitals and groups of individual physicians against claims made during the policy period by third parties alleging negligence and seeking to hold the hospitals and/or groups of individual physicians liable.

Reinsurance

This line of business protects on a treaty reinsurance basis underwriters of property, casualty, marine and aerospace insurance.

The Syndicate also underwrites satellite business through a consortium participation.

BUSINESS REVIEW

Results and performance

The result for the calendar year 2021 is a profit of $\pounds 49.2m$ (2020: loss of $\pounds 6.9m$). Profits and losses will continue to be distributed or called by reference to the results of individual underwriting years.

The combined ratio for 2021 is 90.0% (2020: 92.9%), resulting in an underwriting profit excluding investment return of \pounds 19.3m (2020: profit 10.9m). The combined ratio of 90.0% reflects the market environment we are currently operating in where we have experienced rate improvements and growth in top performing classes, combined with prior year releases across a number of Casualty classes.

The investment return for the year was a profit of £29.7m (2020: loss £15.1m) driven by gains on our equity portfolio, partially offset by investment losses on short and long term fixed interest investments. The Syndicate's investment portfolio recorded an investment return of £4.1m (2020: positive return of £6.3m). The investments supporting the Funds in Syndicate and surplus capital accumulated investment returns totalling £25.6m (2020: negative return of £21.4m).

The US and other developed Equity markets have reported strong returns in 2021 boosted by significant fiscal and monetary stimulus, and the rapid reopening of world economies boosting market sentiment. Equity markets remained strong despite the spread of variants of COVID-19, supply chain disruption and inflationary pressures. The Syndicate's equity portfolio performance has followed that of the main indices, but not to the same extent, predominantly due to the absence of any holdings in technology and healthcare stocks.

During the latter part of 2021, the Syndicate has divested its portfolio of longer duration corporate bonds as the market started to price in interest rate rises.

Gross written premiums for the year were £257.7m (2020: £210.1m), £47.6m or 22.7% higher, in converted sterling terms. At constant rates of exchange, this represents an increase in premium of £54.8m or 26.1%. This increase is largely driven by growth in our Liability, Commercial D&O and Affinity and Special Risks books. Overall, we remain cautious in our underwriting approach, given the continuing uncertain economic outlook, seeking growth only in opportunistic or otherwise profitable areas. Market conditions, notwithstanding an overall hardening market, continue to be competitive.

The Syndicate's capacity for the 2021 year of account has increased to £230.0m from £165.0m on the 2020 year of account, and our income estimates for 2022 are for further growth across our core profitable classes, driven by modest rate change and some growth within our Liability, Cargo and Specie, and Cyber lines of business. We will continue to look for cost-effective means of growing our portfolio, and expanding, if possible, those areas where we feel that the market dynamics mean there is potential for increased profitability. Notwithstanding this, we are cognisant of the challenges of doing so in the current environment, and the need to retain bottom line profitability in the business we underwrite.

(CONTINUED)

Business environment

Competition between insurance entities can be based on a number of factors inter alia product, price, service, coverage, financial strength, distribution channels, enhanced commissions and reputation. In 2021, the insurance market has experienced the continuing rate hardening seen in 2020, in part due to the withdrawal of market capacity for certain business lines. The Syndicate's competitors include independent insurance companies, subsidiaries or affiliates of established worldwide insurance companies and MGAs, and other syndicates underwriting at Lloyd's. Some of these competitors have longer operating histories and larger capital bases than Syndicate 1218 and, in addition, greater underwriting, marketing, and administrative resources. Whilst new entrants at Lloyd's and the re-emergence of MGAs may threaten the positive pricing environment, we anticipate the opportunity to attract new business with the flight to quality carriers providing this falls into our pricing strategy.

For the Syndicate, as a whole, the rating environment has experienced the continued improvement that we first saw emerge in 2020. We are witnessing a shortage of capacity in some areas of the market at present which is enabling us to increase rates, and expect further increases into 2022, but the rate of increase is reducing.

Casualty market participants continue to compete aggressively for business and we expect the rating environment to remain highly competitive. We will maintain our focus on maximising the opportunities presented by the hardening market: increasing price; rationalising line size; reducing acquisition cost; and tightening policy terms and conditions.

Strategy

The Syndicate has an established book of business and renewals constitute a significant element of our premium volume, one year to the next. Excellent producer relationships have been established with the aim of providing commercial advantage when faced by challenging market conditions. Experience gained over the last market cycle in shaping, refining and redefining our core portfolio will serve us well as we move into the next phase of the market cycle.

Price is a primary means of competition in the (re)insurance business. We continue to emphasise disciplined underwriting over premium growth, focusing on carefully selecting the risks we insure and determining the appropriate price for assuming such risks. We are committed to maintaining our underwriting discipline and standards; as a consequence, premium volumes within our product lines and in overall terms will vary in line with prevailing market conditions.

Key factors that enable us to select, price and manage our business successfully are experience, strict underwriting discipline, analytical tools, and access to real time data. We have invested considerable time and effort in developing our systematic approach to underwriting and placing an appropriate control environment around it. To ensure that underwriting objectives are properly understood we have implemented strict review and referral processes, sophisticated and flexible rate engines, rate level monitoring, reporting, and enlisted the assistance of actuarial and claims personnel.

Principal risks and uncertainties

The process of risk acceptance and risk management is addressed through a framework of policies, procedures and internal controls as set out in the Risk Management Framework. This ensures that all risks are identified, recorded, assessed and taken into account when determining the Syndicate's Solvency Capital Requirement ("SCR") using the Internal Model. The control environment operating around these key risks is regularly reviewed to ensure that controls are operating effectively. A description of the principal risks and uncertainty facing the Syndicate are set out in notes 17 and 18 of these annual report and accounts.

All key policies are approved by the Board and the framework is subject to ongoing review by management, Risk Management and Internal Audit as part of the "Own Risk and Solvency Assessment" ("ORSA") process. An ORSA report is presented to the Board on at least a quarterly basis. The ORSA report sets out the risk profile and key risk indicators of the Syndicate, together with the resulting impact on the SCR, and confirmation that sufficient own and ancillary funds are in place.

MANAGING AGENT'S REPORT (CONTINUED)

Principal risks and uncertainties (continued)

Coronavirus (COVID-19) pandemic

In 2020, the COVID-19 pandemic became a major issue for the insurance sector as economies around the world shut down, businesses were interrupted and people could not travel for work or leisure. Newline does not have exposure to business interruption or travel insurance which are directly impacted by this event. However, Newline writes business that could be indirectly impacted by the pandemic. The claims team has reviewed Newline's exposure and we have already received notifications of potential claims. It is conceivable that Newline could receive claims in the following classes:

- Commercial D&O, in respect of action taken against directors for loss of value to the business during the pandemic
- Medical Malpractice, in respect of the medical treatment during the pandemic
- Liability, in respect of clinical trials for a COVID-19 vaccine, or claims against employers' liability or product liability policies

Our view is that there is a limited likelihood of claims emerging against the notifications we have received to date and limited additional potential exposure. We have therefore maintained the net reserve booked in 2020 against potential claims arising of $\pounds 2.0$ m.

There has been no interruption to the day to day operations of the business as staff have been able to work remotely whilst Government restrictions have been in place. As these restrictions have relaxed, we have seen a general return to the office workspace under our new hybrid working model.

