

LLOYD'S

Blueprint Two Q&A Session

10 July 2023

LLOYD'S

Recap from 19 June session

Matt Unsworth
Market Transformation Director, Lloyd's

On track to deliver Blueprint Two through 2024

Strong progress made in the first half of 2023

On track to deliver to the Blueprint Two roadmap

Working sessions will continue with updates in September and December

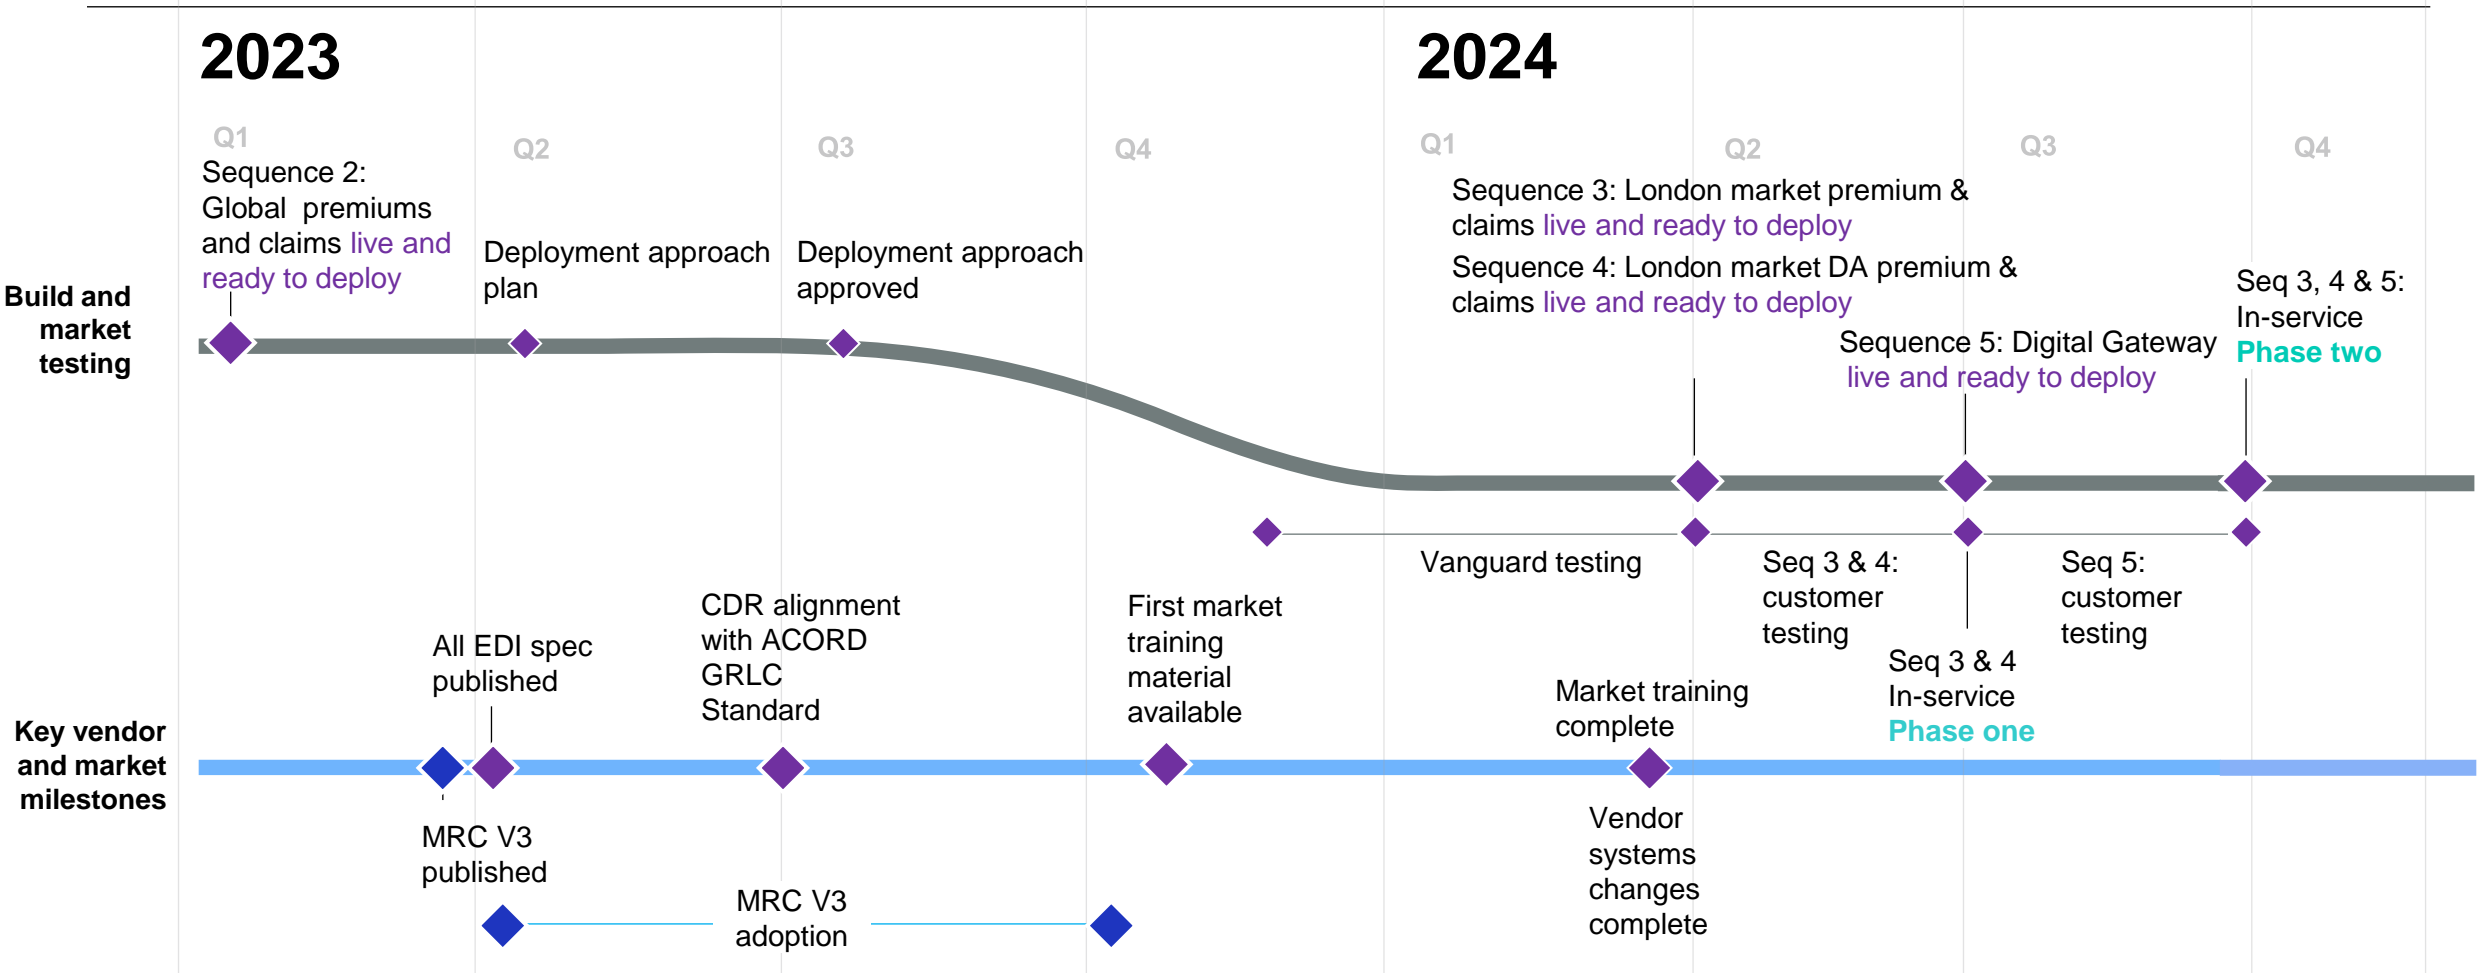

Technology aimed to go live in the Joint Ventures from June 2024 to de-risk delivery