Events in Ukraine

As events in Ukraine are evolving with the human and economic consequences that follow, both locally and internationally, Newline has given consideration, based on the current position of this fast moving situation, to the possible financial impact on its insurance and investment portfolios.

Newline does not insure any of the following classes: property, war or terrorism, political risk, contract frustration, trade credit or surety, energy, hull, personal accident, A&H or medical expenses. Newline derives minimal premium income from Ukraine and Russia either directly or indirectly. Newline may face some indirect exposure in its Financial Lines book should third party claims be made against financial institutions or Directors and Officers for losses sustained as a result of the wider economic consequence of the international community's response to the events in Ukraine. Newline has written a small number of Cyber risks, from which it may also face some exposure.

The events unfolding in Ukraine have caused a degree of volatility in equity and bond markets around the world to which parts of the Syndicate's investment portfolio have exposure.

Future Outlook

Our client focus remains the mid-market and corporate sector where we consider our ability and expertise to lead business adds the most value. The UK, Commonwealth countries, Continental Europe, Israel and Asia will continue to be our core markets. The Syndicate will take full advantage of Lloyd's licensing and franchise to exploit opportunities in certain sectors or markets in our chosen fields of expertise as and when they develop. Given the changing broker landscape and developments in local (re)insurance markets, we envisage less business coming to London. To counter this, we are making increasing effort to access business regionally, whether this be through:

- i) Establishment of and/or expanding existing service companies;
- ii) Accessing business through other (re)insurance partners within the Fairfax Group;
- iii) Using overseas MGAs where we have strong relations and/or proven track records.

MANAGING AGENT'S REPORT (CONTINUED)

Future Outlook (continued)

The Syndicate has an overseas presence in Australia, Canada, Singapore and Malaysia through insurance agents owned by the parent company of the Syndicate's capital provider. In addition, the Syndicate participates on the Lloyd's China platform and through the Lloyd's European insurance subsidiary in Brussels, ensuring that we continue to provide a service to our stakeholders and customers across Europe.

Financial instruments

Information on the use of financial instruments by the Syndicate and its management of financial risk is disclosed in Note 17 to the annual report and accounts. In particular, the Syndicate's exposures to price risk, credit risk and liquidity risk are separately disclosed in that note. The Syndicate's exposure to cash flow risk is addressed under the headings of 'Credit risk', 'Liquidity risk' and 'Market risk'.

Solvency II

With respect to our capital requirements for 2021 Lloyd's approved the Syndicate Solvency Capital Requirement, calculated using the Syndicate's Internal Model, in November 2020.

Key performance indicators (KPIs) and metrics

The Board monitors the progress of the Syndicate by reference to the following KPI's and metrics:

	2021	2020	
Gross Written Premiums	£257.7m	£210.1m	Gross premiums written, including acquisition costs, in respect of insurance contracts
Net written premiums	£214.9m	£175.5m	Gross Written Premiums less outward reinsurance in respect of insurance contracts
Technical result	£23.4m	£17.2m	Balance on technical account for general business
Net loss ratio	50.4%	52.0%	Ratio of net claims incurred to net earned premiums
Combined ratio	90.0%	92.9%	Ratio of net claims incurred, commissions and expenses to net premiums earned

DIRECTORS OF THE MANAGING AGENT

The Directors listed below have held office from 1 January 2021 to the date of this report unless otherwise stated.

R F Beaver W E Beveridge J Christiansen A R Carey N D Duncan S Kapur R B Kastner C A Overy M Scales M G Wacek H J L Withinshaw

None of the Directors participate on the Syndicate, whose capacity is provided entirely by Newline Corporate Name Limited, a wholly owned subsidiary of Odyssey Reinsurance Company ("ORC").

Third-party indemnity providing cover for claims for actual or alleged acts, errors, omissions, misstatements, misleading statements, neglect or breach of duty in the rendering of professional services is in place for the above directors.

(CONTINUED)

STATEMENT OF DISCLOSURE OF INFORMATION TO AUDITORS

Each of the persons who is a director at the date of this report confirms that:

- so far as each of them is aware, there is no information relevant to the audit of the Syndicate's annual report and accounts for the year ended 31 December 2021 of which the auditors are unaware; and
- each director has taken all steps that they ought to have taken in their duty as a director in order to make themselves aware of any relevant audit information and to establish that the Syndicate's auditors are aware of that information.

INDEPENDENT AUDITORS

The independent auditors of the Syndicate are PricewaterhouseCoopers LLP.

STATEMENT OF MANAGING AGENT'S RESPONSIBILITIES

The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 require the managing agent to prepare syndicate annual report and accounts as at 31 December each year in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law), including Financial Reporting Standard 102 The Financial Reporting Standard Applicable in the UK and Republic of Ireland ("FRS 102"), and Financial Reporting Standard 103 Insurance Contracts ("FRS 103"). The annual report and accounts are required by law to give a true and fair view of the state of affairs of the syndicate as at that date and of its profit or loss that year.

In preparing the syndicate annual report and accounts, the managing agent is required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable United Kingdom Accounting Standards, including FRSs 102 and 103 have been followed, subject to any material departures disclosed and explained in the annual report and accounts;
- notify the member in writing about the use of disclosure exemptions, if any, of FRS 102 and FRS 103 used in preparation of the annual report and accounts; and
- prepare the annual report and accounts on the basis that the syndicate will continue to write future business unless it is inappropriate to presume that the syndicate will do so.

The directors confirm they have complied with the above requirements in preparing the annual report and accounts.

The managing agent is responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the syndicate and to enable it to ensure that the syndicate annual accounts report and comply with the 2008 Regulations. It is also responsible for safeguarding the assets of the syndicate and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

On behalf of the Board

S Kapur Director 2 March 2022

Independent auditors' report to the member of Syndicate 1218

Report on the audit of the syndicate annual accounts

Opinion

In our opinion, 1218's syndicate annual accounts:

- give a true and fair view of the state of the syndicate's affairs as at 31 December 2021 and of its profit and cash flows for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law); and
- have been prepared in accordance with the requirements of The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008.

We have audited the syndicate annual accounts included within the annual report and accounts (the "Annual Report"), which comprise: the statement of financial position as at 31 December 2021; the profit and loss account: technical account – general business, the profit and loss account: non-technical account, the statement of comprehensive income, cash flow statement, and the statement of changes in member's balances for the year then ended; and the notes to the syndicate annual accounts, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)"), and The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 and other applicable law. Our responsibilities under ISAs (UK) are further described in the *Auditors' responsibilities for the audit of the syndicate annual accounts* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the syndicate in accordance with the ethical requirements that are relevant to our audit of the syndicate annual accounts in the UK, which includes the FRC's Ethical Standard, as applicable to other entities of public interest, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

To the best of our knowledge and belief, we declare that non-audit services prohibited by the FRC's Ethical Standard were not provided.

Other than those disclosed in note 7, we have provided no non-audit services to the syndicate in the period under audit.

Conclusions relating to going concern

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the syndicate's ability to continue as a going concern for a period of at least twelve months from when the syndicate annual accounts are authorised for issue.

In auditing the syndicate annual accounts, we have concluded that the Managing Agent's use of the going concern basis of accounting in the preparation of the syndicate annual accounts is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the syndicate's ability to continue as a going concern.

Our responsibilities and the responsibilities of the Managing Agent with respect to going concern are described in the relevant sections of this report.

Independent auditors' report to the member of Syndicate 1218 (continued)

Reporting on other information

The other information comprises all of the information in the Annual Report other than the syndicate annual accounts and our auditors' report thereon. The Managing Agent is responsible for the other information. Our opinion on the syndicate annual accounts does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the syndicate annual accounts, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the syndicate annual accounts or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the syndicate annual accounts or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Managing Agent's Report, we also considered whether the disclosures required by The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 have been included.

Based on our work undertaken in the course of the audit, The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 requires us also to report certain opinions and matters as described below.

Managing Agent's Report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Managing Agent's Report for the year ended 31 December 2021 is consistent with the syndicate annual accounts and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the syndicate and its environment obtained in the course of the audit, we did not identify any material misstatements in the Managing Agent's Report.

Responsibilities for the syndicate annual accounts and the audit

Responsibilities of the Managing Agent for the syndicate annual accounts

As explained more fully in the Statement of Managing Agent's Responsibilities, the Managing Agent is responsible for the preparation of the syndicate annual accounts in accordance with the applicable framework and for being satisfied that they give a true and fair view. The Managing Agent is also responsible for such internal control as they determine is necessary to enable the preparation of syndicate annual accounts that are free from material misstatement, whether due to fraud or error.

In preparing the syndicate annual accounts, the Managing Agent is responsible for assessing the syndicate's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless it is intended for the syndicate to cease operations, or it has no realistic alternative but to do so.

Auditors' responsibilities for the audit of the syndicate annual accounts

Our objectives are to obtain reasonable assurance about whether the syndicate annual accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these syndicate annual accounts.

Independent auditors' report to the member of Syndicate 1218 (continued)

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the syndicate and industry, we identified that the principal risks of noncompliance with laws and regulations related to breaches of UK and European regulatory principles, such as those governed by the Prudential Regulation Authority and the Financial Conduct Authority, and those regulations set by the Council of Lloyd's, and we considered the extent to which non-compliance might have a material effect on the syndicate annual accounts. We also considered those laws and regulations that have a direct impact on the syndicate annual accounts such as The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008. We evaluated management's incentives and opportunities for fraudulent manipulation of the syndicate annual accounts (including the risk of override of controls), and determined that the principal risks were related to the posting of inappropriate journals and management bias in accounting estimates. Audit procedures performed by the engagement team included:

- Discussions with management, internal audit and the compliance function of the Managing Agent, including consideration of known or suspected instances of non-compliance with laws and regulation and fraud.
- Challenging assumptions and judgements made by management in their significant accounting estimates, in particular in relation to valuation of the IBNR component of claims outstanding and estimated premium income.
- Identifying and testing journal entries, in particular any journals that appear to be posted outside the normal
 patterns and parameters, any journal entries posted with unusual account combinations and low frequency
 journal postings.
- Reviewing relevant meeting minutes including those of the Managing Agent and correspondence with regulatory authorities, including Lloyd's of London and the Prudential Regulation Authority.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the syndicate annual accounts. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

A further description of our responsibilities for the audit of the syndicate annual accounts is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the syndicate's member in accordance with part 2 of The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Independent auditors' report to the member of Syndicate 1218 (continued)

Other required reporting

Under The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 we are required to report to you if, in our opinion:

- we have not obtained all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the Managing Agent in respect of the syndicate; or
- certain disclosures of Managing Agent remuneration specified by law are not made; or
- the syndicate annual accounts are not in agreement with the accounting records.

We have no exceptions to report arising from this responsibility.

Mark Bolton (Senior statutory auditor) for and on behalf of PricewaterhouseCoopers LLP Chartered Accountants and Statutory Auditors London 2 March 2022

The notes on pages 18 to 41 form an integral part of these annual accounts.

FOR THE YEAR ENDED 31 DECEMBER 2021

1) GENERAL INFORMATION

The principal activity of the Syndicate is the underwriting of casualty insurance business at Lloyd's. Syndicate 1218, whose capacity is 100% provided by Newline Corporate Name Limited had a capacity of £230.0m for the 2021 year of account (2020: £165.0m, 2019: £137.0m). Newline Underwriting Management Limited ("NUML") is the managing agent for Syndicate 1218. The registered office of NUML is Corn Exchange, 55 Mark Lane, London, EC3R 7NE.

2) ACCOUNTING POLICIES

The annual report and accounts have been prepared in accordance with Regulation 5 of The Insurance Accounts Directive (Lloyd's Syndicate and Aggregate Accounts) Regulations 2008 ("the Regulations") and applicable Accounting standards in the United Kingdom, including Financial Reporting Standard 102, "The Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland" ("FRS 102"), and Financial Reporting Standard 103, "Insurance Contracts" ("FRS 103").

3) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these annual report and accounts are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Basis of preparation

The directors of the managing agent have prepared the annual report and accounts on the basis that the Syndicate will continue to underwrite business in the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the annual report and accounts.

The result for the year is determined on the annual basis of accounting in accordance with UK GAAP.

The preparation of financial statements in conformity with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the syndicate's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in note 4.

a) Premiums written

Premiums written relate to business which incepted during the year, together with any differences between booked premiums for prior years and those previously accrued, and include estimates of premiums due but not yet receivable or notified to the Syndicate. Premiums are stated gross of acquisition costs payable, and exclude taxes and duties levied on them.

b) Portfolio premiums and claims

Portfolio premiums are amounts payable by an insurer to another in consideration for a contract whereby the transferee agrees to assume responsibility for the claims arising on a portfolio of in-force business written by the transferor from a future date until the expiry of the policies.

Portfolio claims represent amounts payable by one insurer to another in consideration for a contract whereby the transferee agrees to assume responsibility for any unpaid claims incurred by the transferor prior to a specified date.

With respect to those portfolio premiums and claims transferred to Lloyd's Insurance Company S.A. ("LIC") under a Part VII transfer on 30th December 2020, these have been recorded as negative gross written premium, with a transfer back to the Syndicate from LIC through the acquisition by LIC from the Syndicate of a 100% quota share reinsurance policy generating an offsetting gross written premium. This presentation of the two transactions has been adopted as it best reflects the economic substance of the transactions.

(CONTINUED)

3) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

c) Insurance contracts

Insurance contracts are those contracts that transfer significant insurance risk. Such contracts may also transfer financial risk. The Syndicate considers significant insurance risk to exist where there is a reasonable possibility of a significant claim arising on the occurrence of an insured event. The Syndicate's insurance products are classified as insurance contracts.

d) Unearned premiums

Unearned premiums represent the proportion of premiums written in the year that relate to unexpired terms of policies in force at the balance sheet date, calculated on the basis of established earning patterns on a time apportionment basis as appropriate.

e) Acquisition costs

Acquisition costs comprise all direct and indirect costs arising from the acquisition of insurance contracts, and are deferred to the extent that they are attributable to premiums unearned at the balance sheet date.

f) Reinsurance premiums ceded

Outward reinsurance premiums are accounted for in the same accounting period as the premiums for the related inwards business being reinsured.

g) Reinsurance

Contracts entered into by the Syndicate with reinsurers, under which the Syndicate is compensated for claims on one or more contracts issued by the Syndicate and that meet the classification requirements for insurance contracts are classified as reinsurance contracts. Contracts that do not meet these classification requirements are classified as financial instruments. Insurance contracts entered into by the Syndicate under which the contract holder is another insurer (inwards reinsurance) are included within insurance contracts; provided there is significant transfer of insurance risk.