Phase 1 digital services will be ready to test from January 2024 and go live in June

Adoption focused in H2 2023 and 2024

- Sequences 3 and 4 have been brought forward by 3 months to June 2024 for phase one
- Full digital functionality will be available from September 2024

LLOYD'S

Deployment

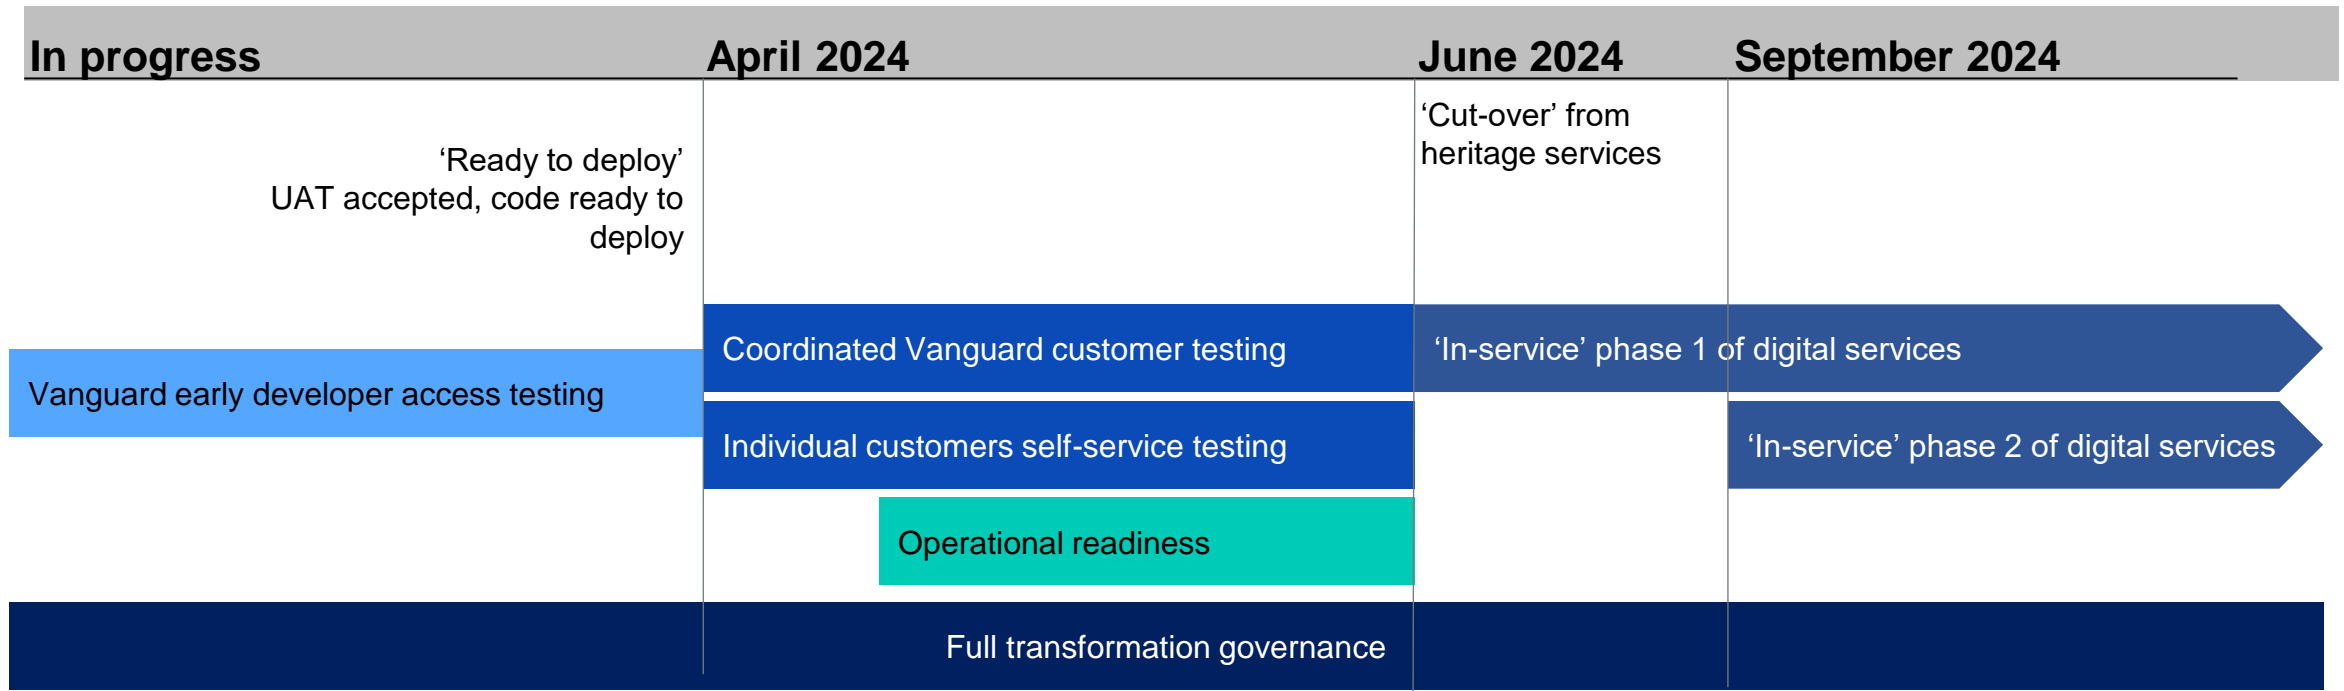

Alvaro Montenegro
Product Technology Director,
London Market Joint Ventures

Ruan Ebersohn
Program Director,
DXC

Phased deployment of digital services

Benefits of the deployment approach

Speed

- Get benefits of digital platform sooner
- No end of day batches
- Reduced risk
- Simplified integration for transition