The amounts that will be recoverable from reinsurers are estimated based upon the gross claims provisions, having due regard to collectability. Reinsurance recoveries in respect of estimated claims incurred but not reported are assumed to be consistent with the historical pattern of such recoveries, adjusted to reflect changes in the nature and extent of the Syndicate's reinsurance programme over time. The recoverability of reinsurance recoveries is assessed having regard to market data on the financial strength of each of the reinsurance companies. The reinsurers' share of claims incurred, in the profit and loss account, reflects the amounts received or receivable from reinsurers in respect of those claims incurred during the period. Reinsurance liabilities are primarily premiums payable for reinsurance contracts and are recognised in the profit and loss account as 'Outward reinsurance premiums' when due.

h) Claims incurred

Gross claims incurred comprise claims and related expenses paid in the year and changes in the provisions for outstanding claims, including provisions for claims incurred but not reported and related expenses, together with any other adjustments to claims from previous years. Where applicable, deductions are made for salvage and other recoveries.

i) Claims provisions and related reinsurance recoveries

Provision is made for the estimated cost of claims incurred but not settled at the balance sheet date, including the cost of claims incurred but not yet reported to the Syndicate. The estimated cost of claims includes expenses to be incurred in settling claims and a deduction for the expected value of salvage and other recoveries. The Syndicate takes all reasonable steps to ensure that it has appropriate information regarding its claims exposures. However, given the uncertainty in establishing claims provisions, it is likely that the final outcome will prove to be different to the original liability established.

Large claims impacting a class of business are generally assessed separately, being measured on a case-by-case basis or projected separately in order to allow for the possible distortive effect of the development and incidence of these claims.

(CONTINUED)

3) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

i) Claims provisions and related reinsurance recoveries (continued)

Provisions are calculated undiscounted, and gross of any reinsurance recoveries. A separate estimate is made of the amounts that will be recoverable from reinsurers based upon the gross provisions and having a due regard to collectability.

j) Unexpired risk provision

A provision for unexpired risks is made where claims and related expenses arising after the end of the financial period in respect of contracts concluded before that date are expected to exceed the unearned premiums, after the deduction of any acquisition costs deferred. The provision for unexpired risks is calculated separately by classes of business which are managed together, after taking into account the relevant investment return.

k) Financial instruments

The Syndicate has chosen to adopt the provisions of Sections 11 and 12 of FRS 102 in respect of the valuation of financial investments, which are designated by the Syndicate at fair value through profit or loss.

i) Financial assets

Financial investments, including shares and other variable yield securities and units in unit trusts, derivatives, debt, other fixed income securities and overseas deposits are designated at fair value through profit and loss. Other receivables, including short term debtors arising out of direct insurance and reinsurance operations, and deposits with ceding undertakings, are initially recognised at transaction price or cost, less any impairment.

The fair value of financial investments at the balance sheet date are determined through quoted bid prices in an active market for identical instruments. When quoted prices are unavailable, the price of a recent transaction for an identical asset provides evidence of fair value as long as there has not been a significant change in economic circumstances or a significant lapse of time since the transaction took place. If the market for the asset is not active and recent transactions of an identical asset on their own are not a good estimate of fair value, the Syndicate estimates the fair value by using a valuation technique.

Receivables are initially recognised at transaction price, and are reviewed for impairment as part of the impairment review of receivables. This basis of valuation is viewed by the directors as having prudent regard to the likely realisable value.

ii) Cash and cash equivalents

Cash and cash equivalents includes cash at bank and in hand, deposits held at call with banks, other short term highly liquid investments with an original maturity date of three months or less and bank overdrafts. Bank overdrafts, when applicable, are shown within borrowings in current liabilities.

iii) Financial liabilities

Short term creditors, including creditors arising out of direct insurance and reinsurance operations are measured at transaction price.

iv) Derivative instruments

The Syndicate uses forward foreign exchange contracts to reduce exposure to foreign exchange rates. Derivative financial instruments are initially measured at fair value on the date on which a derivative contract is entered into, and are subsequently re-measured at fair value. Derivatives are carried as assets when the fair value is positive and as a liability when the fair value is negative.

The Syndicate applies hedge accounting for transactions entered into to manage the foreign exchange exposure and has designated them as a fair value hedge. Changes in fair value of foreign exchange hedges are reported directly in profit and loss. Derivatives under hedge accounting are carried as assets when the fair value is positive and as a liability when the fair value is negative.

(CONTINUED)

3) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

l) Investment return

Investment return comprises all investment income, interest receivable and dividends received plus realised gains and losses on the disposal of investments and movements in unrealised gains and losses, net of investment expenses.

Dividend income is recognised when the right to receive payment is established. Interest and expenses are accounted for on an accruals basis.

Realised gains and losses on investments carried at market value are calculated as the difference between net sale proceeds and purchase price.

Unrealised gains and losses on investments represent the difference between the valuation at the balance sheet date and their purchase price or their valuation at the previous balance sheet date. The movement in unrealised investment gains and losses includes an adjustment for previously recognised unrealised gains and losses of those investments disposed of in the accounting period.

Investment expenses and charges comprise investment management expenses.

Investment return is initially recorded in the non-technical account. A transfer is made from the non-technical account to the general business technical account to reflect the investment return on the funds supporting underwriting obligations arising from insurance policies. Investment return on the Funds in Syndicate is not transferred and remains in the non-technical account.

m) Foreign currencies

i) Functional and presentation currency

The Syndicate's functional and presentation currency is the Pound Sterling.

ii) Transactions and balances

Income and expenditure in US Dollars, Euros, Australian Dollars, Canadian Dollars, Egyptian pounds and Polish Zlotys are translated at the average rates of exchange for the period. Underwriting transactions denominated in other foreign currencies are translated at the rates of exchange ruling at the date the transaction is processed. Assets and liabilities denominated in foreign currencies are translated into Sterling at the rates of exchange prevailing at the balance sheet date.

Realised exchange differences are included in the non-technical account.

iii) Translation

Exchange differences arising from translating the result from average rates of exchange to closing rates of exchange, and the translation of the opening balance sheet to closing rates of exchange are taken through the non-technical account.

n) Taxation

Under Schedule 19 of the Finance Act 1993, managing agents are not required to deduct basic rate income tax from trading income, including capital appreciation, of syndicates. In addition, all UK basic rate income tax deducted from syndicate investment income is recoverable by managing agents; therefore the distribution made to members is gross of tax.

No provision has been made for any United States Federal Income Tax payable on underwriting results or investment earnings. Any payments on account made by the Syndicate during the year have been included in the balance sheet under the heading 'other debtors'. No provision has been made for any other overseas tax payable by members on the underwriting results.

o) Overseas deposits

Overseas deposits are stated at fair value at the balance sheet date.

(CONTINUED)

3) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

p) Syndicate operating expenses

Where expenses are incurred by the managing agent or on behalf of the managing agent on the administration of the managed Syndicate, these expenses are apportioned using various methods depending on the type of expense. Expenses which are incurred jointly for the managing agent and the managed Syndicate are apportioned between the managing agent and the Syndicate depending on the amount of work performed, resources used and the volume of business transacted. Short term benefits (including holiday pay) and annual bonus arrangements for employees of the managing agency performing work on behalf of the Syndicate are included within this expense.

q) Pension costs

Newline Underwriting Management Limited operates a Group Personal Pension Plan which is on a defined contribution basis. Pension contributions apportioned to the Syndicate are charged and included within net operating expenses.

r) Related party transactions

The Syndicate discloses transactions with related parties. Where appropriate, transactions of a similar nature are aggregated unless, in the opinion of the directors of NUML, separate disclosure is necessary to understand the effect of the transactions.

4) SIGNIFICANT JUDGEMENTS AND ESTIMATES

Preparation of the annual report and accounts requires management to make significant judgements and estimates. The items in the annual report and accounts where judgements and estimates have been made include:

Estimation of claims incurred but not reported ("IBNR")

The estimation of claims incurred but not reported ("IBNR") is generally subject to a greater degree of uncertainty than the estimation of the cost of settling claims already notified to the Syndicate, where more information about the claim event is generally available. Claims IBNR may often not be apparent to the insured until many years after the event giving rise to the claim has happened. Classes of business where IBNR proportion of the total reserve is high will typically display greater variation between initial estimates and final outcomes because of the greater degree of difficulty of estimating these reserves. Classes of business where claims are typically reported relatively quickly after the claim event tend to display lower levels of volatility. This uncertainty varies between classes written by the Syndicate, but is typically highest for those classes where there are significant delays in the settlement of the final claims amount, more specifically from Liability and other long-tail direct and long-tailed reinsurance classes. In calculating the estimated cost of unpaid claims, the Syndicate uses a variety of estimation techniques, generally based upon statistical analyses of historical experience, which assumes that the development pattern of the current claims will be consistent with past experience. Allowance is made, however, for changes or uncertainties which create distortion in the underlying statistics or which might cause the cost of unsettled claims to increase or reduce when compared with the cost of previously settled claims including:

- changes in syndicate processes which might accelerate or slow down the development and/or recording of paid or incurred claims compared with the statistics from previous periods;
- changes in the legal environment;
- the effects of inflation;
- changes in the mix of business;
- changes in underlying terms and conditions;
- the impact of large losses; and
- movements in industry benchmarks.

(CONTINUED)

4) SIGNIFICANT JUDGEMENTS AND ESTIMATES (CONTINUED)

In setting the provision for insurance liabilities, a best estimate is determined on an undiscounted basis. For areas of specific uncertainty, it may be necessary to include a loading as part of the reserve estimate, known as the Management Adjustment. At 31 December 2021, the carrying value of net claims IBNR is £314.4m (2020: £274.2m), and the Management Adjustment in excess of the best estimate of net reserves was £37.1m (2020: £31.4m). This level of Management Adjustment is considered appropriate in light of the current economic environment, loss exposure on opioids and other pharma losses, and the potential for second order COVID related losses.

Premium income

Written premiums include estimates of premiums due but not yet received or notified to the Syndicate, known as pipeline premium. The estimation of pipeline premium is based upon prior year experience and current year business volumes. The pipeline premium included within gross written premium is $\pounds 21.2m$ (2020: $\pounds 20.6m$); of that $\pounds 18.3m$ is unearned at 31 December 2021 (2020: $\pounds 18.3m$).

Fair values of financial instruments

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. The carrying value of these instruments is $\pounds 126.2m$ (2020: $\pounds 93.4m$). The Syndicate uses its judgement to select a variety of methods and makes assumptions that are mainly based on market conditions existing at the end of each reporting period.

5) SEGMENTAL INFORMATION

All business has been underwritten in the United Kingdom in the Lloyd's insurance market which has been treated as one geographical segment.

An analysis of the underwriting result before investment return is set out below:

All allarysis of the under writing	Gross	Gross	Gross	Gross	Reinsurance
	premiums	premiums	claims	operating	balance

(CONTINUED)

5) SEGMENTAL INFORMATION (CONTINUED)

Insurance risk concentrations

The Syndicate monitors and reports internally on insurance risk concentrations by reserving class that have similar risk profiles and durations. Reserving class is determined by factors such as the industry sector, insured event and insurance risk coverage offered by the insurance contract. The Syndicate considers that the information given in the segmental information tables is sufficient to understand the risk concentrations used.

On 30 December 2020, the Syndicate transferred all relevant policies (and related liabilities) underwritten by it for the years of account between 1997 and 2019 to Lloyd's Insurance Company S.A. ('Lloyd's Brussels'), in accordance with Part VII of the Financial Services and Markets Act 2000. On the same date, the Syndicate entered into a 100% Quota Share Reinsurance Agreement whereby Lloyd's Brussels reinsured all risks on the same policies back to the relevant open years of account of the Syndicate which wrote the transferring policies and/or inherited liabilities on transferring policies through Reinsurance to Close of earlier years of account.

Following the sanction of the scheme by the High Court on 25th November 2020, the scheme took effect on 30 December 2020 and the Syndicate transferred the impacted EEA policies and related liabilities to Lloyd's Brussels, together with cash of \$117.4m. On the same date, under the Reinsurance Agreement, Lloyd's Brussels reinsured the same risks back, together with an equal amount of cash of \$117.4m. The combined effect of the two transactions had no economic impact for the Syndicate, and accordingly there is no impact on the Syndicate's income statement or balance sheet.

Current year underwriting results for the transferred policies have been reported under the Inwards Reinsurance class of business, reflecting the new contractual arrangement with Lloyd's Brussels.

6) MOVEMENT IN PRIOR YEAR'S PROVISION FOR CLAIMS OUTSTANDING

The movement in prior year's provision for claims outstanding, net of reinsurance recoveries is a favourable development of $\pounds 6.1m$ (2020: favourable development of $\pounds 11.6m$); this is mainly comprised of releases of $\pounds 6.6m$ in respect of direct Third Party Liability business and releases of $\pounds 2.9m$ in respect of total Reinsurance business, partially offset by strengthening of $\pounds 3.7m$ in Other direct.

7) NET OPERATING EXPENSES

	2021	2020
	£'000	£'000
Acquisition costs – commissions and service company costs	71,186	56,300
Change in deferred acquisition costs	(7,329)	(5,355)
Administrative expenses	16,403	15,009
Reinsurers' commissions and profit participations	(3,581)	(2,331)
	76,679	63,623

Member's standard personal expenses are included within administrative expenses.

Total commissions for direct insurance business accounted for in the year amounted to £42.7m (2020: £46.7m).

(CONTINUED)

8)

7) NET OPERATING EXPENSES (CONTINUED)

Administrative expenses include:	2021 £'000	2020 £'000
Auditors' remuneration		
Audit services		
Fees payable to the Syndicate's auditors for the audit of Syndicate 1218	222	192
Non-audit services Fees payable to the Syndicate's auditor for other services:		
Other services pursuant to legislation - actuarial	140	132
Other services pursuant to legislation - Solvency II and other reporting required		
by Lloyd's Byelaws	86	75
	448	399
STAFF NUMBERS AND COSTS		
	2021	2020
	£'000	£'000
Wages and salaries	10,098	9,152
Social security costs	1,326	1,277
Other pension costs	1,148	948
Other staff related costs	2,296	1,785
	14,868	13,162

The average number of employees employed by the managing agency but working for the Syndicate during the year was as follows:

	2021 Number	2020 Number
Management	7	7
Underwriting	44	39
Claims	9	9
Information technology	5	3
Administration, finance and compliance	29	27
	94	85

9) EMOLUMENTS OF THE DIRECTORS OF NEWLINE UNDERWRITING MANAGEMENT LIMITED

The directors of Newline Underwriting Management Limited received the following aggregate remuneration charged to the Syndicate and included within net operating expenses:

	2021 £'000	2020 £'000
Emoluments	1,811	1,578
Contribution to pension scheme	12	11

Retirement benefits are accruing for three directors (2020: three) under money purchase schemes.