Visibility

- Customer testing starts in 2023
- Gives market confidence in new platforms

Flexibility

- Can move from transitional to digital at own pace
- Continuous delivery

Resilient

- Cloud native
- Secure
- Less market impact

June 2024: phase one of the digital journey

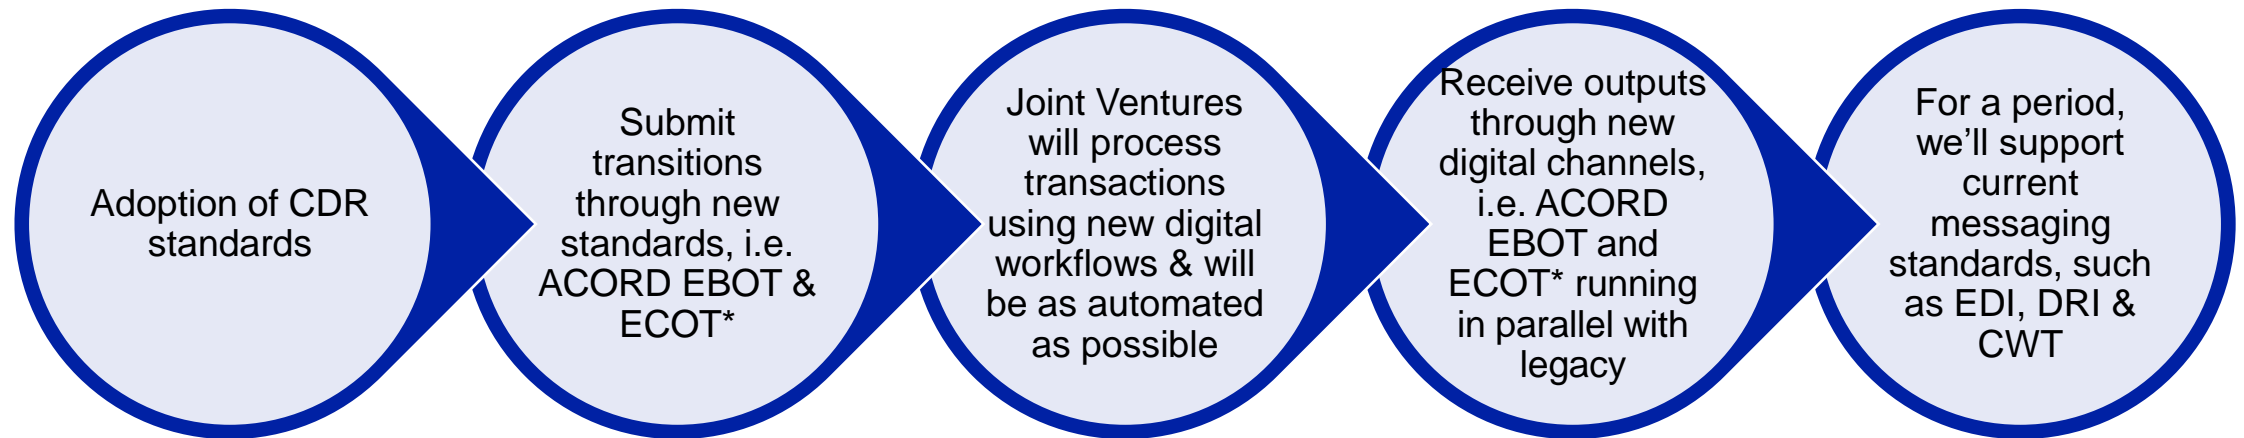

The set of services that utilises the new digital processing platform with **minimum impact** to brokers and carriers

*Will need to use new ASG Gateway

September 2024: phase two of the digital journey

Introduced alongside phase one, the **complete set of services** that fully utilises the new digital processing platform, enabling data-first interactions between broker and carrier that supports risk, premium and claims agreements for the Lloyd's, company and global markets

*currently 2016.10 standards

LLOYD'S

Adoption

Matt Unsworth
Market Transformation Director, Lloyd's

Bob Verber
Commercial Director, London Market Joint Ventures

What will phase one digital look like?

June 2024: phase one digital services live for all market participants

Significant programme milestone achieved: digital record created in the JV

Interface with new central digital services via newly built portals

Adapted workflows on the new digital platform for sign & settlement transactions

Messaging, outputs & notifications with very limited changes

The model office will support your adoption journey in September 2023

Phase one digital: technology, process, people

Technology

- Review the EDI specs and integrate with the ASG gateway
- Understand impact on your internal IT architecture
- Engage with your vendor(s) and discuss roadmap and deployment

Process

- Account Enquiry, ECF, IPC, CASABLANCA, PbS Query Portal, CLASS will be replaced with new JV digital portal
- Understand which middle and back office processes are impacted
- Redesign and update SOPs, guided production into production