The active underwriter received the following remuneration charged to the Syndicate:

	2021 £'000	2020 £'000
Emoluments	313	287

There are no Key Management Personnel other than the directors above.

10) INVESTMENT RETURN

	2021 £'000	2020 £'000
Investment income (including realised gains and losses on investments)		
Interest income on financial assets at fair value through profit and loss	3,162	4,514
Dividend income	885	864
Other interest and similar income	1,407	1,318
Realised gains on realisation of investments	10,402	11,481
Realised losses on realisation of investments	(4,436)	(6,874)
	11,420	11,303
Total investment expenses and charges		
Investment management expenses, including charges	(1,710)	(2,300)
	(1,710)	(2,300)
Net unrealised gains / (losses)	19,963	(24,132)
Total investment return	29,673	(15,129)

All gains and losses are from investments designated as at fair value through profit and loss.

The above figures include a profit of £25.6m (2020: loss of £21.4m) arising from investment returns earned on cash, equities and bonds deposited by Newline Corporate Name Limited into Funds in Syndicate.

Derivative financial instruments

The Syndicate has entered into a number of forward currency contracts to mitigate the exchange rate risk of its foreign currency denominated assets and liabilities. At 31 December 2021, the outstanding contracts mature between 1 and 7 months of the year end. The Syndicate is committed to sell US\$282.6m, CAD\$91.9m, and AUD\$10.7m and to receive fixed Sterling, and to sell GBP5.3m, and receive fixed Euro amounts.

The forward currency contracts are measured at fair value, which is determined using valuation techniques that utilise observable inputs. The main assumptions used in valuing the derivatives are the forward contracted exchange rate and the rate at the valuation date.

The change in the fair value of the forward currency contract recognised in the profit and loss in the year was a loss of $\pounds 4.0m$ (2020: profit of $\pounds 5.5m$). The corresponding foreign exchange profit recognised in the profit and loss account relating to the hedged foreign currency assets and liabilities was $\pounds 4.2m$ (2020: loss of $\pounds 8.2m$).

13) OVERSEAS DEPOSITS

Overseas deposits of £64.6m (2020: £63.6m) comprise deposits which are lodged as a condition of conducting underwriting business in certain countries.

(CONTINUED)

14) DEFERRED ACQUISITION COSTS

All deferred acquisition costs relate to direct and indirect costs arising from the acquisition of insurance contracts. The reconciliation of opening and closing deferred acquisition costs is as follows:

	2021 £'000	2020 £'000
At 1 January	26,814	21,685
Expenses for the acquisition of insurance contracts Change in deferred acquisition costs	67,605 (60,276)	53,969 (48,614)
Foreign exchange	2,043	(226)
At 31 December	36,186	26,814

15) OTHER CREDITORS INCLUDING TAXATION AND SOCIAL SECURITY

	2021 £'000	2020 £'000
Derivative liabilities Other creditors	6,481 5,474	1,068 4,856
	11,955	5,924

16) FAIR VALUE HIERARCHY

Determination of fair value

The table below reports on the hierarchy that reflects the significance of the inputs in determining the fair value of the financial assets. No liabilities, other than derivatives, were measured at fair value at 31 December 2021 or 31 December 2020.

Level 1

The fair value is based on the unadjusted quoted price in an active market, for identical assets or liabilities that the Syndicate can access at the measurement date.

Level 2

Inputs to level 2 fair values are inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3

Level 3 financial instruments are financial assets and liabilities for which the values are based on prices or valuation techniques that require inputs that are both unobservable, and significant, to the fair value measurement.

During the year ended 31 December 2021, the Syndicate held £126.2m (2020: £93.4m) of financial instruments that are classified as Level 3. Financial instruments classified as Level 3 include assets invested in common stock, preferred stocks, limited partnerships fixed income securities and loans to the Society of Lloyd's.

Limited partnerships are valued based on the net asset values received from the general partners. These limited partnerships invest in securities that trade in active markets, and as a result, their net asset values reflect their fair values. The unobservable inputs in valuing limited partnerships include inputs such as time lags in receiving distributions by the general partners.

(CONTINUED)

16) FAIR VALUE HIERARCHY (CONTINUED)

Common stocks are also valued utilising observable price to book multiples of peer companies and applying such to the most recently available book value per share.

The Syndicate uses a market approach, based on quoted prices and other information from independent pricing sources, to determine fair values for its fixed income financial instruments, adjusted for a risk premium for credit risk.

17) FINANCIAL RISK MANAGEMENT

The Syndicate is exposed to a range of financial risks. The key financial risk is that the proceeds of sale from financial assets are insufficient to fund the obligations arising from insurance policies and investment contracts as they fall due. The most important components of this financial risk are market risk (including interest rate risk, price risk and currency risk), credit risk and liquidity risk.

The process of risk acceptance and risk management is addressed through a framework of policies, procedures and internal controls as set out in the Risk Management Framework. This ensures that all risks are identified, recorded, assessed and taken into account when determining the Syndicate's Solvency Capital Requirement ("SCR") using the Internal Model. The control environment operating around these key risks is regularly reviewed to ensure that controls are operating effectively.

All key policies are approved by the Board of the managing agent and the framework is subject to ongoing review by management, Risk Management and Internal Audit as part of the ORSA process. An ORSA report is presented to the Board on at least a quarterly basis. The ORSA report sets out the risk profile and key risk indicators of the Syndicate, together with the resulting impact on the SCR, and confirmation that sufficient own and ancillary funds are in place.

The following table reconciles the balance sheet to the categories used in the asset / liability management framework.

Market risks

Interest rate risk

Interest rate risk arises primarily from holding investments in fixed interest securities. In addition, to the extent that claims inflation is correlated to interest rates, liabilities to policyholders are exposed to interest rate risk. The Syndicate monitors interest rate risk by modelling the impact of changes in interest rates (+/-100 bps, +/-200 bps) on the values of the fixed interest securities and liabilities. The Investment Committee monitors the sensitivity of the investment portfolio to movements in current interest rates. Holding a proportion of the investment portfolio in cash and cash equivalents also helps to mitigate interest rate risk.

The impact of a change in interest rates of $\pm 0.5\%$ on profit and net assets for interest bearing securities held at the reporting date is shown in the following table:

		2021 £'000	2020 £'000
Investments - Debt securities and other fixed income securities	+0.5%	(241) 246	(979) 1,008

(CONTINUED)

17) FINANCIAL RISK MANAGEMENT (CONTINUED)

Price risk

Price risk is the risk that changes in equity market prices will impact upon the fair value of financial instruments held by the Syndicate, whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded on the market.

The impact of a change in equity values of \pm 5% on profit and net assets for investments held at the reporting date is shown in the following table:

		2021 £'000	2020 £'000
Investments – equity and related investments	+5%	12,047	10,360
	-5%	(12,047)	(10,360)

Currency risk

Currency risk is the risk of loss arising from adverse exchange rate movements in unhedged foreign exchange exposures. The Syndicate writes business internationally, and so is exposed to foreign exchange risk from various activities conducted in the normal course of business. The Syndicate monitors currency exposure, and through the Investment Committee, mitigates this risk by appropriately matching significant foreign currency denominated liabilities with assets denominated in the same currency, the purchase or sale of the relevant currencies, and forward exchange contracts. The table below sets out the significant currency exposures of the Syndicate.

Credit risk

Credit risk is the risk of loss if another party fails to perform its obligations or fails to perform them in a timely fashion. Key areas where the Syndicate is exposed to credit risk are:

- reinsurers' share of insurance liabilities;
- amounts due from reinsurers in respect of claims already paid;
- amounts due from insurance contract holders and intermediaries; and
- amounts due from investment counterparties.

The Syndicate places limits on its exposure to a single counterparty or group of counterparties. Reinsurance is used to manage underwriting and reserving risk. This does not, however, discharge the Syndicate's liability as primary insurer.

If a reinsurer fails to pay a claim, the Syndicate remains liable for the payment to the policyholder. The creditworthiness of reinsurers is considered on an annual basis by reviewing their financial strength prior to finalisation of any contract. In addition, the recent payment history of reinsurers is used to update the reinsurance purchasing strategy.

Credit risk (continued)

ii) Credit rating of financial assets

The following tables provide information regarding assets bearing credit risk that are neither overdue nor impaired, based on Standard and Poor's counterparty credit ratings. These ratings for assets in respect of reinsurers' share of claims outstanding relate to balances accumulated over a number of years and so will not necessarily align with the rating allocations for current reinsurance programs. The credit risk relating to investments is monitored and assessed within an agreed risk appetite. The maximum exposure to credit risk loss at the end of the reporting year is the carrying amount of the investments on the balance sheet as they are measured at fair value.

	2021	2020

17) FINANCIAL RISK MANAGEMENT (CONTINUED)

Liquidity risk

Liquidity risk is the risk that sufficient financial resources are not maintained to meet liabilities as they fall due. The Investment Committee, a sub-committee of the Board, approves annually agreed limits on the minimum proportion of funds available to meet such calls, based on experience of claims settlement history and contemporaneous information. Management regularly review available funds to mitigate any cash flow risk.

A maturity analysis of the estimated gross claims outstanding liability based on the remaining term to payment at the reporting date, and the investments that have a fixed term is provided below.

18) INSURANCE RISK MANAGEMENT

Insurance risk

Insurance risk is defined as the risk of loss arising from the inherent uncertainties as to the occurrence, amount and timing of insurance liabilities. Insurance risk is sub-divided into underwriting, reinsurance and reserving risks:

Underwriting risk

Underwriting risk arises from fluctuations in the frequency and severity of financial losses incurred as a result of acceptance of insurance policies. The Syndicate manages underwriting risk by agreeing its appetite for these risks annually through the business plan, which sets out targets for volumes, pricing, line sizes and retention by class of business and through the purchase of reinsurance. Performance is monitored against the business plan on a regular basis. The Syndicate uses modelling software to model maximum probable losses from its exposure to catastrophes and large losses as part of its Realistic Disaster Scenario process.

(CONTINUED)

18) INSURANCE RISK MANAGEMENT (CONTINUED)

A proportion of the Syndicate's business is written through delegated authorities. A delegated authority management group monitors coverholder performance, carries out due diligence on new and existing coverholders and manages regulatory requirements. The Syndicate has identified the areas of potential concentration of insurance exposure and monitors this and purchases reinsurance to protect against its gross effect.

Reinsurance risk

Reinsurance risk arises from the reinsurance purchased to protect the gross loss not responding as intended due to a mismatch with gross losses, poorly worded contracts, reinsurer counterparty risk or exhaustion of reinsurance limits. The primary purpose for our purchase of reinsurance cover is to reduce volatility associated with severe losses and systemic losses.

Reinsurance arrangements include excess of loss cover, and it is used to protect capital against underwriting risk volatility. Reinsurance creditworthiness is overseen by the reinsurance management group in placing cover.

Reserving risk

Reserving risk arises from claims reserves held on the balance sheet being understated or overstated. Reserves may be under or overstated due to the inherent uncertainty of knowing the ultimate timing and quantum of liabilities incurred.

Claims provisions represent estimates, based on the internal reserving actuary's statistical projections. The Syndicate estimates the ultimate settlement and administration costs of the claims incurred. Claims estimates are subject to independent review by the external actuary on an annual basis. The external actuary signs an annual Statement of Actuarial Opinion on the sufficiency of the Syndicate's reserves.

Assumptions

In order to determine the ultimate cost of claims, the Syndicate uses statistical projections on the claims to be included within each reserving class and for each underwriting year. The projections use a number of methods, with chain-ladder and Bornhuetter-Ferguson being the most extensively used on both gross and ceded information.

The basic chain-ladder method uses cumulative data to derive a set of development factors based on historical information, and are most appropriate for those classes and years of account that have reached a relatively stable development pattern.

The Bornhuetter-Ferguson method is a standard actuarial method used to project a set of underwriting year claims ultimates, and is usually used for more recent underwriting years where there is little claims development. The Bornhuetter-Ferguson method weights two independent estimates of the ultimates, the estimate calculated from the basic chain-ladder method and another independent estimate of the claims ultimate.

There has been no change in the methodologies used in determining the ultimate cost of claims in the year.

Development

The following table shows the development of gross and net undiscounted ultimate claims for the ten most recent underwriting years of account. All information presented in the table is reported at the current year-end rates of exchange.

(CONTINUED)

18) INSURANCE RISK MANAGEMENT (CONTINUED)

Conditions and trends that have affected the development of the liabilities in the past may not occur in the future. Accordingly, conclusions about future results may not necessarily be derived from the information presented in the table below.

18) INSURANCE RISK MANAGEMENT (CONTINUED)

Sensitivity

The following table presents the sensitivity of the value of net insurance liabilities disclosed in this note to movements in the assumptions used in the estimation of insurance liabilities. The sensitivity impact on the result for the year and net assets is determined by applying the factors listed below separately to net claims reserves excluding future claims handling costs, and future claims handling costs.

		Change in no reserv		Change in claims handling expenses	
Impact on the result of £'000	the year and net	assets +1%	+10%	-10%	
	2021	(4,354)	-1% 4.354	(1,222)	1,222
	2021	(4,554)	7,007	(1,222)	1,222
	2020	(3,981)	3,981	(1,156)	1,156

19) RELATED PARTIES

Newline Underwriting Management Limited ("NUML"), a company incorporated in England, is the managing agent for Syndicate 1218. Newline Corporate Name Limited ("NCNL"), a company incorporated in England, is the sole member of Syndicate 1218. NUML and NCNL are wholly owned subsidiaries of Newline Holdings UK Limited ("NHUKL"), a wholly owned subsidiary of Odyssey Reinsurance Company ("ORC"), part of the Odyssey Group. The ultimate parent is Fairfax Financial Holdings Limited ("Fairfax"), a company incorporated in Canada, where the results of the Syndicate are consolidated. Group accounts for Fairfax are available from the company secretary of NUML, Corn Exchange, 55 Mark Lane, London, EC3R 7NE.