People

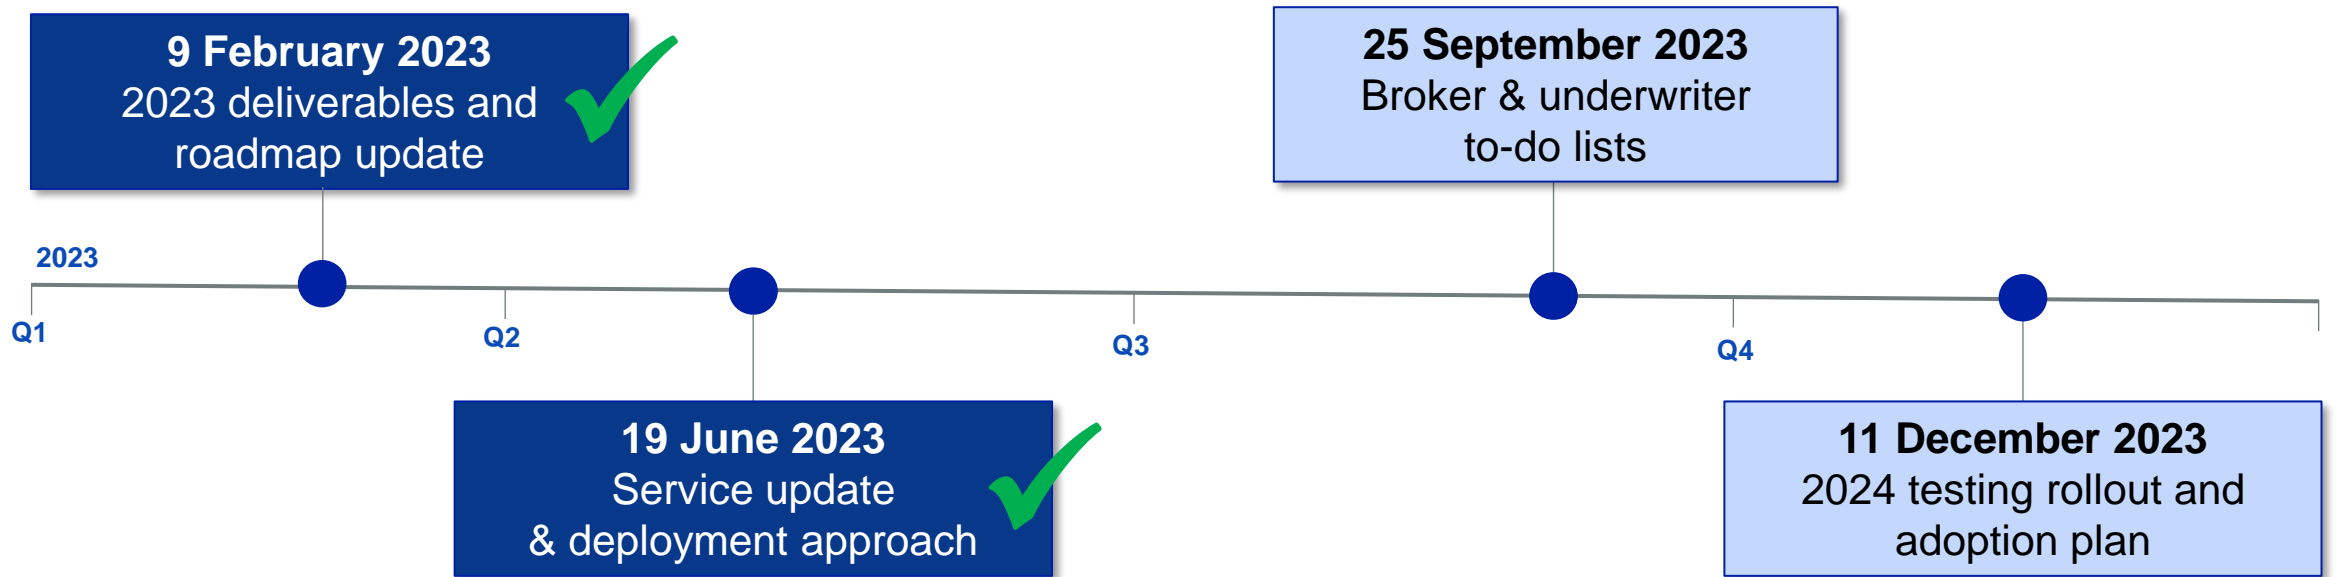

- Change impact assessment
- Plan and execute training to process changes
- Support for your adoption journey, including training, tools and expert teams

Testing, onboarding and training