During the calendar year 2021, NUML recharged expenses amounting to £19.1m (2020: £19.1m) to the Syndicate.

Newline Underwriting Limited, Newline Asia Services PTE Limited, Newline Australia Insurance Pty Limited, Newline Malaysia Limited and Newline Canada Insurance Limited are wholly owned subsidiaries of NHUKL and operate as insurance agents for the Syndicate. Newline Underwriting Limited specialises in smaller value employers' and public liability and professional indemnity risks, Newline Asia Services PTE Limited and Newline Malaysia Limited specialise in casualty insurance business in Singapore and other Asian territories, Newline Australia Insurance Pty Limited specialises in casualty insurance business in Australia, and Newline Canada Insurance Limited specialises in casualty insurance business in Canada. No commission, charges or fees are received by NHUKL from the activities of these service companies.

Hamblin Watsa Investment Counsel Ltd. ("HWIC"), a Fairfax subsidiary, provides investment management services to the Syndicate. Fees are charged to NUML and recharged to the Syndicate. During 2021, investment management charges totalled £1.2m (2020: £1.7m).

The Syndicate holds reinsurance contracts with Riverstone Insurance Limited, which was a subsidiary of Fairfax until August 2021. Reinsurance premiums of $\pounds 27,000$ (2020: $\pounds 11,000$ return premium) have been ceded to Riverstone Insurance Limited in respect of the Syndicates core excess of loss program, and are placed at market rates and terms. At the year end, $\pounds 113,000$ (2020: $\pounds 11,000$ due) was due on recoveries.

The Syndicate holds reinsurance contracts with Allied World Assurance Company, Limited ("AWAC") a subsidiary of Fairfax. Reinsurance premiums of £4.0m (2020: £3.1m) have been ceded to AWAC in respect of the Syndicates core excess of loss program. At the year end, £nil (2020: £nil) was due on recoveries.

19) RELATED PARTIES (CONTINUED)

During 2021, the London and Paris branches of ORC have placed inwards treaty business with the Syndicate. The Syndicate has also placed outwards business with ORC through quota share agreements in respect of this inwards business written. In 2021, ORC London and Paris branches placed £1.4m (2020: £0.9m) of gross written premiums with Syndicate 1218, on an arm's length basis. Reinsurance premiums of £0.8m (2020: £0.9m) have been ceded to ORC in the year. At the end of the year, £0.1m was due from (2020: £0.1m due to) ORC.

Brit Limited ("Brit") which provides 100% of the capacity for Lloyd's Syndicate 2987 is a subsidiary of Fairfax. Reinsurance return premiums of \pounds 51,000 (2020: \pounds 69,000 return premiums) have been assumed from Brit in the year. At the year end, \pounds 42,000 (2020: \pounds 378,000) was due on recoveries from Syndicate 2987.

20) CAPITAL

Capital framework at Lloyd's

The Society of Lloyd's (Lloyd's) is a regulated undertaking and subject to supervision by the Prudential Regulation Authority (PRA) under the Financial Services and Markets Act 2000 and in accordance with the Solvency II Directive.

Within this supervisory framework, Lloyd's applies capital requirements at member level and centrally to ensure that Lloyd's complies with Solvency II, and beyond that to meet its own financial strength, licence and ratings objectives.

Although, as described below, Lloyd's capital setting processes use a capital requirement set at syndicate level as a starting point, the requirement to meet Solvency II and Lloyd's capital requirements apply at overall and member level, not at syndicate level. Accordingly, the capital requirement in respect of Syndicate 1218 is not disclosed in these annual report and accounts.

Lloyd's capital setting process

In order to meet Lloyd's requirements, each syndicate is required to calculate its Solvency Capital Requirement ("SCR") for the prospective underwriting year. This amount must be sufficient to cover a 1 in 200 year loss, reflecting uncertainty in the ultimate run-off of underwriting liabilities (SCR 'to ultimate'). The syndicate must also calculate its SCR at the same confidence level but reflecting uncertainty over a one year time horizon (one year SCR) for Lloyd's to use in meeting Solvency II requirements. The SCRs of each syndicate are subject to review by Lloyd's and approval by the Lloyd's Capital and Planning Group. Over and above this, Lloyd's applies a capital uplift to the member's capital requirement, to derive the Economic Capital Assessment ("ECA"). The purpose of this uplift, which is a Lloyd's not a Solvency II requirement, is to meet Lloyd's financial strength, licence and ratings objectives. The capital uplift applied for 2021 was 35% of the member's SCR 'to ultimate'.

Provision of capital by members

Each member may provide capital to meet its ECA through assets held in trust by Lloyd's specifically for that member (funds at Lloyd's "FaL"), assets held within and managed within a syndicate (funds in syndicate "FIS") or as member's balances.

(CONTINUED)

20) CAPITAL (CONTINUED)

Capital Management

The Board of NUML has in place policies and procedures for managing compliance with regulatory capital requirements and its own capital management objective. This objective is to balance risk and return while maintaining economic and regulatory capital in accordance with risk appetite. The Board of NUML has no appetite for the Syndicate failing to maintain sufficient capital. To this end, NUML recalculates its ECA routinely at different points during the annual business cycle, and may also recalculate the ECA on an ad-hoc basis if the risk management framework identifies significant changes to the risk profile, or as required by the NUML Board. In order to ensure that regulatory capital is maintained above the ECA, a minimum level of free assets above the ECA is set and reviewed by the NUML Board periodically.

The Syndicate manages its capital in accordance with its Capital Management Policy, and has embedded in its asset liability management framework the necessary tests to ensure continuous and full compliance of its capital requirements.

Funds at Lloyd's

Capital has been provided in the form of first party Funds at Lloyd's by NCNL, and third party Funds at Lloyd's by Odyssey Reinsurance Company. On 25th November 2020, £25.0m was deposited as third party funds at Lloyds. As at 31st December 2021, the fair value of the third party funds at Lloyd's was £24.9m (2020: £24.6m).

The corporate member of the Syndicate has taken advantage of the ability of fully aligned syndicates to place first party FaL into syndicate trust fund assets as FIS. As at 31 December 2021, £261.5m (2020: £245.0m) has been deposited as FIS and is reported on the balance sheet within financial investments, cash at bank and in hand and accrued income. For regulatory reporting, these assets are maintained within a separate portfolio.

During December 2021, surplus capital of £10.0m was released from FIS and returned to NCNL.

21) EVENTS AFTER THE BALANCE SHEET DATE

Events in Ukraine

As events in Ukraine are evolving with the human and economic consequences that follow, both locally and internationally, Newline has given consideration, based on the current position of this fast moving situation, to the possible financial impact on its insurance and investment portfolios.

Newline does not insure any of the following classes: property, war or terrorism, political risk, contract frustration, trade credit or surety, energy, hull, personal accident, A&H or medical expenses. Newline derives minimal premium income from Ukraine and Russia either directly or indirectly. Newline may face some indirect exposure in its Financial Lines book should third party claims be made against financial institutions or Directors and Officers for losses sustained as a result of the wider economic consequence of the international community's response to the events in Ukraine. Newline has written a small number of Cyber risks, from which it may also face some exposure.

The events unfolding in Ukraine have caused a degree of volatility in equity and bond markets around the world to which parts of the Syndicate's investment portfolio have exposure.
